

## BOARD OF DIRECTORS

Meredith Matthews, City of Arcata,  
Elaine Hogan, City of Blue Lake, **Vice Chair**  
Leslie Castellano, City of Eureka, **Chair**  
Robin Smith, City of Ferndale  
Stephen Madrone, County of Humboldt  
Frank Wilson, City of Rio Dell,

## Meeting Agenda

Thursday, October 13, 2022 at 5:30 PM

Eureka City Council Chambers – **PUBLIC ADVISORY: IN RESPONSE TO COVID-19, THE EUREKA CITY COUNCIL IS NOT AVAILABLE OR OPEN TO THE PUBLIC**

### COVID -19 NOTICE

*Consistent with Executive Orders N-25-20 and N-29-20 from the Executive Department of the State of California and the Humboldt County Public Health's Officer's March 30, 2020 "Shelter In Place Order", HWMA's regular meeting location at Eureka City Hall will not be physically open or available to the public. HWMA Board members and staff will be teleconferencing into the meeting via Zoom Video.*

### How to Observe the Meeting

To maximize public safety while still maintaining transparency and public access, members of the public can observe the meeting on Access Humboldt's YouTube Channel at [www.youtube.com/c/accesshumboldt/live](http://www.youtube.com/c/accesshumboldt/live) Members of the public may also join the Zoom meeting at <https://us06web.zoom.us/j/87272840425> .

### How to Submit Public Comment

Members of the public may provide public comment before and during the meeting by sending comments by email to [board@hwma.net](mailto:board@hwma.net). Such email comments must identify the agenda item number in the subject line of the email. The comments will be read into the records, with a maximum allowance of three minutes (approximately 500 words) per individual comment, subject to the Chair's discretion. If a comment is received after the agenda item is heard, but before the close of the meeting, the comment will still be included as part of the written record of the meeting, but will not be read into the record during the meeting.

*Copies Available: Copies of the agenda materials are available electronically via the internet at [www.hwma.net](http://www.hwma.net), through individual HWMA member agencies or by calling HWMA at 707-268-8680. There may be a charge for copies.*

*Accessibility: Accommodations and access to HWMA meetings for people with special needs must be requested in advance of the meeting at 707 268-8680 or emailing [board@hwma.net](mailto:board@hwma.net) ~~-(The Eureka City Council Chamber room is ADA accessible.) This agenda and other materials are available in alternative formats upon request.~~*

#### 1. Call to Order and Roll Call at 5:30 PM

#### 2. Consent Calendar

All matters listed under the Consent Calendar are considered to be routine by the HWMA Board and will be enacted upon by one motion, unless a specific request for review is made by a Board Member or a member of the public. The Consent Calendar will not be read. There will be no separate discussion of these items unless pulled for discussion.

- a. Approve Minutes from the September 8, 2022 HWMA Board of Directors Meeting

- b. Approve Resolution 2023-04 “A Resolution of the Humboldt Waste Management Authority Authorizing Remote Teleconference Meetings of the Legislative Bodies of the Humboldt Waste Management Authority Pursuant to Brown Act Provisions Due to A State of Emergency”
- c. Approve Resolution Number 2023-05 Adopting a Conflict of Interest Code for HWMA in Compliance with California Government Code Section 87300
- d. Approve California Integrated Waste Management AB 939 Service Agreement with the County of Humboldt.
- e. Approve California Integrated Waste Management AB 939 Service Agreement with the City of Rio Dell.
- f. Approve Amendment No. 2 to extend Services Agreement with Nancy Diamond for Legal Services.

### **3. Oral and Written Communications**

This time is provided for people to address the Board or to submit written communications concerning matters not on this agenda. Board Members may respond to statements, but any request that requires Board action will be referred to staff for review. Reasonable time limits may be imposed on both the total amount of time allocated for this item, and on the time permitted to each individual speaker. Such time allotment or portion thereof shall not be transferred to other speakers.

- 4. Board to Affirm Approval of the Fiscal Year 2022/23 Budget and Approve Resolution 2023-06 “To Ratify Resolution 2023-01 - A Resolution Of The Humboldt Waste Management Authority For The Amendment Of Integrated Waste Management Fees”**
- 5. Approve Golder Associates Project Addendum Dated July 25, 2022 for Fiscal Year 2022/23**
- 6. Receive 1) Humboldt County Edible Food Recovery Study and 2) SB 1383: Compliance Road Map Plan prepared by Edgar & Associates; Take Direction as Appropriate**
- 7. Consider Multi-Step Process For SB 1383 Organics Processing Regionalization Development**
- 8. Standing Item: Recycling Update**
- 9. Standing Item: Board Member Reports**
- 10. Standing Item: Executive Director’s Report**
- 11. Adjourn**

## BOARD OF DIRECTORS

Meredith Matthews, City of Arcata,  
Elaine Hogan, City of Blue Lake, **Vice Chair**  
Leslie Castellano, City of Eureka, **Chair**  
Robin Smith, City of Ferndale  
Frank Wilson, City of Rio Dell  
Steve Madrone, County of Humboldt

## Minutes

**Thursday, September 8, 2022 at 5:30 PM**  
**Zoom Video Conference Meeting**

Present: Meredith Matthews, Frank Wilson, Leslie Castellano, Robin Smith, Steve Madrone, Elaine Hogan  
Absent: None  
Staff: Jill Duffy, Eric Keller-Heckman, Loral Uber, Tony Heacock  
Legal Counsel: Nancy Diamond

### 1. Call to Order and Roll Call at 5:30 PM

**Chairperson Castellano** called the meeting to order at 5:30 PM. A quorum was present and acting.

### 2. Board Report

Director Castellano reported that the board took action to terminate employment of the previous Executive Director, Peter Fuller, without cause, and to appoint Eric Keller-Heckman as interim Executive Director.

### 3. Consent Calendar

- a. Approve Minutes from the July 14, 2022 HWMA Board of Directors Meeting
- b. Approve Minutes from the July 18, 2022 HWMA Board of Directors Special Meeting
- c. Approve Minutes from the August 11, 2022 HWMA Board of Directors Special Meeting
- d. Approve Resolution 2023-03 "A Resolution Of The Humboldt Waste Management Authority Re-Authorizing Remote Teleconference Meetings Of The Legislative Bodies Of Humboldt Waste Management Authority For the Period of July 11 through September 8, 2022 Pursuant To Brown Act Provisions Due To A State Of Emergency."
- e. Approve Amendment Number 5 to Agreement with Recology Eel River to extend the existing Loading Agreement for 24-months, ending July 31, 2024.
- f. Approve Amendment Number 2 to Agreement with Humboldt Sanitation to extend the existing Loading Agreement to July 31, 2024.

**Chairperson Castellano** requested Item d be pulled to correct dates.

**Motion:** **Director Matthews** moved and **Director Wilson** seconded the motion to approve Item d with corrected dates.  
**Action:** Approve the Motion as made by **Director Matthews** and seconded by **Director Wilson**  
**Ayes:** Unanimous  
**Noes:** None  
**Absent:** None

**Chairperson Castellano** opened the floor to public comment regarding the Consent Calendar. No comment was received.

**Chairperson Castellano** closed the floor to public comment.

**Motion:** **Director Wilson** moved and **Director Matthews** seconded the motion to approve the remaining Consent Calendar items.  
**Action:** Approve the Motion as made by **Director Wilson** and seconded by **Director Matthews**  
**Ayes:** Unanimous  
**Noes:** None  
**Absent:** None

#### 4. Oral and Written Communications

**Chairperson Castellano** opened the floor to public comment regarding items not on the agenda. Linda Wise spoke to the board about recent changes to commercial driver license requirements, which may create a commercial driver shortage in the county. Gary Penning informed the board that Dry Creek Landfill has been acquired by Waste Connections.

**Chairperson Castellano** closed the floor to public comment.

#### 5. Elect Authority Officers for Fiscal Year 2022/23

The board discussed members' availability and interest in serving as officers. Director Hogan told the board she will not be running for re-election.

**Chairperson Castellano** opened the floor for public comment. No public comment was received. **Chairperson Castellano** closed the floor to public comment.

**Motion:** **Director Wilson** moved and **Director Matthews** seconded the motion to continue with current officers for the remainder of the current fiscal year.  
**Action:** Approve the Motion as made by **Director Wilson** and seconded by **Director Matthews**  
**Ayes:** Unanimous  
**Noes:** None  
**Absent:** None

**Motion:** **Director Wilson** moved and **Director Matthews** seconded the motion to reconsider the previous motion.  
**Action:** Approve the Motion as made by **Director Wilson** and seconded by **Director Matthews**  
**Ayes:** Unanimous  
**Noes:** None  
**Absent:** None

**Motion:** **Director Wilson** moved and **Director Matthews** seconded the motion to continue with current officers for the remainder of the 2022, and fill any vacant positions in January 2023.  
**Action:** Approve the Motion as made by **Director Wilson** and seconded by **Director Matthews**  
**Ayes:** Unanimous  
**Noes:** None  
**Absent:** None

#### 6. Review and approve Board of Directors Calendar for Fiscal Year 2022/23

**Chairperson Castellano** opened the floor for public comment. No public comment was received.  
**Chairperson Castellano** closed the floor to public comment.

**Motion:** **Director Hogan** moved and **Director Wilson** seconded the motion to approve the Calendar for 2022/23 with no changes to meeting times, and affirm Eureka City Council Chambers as the Board's meeting place.  
**Action:** Approve the Motion as made by **Director Hogan** and seconded by **Director Wilson**  
**Ayes:** Unanimous  
**Noes:** None  
**Absent:** None

**7. Set a special joint meeting with HWMA Board of Directors and Humboldt County Local Task Force to Receive and Discuss HWMA's Compliance Plan Road Map: Organics Compliance Services and Edible Food Recovery Plan.**

**Interim Executive Director Keller-Heckman** briefly summarized the history and purpose of the meeting as it relates to SB 1383 compliance efforts. The board discussed availability of board members at proposed meeting times.

**Chairperson Castellano** opened the floor to public comment. Gary Penning asked if the meeting would be broadcast on zoom, and was informed it will be.  
**Chairperson Castellano** closed the floor to public comment.

**Motion:** **Director Hogan** moved and **Director Matthews** seconded the motion to hold the meeting on Thursday, September 29 from 3:30-5:30 PM  
**Action:** Approve the Motion as made by **Director Hogan** and seconded by **Director Matthews**  
**Ayes:** Unanimous  
**Noes:** None  
**Absent:** None

**8. Approve Retired Annuitant Employment Agreement with Interim Director of Operations Jill Duffy**

**Interim Executive Director Keller-Heckman** described the circumstances and rationale for bringing Jill Duffy on as Interim Director of Operations.

**Vice Chair Hogan** opened the floor to public comment. No comment was received.  
**Vice Chair Hogan** closed the floor to public comment.

**Motion:** **Director Matthews** moved and **Director Smith** seconded the motion to hold the meeting on Thursday, September 29 from 3:30-5:30 PM  
**Action:** Approve the Motion as made by **Director Matthews** and seconded by **Director Smith**  
**Ayes:** Unanimous  
**Noes:** None  
**Absent:** **Leslie Castellano**

**9. Receive information on green waste composting operations, approve resolution 2023-04 to amend the waste management fee.**

**Interim Executive Director Keller-Heckman** gave a presentation on recent operational difficulties at Mad River Hardwoods related to market conditions, storage capacity, and the regulatory considerations, which prompted Mad River Hardwoods to request a fee increase. He summarized staff recommendations and alternative options. The Board briefly discussed potential future developments in Humboldt County green waste processing and elements to consider for negotiating changes to the agreement.

**Wes Green** of Mad River Hardwoods thanked the board and described current operational plans to manage green waste until infrastructure at the West End Rd. facility can be improved.

**Vice Chair Hogan** opened the floor to public comment. Gary Penning expressed support for the Green's and willingness to assist.

**Vice Chair Hogan** closed the floor to public comment.

<b>Motion:</b>	<b>Director Wilson</b> moved and <b>Director Matthews</b> seconded the motion to accept staff recommendations.
<b>Action:</b>	Approve the Motion as made by <b>Director Wilson</b> and seconded by <b>Director Matthews</b>
<b>Ayes:</b>	Unanimous
<b>Noes:</b>	None
<b>Absent:</b>	<b>Leslie Castellano</b>

**10. Receive SB 1383 status update.**

**Interim Executive Director Keller-Heckman** gave a brief update on funding challenges and plans to re-evaluate SB 1383 compliance timeline.

**Vice Chair Hogan** opened the floor to public comment. No comment was received.

**Vice Chair Hogan** closed the floor to public comment.

**11. Authorize Chair to Submit Letter to the County of Humboldt's Comprehensive Economic Development Strategy Plan Supporting the Establishment Regional Organics Processing Facility**

**Interim Operations Director Duffy** spoke about the importance of expressing support for organics diversion programs as part of the County's economic development strategy plan.

<b>Motion:</b>	<b>Director Matthews</b> moved and <b>Director Smith</b> seconded the motion to authorize the Chair to submit a letter.
<b>Action:</b>	Approve the Motion as made by <b>Director Matthews</b> and seconded by <b>Director Smith</b>
<b>Ayes:</b>	Unanimous
<b>Noes:</b>	None
<b>Absent:</b>	<b>Leslie Castellano, Steve Madrone</b>

## **12. Standing Item: Recycling Update**

**Interim Executive Director Keller-Heckman** briefly updated the board on progress relocating the Eureka Recycling Center and operational changes since closure.

**Vice Chair Hogan** opened the floor to public comment. No comment was received.  
**Vice Chair Hogan** closed the floor to public comment.

## **13. Standing Item: Board Member Reports**

No board members had items to report.

## **14. Standing Item: Executive Director's Report**

**Interim Executive Director Keller Heckman** gave a brief update on AB 939 and mattress recycling programs.

**Vice Chair Hogan** opened the floor to public comment. No comment was received.  
**Vice Chair Hogan** closed the floor to public comment.

## **15. Closed Session:** It is the intention of the Board of Directors to meet in closed session for one item: Public Employee Performance Evaluation – Interim Executive Director, pursuant to Government Code §54957.

**Vice Chair Hogan** opened the floor to public comment regarding closed session. No comment was received.

**Vice Chair Hogan** adjourned the meeting to closed session at 6:50 p.m.

**Vice Chair Hogan** called the meeting to order from closed session at 7:34 p.m.

**No Report Out** from closed session was required.

## **16. Adjourn**

**Vice Chair Hogan** adjourned the meeting at 7:35pm following closed session.

## *Staff Report*

**DATE:** August 27, 2022 For Board Meeting: September 8, 2022

**FROM:** Eric Keller-Heckman, Executive Director

**SUBJECT:** Item 2b)  
Approve Resolution 2023-04 “A Resolution of the Humboldt Waste Management Authority Authorizing Remote Teleconference Meetings of the Legislative Bodies of the Humboldt Waste Management Authority Pursuant to Brown Act Provisions Due to A State of Emergency”

**RECOMMENDED ACTION:** Voice vote.  
Approve Resolution 2023-04 “A Resolution Of The Humboldt Waste Management Authority Re-Authorizing Remote Teleconference Meetings Of The Legislative Bodies Of Humboldt Waste Management Authority For the Period of July 11 through September 8, 2022 Pursuant To Brown Act Provisions Due To A State Of Emergency.”

### **DISCUSSION:**

Staff recommends the Board adopt Resolution 2023-04 “A Resolution Of The Humboldt Waste Management Authority Authorizing Remote Teleconference Meetings Of The Legislative Bodies Of Humboldt Waste Management Authority Pursuant To Brown Act Provisions Due To A State Of Emergency”, which provides necessary findings that, as a result of the continuing COVID-19 pandemic state of emergency, that meeting in person would present imminent risks to the health and safety of participants.

On September 16 Governor Newsom signed AB 361 into law. The bill revises the Ralph M. Brown Act by continuing the Governor’s Executive Order N-29-20’s teleconference rule waivers under certain conditions through January 1, 2024.

AB 361 allows the HWMA Board of Directors, its subcommittees, the Executive Advisory Committee to meet virtually provided that:

1. A state-proclaimed state of emergency exists, and
2. State or local public health officials impose or recommend social distancing measures.

The Board may also find that, as a result of the proclaimed emergency, meeting in-person presents an imminent threat to the health or safety of attendees.

At their meeting of November 11, 2021, the HWMA Board of Directors approved the first proclaimed emergency through the approval of Resolution 2022-03. Attached for the Board’s consideration is Resolution 2023-04 which re-states necessary findings that meeting in-person during the current state of emergency would present imminent risks to the health or safety of attendees. This resolution would permit meetings under the provisions of AB 361 to be re-authorized for a period of 30 days. After 30

days, the Board would need to renew its resolution, consistent with the requirements of AB 361, if it desires to continue meeting under the modified Brown Act requirements or allow the resolution to lapse.

## **BACKGROUND**

On June 11, 2021, Governor Newsom issued Executive Order N-08-21, which rescinded his prior Executive Order N-29-20 and which waived, through September 30, 2021, certain provisions of the Brown Act relating to teleconferences/remote meetings by local agency legislative bodies. The Executive Order waived, among other things, the provisions of the Brown Act that otherwise required the physical presence of members of local agency legislative bodies or other personnel in a particular location as a condition of participation or as a quorum for a public meeting.

If these waivers set forth in the Executive Order were to have fully sunset on October 1, 2021, and absent any further State action, local agency legislative bodies subject to the Brown Act would be required to fully comply with the Brown Act's meeting requirements as they existed prior to March 2020, including the requirement that the public be afforded physical access to all teleconference locations from which board members were participating.

On September 16, 2021, the Governor signed Assembly Bill (AB) 361, a bill that codifies certain of the teleconference procedures that local agencies have adopted in response to the Governor's Brown Act-related Executive Orders. Specifically, AB 361 allows a local agency to continue to use teleconferencing under the same basic rules as provided in the Executive Orders under certain prescribed circumstances or when certain findings have been made and adopted by the local agency legislative body.

AB 361 also requires that, if the state of emergency lasts for more than 30 days, the local agency legislative body must make findings every 30 days to continue using the bill's exemption to the Brown Act teleconferencing rules. Specifically, the legislative body must find that there is a continuing need for teleconferencing due to dangers posed by the ongoing state of emergency. This means that local agencies will have to put an item on the public meeting agenda at least every thirty days to make findings regarding the circumstances of the emergency and to vote to continue relying upon the law's teleconference provisions.

Under AB 361, local agency legislative bodies must return to in-person meetings on October 1, 2021, unless they choose to continue with fully teleconferenced meetings and make the prescribed findings related to the existing state of emergency. Specifically, AB 361 allows local agency legislative bodies to continue to conduct virtual meetings as long as there is a proclaimed state of emergency, in combination with (1) local health official recommendations for social distancing or (2) findings adopted by the local agency legislative body that meeting in person would present risks to health. AB 361 is effective immediately as urgency legislation and will sunset on January 1, 2024.

## **FISCAL IMPACT:**

No Direct Impact

## **ATTACHMENTS:**

Attachment A: Resolution 2023-04 "A Resolution Of The Humboldt Waste Management Authority Re-Authorizing Remote Teleconference Meetings Of The Legislative Bodies Of Humboldt Waste Management Authority For the Period of September

8, 2022 Through October 13, 2022 Pursuant To Brown Act Provisions Due To A State Of Emergency”.

**RESOLUTION 2023-04**

**A RESOLUTION OF THE  
HUMBOLDT WASTE MANAGEMENT AUTHORITY  
RE-AUTHORIZING REMOTE TELECONFERENCE MEETINGS OF THE  
LEGISLATIVE BODIES OF HUMBOLDT WASTE MANAGEMENT AUTHORITY  
FOR THE PERIOD OF SEPTEMBER 8, 2022 THROUGH OCTOBER 13, 2022,  
PURSUANT TO BROWN ACT PROVISIONS DUE TO A STATE OF EMERGENCY**

**WHEREAS**, the Humboldt Waste Management Authority (HWMA) is committed to preserving and nurturing public access and participation in meetings of the Board of Directors and other committee meetings subject to the Ralph M. Brown Act (“Brown Act”); and

**WHEREAS**, the Brown Act, Government Code section 54953(e), makes provisions for remote teleconferencing participation in meetings without compliance with the requirements of Government Code section 54953(b)(3), subject to the existence of certain conditions; and

**WHEREAS**, a required condition is that the Governor declares a state of emergency pursuant to Government Code section 8625, proclaiming the existence of conditions of disaster or of extreme peril to the safety of persons and property within the state caused by conditions as described in Government Code section 8558; and

**WHEREAS**, on March 4, 2020, the Governor proclaimed pursuant to his authority under the California Emergency Services Act, California Government Code section 8625, that a state of emergency exists with regard to a novel coronavirus (a disease now known as COVID-19) a condition which persists in Humboldt County; and

**WHEREAS**, on June 4, 2021, the Governor clarified that the “reopening” of California on June 15, 2021, did not include any change to the proclaimed state of emergency or the powers exercised thereunder; and

**WHEREAS**, as of the date of this Resolution, neither the Governor nor the Legislature have exercised their respective powers pursuant to California Government Code section 8629 to lift the state of emergency either by proclamation or by concurrent resolution in the state Legislature; and

**WHEREAS**, the continued local rates of transmission of the virus and variants causing COVID-19 are such that meeting in person could present imminent risks to the health or safety of attendees of HWMA governing Board and committee public meetings if teleconference options are not included as an option for public participation; and

**WHEREAS**, the Centers for Disease Control and Prevention continue to list Humboldt County as an area of high transmission of COVID-19, and Humboldt County Public Health Officer Dr. Ian Hoffman issued a recommendation on September 29, 2021, to continue to practice physical distancing at meetings of legislative bodies and stated that virtual meetings do the most to reduce COVID-19 risk; and

**WHEREAS**, the Board of Directors does hereby find that the COVID-19 public health emergency and increased risk of infection has caused, and will continue to cause, conditions of peril to the safety of persons within Humboldt County that are likely to be beyond the control of services, personnel, equipment, and facilities of HWMA, and desires to ratify the proclamation of state of emergency by the Governor of the State of California; and

**WHEREAS**, as a consequence of the emergency, the Board of Directors does hereby continue to find that the legislative bodies of HWMA shall conduct their meetings without compliance with paragraph (3) of subdivision (b) of Government Code section 54953, as authorized by subdivision (e) of section 54953, and that such legislative bodies shall comply with the requirements to provide the public with access to the meetings as prescribed in paragraph (2) of subdivision (e) of section 54953; and

**WHEREAS**, public access and participation in meetings of HWMA's legislative bodies shall be provided via online video conferencing software which shall also allow for public participation and real-time public comment opportunity by telephone.

**NOW, THEREFORE, BE IT RESOLVED** that the Humboldt Waste Management Authority Board of Directors find that:

Section 1. Recitals. The Recitals set forth above are true and correct and are incorporated into this Resolution by this reference.

Section 2. Proclamation of Imminent Risk of In-Person Meetings. The Board hereby proclaims that as Humboldt County remains an area of high transmission of COVID-19 as determined by the Centers for Disease Control and Prevention, meeting in-person presents imminent risks to the health or safety of attendees.

Section 3. Ratification of Governor's Proclamation of a State of Emergency. The Board hereby ratifies the Governor of the State of California's Proclamation of State of Emergency, effective as of its issuance date of March 4, 2020.

Section 4. Remote Teleconference Meetings. The staff and legislative bodies of Humboldt Waste Management Authority, including but not limited to the Board of Directors and its subcommittees, and the Executive Advisory Committee and its subcommittees, are hereby authorized and directed to take all actions necessary to carry out the intent and purpose of this Resolution including conducting open and public meetings in accordance with Government Code section 54953(e) and other applicable provisions of the Brown Act.

Section 5. Effective Date of Resolution. This Resolution shall take effect immediately upon its adoption and shall be effective for 30 days or until this Resolution is extended by a majority vote of the Board of Directors in accordance with Section 6 of this Resolution.

Section 6. Extension by Motion. The Board of Directors may extend the application of this Resolution by motion and majority vote by up to 30 days at a time, provided that it makes all necessary findings consistent with and pursuant to the requirements of Section 54953(e)(3).

***Staff Report***

**DATE:** September 8, 2022, For Meeting of: October 13, 2022

**FROM:** Eric Keller-Heckman, Interim Executive Director

**SUBJECT:** Item 2c)  
Approve Resolution Number 2023-05 Adopting a Conflict of Interest Code for HWMA in Compliance with California Government Code Section 87300.

**RECOMMENDED ACTION:** Voice vote.  
Adopt Resolution Number 2023-05

**DISCUSSION:**

California Government Code section 87300 requires all public agencies to adopt and review a Conflict of Interest Code every two years. This Code shall enumerate employee and consultant positions within the Authority who are involved in the making or participate in the making of decisions which may have a material effect on any financial interest of their own; identifying disclosure categories for such employees and consultants; and identifying disqualification requirements for such employees and consultants.

This Resolution would supersede Resolution 2019-02 that established a Conflict of Interest Code on May 10, 2018. The primary modification to the Code reflects the title change for one position as approved by the Board June 9 2022.

**Former Position**

Director of Finance and Administrative Services

**Current Position**

Accounting Manager

**FISCAL IMPACT:**

Minimal time associated with developing the report.

**RESOLUTION NO. 2023-05  
OF THE  
HUMBOLDT WASTE MANAGEMENT AUTHORITY  
ADOPTING A CONFLICT OF INTEREST CODE**

**WHEREAS**, specified public officials identified in California Government Code section 87200, including Authority Board members and the Executive Director are subject to the conflict of interest disclosure and disqualification requirements set forth in Government Code sections 87200 et seq.; and

**WHEREAS**, California Government Code section 87300 requires all public agencies to adopt and promulgate a Conflict of Interest Code enumerating employee and consultant positions within the Authority who are involved in the making or participation in the making of decisions which may have a material effect on any financial interest of their own; identifying disclosure categories for such employees and consultants; and identifying disqualification requirements for such employees and consultants;

**NOW, THEREFORE, BE IT RESOLVED**, that the Board of the Humboldt Waste Management Authority hereby rescinds Resolution Number 2019-02 and adopts as its Conflict of Interest Code those provisions set forth in Appendix A, attached hereto and incorporated herein.

Adopted this 13th day of October, 2022

ATTEST:

**APPENDIX A**  
**HUMBOLDT WASTE MANAGEMENT AUTHORITY**  
**CONFLICT OF INTEREST CODE**

The Political Reform Act (Government Code Section 81000, et seq.) requires state and local government agencies to adopt and promulgate Conflict of Interest codes. The Fair Political Practices Commission has adopted a regulation (2 Cal. Code of Regs. Sec.18730) which contains the terms of a standard Conflict-of-Interest code, which can be incorporated by reference in an agency's code. After public notice and hearing, it may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference. This regulation and the attached Appendix designated officials and employees and establishing disclosure categories, shall constitute the Conflict-of-Interest code of the Humboldt Waste Management Authority.

Designated employees shall file their statements with the Humboldt Waste Management Authority who will make the statements available for public inspection and reproduction (Gov. Code Section 81008). Upon receipt of the statements of the Board of Directors and the Executive Director, the Humboldt Waste Management Authority shall make and retain a copy and forward the original of these statements to the Fair Political Practices Commission. Statements for all other designated employees shall be retained by the Humboldt Waste Management Authority.

**Public Officials Who Manage Public Investments**

The following positions are NOT covered by the Conflict-of-Interest code because they must file under section 87200 and, therefore, are listed for informational purposes only:

- Governing Board Members
- Executive Director

An individual holding one of the above listed positions may contact the Fair Political Practices Commission for assistance or written advice regarding their filing obligations if they believe that their position has been categorized incorrectly. The Fair Political Practices Commission makes the final determination whether a position is covered by section 87200.

**CONFLICT OF INTEREST CODE FOR THE  
HUMBOLDT WASTE MANAGEMENT AUTHORITY**

<b><u>Designated Positions</u></b>	<b><u>Disclosure Category</u></b>
Accounting Manager	1
Director of Operations	1
Director of Environmental Health & Safety	1
Consultants	*1
General Counsel	1

**Disclosure Category**

**Category 1**

Designated employees in Category 1 must report:

- a) Investments and business positions in any business entity and sources of income, including gifts, loans and travel payments, of the type which within the last years has contracted with the Authority to provide services, supplies, materials, machinery or equipment.
- b) Investments and business positions in any business entity and sources of income, including gifts, loans and travel payments, of the type which engages in or may engage in activities which come under regulation by the Authority.
- c) Investment and business positions in any business entity and sources of income, including gifts, loans and travel payments, of the type which engages in the acquisition, disposal or development of real property by the Authority.
- d) Investments and business positions in any business entity and sources of income, including gifts, loans and travel payments, of the type which engages in the preparation of environmental impact report or statements.
- e) All interest in real property.

**Category 2**

Designated employees in Category 2 must report:

---

\*1 Consultants shall be included in the list of designated employees and shall disclose pursuant to the broadest disclosure category in the Code subject to the following limitations: "The Executive Director may determine in writing that a particular consultant, although a 'designated position', is hired to perform a range of duties that is limited scope and thus is not required to fully comply with the disclosure requirements described in this section. Such written determination shall include a description of the consultant's duties and, based upon that description, a statement of the extent of the disclosure requirements. The Executive Director's determination is a public record and shall be retained for public inspection in the same manner and location as this Conflict-of-Interest code.

- a) Investments and business positions in any business entity and sources of income, including gifts, loans and travel payments, of the type which within the last two years has contracted with the Authority to provide services, materials or equipment.
- b) Investments and business positions in any business entity and sources of income, including gifts, loans and travel payments, of the type which engages in or may engage in activities which come under regulation by the Authority.

## ***Staff Report***

**FROM:** Eric Keller-Heckman, Interim Executive Director

**SUBJECT:** Item 2d)  
Consider Approval of Agreement between HWMA and County of Humboldt to Provide California Integrated Waste Management Act Compliance and Waste Reduction Services.

**RECOMMENDED ACTION:** Voice vote.

- 1) Approve Agreement between HWMA and County of Humboldt for the Authority to provide California Integrated Waste Management Act Compliance and Waste Reduction Services on behalf of the County from July 1, 2022 through June 30, 2027; and,
- 2) Authorize the Chair to sign the Agreement.

### **DISCUSSION:**

Staff recommends that the Board approve a 5-year agreement with the County of Humboldt for AB 939 waste reduction and compliance activities, effective July 1, 2022 through June 30, 2027.

The purpose of the Agreement enables HWMA to act on behalf of the County of Humboldt to administer CalRecycle compliance activities in accordance with the California Integrated Waste Management Act, AB 939 diversion mandates, and work towards regional and state directed 75% waste diversion goals.

HWMA and the County have implemented similar agreements since 2006, when staffing positions related to state compliance and diversion programs moved from Humboldt County's Department of Health and Human Services Environmental Health Division to Humboldt Waste Management Authority. This agreement was last entered into on July 1, 2019 covering the period to June 30, 2022.

HWMA and County staff in the Division of Environmental Health and Department of Public Works, and legal counsel collaborated to review and revise, as necessary, the former agreement.

### **FISCAL IMPACT:**

Under the proposed agreement, HWMA will continue to collect the County apportioned AB 939 pass thru fees. Funds retained from the AB939 pass-through fee and education expenses are fully funded under the Fiscal Year 2022/2023 budget.

### **ALTERNATIVES:**

Board's Discretion

**ATTACHMENTS:**

A. Draft Agreement for the period of July 1, 2022 through June 30, 2027

**AGREEMENT BETWEEN THE COUNTY OF HUMBOLDT AND  
THE HUMBOLDT WASTE MANAGEMENT AUTHORITY TO  
PROVIDE COMPLIANCE AND WASTE REDUCTION SERVICES**

This Agreement is entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_ (“Agreement”), by and between the County of Humboldt, a political subdivision of the State of California (hereinafter “MEMBER AGENCY”), and the Humboldt Waste Management Authority, a joint powers agency (hereinafter “AUTHORITY”).

WHEREAS, the AUTHORITY is a joint powers agency created pursuant to the provisions of Government Code Section 6500 in order to provide the economic coordination of solid waste management and disposal services, and the County of Humboldt is a MEMBER AGENCY of the AUTHORITY; and

WHEREAS, Section 6.6 of the AUTHORITY’s Joint Exercise of Powers Agreement authorizes the AUTHORITY to provide other related waste management duties for member agencies, provided such services are paid for solely by the contracting member; and

WHEREAS, the MEMBER AGENCY and AUTHORITY desire to enter into an agreement whereby the AUTHORITY will provide California Integrated Waste Management Act (Public Resources Code, Section 40000 *et seq.*, and Title 14 California Code of Regulations (“CCR”), Division 7, Chapter 9, Section 18700 *et seq.*, collectively referred to as the California Integrated Waste Management Act “CIWMA”) services for the MEMBER AGENCY on the terms below.

WHEREAS, the parties wish to memorialize the current agreement between the parties for the services provided to MEMBER AGENCY prior to the execution of this Agreement.

NOW THEREFORE, based on the mutual conditions and covenants recited herein and made a material part hereof, the parties agree as follows:

1. DESCRIPTION OF SERVICES:

The AUTHORITY shall perform those services described in the Scope of Work attached hereto as Exhibit “A” and incorporated herein as material term(s) of this Agreement. All services shall be performed consistent with applicable local and state law, including but not limited to the CIWMA. The MEMBER AGENCY authorizes the AUTHORITY to request relevant solid waste and recycling data from the MEMBER AGENCY’s franchise solid waste haulers for purposes of performing any services under this Agreement.

2. TERM:

This Agreement shall become effective on July 1, 2022, and shall remain in full force and effect until June 30, 2027, unless sooner terminated as provided herein. The term of this Agreement may be extended upon the written consent of the parties.

TERMINATION:

A. Termination for Cause. This Agreement may be terminated by either party for cause, defined as the breach of a material provision of this Agreement, with thirty (30) days written notice to the other

party, provided that the party alleging material breach has previously delivered a notice of default and opportunity to cure within 30 days, and the default has not been cured. If California Department of Resources Recycling and Recovery (“CalRecycle”) issues any compliance order according to Title 14 of CCR section 18772, the MEMBER AGENCY may terminate this Agreement with thirty (30) days written notice to the AUTHORITY.

- B. Termination without Cause. This Agreement may be terminated for any reason by either party with ninety (90) days written notice to the other party.
- C. Compensation upon Termination. In the event of any termination under Section 3, the AUTHORITY will be entitled to invoice the MEMBER AGENCY and to receive payment for all acceptable services performed or furnished and all reimbursable expenses incurred through the effective date of termination.

3. COMPLIANCE WITH LAWS:

Each party agrees to comply with all federal, state and local laws and regulations applicable to its performance under this Agreement.

4. COMPENSATION:

AUTHORITY services will be funded from CalRecycle funds available for the specific activity, and from the MEMBER AGENCY’s quarterly “County/Cities AB 939 Program<sup>1</sup>” payments from the AUTHORITY.

5. RECORD RETENTION AND INSPECTION:

- A. Maintenance and Preservation of Records. AUTHORITY agrees to timely prepare accurate and complete financial, performance and payroll records, documents and other evidence relating to the services provided hereunder, and to maintain and preserve said records for at least three (3) years from the date of final payment under this Agreement, except that if any litigation, claim, negotiation, audit or other action is pending, the records shall be retained until completion and resolution of all issues arising therefrom. The books and records shall be original entry books with a general ledger itemizing all debits and credits for the services provided hereunder. All costs incurred by the AUTHORITY in satisfying this maintenance and preservation of records obligation shall be borne by the MEMBER AGENCY, including, but not limited to, staff time at fully burdened rates.
- B. Inspection of Records. Pursuant to California Government Code Section 8546.7, all records, documents, conditions and activities of AUTHORITY, and its subcontractors, related to the services provided hereunder, shall be subject to the examination and audit of the California State Auditor and any other duly authorized agents of the State of California for a period of three (3) years after final payment under this Agreement. AUTHORITY hereby agrees to make all such records available during normal business hours to inspection, audit and reproduction by MEMBER AGENCY and any duly authorized local, state and/or federal agencies. AUTHORITY further

---

<sup>1</sup> HWMA’s County Wide Program Fees are set annually through the HWMA budget review process for the following categories: Administration, Household Hazardous Wastes, Cummings Road Landfill Maintenance, Illegal Dumping and Cleanup Funds, Rural Container Program, County/Cities AB393 Programs, Table Bluff Landfill, and the Local Enforcement Agency.

agrees to allow interviews of any of its employees who might reasonably have information related to such records by MEMBER AGENCY and any duly authorized local, state and/or federal agencies. All examinations and audits conducted hereunder shall be strictly confined to those matters connected with the performance of this Agreement, including, but not limited to, the costs of administering this Agreement.

6. MONITORING:

AUTHORITY agrees that MEMBER AGENCY has the right to reasonably monitor all activities related to this Agreement, including, without limitation, the right to review and monitor AUTHORITY's records, programs or procedures, at any time, as well as the overall operation of AUTHORITY's programs, in order to ensure compliance with the terms and conditions of this Agreement. However, MEMBER AGENCY is not responsible, and will not be held accountable, for overseeing or evaluating the adequacy of the results of services performed by AUTHORITY pursuant to the terms of this Agreement. All costs incurred by the AUTHORITY in satisfying any monitoring request shall be borne by the MEMBER AGENCY, including, but not limited to, staff time at fully burdened rates.

7. CONFIDENTIAL INFORMATION:

A. Disclosure of Confidential Information. In the performance of this Agreement, AUTHORITY may receive information that is confidential under local, state or federal law. AUTHORITY hereby agrees to protect all confidential information in conformance with any and all applicable local, state and federal laws, regulations, policies, procedures and standards, including, without limitation: Division 19 of the California Department of Social Services Manual of Policies and Procedures – Confidentiality of Information; California Welfare and Institutions Code Sections 827, 5328, 10850 and 14100.2; California Health and Safety Code Sections 1280.15 and 1280.18; the California Information Practices Act of 1977; the California Confidentiality of Medical Information Act (“CMIA”); the United States Health Information Technology for Economic and Clinical Health Act (“HITECH Act”); the United States Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) and any current and future implementing regulations promulgated thereunder, including, without limitation, the Federal Privacy Regulations contained in Title 45 of the Code of Federal Regulations (“C.F.R.”) Parts 160 and 164, the Federal Security Standards contained in 45 C.F.R. Parts 160, 162 and 164 and the Federal Standards for Electronic Transactions contained in 45 C.F.R. Parts 160 and 162, all as may be amended from time to time.

B. Continuing Compliance with Confidentiality Requirements. Each party hereby acknowledges that local, state and federal laws, regulations and standards pertaining to confidentiality, electronic data security and privacy are rapidly evolving and that amendment of this Agreement may be required to ensure compliance with such developments. Each party agrees to enter into negotiations concerning an amendment to this Agreement embodying written assurances consistent with the requirements of HIPAA, the HITECH Act, the CMIA and any other applicable local, state and federal laws, regulations or standards.

8. NON-DISCRIMINATION COMPLIANCE:

- A. Professional Services and Employment. In connection with the execution of this Agreement, AUTHORITY, and its subcontractors, shall not unlawfully discriminate in the provision of professional services or against any employee or applicant for employment because of: race; religion or religious creed; color; age, over forty (40) years of age; sex, including, without limitation, gender identity and expression, pregnancy, childbirth and related medical conditions; sexual orientation, including, without limitation, heterosexuality, homosexuality and bisexuality; national origin; ancestry; marital status; medical condition, including, without limitation, cancer and genetic characteristics; mental or physical disability, including, without limitation, HIV status and AIDS; political affiliation; military service; denial of family care leave; or any other classifications protected by any and all applicable local, state or federal laws, regulations or standards, all as may be amended from time to time. Nothing herein shall be construed to require the employment of unqualified persons.
- B. Compliance with Anti-Discrimination Laws. AUTHORITY further assures that it, and its subcontractors, will abide by the applicable provisions of: Title VI and Title VII of the Civil Rights Act of 1964; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975; the Food Stamp Act of 1977; Title II of the Americans with Disabilities Act of 1990; the California Fair Employment and Housing Act; California Civil Code Sections 51, *et seq.*; California Government Code Sections 4450, *et seq.*; California Welfare and Institutions Code Section 10000; Division 21 of the California Department of Social Services Manual of Policies and Procedures; United States Executive Order 11246, as amended and supplemented by United States Executive Order 11375 and 41 C.F.R. Part 60; and any other applicable local, state or federal laws, regulations or standards, all as may be amended from time to time. The applicable regulations of the California Fair Employment and Housing Commission implementing California Government Code Section 12990, set forth in Sections 8101, *et seq.* of Title 2 of the California Code of Regulations are incorporated into this Agreement by reference and made a part hereof as if set forth in full.

9. NUCLEAR FREE HUMBOLDT COUNTY ORDINANCE:

AUTHORITY certifies by its signature below that it is not a Nuclear Weapons Contractor, in that AUTHORITY is not knowingly or intentionally engaged in the research, development, production or testing of nuclear warheads, nuclear weapons systems or nuclear weapons components as defined by the Nuclear Free Humboldt County Ordinance. AUTHORITY agrees to notify MEMBER AGENCY immediately if it becomes a Nuclear Weapons Contractor as defined above. MEMBER AGENCY may immediately terminate this Agreement if it determines that the foregoing certification is false or if AUTHORITY subsequently becomes a Nuclear Weapons Contractor.

10. DRUG-FREE WORKPLACE CERTIFICATION:

By executing this Agreement, CONTRACTOR certifies that it will provide a drug-free workplace in accordance with the requirements of the Drug-Free Workplace Act of 1990 (California Government Code Sections 8350, *et seq.*), by doing all of the following:

- A. Drug-Free Policy Statement. Publish, as required by California Government Code Section

8355(a)(1), a Drug-Free Policy Statement which notifies employees that the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited, and specifies the actions to be taken against employees for violations.

- B. Drug-Free Awareness Program. Establish, as required by California Government Code Section 8355(a)(2), a Drug-Free Awareness Program which informs employees about:
1. The dangers of drug abuse in the workplace;
  2. CONTRACTOR's policy of maintaining a drug-free workplace;
  3. Any available counseling, rehabilitation and employee assistance programs; and
  4. Penalties that may be imposed upon employees for drug abuse violations.
- C. Drug-Free Employment Agreement. Ensure, as required by California Government Code Section 8355(a)(3), that every employee who provides services pursuant to the terms and conditions of this Agreement will:
1. Receive a copy of CONTRACTOR's Drug-Free Policy Statement; and
  2. Agree to abide by CONTRACTOR's Drug-Free Policy as a condition of employment.
- D. Effect of Non-Compliance. Failure to comply with the requirements set forth herein may result in termination of this Agreement and/or ineligibility for award of future contracts.

## 11. INDEMNIFICATION.

- A. Each party to this Agreement shall indemnify, defend and hold harmless the other party hereto and their respective officers, agents, and employees, from any and all claims, demands, losses, damages, and liabilities of any kind or nature, including attorney's fees, which arise by the virtue of its own acts or omissions (either directly or through or by its officers, agents or employees) in connection with its duties and obligations under this Agreement and any amendments hereto.
- B. Effect of Insurance. Acceptance of the insurance required by this Agreement shall not relieve the AUTHORITY from liability under this provision. This provision shall apply to all claims for damages related to the AUTHORITY's performance hereunder, regardless of whether any insurance is applicable or not. The insurance policy limits set forth herein shall not act as a limitation upon the amount of indemnification or defense to be provided hereunder.

## 12. INSURANCE REQUIREMENTS:

This Agreement shall not be executed by the MEMBER AGENCY, and the AUTHORITY is not entitled to any rights hereunder, unless certificates of insurance, or other proof that the following provisions have been complied with, are filed with the Clerk of the Humboldt County Board of Supervisors.

- A. General Insurance Requirements. Without limiting AUTHORITY's indemnification obligations

set forth herein, AUTHORITY, and its subcontractors hereunder, shall take out and maintain, throughout the entire term of this Agreement, and any extensions thereof, the following policies of insurance, placed with insurers authorized to do business in the State of California with a current A.M. Bests rating of no less than A: VII or its equivalent against personal injury, death and property damage which may arise from, or in connection with, the activities of AUTHORITY or its agents, officers, directors, employees, licensees, invitees, assignees or subcontractors:

1. Comprehensive or Commercial General Liability Insurance at least as broad as Insurance Services Office Commercial General Liability Coverage (occurrence form CG 0001), in an amount of Two Million Dollars (\$2,000,000.00) per occurrence for any one (1) incident, including, without limitation, personal injury, death and property damage. If a general aggregate limit is used, such limit shall apply separately hereto or shall be twice the required occurrence limit.
2. Automobile/Motor Liability Insurance with a limit of liability not less than One Million Dollars (\$1,000,000.00) combined single limit coverage. Such insurance shall include coverage of all owned, hired and non-owned vehicles, and be at least as broad as Insurance Service Offices Form Code 1 (any auto).
3. Workers' Compensation Insurance, as required by the California Labor Code, with statutory limits, and Employers Liability Insurance with a limit of no less than One Million Dollars (\$1,000,000.00) per accident for bodily injury or disease. Said policy shall contain, or be endorsed to contain, a waiver of subrogation against MEMBER AGENCY and its agents, officers, officials, employees and volunteers.
4. Professional Liability Insurance – Error and Omission Coverage including coverage in an amount no less than Two Million Dollars (\$2,000,000.00) for each occurrence (Four Million Dollars (\$4,000,000.00) general aggregate). Said insurance shall be maintained for the statutory period during which AUTHORITY may be exposed to liability regarding the services provided pursuant to the terms and conditions of this Agreement. AUTHORITY shall require that such coverage be incorporated into its professional services agreements with any other entities.

B. Special Insurance Requirements. Said policies shall, unless otherwise specified herein, be endorsed with the following provisions:

1. The Comprehensive or Commercial General Liability Policy shall provide that MEMBER AGENCY, and its agents, officers, officials, employees and volunteers, are covered as additional insured for liability arising out of the operations performed by, or on behalf of, AUTHORITY. The coverage shall contain no special limitations on the scope of protection afforded to MEMBER AGENCY or its agents, officers, officials, employees and volunteers. Said policy shall also contain a provision stating that such coverage:
  - a. Includes contractual liability.
  - b. Does not contain exclusions as to property damage caused by explosion or collapse

of structures or underground damage, commonly referred to as “XCU Hazards.”

- c. Is the primary insurance with regard to MEMBER AGENCY.
  - d. Does not contain a pro-rata, excess only and/or escape clause.
  - e. Contains a cross liability, severability of interest or separation of insureds clause.
2. The above-referenced policies shall not be canceled, non-renewed or materially reduced in coverage without thirty (30) days prior written notice being provided to MEMBER AGENCY in accordance with the notice requirements set forth herein. It is further understood that AUTHORITY shall not terminate such coverage until MEMBER AGENCY receives adequate proof that equal or better insurance has been secured.
  3. The inclusion of more than one (1) insured shall not operate to impair the rights of one (1) insured against another insured, and the coverage afforded shall apply as though separate policies had been issued to each insured, but the inclusion of more than one (1) insured shall not operate to increase the limits of the insurer’s liability.
  4. For claims related to this Agreement, AUTHORITY’s insurance is the primary coverage to MEMBER AGENCY, and any insurance or self-insurance programs maintained thereby are excess to AUTHORITY’s insurance and will not be used to contribute therewith.
  5. Any failure to comply with the terms and conditions of this Agreement shall not affect the coverage provided to MEMBER AGENCY or its agents, officers, officials, employees and volunteers.
  6. AUTHORITY shall furnish MEMBER AGENCY with certificates and original endorsements effecting the required coverage prior to execution of this Agreement. The endorsements shall be on forms approved by the Humboldt County Risk Manager. Any deductible or self-insured retention over One Hundred Thousand Dollars (\$100,000.00) shall be disclosed to, and approved by, MEMBER AGENCY. If AUTHORITY does not keep all required policies in full force and effect, MEMBER AGENCY may, in addition to any other available remedies, take out the necessary insurance and deduct the cost of said insurance from the monies owed to AUTHORITY under this Agreement.
  7. MEMBER AGENCY is to be notified immediately if twenty-five percent (25%) or more of any required insurance aggregate limit is encumbered, and AUTHORITY shall be required to purchase additional coverage to meet the above-referenced aggregate limits.
- C. Insurance Notices. Any and all insurance notices required to be given pursuant to the terms and conditions of this Agreement shall be sent to the addresses set forth below in accordance with the notice requirements contained herein.

MEMBER AGENCY: County of Humboldt  
Attention: Risk Management  
825 Fifth Street, Room 131  
Eureka, California 95501

AUTHORITY: Executive Director  
Humboldt Waste Management Authority  
1059 Hawthorne St.  
Eureka, CA 95501

13. RELATIONSHIP OF PARTIES:

It is understood that this Agreement is by and between two (2) independent entities and is not intended to, and shall not be construed to, create the relationship of agents, servant, employee, partnership, joint venture or any other similar association. Both parties further agree that AUTHORITY shall not be entitled to any benefits to which MEMBER AGENCY employees are entitled, including, without limitation, overtime, retirement, leave or workers' compensation benefits. AUTHORITY shall be solely responsible for the acts and omissions of its agents, officers, employees, assignees and subcontractors.

14. COMPLIANCE WITH APPLICABLE LAWS, REGULATIONS AND STANDARDS:

- A. General Legal Requirements. AUTHORITY agrees to comply with any and all local, state and federal laws, regulations, policies, procedures and standards applicable to the services provided pursuant to the terms and conditions of this Agreement.
- B. Licensure Requirements. AUTHORITY agrees to comply with any and all local, state and federal licensure, certification and accreditation standards applicable to the services provided pursuant to the terms and conditions of this Agreement.
- C. Accessibility Requirements. AUTHORITY agrees to comply with any and all applicable accessibility requirements set forth in the Americans with Disabilities Act, Section 508 of the Rehabilitation Act of 1973, as amended, California Government Code Section 1135 and any current and future implementing regulations, policies, procedures and standards promulgated thereunder, including, without limitation, the federal accessibility standards set forth in 36 C.F.R. Section 1194.1, all as may be amended from time to time.
- D. Conflict of Interest Requirements. AUTHORITY agrees to comply with any and all applicable conflict of interest requirements set forth in the California Political Reform Act and any current and future implementing regulations, policies, procedures and standards promulgated thereunder, including, without limitation, MEMBER AGENCY's Conflict of Interest Code, all as may be amended from time to time.

15. PROVISIONS REQUIRED BY LAW:

This Agreement is subject to any additional local, state and federal restrictions, limitations or conditions that may affect the terms, conditions or funding of this Agreement. This Agreement shall be read and enforced as though all legally required provisions are included herein, and if for any reason any such provision is not included, or incorrectly stated, the parties agree to amend the pertinent section to make such insertion or correction.

16. REFERENCE TO LAWS, REGULATIONS AND STANDARDS:

In the event any law, regulation or standard referred to herein is amended during the term of this Agreement, the parties agree to comply with the amended provision as of the effective date thereof.

17. PROTOCOLS:

Both parties agree that the inclusion of additional protocols may be required to make this Agreement specific. All such protocols shall be negotiated, determined and agreed upon by both parties hereto.

18. SEVERABILITY:

If any provision of this Agreement, or any portion thereof, is found by any court of competent jurisdiction to be unenforceable or invalid for any reason, such provision shall be severable and shall not in any way impair the enforceability of any other provision of this Agreement.

19. ASSIGNMENT:

Neither party shall delegate its duties or assign its rights hereunder, either in whole or in part, without the other party's prior written consent. Any assignment by AUTHORITY in violation of this provision shall be void, and shall be cause for immediate termination of this Agreement. This provision shall not be applicable to service agreements or other arrangements usually or customarily entered into by either party to obtain supplies, technical support or professional services.

20. AGREEMENT SHALL BIND SUCCESSORS:

All provisions of this Agreement shall be fully binding upon, and inure to the benefit of, the parties and to each of their heirs, executors, administrators, successors and permitted assigns.

21. WAIVER OF DEFAULT:

The waiver by either party of any breach of this Agreement shall not be deemed to be a waiver of any such breach in the future, or of the breach of any other requirement of this Agreement. In no event shall any payment by MEMBER AGENCY constitute a waiver of any breach of this Agreement which may then exist on the part of AUTHORITY. Nor shall such payment impair or prejudice any remedy available to MEMBER AGENCY with respect to the breach or default. MEMBER AGENCY shall have the right to demand repayment of, and AUTHORITY shall promptly refund, any funds which MEMBER AGENCY determines were not expended in accordance with the terms and conditions of this Agreement.

22. NON-LIABILITY OF COUNTY OFFICIALS AND EMPLOYEES:

No official or employee of MEMBER AGENCY shall be personally liable for any default or liability under this Agreement.

23. AMENDMENT:

This Agreement may be amended at any time upon the mutual consent of both parties. No addition to, or alteration of, the terms of this Agreement shall be valid unless made in writing and signed by the parties hereto.

24. STANDARD OF PRACTICE:

AUTHORITY warrants that it has the degree of learning and skill ordinarily possessed by reputable professionals practicing in similar localities in the same profession and under similar circumstances. AUTHORITY's duty is to exercise such care, skill and diligence as professionals engaged in the same profession ordinarily exercise under like circumstances.

25. TITLE TO INFORMATION AND DOCUMENTS:

It is understood that any and all documents, information and reports concerning the subject matter of this Agreement prepared and/or submitted by AUTHORITY shall become the property of MEMBER AGENCY. However, AUTHORITY may retain copies of such documents, information and reports for its records. In the event this Agreement is terminated, for any reason whatsoever, AUTHORITY shall promptly turn over all such documents, information and reports to MEMBER AGENCY without exception or reservation.

26. JURISDICTION AND VENUE:

This Agreement shall be construed in accordance with the laws of the State of California. Any dispute arising hereunder, or relating hereto, shall be litigated in the State of California and venue shall lie in the County of Humboldt unless transferred by court order pursuant to California Code of Civil Procedure Sections 394 or 395.

27. ADVERTISING AND MEDIA RELEASE:

Any and all informational material related to this Agreement shall receive approval from MEMBER AGENCY prior to being used as advertising or released to the media, including, without limitation, television, radio, newspapers and internet. AUTHORITY shall inform MEMBER AGENCY of any and all requests for interviews by the media related to this Agreement before such interviews take place; and MEMBER AGENCY shall be entitled to have a representative present at such interviews. Any and all notices required by this provision shall be given to Director in accordance with the notice requirements set forth herein.

28. SUBCONTRACTS:

AUTHORITY shall obtain prior written approval from MEMBER AGENCY before subcontracting any of the services to be provided pursuant to the terms and conditions of this Agreement. Any and all subcontracts shall be subject to all applicable terms and conditions of this Agreement, including, without limitation, the licensing, certification, privacy, security and confidentiality requirements set forth herein. AUTHORITY shall remain legally responsible for the performance of all terms and

conditions of this Agreement, including, without limitation, any and all services provided by third parties under subcontracts, whether approved by MEMBER AGENCY or not.

29. ATTORNEYS' FEES:

If either party shall commence any legal action, including, without limitation, an action for declaratory relief, against the other by reason of the alleged failure of the other to perform any of its obligations hereunder, the party prevailing in said action shall be entitled to recover court costs and reasonable attorneys' fees, including, but not limited to, the reasonable value of services rendered by the Humboldt County Counsel's Office, to be fixed by the court, and such recovery shall include court costs and attorneys' fees on appeal, if applicable. As used herein, the term "prevailing party" means the party who dismisses an action in exchange for payment of substantially all sums allegedly due, performance of provisions allegedly breached, or other considerations substantially equal to the relief sought by said party, as well as the party in whose favor final judgment is rendered.

30. SURVIVAL OF PROVISIONS:

The duties and obligations of the parties set forth in Section 3. – Compensation upon Termination, Section 6. – Record Retention and Inspection, Section 8. – Confidential Information and Section 11. – Indemnification shall survive the expiration or termination of this Agreement.

31. CONFLICTING TERMS OR CONDITIONS:

In the event of any conflict in the terms or conditions set forth in any other agreements in place between the parties hereto and the terms and conditions set forth in this Agreement, the terms and conditions set forth herein shall have priority.

32. INTERPRETATION:

This Agreement, as well as its individual provisions, shall be deemed to have been prepared equally by both of the parties hereto, and shall not be construed or interpreted more favorably for one (1) party on the basis that the other party prepared it.

33. INDEPENDENT CONSTRUCTION:

The titles of the sections and subsections set forth herein are inserted for convenience of reference only and shall be disregarded in construing or interpreting any of the provisions of this Agreement.

34. FORCE MAJEURE:

Neither party hereto shall be liable or responsible for delays or failures in performance resulting from events beyond the reasonable control, and without the fault or negligence, of such party. Such events shall include, without limitation, acts of God, strikes, lockouts, riots, acts of war, epidemics, pandemics, acts of government, fire, power failures, nuclear accidents, earthquakes, unusually severe weather, acts of terrorism or other disasters, whether or not similar to the foregoing.

35. ENTIRE AGREEMENT:

This Agreement contains all of the terms and conditions agreed upon by the parties hereto and no other agreements, oral or otherwise, regarding the subject matter of this Agreement shall be deemed to exist or to bind either of the parties hereto. In addition, this Agreement shall supersede in their entirety any and all prior agreements, promises, representations, understandings and negotiations between the parties, whether oral or written, concerning the same subject matter. Any and all acts which may have already been consummated pursuant to the terms and conditions of this Agreement are hereby ratified.

36. COUNTERPART EXECUTION:

This Agreement, and any amendments hereto, may be executed in one (1) or more counterparts, each of which shall be deemed to be an original and all of which, when taken together, shall be deemed to be one (1) and the same agreement. This Agreement, and any amendments hereto, may be signed by manual or electronic signatures in accordance with any and all applicable local, state and federal laws, regulations and standards, and such signatures shall constitute original signatures for all purposes. A signed copy of this Agreement, and any amendments hereto, transmitted by email or by other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original executed copy of this Agreement and any amendments hereto.

37. AUTHORITY TO EXECUTE:

Each person executing this Agreement represents and warrants that he or she is duly authorized and has legal authority to execute and deliver this Agreement. Each party represents and warrants to the other that the execution and delivery of this Agreement and the performance of such party's obligations hereunder have been duly authorized.

- Exhibit C – Sample Implementation Plan

**EXHIBIT A**  
**SCOPE OF WORK**

**A. City/County Payment Program Activities**

The AUTHORITY will oversee administration of CalRecycle’s City/County Payment Program (CCPP) Funds allocated to the MEMBER AGENCY in accordance with the California Beverage Container Recycling and Litter Reduction Act (CBCA) as specified in California Public Resources Code (PRC) Section 14500, *et seq.* The AUTHORITY will provide the following services:

1. Each fiscal year, the AUTHORITY will complete a CCPP application on behalf of the MEMBER AGENCY, submit the application to CalRecycle, and receive direct payment of the MEMBER AGENCY’s CCPP funds. Any unexpended funds from the current fiscal year will roll over into the next fiscal year and will be accounted for in the annual budget. The application will be responsive to CalRecycle’s annual notice of funding specific to the MEMBER AGENCY. The AUTHORITY will perform CCPP activities only if the MEMBER AGENCY is awarded funding or provides alternate and equal funding to the AUTHORITY.
2. The AUTHORITY will provide recycling and litter reduction activities as approved by the MEMBER AGENCY and in compliance with the provisions of PRC section 14581(a)(3)(b) of the CBCA. Eligible activities include, but are not limited to, support for new or existing curbside recycling programs, neighborhood drop-off recycling programs, public education promoting beverage container recycling, litter prevention, and cleanup, cooperative regional efforts among two or more cities or counties, or both, or other beverage container recycling programs. Funds may not be used for activities unrelated to beverage container recycling or waste reduction.

**B. California Integrated Waste Management Act (CIWMA) Implementation and Compliance**

The AUTHORITY will provide the following CIWMA compliance services on behalf of the MEMBER AGENCY:

*1. Electronic Annual Reporting (EAR) to CalRecycle*

No later than August 1 of each year, or later date if extended by CalRecycle, prepare an annual progress report as required by Public Resource Code Section 41821, according to the procedures and requirements of Title 14 of the CCR Sections 18794.0 through 18794.5. The report will encompass the previous calendar year, January 1 to December 31, inclusive, and will summarize the MEMBER AGENCY’s annual disposal tonnage and progress in reducing solid waste as required by Public Resource Code Section 41780. A copy of the report will be provided to the MEMBER AGENCY within 30 days of submittal to CalRecycle.

*2. Compliance and other Responsibilities*

- a. Assist with the MEMBER AGENCY’s annual CalRecycle jurisdictional review. The yearly conference call and site visit administered by CalRecycle will be coordinated by Humboldt Waste Management Authority (AUTHORITY) staff, in conjunction with County of Humboldt (MEMBER AGENCY) staff as delegated by the County Administrative Officer. The

AUTHORITY may request a County Representative to arrange access to MEMBER AGENCY facilities and properties as necessary to meet jurisdictional review requirements.

- b. Respond to requests for information from CalRecycle concerning the MEMBER AGENCY's compliance with the CIWMA. The AUTHORITY's written responses regarding compliance will be provided to the County Administrative Officer's designee for review prior to forwarding to CalRecycle unless the item is for information or minor clarification.

### 3 *Preparation of the 6<sup>th</sup> Five-Year California Integrated Waste Management Plan (CIWMP)*

No later than September 1, 2026, HWMA will prepare the draft 6<sup>th</sup> Five-Year CIWMP for review by the County Administrative Officer's designee. The plan will be prepared consistent with PRC Sections 41770 and 41822, according to the procedures and requirements of Title 14 of the CCR sections 18784-18788. The report will include the period of January 1, 2022 through December 31, 2026 and will provide required information. Following review and administrative approval, HWMA will forward the 6<sup>th</sup> Five-Year Plan to the Solid Waste Local Task Force for review and adoption. A copy of the final approved document will be submitted to CalRecycle by January 31, 2026. A copy of the report will be provided to each agency in the Local Task Force within 30 days of submittal.

### 4. *CIWMA Waste Reduction Activities*

No later than July 1 of each year, provide the County Administrative Officer's designee with a draft County of Humboldt CIWMA Implementation Plan (see Exhibit C) and draft Fiscal Year Budget (see Exhibit B) outlining proposed activities and anticipated costs for the upcoming fiscal year. The MEMBER AGENCY will respond with any proposed revisions within 14 days receipt of the draft Implementation Plan and draft Budget. No later than October 1 of each year, provide the County Administrative Officer's designee with a Final CIWMA Implementation Plan and a Final Fiscal Year Budget. The following types of waste reduction activities may be implemented by HWMA as requested:

#### a. Outreach and Promotional Activities

Coordinate outreach and promotional activities for waste reduction events and programs as agreed to and shown on draft County of Humboldt CIWMP Implementation Plan

#### b. Waste Reduction Assistance

- i. Collect and compile existing data so that the MEMBER AGENCY may evaluate its existing diversion programs.
- ii. Consult with County Administrative Officer's designee as necessary to give updates about and complete the tasks outlined in this Scope of Work.

No later than October 1 of each year, provide the County Administrative Officer's designee with a Final CIWMA Implementation Plan and a Final Fiscal Year Budget.

## *Staff Report*

**DATE:** October 3, 2022 For Board Meeting: October 13, 2022

**FROM:** Eric Keller-Heckman Interim Executive Director

**SUBJECT:** Item 2e)  
Consider Approval of Agreement between HWMA and City of Rio Dell to Provide California Integrated Waste Management Act Compliance and Waste Reduction Services.

**RECOMMENDED ACTION:** Voice vote.

- 1) Approve Agreement between HWMA and City of Rio Dell for the Authority to provide California Integrated Waste Management Act Compliance and Waste Reduction Services on behalf of the City from July 1, 2021 through June 30 2025; and
- 2) Authorize the Chair to sign the Agreement.

### **DISCUSSION:**

Staff recommends that the Board approve an agreement with the City of Rio Dell effective July 1 2022 through June 30 2025. In consultation and development with city staff, HWMA will provide the City of Rio Dell with specified AB 939 waste reduction activities (see attached Agreement and Scope of Work). The City's request for these services is due to limited staffing resources and because HWMA provides similar AB 939 services on behalf of two other member jurisdictions.

This Agreement will enable HWMA to administer CalRecycle waste reduction and compliance activities in accordance with the California Integrated Waste Management Act and waste reduction activities specific to the needs of the city.

Through this Agreement, HWMA will 1). prepare Rio Dell's Annual AB 939 Electronic Annual Report to CalRecycle, 2). provide assistance with related CalRecycle inquiries, 3). implement necessary public education and outreach related to waste reduction and hazardous waste.. Other activities involve securing Beverage Container Recycling grant funds allocated to the City, purchasing recycling supplies, coordinating classroom education for city students and overseeing an electronic waste collection event in city limits.

### **Fiscal Impact:**

Under the proposed agreement, HWMA will continue to collect the Rio Dell apportioned AB 939 pass thru fees. Funds retained from the AB939 pass-through fee and education expenses are fully funded under the Fiscal Year 2022/2023 budget.

**ALTERNATIVES:**

Board's Discretion

**ATTACHMENT:**

A. Draft Agreement for the period of July 1, 2022 through June 30, 2025

**AGREEMENT BETWEEN THE CITY OF RIO DELL AND  
THE HUMBOLDT WASTE MANAGEMENT AUTHORITY TO  
PROVIDE COMPLIANCE AND WASTE REDUCTION SERVICES**

This Agreement is entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_ (“Agreement”), by and between the City of Rio Dell, a municipality, (hereinafter “Member Agency”), and the Humboldt Waste Management Authority, a joint powers agency (hereinafter “Authority”).

**RECITALS**

**WHEREAS**, the Authority is a joint powers agency created pursuant to the provisions of Government Code Sections 6500 in order to provide the economic coordination of solid waste management and disposal services, and the City of Rio Dell is a member agency of the Authority; and

**WHEREAS**, Section 6.6 of the Authority’s Joint Exercise of Powers Agreement authorizes the Authority to provide other related waste management duties for member agencies, provided such services are paid for solely by the contracting member; and

**WHEREAS**, the Member Agency and Authority desire to enter into an agreement whereby the Authority will provide California Integrated Waste Management Act (Public Resources Code §§ 40000 et seq., and Title 14 California Code of Regulations, Division 7, Chapter 9, Section 18700 et seq., collectively referred to as the “CIWMA”) services for the Member Agency on the terms below.

**NOW THEREFORE**, based on the mutual conditions and covenants recited herein and made a material part hereof, the parties agree as follows:

1. Services To Be Provided. The Authority shall perform those services described in the Scope of Work attached hereto as Exhibit “A” and incorporated herein as material term(s) of this Agreement. All services shall be performed consistent with applicable local and state law, including but not limited to the CIWMA. The Member Agency authorizes the Authority to request relevant solid waste and recycling data from the Member Agency’s franchise solid waste hauler for purposes of performing any services under this Agreement.
2. Term of Agreement. This Agreement shall become effective on July 1, 2022, and shall remain in effect until June 30, 2025, unless sooner terminated as provided herein. The term of this Agreement may be extended upon the written consent of the parties.
3. Early Termination.
  - a. This Agreement may be terminated for any reason by either party with ninety (90) days written notice to the other party. If CalRecycle issues any compliance

order according to Title 14 CCR 18772, the Member Agency may terminate this Agreement with thirty (30) days written notice to the Authority.

- b. This Agreement may be terminated by either party for cause, defined as the breach of a material provision of this Agreement, with thirty (30) days written notice to the other party, provided that the party alleging material breach has previously delivered a notice of default and opportunity to cure within 30 days, and the default has not been cured.

In the event of any termination under this Section 3, the Authority will be entitled to invoice the Member Agency and to receive payment for all acceptable services performed or furnished and all reimbursable expenses incurred through the effective date of termination.

4. Compliance With Laws. Each party agrees to comply with all federal, state and local laws and regulations applicable to its performance under this Agreement.
5. Payment for Services. Payments to the Authority shall be made by the Member Agency based upon the payment schedule in Exhibit B, attached hereto and incorporated herein. Authority services will be funded from CalRecycle funds available for the specific activity, or from the Member Agency's quarterly "AB 939 pass through" payments from the Authority.
6. Indemnification. Each party to this Agreement shall indemnify, defend and hold harmless the other party hereto and their respective officers, agents, and employees, from any and all claims, demands, losses, damages, and liabilities of any kind or nature, including attorney's fees, which arise by the virtue of its own acts or omissions (either directly or through or by its officers, agents or employees) in connection with its duties and obligations under this Agreement and any amendments hereto.
7. Relationship of Parties. The parties intend that the AUTHORITY, in performing services herein specified, shall act as an independent contractor and shall have control of its work and the manner in which it is performed. The AUTHORITY is not to be considered an agent or employee of MEMBER AGENCY, and is not entitled to participate in any pension plans, worker's compensation insurance, or similar benefits that MEMBER AGENCY provides for its employees.
8. Notices. Any and all notices required to be given pursuant to the terms of this Agreement shall be in writing and served personally, or sent by certified mail, return receipt requested, to the respective addresses set forth below. Notice shall be effective upon actual receipt or refusal as shown on the receipt obtained pursuant to the foregoing.

MEMBER AGENCY  
City Manager  
City of Rio Dell

AUTHORITY  
Humboldt Waste Management Authority  
1059 West Hawthorne St

675 Wildwood Avenue  
Rio Dell, CA 95562

Eureka, CA

9. Waiver, Modification or Amendment Ineffective Unless in Writing. No waiver or modification of this Agreement, the Scope of Work, or any covenant, condition, or limitation herein contained, shall be valid unless in writing and duly executed by the parties to be charged therewith. Modifications to the Scope of Work may be made administratively if set forth in writing and signed by each party's duly authorized representative; provided, however, that any modification which either increases the cost to Member agency or alters the basic purpose of the Agreement may be made only with prior written approval of legislative bodies of both parties.
10. Provisions Required by Law. This Agreement is subject to any additional local, state and federal restrictions, limitations or conditions that may affect the provisions, terms or funding of this Agreement. This Agreement shall be read and enforced as though all legally required provisions are included herein, and if for any reason any such provision is not included, or is not correctly stated, the parties agree to amend the pertinent section to make such insertion or correction.
11. Designated Representatives. With the execution of this Agreement, the Authority and Member Agency shall designate specific individuals to act as their respective representatives regarding the services to be performed or furnished under this Agreement. Such individuals shall have authority to transmit instructions, receive information, and implement the contract on behalf of each respective party.

**IN WITNESS WHEREOF**, the parties hereto have executed this Agreement on the day and year first hereinabove written.

**EXHIBIT A**  
**SCOPE OF WORK**

**A. City/County Payment Program Activities**

The Authority will oversee administration of the Member Agency's waste reduction program, including administration of CalRecycle's City/County Payment Program (CCPP) Funds allocated to the Member Agency by providing the following services:

1. Each fiscal year, the Authority will complete a CCPP application, submit the application to CalRecycle, and receive direct payment of the Member Agency's CCPP funds. The application will be responsive to CalRecycle's annual notice of funding specific to the Member Agency. The Authority will perform CCPP activities only if the Member Agency is awarded funding or provides alternate and equal funding to the Authority.
2. The Authority will provide recycling and litter reduction activities as approved by the Member Agency and in compliance with the provisions of California Public Resources Code (PRC) Section 14581 of the California Beverage Container Recycling and Litter Reduction Act. Eligible activities include, but are not limited to, recycling assistance and supplies for large events including fairs and community festivals, classroom education promoting recycling, public outreach promoting local recycling options including CRV buyback facilities, cooperative regional efforts among two or more cities or counties, or both, or other beverage container recycling programs. Funds may not be used for activities unrelated to beverage container recycling or waste reduction.

**B. CIWMA Implementation and Compliance**

The Authority will provide the following CIWMA compliance services on behalf of the Member Agency:

*1. Electronic Annual Reporting (EAR) to CalRecycle*

No later than August 1 of each year, or later date if extended by CalRecycle, prepare an annual progress report as required by PRC Section 41821, according to the procedures and requirements of Title 14, CCR, Sections 18794.0 through 18794.5. The report will encompass the previous calendar year, January 1 to December 31, inclusive, and will summarize the Member Agency's annual disposal tonnage and progress in reducing solid waste as required by PRC Section 41780. A copy of the report will be provided to the Member Agency.

*2. Compliance and other Responsibilities*

- a. Handle Member Agency's annual jurisdictional review as required by PRC section 41825. The yearly conference call and site visit administered by Calrecycle will be the responsibility of The Authority. The Authority may request a Member Agency

representative to arrange access to Member Agency facilities and properties as necessary to meet jurisdictional review requirements.

- b. Respond to all requests for information from CalRecycle concerning the Member Agency's compliance with the CIWMA. The Authority's written responses regarding compliance will be provided to the Member Agency' City Manager for review prior to forwarding to CalRecycle.

### *3. CIWMA Waste Reduction Activities*

No later than July 1 of each year, provide the Member Agency with an implementation plan and budget outlining proposed activities for the upcoming fiscal year. The Member Agency will respond with any comments in a timely matter. The following types of waste reduction activities may be implemented by HWMA as requested:

#### a. Outreach and Promotional Activities

Coordinating outreach and promotional activities for waste reduction events and programs about, for example, new and ongoing State legislation, mandatory commercial recycling (AB 341), waste reduction programs, hazardous waste mobile collection events, and satellite drop off sites.

#### b. Waste Reduction Assistance

- i. Collect and compile existing data so that the Member Agency may evaluate its existing diversion programs.
- ii. Hosting one electronic waste collection event for the Member Agency, in which residents and businesses can bring qualifying materials for collection.
- iii. Consult with Member Agency staff as necessary to give updates about and complete the tasks outlined in this Scope of Work.

## ***Staff Report***

**DATE:** October 4, 2022, For Meeting of: October 13, 2022

**FROM:** Eric Keller-Heckman, Interim Executive Director

**SUBJECT:** Item 2f)  
Authorize Interim Executive Director to Execute Amendment Number 2 to  
Extend Services Agreement with Nancy Diamond for Legal Services.

**RECOMMENDED ACTION:** Voice vote.

- 1.) Approve Amendment No 2 with Nancy Diamond for Legal services retroactively from July 1, 2022 ending December 31, 2023;
- 2.) Authorize the Interim Executive Director to Execute Amendment No. 2.

### **DISCUSSION:**

Attached is proposed Amendment Number 2 to the Agreement for Legal Services with Nancy Diamond, Attorney at Law. The current agreement with Ms. Diamond expired on June 30, 2022. The attached Amendment to Extend would be retroactively effective July 1, 2022 through December 31, 2023 for a period of 18 months.

As HWMA's Legal Counsel, Ms. Diamond provides regular legal advice to the HWMA Board of Directors, Executive Director and occasionally staff on a broad range topics. In addition to standard legal review and defense, Ms. Diamond drafts and reviews numerous documents including agreements, construction contracts, hold harmless agreements and releases.

This amendment will ensure continuity of legal services during this transitional time.

### **ATTACHMENTS:**

Amendment : Amendment No. 2 to Contract for Legal Services Between Humboldt Waste Management Authority and Law Offices of Nancy Diamond

### **FISCAL IMPACT:**

HWMA staff projects a potential increase in approximately \$3,000 in additional expenses due to a small increase in the proposed hourly rate. HWMA staff will examine and make recommendations at midyear budget adjustments if necessary.

### **ALTERNATIVES:**

Board's Discretion

**AMENDMENT No. 2  
TO CONTRACT FOR LEGAL SERVICES  
BETWEEN  
HUMBOLDT WASTE MANAGEMENT AUTHORITY  
AND LAW OFFICES OF NANCY DIAMOND**

This is an amendment (“Amendment”) to the Contract for Legal Services entered into by and between Humboldt Waste Management Authority (“HWMA”) and Law Offices of Nancy Diamond, dated July 1, 2012 amended July 1, 2017 (collectively, “Agreement”). This Agreement is effective July 1, 2022.

**RECITALS**

**WHEREAS**, the Agreement provides for a five-year contract term, which expires on June 30, 2022;

**WHEREAS**, the parties wish to extend the Agreement based on the conditions below.

**NOW THEREFORE**, in consideration of the mutual covenants, conditions and terms recited herein and made a material part hereof, the parties agree as follows:

1. Term of Agreement. Section IV, Term, is hereby extended for the period commencing on July 1, 2022 and terminating on December 31, 2023, unless terminated earlier under the Agreement.
2. Fee Schedule. Exhibit A, Fee Schedule, is hereby replaced by the attached Exhibit A, Fee Schedule.
3. Ratification of Agreement. The terms and conditions of the Agreement, including all exhibits and attachments, are ratified in their entirety except to the extent inconsistent with the terms and provisions of this Amendment. In the event of such inconsistency, this Amendment shall control.

**IN WITNESS WHEREOF**, the parties have executed this Amendment No. 1 effective as of the date above stated.

**EXHIBIT A**  
**FEE SCHEDULE**  
(Effective November 1, 2022)

Attorney Services, Nancy Diamond: \$250/hour

Attorney Services, Other Personnel: Not to exceed rate of Nancy Diamond, and subject to approval of Executive Director

***Staff Report -***

**DATE:** September 7, 2022 For Board Meeting: October 13, 2022

**FROM:** Eric Keller-Heckman, Interim Executive Director

**SUBJECT:** Item 4)  
**Board to Affirm Approval of the Fiscal Year 2022-23 Budget; and Approve Resolution 2023-06 “To Ratify Resolution 2023-01 - A Resolution Of The Humboldt Waste Management Authority For The Amendment Of Integrated Waste Management Fees”**

**RECOMMENDED ACTION: Roll Call Vote**

That the Board of Directors:

- 1) Affirm Approval of the Fiscal Year 2022-23 Budget; and
- 2) Approve Resolution 2023-06 “To Ratify Resolution 2023-01 - A Resolution Of The Humboldt Waste Management Authority For The Amendment Of Integrated Waste Management Fees”
- 3) Direct staff to distribute the approved resolution to member agencies, franchise haulers and other interested parties; and
- 4) Other Direction as Appropriate.

**Summary**

To conform the Board’s actions with HWMA Joint Power Authority requirements, staff recommends that 70% (or an affirmative 5 out of 6 members) of all Board members ratify the actions of the Board members present at the May 12, 2022 meeting to approve the Authority’s Fiscal Year Budget for 2022-23 and Resolution 2023-06 “*To Ratify Resolution 2023-01 Of The Humboldt Waste Management Authority For The Amendment Of Integrated Waste Management Fees*”

**Background**

The HWMA Board of Directors is required to annually approve the Authority’s fiscal year budget through the consideration of a draft budget and approval of a resolution which sets the waste management fees of the Authority. The approved resolution is then circulated to HWMA’s member agencies, franchise haulers and other interested parties for rate amendment actions necessary for the approved waste management fees to go into effect July 1<sup>st</sup>.

HWMA’s Joint Powers Agreement stipulates that 70% of ALL of the (Board of) Directors is required to approve specified items, including the annual operations budget. This means that budget approvals require an affirmative 5 of 6 votes to pass.

The HWMA Board of Directors met May 12, 2022 to consider and approve the FY 2022-23 Budget and Resolution 2023-01 to amend the Authority's Integrated Waste Management Fees. HWMA's Board is comprised of six representatives from each of the member agencies, but only four (4) Directors were in attendance at the May 12<sup>th</sup> meeting. These members (Castellano, Hogan, Madrone and Wilson) unanimously approved the FY 2022-23 Budget and Resolution 2023-01 "*A Resolution Of The Humboldt Waste Management Authority For The Amendment Of Integrated Waste Management Fees*". The required voting super majority (5 voting members) of the Board **was not available** to approve the budget as required by the HWMA JPA.

To conform the Board's action with HWMA Joint Power Authority requirements, staff recommends that 70% (or 5 out of 6 members) of all Board members ratify the actions of the Board members present at the May 12, 2022 meeting to approve the Authority's Fiscal Year Budget for 2022-23 and Resolution 2023-06 "*To Ratify Resolution 2023-01 Of The Humboldt Waste Management Authority For The Amendment Of Integrated Waste Management Fees*"

As part of the notice required by HWMA' Joint Powers Agreement, the approved ratified resolution will be circulated to member agencies, franchise haulers and other interested parties.

**FISCAL IMPACT:**

**No Fiscal Impact.** The Board previously approved the Authority's Budget for FY 2022-23. The recommended action provides corrective action for conformance with the Authority's joint powers agreement.

**ALTERNATIVES:**

1. Decline to adopt Resolution 2023-06

This is not recommended. Staff is implementing Fiscal Year Budget 2022-23 as approved which includes tip fee increases, capital projects, personnel cost-of-living adjustments, contractor rate amendments and other related items effective July 1, 2022. Additionally, franchise haulers and member agencies have taken actions to amend and approve curbside collection fees.

**ATTACHMENTS:**

- A. Excerpt of Joint Powers Agreement, Section 8.3 (c)
- B. Minutes of the May 12, 2022 HWMA Board of Directors Meeting
- C. Resolution 2023-06

**ATTACHMENT A:**  
Excerpt of Humboldt Waste Management Authority's  
Joint Powers Agreement, Section 8.3 (c) "Voting"

Section 8.3(c) "Voting" that "A vote of seventy percent (70%) all of the DIRECTORS shall be necessary in order to approve any of the following:

- (a) Each DIRECTOR shall have one vote on all matters presented to the BOARD for a vote.
- (b) **Except** as provided in Section 8.3(c), the vote of a majority of the DIRECTORS shall constitute the act of the BOARD.
- (c) A vote of seventy percent (70%) all of the DIRECTORS shall be necessary in order to approve any of the following:
  - (1) the construction budget for any AUTHORITY owned facility;
  - (2) the annual operating budget of the AUTHORITY in excess of debt service on REVENUE BONDS and the payment to the transfer station operator.
  - (3) the issuance, execution or delivery of REVENUE BONDS;
  - (4) any change in a budget exceeding 10% of the total amount of that budget;
  - (5) any amendment to or the termination of this AGREEMENT;
  - (6) voting rules regarding the approval of contracts between the AUTHORITY and any one or more MEMBERS (it being understood that all such contracts must be approved pursuant to rules adopted in this manner);
  - (7) the admission of an additional MEMBER or a substitute MEMBER including by means of assignment; and
  - (8) the purchase of a landfill.

## BOARD OF DIRECTORS

Meredith Matthews, City of Arcata,  
Elaine Hogan, City of Blue Lake, **Vice Chair**  
Leslie Castellano, City of Eureka, **Chair**  
Robin Smith, City of Ferndale  
Steve Madrone, County of Humboldt  
Frank Wilson, City of Rio Dell

### Meeting Minutes

Thursday, May 12, 2022 at 5:30 PM

### Zoom Conference Meeting

Present: Steve Madrone, Leslie Castellano, Frank Wilson, Elaine Hogan  
Absent: Meredith Matthews, Robin Smith  
Staff: Eric Keller-Heckman, Peter Fuller, Tony Heacock, Nancy Diamond, Loral Uber

1. **Chairperson Castellano** called the meeting to Order at 5:30 PM

#### 2. Consent Calendar

- a. Approve Minutes from the April 14, 2022 HWMA Board of Directors Meeting 1
- b. Approve Resolution 2022-05 “A Resolution Of The Humboldt Waste Management Authority Authorizing Remote Teleconference Meetings Of The Legislative Bodies Of Humboldt Waste Management Authority Pursuant To Brown Act Provisions Due To A State Of Emergency”

**Chairperson Castellano** opened the floor to public comment regarding the Consent Calendar. No comment was received.

**Chairperson Castellano** closed the floor to public comment.

**Motion:** **Director Madrone** moved and **Director Hogan** seconded the motion to approve the Consent Calendar.  
**Action:** Approve the Motion made by **Director Madrone** and seconded by **Director Hogan**  
**Ayes:** Director Wilson, Director Hogan, Director Madrone, Chairperson Castellano  
**Noes:** None  
**Absent:** Director Matthews, Director Smith

#### 3. Oral and Written Communications

**Chairperson Castellano** opened the floor to public comment regarding items not on the agenda. No comment was received. **Chairperson Castellano** closed the floor to public comment.

#### 4. Approve Fiscal Year 2022-2023 Draft Budget and Resolution 2023-01

The board discussed allocation of funds from fee increases and whether potential organics processing facilities are included in the current budget.

**Chairperson Castellano** opened the floor to public comment regarding the Draft Budget Resolution. Linda Wise spoke about how upcoming reductions in recycling processing fees will impact HWMA.

**Chairperson Castellano** closed the floor to public comment.

**Motion:** **Director Hogan** moved and **Director Madrone** seconded the motion to receive the Draft Budget and forward to member agencies without change.

**Action:** Approve the Motion made by **Director Hogan** and seconded by **Director Madrone**  
**Ayes:** Director Hogan, Director Madrone, Director Wilson, and Chairperson Castellano  
**Noes:** None  
**Absent:** Director Matthews and Director Smith

**4. Standing Item: CRV & Recycling Update**

**Hambro Group** presented a summary of recycling activities at the CRV buyback center in Arcata since it began operations on April 1<sup>st</sup>, 2022. The board expressed support for the new buyback center and planned expansion of services.

**Chairperson Castellano** opened the floor to public comment. No comment was received.

**Chairperson Castellano** closed the floor to public comment.

**5. Standing Item: SB 1383 Update**

**Evan Edgar** from Edgar and Associates updated the board on suitability of the Eureka Recycling Center for conversion to an organics processing facility, including considerations such as permitting timeline and physical characteristics of the building compared to other potential locations. **Eric Keller-Heckman** presented a tentative timeline and costs for facility conversion, including closure times and relocation of the Eureka Recycling Center. The board discussed potential costs and community impacts.

**Chairperson Castellano** opened the floor to public comment. **Robin Praszker** from the City of Eureka expressed the City's support for relocating the recycling center and spoke about opportunities to expand diversion programs with a larger recycling center footprint. **Tom Mattson** from Humboldt County commented in support of recycling center relocation and suggested additional resources for funding. **Emily Benvie** from the City of Arcata expressed support for HWMA's SB 1383 compliance efforts.

**Chairperson Castellano** closed the floor to public comment.

**Motion:** **Director Madrone** moved and **Director Hogan** seconded the motion to proceed with staff recommendations to relocate the Eureka Recycling Center and convert the existing footprint to an organics processing facility.  
**Action:** Approve the Motion made by **Director Hogan** and seconded by **Director Madrone**  
**Ayes:** Director Hogan, Director Madrone, Director Wilson, and Chairperson Castellano  
**Noes:** None  
**Absent:** Director Matthews and Director Smith

**6. Standing Item: Board Member Reports**

**Chairperson Castellano** spoke briefly about the City of Eureka's zero waste program.

**7. Standing Item: Executive Director's Report**

**Executive Director Fuller** reiterated his commitment to communication with the board and the Authority's partnerships with member agencies.

**8. Chairperson Castellano** adjourned the meeting at 7:02 PM.

**RESOLUTION 2023-06**

**“A RESOLUTION OF THE  
HUMBOLDT WASTE MANAGEMENT AUTHORITY  
FOR THE RATIFICATION OF RESOLUTION 2023-01 “AMENDMENT OF  
INTEGRATED WASTE MANAGEMENT FEES” AND FISCAL YEAR 2022-23  
BUDGET EFFECTIVE JULY 1, 2022 THROUGH JUNE 30, 2023”**

**WHEREAS**, Humboldt Waste Management Authority’s final draft annual budget for Fiscal Year 2022-23 and Resolution 2023-01 *A Resolution Of The Humboldt Waste Management Authority For The Amendment Of Integrated Waste Management Fees*” was presented for consideration and approval to the HWMA Board of Directors meeting held Thursday, May 12, 2022; and

**WHEREAS**, Section 8.3(c) of HWMA’s Joint Powers Agreement requires that 70% of ALL of the Directors is required to approve certain specified items, including the annual operations budget; and

**WHEREAS**, despite a unanimous voting quorum of four (of six) HWMA Directors who discussed and approved the fiscal year budget and resolution, the final vote did not meet the required 70% threshold; and

**WHEREAS**, implementation of Fiscal Year Budget 2022-23 was effective July 1, 2022 which included waste management fee increases, personnel cost-of-living adjustments, contractor rate amendments and other related items. Additionally, franchise haulers and member agencies have taken actions to amend and approve curbside collection fees, also effective July 1, 2022.

**NOW, THEREFORE, BE IT HEREBY RESOLVED** that the HWMA Board of Directors hereby:

1. Retroactively approves and affirms approval of the Fiscal Year 2022-23 Budget effective July 1, 2022; and
2. Ratifies Resolution 2023-01 *“A Resolution Of The Humboldt Waste Management Authority For The Amendment Of Integrated Waste Management Fees”* effective July 1, 2022

The foregoing Resolution was introduced at a regular meeting of the Humboldt Waste Management Board of Directors held October 13, 2022 by Director \_\_\_\_\_ who moved adoption of this resolution. The motion was seconded by Director \_\_\_\_\_. The motion passed by the following vote:

**AYES:**  
**NOES:**  
**ABSENT:**  
**ABSTAIN:**

**APPROVED:** \_\_\_\_\_ Date: \_\_\_\_\_  
Leslie Castellano, Chairperson

**ATTEST:** \_\_\_\_\_ Date: \_\_\_\_\_  
HWMA Clerk

## ***Staff Report***

**DATE:** September 15, 2022 For Meeting of: October 13, 2022

**FROM:** Tony Heacock, Director of Environmental Health & Safety

**SUBJECT:** Item 5)  
Ratify Golder Associates Project Addendum Dated July 25, 2022 for Fiscal Year 2022-23 Services

**RECOMMENDED ACTION:** Voice vote.  
That the Board:

- 1.) Approve the Project Addendum dated July 25, 2022 in the amount not to exceed \$81,763 with Golder Associates, Inc. to perform groundwater monitoring, quarterly landfill gas monitoring and reporting at the Cummings Road Landfill.
- 2.) Authorize the Interim Executive Director to Execute the Project Addendum.

### **DISCUSSION:**

Golder Associates has been under contract with HWMA to provide monitoring and reporting activities for the Cummings Road Landfill since 2005. The attached Project Addendum dated July 25, 2022 identifies the proposed scope of services and activities to be conducted during the fiscal year from July 1, 2022 to June 30, 2023 and ensure compliance with regulatory monitoring requirements identified in the Cummings Road Landfill Waste Discharge Requirement (WDR) approved by the North Coast Regional Water Quality Control Board on May 2, 2013.

Golder Associates submits to the Authority cost estimates detailing the scope of services annually for the upcoming fiscal year. The cost estimates were included in the budget development and approval process for the FY 2022-23 Budget.

Additionally, as directed by the Board in 2021, staff will develop a Request for Proposals as well as an estimated service procurement timeline for professional landfill monitoring and reporting services for the Board's review and approval in the upcoming months.

### **FISCAL IMPACT**

This item was included in the approved FY 2022-23 Budget. The addendum cost estimate is \$203 less than costs in FY 2021-22.

### **ATTACHMENTS:**

Attachment No. 1 - *Project Addendum July 25, 2022*

July 21, 2022

Proposal No. GL179064803

**Mr. Anthony Heacock**

Humboldt Waste Management Authority  
1059 West Hawthorne Street  
Eureka, CA 95501

**PROPOSAL PRESENTING SCOPE OF WORK AND COST ESTIMATE, 2022 – 2023 WATER QUALITY AND LANDFILL GAS MONITORING AND REPORTING, CUMMINGS ROAD LANDFILL**

Dear Mr. Heacock,

This letter presents Golder Associates USA Inc.'s (Golder) proposal with scope of work and cost estimate to perform groundwater, surface water, landfill gas, and leachate monitoring and reporting for the Cummings Road Landfill during the second half of 2022 through June 2023. The proposed scope of work is based on Monitoring and Reporting Program (MRP) No. R1-2013-0014 and the perimeter landfill gas (LFG) migration monitoring requirements.

**Proposed WDR/MRP Monitoring and Reporting Scope of Work**

To address the requirements of MRP No. R1-2013-0014, Golder proposes to:

- Measure the depth to water in each site monitoring well quarterly.
- Sample the site monitoring wells semi-annually.
- Sample springs points semi-annually.
- Sample three perimeter landfill gas probes and one extraction well for laboratory analysis of VOCs on a semi-annual schedule.
- Sample six leachate points semi-annually.
- Submit samples to a California state-certified analytical laboratory (Pace Analytical, formerly BC Laboratories) for routine analyses (next COC event will be in 2025).
- Prepare a semi-annual and annual monitoring report per the WDR/MRP requirements.

All sampling and analysis will be performed in accordance with the protocol described in Golder's Groundwater Sampling and Laboratory Procedures. Field measurements of pH, specific conductance, temperature, and turbidity will be taken and recorded on water sample field data sheets. Samples will be properly preserved and stored on the day of sampling. Chain-of-custody documentation will accompany the samples through collection and delivery to a State-certified analytical laboratory.

## **Bimonthly Surface Water Reporting**

The surface water sampling is required in the MRP Order No. R1-2013-0014 with the reporting requirements specified in MRP Subsection I.A.3. Surface Water and Storm Water Sampling Report.

The reporting requirements include submitting the first report of each rainy season by the 15th day of the month after the first sampling and then every second month on the 15th of the month for the remainder of the rainy season. Each report shall include all sampling results from the previous month(s). The final report of each rainy season shall document when conditions of discharge stopped at the site for the season.

Golder will prepare the initial and subsequent bi-monthly reports using data supplied by the landfill staff, including field sample forms, rainfall data, and laboratory analytical results. We have assumed that we will prepare five reports per year. Golder will review the analytical results to determine whether there were any water quality violations that could be attributed to leachate originating from within the Landfill.

Each report will provide a site map showing the sample locations, summary of the sampling methods, parameters, and frequencies, a narrative discussion of water quality sampling and seep detection and response, tabular summary of the monitoring results, rainfall records, laboratory reports, and conclusions.

## **Landfill Gas Perimeter Probe and Structure Monitoring and Reporting**

Perimeter probe and structure monitoring is required by Title 27 to ensure that methane gas concentrations in soils at the landfill property boundary do not exceed the lower explosive limit of 5 percent (%) by volume and that the interior of on-site structures do not exceed 1.25 % by volume in air.

There are six perimeter landfill gas probe locations at the landfill, five of which consist of multiple probe monitoring depths. Three habitable structures are located at the site and include the maintenance shop, office trailer, and restrooms. All perimeter gas probes and structures will be monitored quarterly using a GEM 5000 LFG monitor (or equivalent). The GEM 5000 will be calibrated prior to use each day.

The GEM 500 sample tube will be connected to each gas probe and the probe valve will be opened. The GEM 5000 pump will be used to purge a minimum of one probe casing volume and the methane, carbon dioxide, and oxygen measurements will be recorded when the readings have stabilized. The probe valve will then be closed.

Structure monitoring will consist of measuring gas concentrations using the GEM 5000 at locations where methane could accumulate or enter the structures, such as electrical outlets, junction boxes, conduits, drains, cabinets, and closets. Other required monitoring information will be documented, including name of field technician, date, time, and meteorologic conditions.

Following each quarterly perimeter probe and structure monitoring event Golder will prepare the report for submittal to the LEA by HWMA no later than the regulatory due date.

## **Deliverables**

The reports will be signed and stamped by a Golder professional civil engineer or professional geologist. The reports will be provided to HWMA for review prior to the due dates. Following HWMA approval, the reports will be promptly uploaded to GeoTracker or submitted to the LEA. Golder will prepare semi-annual and annual monitoring reports containing the information required by the MRP. The reports will include a summary of the site conditions, discussion of the monitoring event results, tabulated analytical results, time-concentration graphs of data, statistical analyses, groundwater contour maps, groundwater flow velocity calculations, and an evaluation of

field and laboratory QC data. In addition, each report shall include all back-up data such as field data sheets, chain-of-custody documentation, and certified analytical reports. Golder will incorporate information provided by HWMA personnel to address other requirements of the MRP. This information includes site inspections, leachate extraction volumes, and standard observations. The semiannual monitoring reports will be uploaded to the State GeoTracker website. Quarterly perimeter landfill gas migration monitoring reports will be prepared for submittal to the county LEA.

## Schedule

Reporting for the first semi-annual monitoring period (January through June) will take place in July. Sampling for the second semi-annual monitoring period (July through December) will be performed in third quarter 2022. This sampling interval will provide samples that are obtained during the wet and dry seasons. Draft monitoring reports will be provided at least two weeks prior to their due dates (July 31, 2022 and January 31, 2023), if all supporting information is provided by the HWMA in time. Sampling for the first semi-annual 2023 monitoring period (January to June 2023) will be performed in first quarter 2023. Finalizing the report for the first semi-annual 2023 monitoring period (January 2023 through June 2023) is not included in this proposal, because the work will be completed in July 2023 during the next fiscal year. For the bimonthly surface water reporting, we have assumed that the landfill monitoring data (field forms, rainfall data, lab reports) will be provided at least two weeks prior to the report due dates. No site visits by Golder staff are included in this estimate, however, if needed, the Golder staff that are at the landfill quarterly for other work, may be utilized to make observations related to surface water or seeps.

## Cost

We have assumed that the landfill gas monitoring will be performed during other site monitoring conducted by Golder. Golder proposes to complete the WDR/MRP and perimeter landfill gas monitoring scope described above for an estimated fee of \$81,763 (see attached cost estimate). We will bill you on a time and expenses basis and will not exceed our estimate without your prior approval. The work covered by this proposal shall be performed under the same terms and conditions as those included in the original Agreement dated August 2005.

Please be aware that Golder has been acquired by and is now a Member of the WSP family of companies. Golder remains as a legal entity and is the proposed contracting entity for this proposal. We are in the process of integrating the resources of our companies. Correspondence for this proposal should continue to be addressed to the undersigned.

Golder sincerely values its relationship with HWMA and is appreciative of the opportunity to provide this proposal. Please feel free to call if you have any questions.

Sincerely,

**Golder Associates USA Inc.**

Kris H. Johnson  
Associate/Geology Practice Leader

Invoices from Golder include all labor charges, other direct costs, and costs associated with in-house services. Charges include only those services directly attributable to the execution of the work. Time spent when traveling in the interest of the work will be charged in accordance with the hourly rates.

Labor charges are based upon standard hourly billing rates for each category of staff. The billing rates include costs for salary, payroll taxes, insurance associated with employment, benefits (including holiday, sick leave, and vacation), administrative overheads, and profit. Rates by labor category are as follows:

ENGINEER/ SCIENTIST	TITLE	RATE
LV1 (P-07)	Assistant Consultant, Engineer/Scientist	\$ 101.00
LV2 (P-08)	Associate Consultant, Engineer/Scientist	\$ 118.00
LV3 (P-09)	Consultant, Engineer/Scientist	\$ 141.00
LV4 (P-10)	Senior Consultant, Engineer/Scientist	\$ 164.00
LV5 (X-11)	Lead Consultant, Engineer/Scientist	\$ 182.00
LV6 (X-12)	Senior Lead Consultant, Engineer/Scientist	\$ 215.00
LV7 (X-13)	Director, Engineer/Scientist	\$ 259.00
LV8 (X-14)	Senior Director, Engineer/Scientist	\$ 270.00
PROJECT SUPPORT	TITLE	RATE
LA1 (A-06)	Project Coordinator	\$ 80.00
LA2 (A-07)	Sr. Project Coordinator	\$ 103.00
LA3 (A-08)	Project Specialist	\$ 118.00
A-09	Sr. Project Specialist	\$ 138.00

DRAFTING/ DIGITAL DESIGN	TITLE	RATE
LD1 (T-06)	Coordinator, Technical Engineering Support	\$ 86.00
LD2 (T-07)	Senior Coordinator, Technical Engineering Support	\$ 101.00
LD3 (T-08)	Specialist, Technical Engineering Support	\$ 118.00
LD4 (T-09)	Senior Specialist, Technical Engineering Support	\$ 138.00
TECHNICIAN	TITLE	RATE
LT1 (T-05)	Technical Assistant	\$ 62.00
LT2 (T-06)	Coordinator, Technician	\$ 86.00
LT3 (T-07)	Senior Coordinator, Technician	\$ 101.00
LT4 (T-08)	Specialist, Technician	\$ 118.00
T-09	Senior Technician	\$ 138.00

Notes:

\*Rates are subject to change. These rates are valid for Q1 and Q2 of 2022 for Golder Associates USA Inc. Rates apply to labor from AK, WA, OR, CA.

\*\*Equivalent WSP Labor Categories are shown in parentheses. Invoices will use the WSP labor categories.

<sup>1</sup> A 5% charge will be added to the total labor fees to cover incidental office disbursements, including the production of color and b/w working documents, the production of 3 sets of drawing, as well as associated communication charges (excluding satellite phones). Reproduction of additional copies and drawings/documents will be at cost plus the required time charges.

<sup>2</sup> A 10% carrying charge will be added to all other disbursements including materials, subcontractor costs, drilling and/or excavation services, and the use of external laboratory services.

<sup>3</sup> Rates for specialist services, including, but not limited to litigation support and expert witness services, including time spent in depositions and in preparation of presentations, and testimony; and/or senior level consultation; and priority emergency level services are available upon request.

<sup>4</sup> Rates for laboratory services and use of equipment owned by Golder Associates will be provided upon request.

<sup>5</sup> The rates and charges listed above exclude applicable local and federal taxes. Taxes will appear as separate line items on each invoice.

<sup>6</sup> The rates noted herein do not contemplate prevailing wage law requirements. A separate rate sheet will be provided if and to the extent, prevailing wage applies.

## ***Staff Report***

**DATE:** October 5, 2022 For Meeting of: October 13, 2022

**FROM:** Eric Keller-Heckman, Interim Executive Director

**SUBJECT:** Item 6)  
Receive Humboldt County Edible Food Recovery Study and SB 1383: Compliance Road Map Plan prepared by Edgar & Associates; Take Direction as Appropriate

**RECOMMENDED ACTION:** Voice vote.  
That the HWMA Board of Directors Receive, Amend and File:

1. Humboldt County Edible Food Recovery Capacity Study; and
2. SB 1383: Compliance Road Map prepared by Edgar & Associates; and
3. Amend the Documents as Recommended by HWMA Staff and Humboldt County Solid Waste Task Force Members; and
4. Distribute the Final Food Recover Capacity Study and Road Map to the Humboldt County Solid Waste Local Task Force Members; and
5. Take Other Direction as Appropriate

### **SUMMARY**

The HWMA Board of Directors and members of the Humboldt County Solid Waste Local Task Force (LTF) held a joint study session on Thursday, September 29<sup>th</sup> via Zoom to receive presentations and discuss the draft SB 1383 and Organics Regional Compliance related documents prepared by Edgar & Associates.

At the request of the LTF in July of 2021, HWMA agreed to coordinate and circulate a request for proposals for SB 1383 and Organics Regional Compliance development services, entered into an agreement in November with a consultant, and managed the work. Participating jurisdictions entered into a cost-sharing agreement with HWMA, and further agreed to be 100% responsible for any extra or specific jurisdictional work conducted outside of this agreement provided by the consultant.

This high level regionalized planning effort did not represent a commitment by individual jurisdictions or HWMA, but rather deliverables were expected to aid the individual municipal jurisdictions decision making processes under their respective responsibilities under SB 1383, assess the legal authority in their existing municipal codes, describe critical pathways to enable expansion of existing food recovery activities, assist in the development of short and long-term organic diversion programs, and identify new programs and policies as appropriate.

Following the report's completion, the proposed organics processing plan and alternatives, and level of commitment interest from jurisdictions, the HWMA Board would then consider the ability of HWMA to undertake regionalize organics processing efforts; the critical steps to implement regionalize activities, such as securing flow control through an amendment to the joint powers agreement; projection definition of a preferred project(s), secure funding, regulatory permits and well as other related actions.

### **Deliverables & Completion Status**

The final draft deliverables were due May 16, 2022 to the HWMA Board of Directors. The final draft documents were presented September 29<sup>th</sup> at a joint study session between the Humboldt County Solid Waste Local Task Force and HWMA Board of Directors. The project Scope of Services included the following key deliverables:

- 1) SB 1383 Compliance Plan Road Map
- 2) Organics Processing and Collection (short & long term, with alternatives)
- 3) Edible Food Recovery
- 4) Procurement
- 5) Waste Management Fee Structure Recommendations.

Following a request for proposals and award process, HWMA entered into a services agreement with Edgar & Associates in November of 2021 to complete necessary work with a projected cost of \$156,035. In early June, HWMA's Executive Director received notification from the consultant that the approved contract funding was inadequate to complete the scope of services as outlined in the contract and a request for additional funding to complete the deliverables. At the direction of the former Executive Director, work was suspended in June pending a Board request for additional funds.

Completed Task 1: SB 1383 Compliance Road Map; and

Task 3: Humboldt County Edible Food Recovery Study.

Partially Completed Task 2: Organics Processing and Collection was partially completed for short-term organics processing and collection located at the Eureka Recycling Center; and

Task 4: Procurement

Not Completed Task 5: Waste Management Fee Structure budget was reallocated to complete Task 1 & Task 2, with approval by HWMA's former Executive Director.

With the consultant being out of budget, staff has internally reviewed and prepared limited revisions necessary to finalize the documents. Revisions include grammatical and spelling corrections, and updates to portions of the document originally prepared in February 2022.

There are inherent issues that staff is unable to correct. These include:

- A general misunderstanding of differences and responsibilities between HWMA, the County, Member Agency and Participating Jurisdictions.
- A lack of understanding of HWMA's solicitation and procurement processes
- Lack of short-term alternatives and long-term options
- Lack of methodology and assumptions to describe how tonnage projections were generated.
- The importance of securing flow control of organic material prior to assuming financial and infrastructure commitments.

Staff notes the timelines within the submitted document are no longer valid or relevant. Other changes related to securing funding for facility improvements at the Eureka Recycling Center, jurisdictions lack of approved amendments to franchise service agreements for ordering and securing of delivery route trucks by January 2023, and recent operational changes at Wes Green Company's green waste processing means the document no longer reflects the current organics landscape in Humboldt county.

Lastly, the document presented only the singular short-term plan with no alternatives for the receipt and processing of organic materials.

### **Task 1: SB 1383 Compliance Road Map**

Evan Edgar, Principal of Edgar & Associates developed the SB 1383 Compliance Road Map, dated June 9, 2022. The following activities were conducted:

- **5 Year Waivers** for eligible Low Population Communities (Blue Lake, Ferndale, Rio Dell & Trinidad) were submitted to CalRecycle by March 1<sup>st</sup>.
- **Targeted Tonnage Analysis** – a targeted tonnage analysis was presented in the report details a countywide organic tonnage diversion target of 37,332 tons by 2025. This does not constitute a 15-year organics capacity study needed for infrastructure planning and design.
- **AB 619 Notice of Intent** applications were submitted by March 1, 2022 to CalRecycle for the cities of Arcata, Eureka, Fortuna and the County of Humboldt.
- **Initial Jurisdiction Compliance Report** due to CalRecycle by April 1, 2022
- **Ordinance Development** – a model ordinance developed by the Alameda County Waste Management Authority was provided to local jurisdictions in Humboldt.
- **Draft Compliance Plan** -The draft compliance plan was presented to the Humboldt County Solid Waste Local Task Force members for review and comment February 28, 2022
- **Final Compliance Plan** – The final draft compliance plan dated June 9, 2022 was presented to the HWMA Board and Humboldt County's Solid Waste Local Task Force at a joint meeting on September 29, 2022.

#### Recommendation:

*That the Board approve revisions to the final draft SB 1383 Compliance Road Map, then distribute the finalized document to local jurisdictions.*

### **Task 2: Organics Processing and Collection (Short & Long-Term)**

Short Term:

As the most expeditious pathway to achieve compliance by January 1, 2023, Edgar & Associates' draft roadmap prematurely recommended to the HWMA Board of Directors in February 2022 that HWMA's Eureka Recycling Center be 1) repurposed to accept organic wastes and 2) recycling operations be temporarily relocated to an alternate location. This recommendation was based on challenges associated with securing and developing a suitable site, and issued the State mandated Transfer Processing/Report (TPR) permit before January 1, 2023. HWMA's Hawthorne Street Transfer Station has a compliant TPR which could be amended to include expansion into the Eureka Recycling Center's facility for the acceptance of organics in the designated area. Collected organics would then be pre-sorted (contaminate removal) and transported to an out-of-area processor for processing through a Request for Proposal process.

Long Term:

The report briefly touches on long-term organics processing and collection through the treatment of organic waste into a slurry which would then be either fed to existing anaerobic digesters, development of new anaerobic digesters or permitted in-county composting facilities. The report references that analysis and implementation timelines would require additional work to complete this task.

Status and Recommendation:

*The HWMA Board of Directors approved the staff recommendation on February 22, 2022 to close Eureka Recycling Center effective August 1, 2022 with the intention that 1) the vacated ERC space be used to receive and pre-process residential and commercial organics starting January 2023; and 2) ERC activities would be relocated to a new site. Conceptually, curbside collected food waste would be collected in green waste containers and delivered to the former ERC area. The food waste would then be manually removed and mechanically sorted for contaminant removal. Organic material would then transported out of county for processing and green waste would remain in county for processing. Staff was further directed to investigate siting alternatives for ERC operations, investigate property procurement and transitional plan.*

*It is recommended that the Board evaluate the continued closure and repurposing of the Eureka Recycling Center, develop a process and timeline as outlined in the following Agenda Item No. 7. This will enable the identification and development of a detailed site readiness plan, procurement of service contractor, secure commitments and flow control of organic material, estimate in-bound tonnage estimates, complete jurisdiction approved franchise amendments to enable haulers ordering, financing and take delivery of collection equipment, complete site improvements, and secure regulatory permit approvals.*

**Task 3: Humboldt County Edible Food Recovery Capacity Study**

Micheal Larkos, Executive Director of Abound and Monica White, Edgar & Associates provided a presentation outlining survey results of Tier 1 and Tier 2 generators, existing food recovery organizations and identified infrastructure constraints within Humboldt County.

***Recommendation:*** *That the Board 1) approve minor revisions to the final draft Humboldt County Edible Food Recovery Capacity Study, and distribute the approved document to local jurisdictions for implementation. Jurisdictions are encouraged to provide a closer review of the survey results, focusing on those Tier 1 and Tier 2 generators who did not respond to survey requests within their respective jurisdictions*

*It is further recommended that the Board encourage jurisdictions and food recovery organizations use the study findings and recommendations to coordinate interagency edible food recovery efforts. Funding to secure resources and staffing capacity would be necessary for, HWMA to undertake edible food recovery coordination and monitoring efforts as recommended in the report.*

#### **Task 4: Procurement**

The report was expected to review each jurisdiction's current use of recovered organic waste products (compost, renewable natural gas, mulch, etc.), amounts required to be used annually, as well as the required use of recycled paper products and postconsumer fiber, and an analysis and recommendation on what each jurisdiction must address to achieve SB1383 procurement compliance.

The consultant provided target tonnages for "Organic Waste Product Procurement" for each jurisdiction based on population, and the remainder of tasks remains incomplete.

#### **Task 5: Waste Management Fee Structure**

Deliverable was not produced as funds were reallocated to complete Tasks 1 & 2.

#### **FISCAL IMPACT:**

Funding for consultant costs were provided primarily by contributions from each jurisdiction, and a contribution by HWMA. The allocated budget of \$156,035 for this effort was exhausted in June of 2022 resulting in some tasks remaining incomplete.

## 1.0 Introduction

Edgar & Associates (EA) and Abound Food Care (Abound), or The Team, were contracted by Humboldt Waste Management Authority (HWMA) to complete an Edible Food Recovery Capacity Study, to fully assess the regional capacity of edible food recovery for the jurisdictions located in Humboldt County as required in the Short-Lived Climate Pollutants regulation (SB 1383). The Capacity Study includes an in-depth survey of local non-profits, including Food for People, a survey of Tier 1 and 2 generators, and a detailed roadmap and recommendations for Humboldt County to assist their member jurisdictions with SB 1383 compliance and build a resilient food recovery model in the region.

### Approach to Meeting Contract Tasks

Abound approached these tasks with three clear goals in mind:

1. To identify the resources needed to meet requirements of SB 1383.
2. To effectively recover excess edible food to reduce food insecurity; and,
3. To provide a roadmap for all stakeholders in the region that ensures the transparent and responsible use of funds.

The Team worked to gather as much information as possible through surveys, interviews, data requests, and site visits. This report represents a snapshot of the current programs that are in flux from the significant impacts of the COVID-19 pandemic and the current SB 1383 regulations. The stakeholders in the County should view this report as a starting point. This report should be revisited in accordance with the guidelines provided and measured against the success produced from the initial short-term goals. HWMA and its member jurisdictions should continue to build upon the program as necessary to meet these fundamental goals as the region adapts and changes.

### 1.1 Contract Tasks and Deliverables

Task	Task Description	Deliverable
1	Tier 1 and Tier 2 Edible Food Waste Generator Compliance Assessment	List of Generators and Call Log in Appendix C
2	Food Recovery Agencies and Organizations Capacity Assessment	List of Food Recovery Organizations in Appendix B
3	Develop and Advise on Policies, Funding, Contracts, Ordinances	Funding Recommendations in Section 8, Food Donation Agreement linked in Section 7, Ordinances Completed by E&A
4	Develop Monitoring, Reporting, Recordkeeping and Compliance Programs	Summary of Data Provided in Throughout Report
5	Develop Outreach and Education Plan	Summary of Education Plan in Section 7
6	Strategic Plan for Edible Food Recovery	Summary of Data Provided in Throughout Report

## 1.2 Summary of Survey Findings and Program Recommendations

Edible food recovery, with the expressed goal of reducing food waste and food insecurity, is still in its infancy within the state of California and Humboldt County. Some variables include possible future regulatory interpretation, changing the implementation of SB 1383, and additional regulations that may further increase stringency around food waste disposal. It is Abound's goal to assist Humboldt County with meeting SB 1383 requirements now and establish a long-lasting program that will tackle food insecurity within the County. It is important to develop the infrastructure, tools, and solutions needed to protect the planet and make excess edible food an effective resource in the effort to reduce the costs and chronic health effects associated with food insecurity. Additionally, developing a sustainable edible food recovery model now will allow Humboldt County to prepare more stringent regulations in the future, which are in line with the current trend of how California is mitigating greenhouse gases.

Effective planning in the near-term should focus on achievable short-term goals that help to build resilience and metrics of the program, with a focus on SB 1383 compliance requirements. Long-term goals can be better identified over time, through the analysis of metrics and response of the food recovery networks to the investment in infrastructure and support. Until long-term goals are fully established, Abound recommends focusing on near-term planning and goal setting to meet the initial requirements of SB 1383 and develop a regional program. The goals and recommendations in this report should be viewed as a 'living' portion of the document that can be updated over specific intervals of time to meet the long-term goals.

Through our research, survey responses, field visits, and an analysis of the available data provided to us, Abound has identified a number of challenges that exist in developing a strategic path to edible food recovery and an associated shared cost. These factors and challenges included the following:

### 1.2.1 Survey Findings

1. Humboldt County has one major urban area where the remainder of the county is rural. There are several pantries located in the urban area with capacity to receive more food donations. The rural areas of the County have limited pantry locations which create some logistical challenges.
2. We feel there is a need for further detailed data to better identify where the pockets of food insecurity exist in the County by neighborhood. This goes beyond the generic data provided in common regional food insecurity data such as Feeding America's "Map the Meal Gap<sup>1</sup>." Infrastructure requirements for pantries will be different in regions where food must be stored for longer periods of time. This information would assist in defining the best areas for capacity growth and augmentation of the existing logistics infrastructure
3. Food generators identified that while they are participating in a food donation program, they would like to see a future program have better tracking capabilities, education of what types of food is accepted and a larger capacity to receive food.
4. Generators reported that they 'had no available food for donation'. Although this could be true, it could also be indicative they need a higher level of training and confidence on what might be donatable to a non-profit. This idea was also echoed by generators in our discussions as a need as well. A generator, such as a grocery store, will have excess food at some point in its supply chain that can be donated for food recovery. For example, product that is delivered in error to a store location cannot be returned to the distributor. Even if a store has achieved 'zero waste' in

---

<sup>1</sup> Although widely used, Feeding America's Map the Meal Gap provides general information, but is not kept up to date nor does it provide details needed to understand food insecurity, by City or neighborhood, within a County.

their own operations, likely there will still be opportunities to donate food through these circumstances. Additionally, SB 1383 requires robust documentation of a qualifying generator's food waste, and the jurisdiction is required to monitor commercial edible food generator compliance. Should a generator claim they 'had no available food for donation', they would need to provide proof in their enforcement audit, where their compliance cannot be based off of a response to a survey question.

5. Food for People assists food pantries with most of their logistical needs. Food pantries have limited resources to provide pickups to the food generators. Food for People has the ability to provide pickups to food donors 5 days a week whereas food pantries typically utilize volunteers to pick up at an average of 2 times a week.
6. Several pantries have expressed they can receive more food and add more food donors to their routes however the total amount of capacity that can be increased is relatively limited. The pantries will need additional support to manage an increase in donations, through a variety of means, which could help streamline their operations and expand donations further. Specifically, food recovery organizations expressed needing additional staff and volunteers to pick up the food donations. This shows us that most of the food donations are picked up in standard vehicles through their volunteer networks.
7. The 38 actively confirmed non-profit pantries that identify as currently conducting food distribution or food services vary in capacity. They range from managing 50 pounds to 2,000 pounds a month and work out of a range of locations including a closet, a church, community center, or warehouse. All food recovery organizations are non-profits and listed 501(c)3s.
8. Non-profit pantries are often working with limited staff and are heavily reliant on a volunteer base contributing to challenging communication and inconsistent degrees of effectiveness. This has been made more challenged by COVID that upended their operations.
9. 81% of the food pantries survey provided estimates of the pounds recovered. Partner pantries of Food for People must track the amount of food they are receiving and report that to Food for People. It appears that the pantries recovering outside of Food for People are not accurately weighing their food donations.
10. The food pantry network does not currently used a food recovery software program however several food pantries responded that they could use a software platform to assist in their operations.
  - a. Food for People does utilize Fishbowl, an inventory management system. They do not use Meal Connect; a food recovery software program developed by Feeding America but would be open to learning more about it in the future.
11. Food pantries report very limited space at their operations. This impacted their on-site storage and refrigeration space.
12. Staffing and volunteer shortages were identified as a huge challenge the food pantries are facing. This has limited the ability to increase food recovery in the region.
13. 50% of non-profit pantries have no plans for expansion. Significant barriers identified by pantries at large was funding for expansion.

14. Food recovery from Tier 2 donors is disproportionately more difficult than food recovery from Tier 1 donors and yields less usable product. For example, there are more prepared food items which significantly limits the number of non-profits that can provide service to them. There is also less food per pick-up, where the logistics burden is higher for less total food received.
15. Additionally, Tier 2 food donations pose a significantly higher food safety risk because much of this food is hot, and it is more difficult to maintain food safety through the hot food chain. This will require more training and outreach to staff on how to safely manage the food. Along with the reality that there is comparatively higher staff turnover in Tier 2 establishments, which leads to the need for greater education and outreach than that of Tier 1 donors, Tier 2 compliance will be a challenge.
16. Food for People is currently operating out of multiple leased locations. This current way of operating has been challenging for the food bank as they have experienced space, storage, and logistical limitations. They are planning to move into their new building location which should assist in alleviating these challenges created by operating out of multiple locations. They are hoping to move in at the end of 2022.
17. There was strong support of expanding food safety training programs for the non-profit partners.
18. Environmental Health is open to assisting with outreach and education. More discussions need to take place to evaluate whether Environmental Health has the bandwidth to assist in monitoring and inspecting edible food generators for compliance.

### 1.2.2 Summary of Program Recommendations

Given the phased SB 1383 requirements and the reality that pantries and the community are in a state of adjustment from COVID back to regular business operations, a phased goal setting approach allows Humboldt County to evaluate their program, track metrics for success, and adjust as needed (Our funding suggestions match these strategies and are presented in Section 8). Abound has determined that a short-term plan (12-24 months) with the expressed focus of bringing Tier 1 generators into compliance and preparing for Tier 2 compliance, and a long-term program (post 24 months) is the most prudent next steps.

#### **Short-Term Strategy (12-24 months)**

##### **Food for People**

- Abound recommends supporting Food for People in the administration and onboarding of Tier 1 generators, on-site evaluation of pantries that are required to service the Tier 1 generators and general donor management.
- Abound also recommends providing funds to Food for People for a warehouse position to assist in sorting and managing the increase volume of food donations coming into their warehouse.
- In addition, Abound recommends providing wages for a driver and refrigerated box truck to assist in onboarding these generators.
- Food for People is working to consolidate their facilities, where our long-term funding program and earmarked items will support their efforts.
- An investment in an electrical pallet jack with a scale and various supplies including thermometers, thermal blankets and digital scales will increase the food bank's ability to operate efficiently.

## **Pantries**

- Based on our initial analysis of the pantry responses Eureka Rescue Mission, Southern Humboldt Resource Center, Yurok Food Distribution, Arcata House Partnership and the Food for People Distribution sites are likely to be valuable participants that could be used quickly and efficiently to enhance food recovery in the region. Abound recommends supporting these pantries in their efforts.
- Specifically, the County should consider funding programs that assist with alternate cold storage funding, logistics funding and operations, and inclusion of a refrigerated van, scales, and supplies.
  - Cold storage could include the purchase, rental, or lease of portable cold storage units as the pantries need additional cold storage but are restricted by space limitations.
- Additionally, the County should invest in a third-party, on-site food safety training and auditing program. This will further enhance food safety efforts as the pantries are responding to an increase in tonnage from the Tier 1 and 2 donors in a responsible and safe way. This has proven to be an effective strategy to update pantry needs that are identified when the auditors are on-site.
- A backup generator was requested by Southern Humboldt Resource Center due to the power outages they have been experiencing from past wildfires in the area.
- The pantry network relies heavily on the volunteer networks to pick up food donations. In order to ensure that the volunteer have the supplies necessary, Abound recommends providing Food Recovery Kits to each pantry for volunteers to use on their food runs. These kits include supplies such as thermometers, freezer bags, and freezer blankets.

## **Overarching Program – Short Term**

- Abound recommends the County identify an independent Food Recovery Administrator to manage the Food Donation Program and assist with onboarding Tier 1 and Tier 2 food generators as well as identifying needs of the food recovery network as the program expands. The Food Recovery Administrator will also be responsible for the education of the food pantries as to why tracking and reporting is important, not only for SB 1383 compliance but also for their operational efficiencies. They will also be responsible for facilitating the collaboration between the public, private, and nonprofit partners to ensure maximum program effectiveness.
- A Food Safety Program is a critical component of a successful food recovery program. This training ensures that the product Tier 1 and Tier 2 generators donate is handled safely to avoid foodborne illnesses or other damage resulting from improperly managed food. This will ensure that all participants, public, private, and non-profit, will be provided brand and liability protections when they participate in edible food recovery.
- Abound has identified that there is a need for cold storage capacity in the food pantry network. We recommend providing on- site refrigerators and freezers to help close this infrastructure gap. However, there is also a need for alternate cold storage facility solutions due to the limited space at food pantry locations. Alternate cold storage will provide a stopgap that will assist pantries in recovering the increase of edible food from Tier 1 generators.

## **Long-Term Strategy (+24 months)**

### **Food for People**

- Abound recommends earmarking long term funding for a Program Coordinator to administer contracts, coordinate the donations from Tier 1's and select Tier 2s , and communicate with the pantry network on their operations as new food donors implement their food donation programs.
- Additionally, providing funding for a driver to assist in the increased logistical aspect of the program will relieve pressure on the food pantry network.
- A warehouse position will also assist in the sorting and management of inventory in the long term, helping the food bank be as efficient as possible.

### **Food Repurposing Kitchens**

- The development of a food repurposing kitchen will fill the gaps of large-scale bulk product which is expected to increase. Locations for the expanded kitchen program will need to be identified based on the areas of need and willing kitchen partners.
- An investment of \$125,000 will be necessary to provide the kitchen with the equipment and supplies needed to begin production of nutritious meals.
- The Food Repurposing Kitchen will need a coordinator to oversee the operations, assist in procuring product, and manage the distribution to the food pantry network.

### **Overarching Program – Long Term**

- While Food Recovery Software is critical in the development of a successful food recovery program, more research and development are needed to assess which platform will fit the County of Humboldt's needs the most. The software will focus on the recovery from Tier 2 generators and provide coordination and logistical assistance for the higher volume of businesses that must participate in food donation. The 24-month timeline to implement a food recovery software will allow for appropriate vetting and perhaps time for the industry to move to a user base fee structure which will allow more flexibility in the system.
- The implementation of logistics solutions and expanded cold storage capacity, both through refrigerators and freezers as well as alternate party cold storage solutions, are essential to the long-term success of a food donation program and adds to the ability to increase the capacity to recover more food.

## 2.0 Short-Live Climate Pollutants – Edible Food Recovery Regulations

In 2016, Californians decided to act against global warming and the greenhouse gases that cause it. The State passed SB 1383, which is a bill designed to reduce methane emissions, that are produced in large part from the decomposition of organic waste in our state’s landfills. The goal of SB 1383 is to reduce the amount of organic waste to 25% of what was buried in 2014 by the year 2025. Some of the most ambitious and important considerations of the law are the food rescue requirements. The law mandates that 20% of all edible food that is being sent to landfills be intercepted and used to feed those who are food insecure. This not only provides nutrition, especially for those who are most in need, but it also prevents food from entering landfills and creating methane.

### Generators Must be “Primarily Engaged” in Sale of Food

p. 54 of SLCP Regulation (30) “Grocery store” means a store primarily engaged in the retail sale of canned food; dry goods; fresh fruits and vegetables; fresh meats, fish, and poultry; and any area that is not separately owned within the store where the food is prepared and served, including a bakery, deli, and meat and seafood departments.

Primarily engaged can be determined through the percent of the total square footage dedicated to the sale of food or the percent of total revenue generated through the sale of food.

### SB 1383 Edible Food Recovery Guidelines

Under SB 1383, CalRecycle has set a goal of intercepting 20% of the edible food that is currently being taken to landfills, and instead, ensuring that it reaches people<sup>2</sup>. To meet this goal, SB 1383 regulations have placed requirements on businesses that generate sufficient amounts of edible food waste and require them to establish food rescue programs. The food rescue regulations start in 2022, with the largest generators, known as “Tier 1” generators, which include large food distributors, larger grocery stores, and supermarkets. By 2024, the regulations expand to cover large restaurants, hotels, schools, large events, and hospitals. This second wave of covered businesses are known as “Tier 2” generators. As a first step toward compliance, CalRecycle has asked each jurisdiction to evaluate the ‘capacity’ of current food recovery infrastructure and its ability to manage bringing Tier 1 and Tier 2 businesses into compliance. This evaluation is due to CalRecycle in August 2022 but has been completed here to ensure that Humboldt County can take the important steps necessary to meet the compliance requirements of SB 1383.

Tier 1 Donors Required to Send Surplus Food to Food Organizations Starting January 1, 2022, including;

- Supermarkets with revenue ≥ \$2 million;
- Grocery Stores with Facilities ≥ 10,000 sq. ft.;
- Food Service Providers;
- Food Distributors; and
- Wholesale Food Vendors.

---

<sup>2</sup> Note that Edible Food Recovery targets are not based on a 2014 baseline. Instead, targets are measured from existing disposal estimates.

Tier 2 Donors Required to Send Surplus Food to Food Organizations Starting January 1, 2024, including;

- Restaurants with Facilities  $\geq$  5,000 sq. ft. or 250+ seats;
- Hotels with an On-Site Food Facility and 200+ Rooms;
- Health Facilities with an On-Site Food Facility and 100+ Beds;
- Large Venues and Events;
- State Agency Cafeterias with Facilities  $\geq$  5,000 sq. ft. or 250+ seats;
- Local Education Agency with an onsite Food Facility; and
- Non-Local Entities.

**Edible Food Recovery Network:**

Historically, non-profit organizations have been responsible for edible food recovery from businesses who have voluntarily chosen to donate their food. At the center of the organizational networks are large food banks, operating as the main distribution centers, moving pallets of food in and out of their operations. Food banks help support the bulk of the logistics for the network, conducting or coordinating most food collection and contracting with major chain businesses for the collection of their food. Smaller non-profits depend, sometimes exclusively, on the food banks for food to provide to their patrons. Although food recovery has been in practice for many years, it does not represent the bulk of the food that moves through these networks. Adding a layer of complexity to this network is the competitive nature that exists between the organizations, who all rely on the same pool of resources (funding, volunteers, and food). Instead, Abound has been working to build a more resilient, efficient and sustainable model for food recovery. Central to the approach is building relationships, shared logistics and greater levels of collaboration between the organizations. This can be achieved by providing oversight of the network through an independent organization, that brings non-profits together, standardize reporting expectations and providing strategic funding to assist the network in achieving recover goals. Below is an image of the recommended model for building an efficient and sustainable food recovery network, where Humboldt County with Abound Food Care would fill the role of Food Care Oversight.

# Building a More Efficient Model

Using Oversight of Food Recovery to Enhance Resilience and Sustainability

## 2.1 Jurisdictional Requirements

The jurisdictions must be prepared to comprehensively meet the requirements of SB 1383. The key points of the food rescue requirements are monitoring, outreach, program deployment, and reporting.

**Monitoring:** A list of businesses that must comply with the edible food recovery requirements are presented in this report. These businesses fall into the “Tier 1” and “Tier 2” categories, which must begin rescuing food by 2022 and 2024 respectively. These lists will become the basis for outreach and implementation of food rescue plans. For businesses that assert they do not require compliance, the jurisdictions must require some burden of proof from the generator why they do not fall into the definitions of Tier 1 or 2.

**Outreach:** Jurisdictions must work with Tier 1 and Tier 2 businesses to ensure that all the businesses required to donate food under this law are well-equipped to do so. The jurisdictions must see to it that all these businesses receive print, verbal, and digital outreach informing them of how to comply with the law, where to find food rescue partners, and potential penalties for refusing to participate in the program. There

could be an opportunity for Humboldt County’s Health Department to conduct the enforcement/inspections on Tier 1 and Tire 2 generators, which should be further explored.

**Reporting:** Jurisdictions must be fully prepared to track its efforts, as well as capacity planning reporting, and all other reporting requirements under SB 1383. Reporting programs must be developed by working closely with food banks, pantries, businesses, and the local community to acquire the needed information for its reports to CalRecycle.

CalRecycle’s SB 1383 regulations provide key definitions as follows:

**California Code of Regulations**  
**Title 14, Division 7, Chapter 3**  
**Article 6.0. Transfer/Processing Operations and Facilities Regulatory Requirements**

13    (24) “Food recovery” means actions to collect and distribute food for human  
14    consumption which otherwise would be disposed.  
15    (25) “Food recovery organization” means an entity that engages in the collection or  
16    receipt of edible food from commercial edible food generators and distributes that  
17    edible food to the public for food recovery either directly or through other entities  
18    including, but not limited to:  
19    (A) A food bank as defined in Section 113783 of the Health and Safety Code;  
20    (B) A nonprofit charitable organization as defined in Section 113841 of the Health  
21    and Safety code; and.  
22    (C) A nonprofit charitable temporary food facility as defined in Section 113842 of  
23    the Health and Safety Code.  
24    (26) “Food recovery service” means a person or entity that collects and transports  
25    edible food from a commercial edible food generator to a food recovery organization  
26    or other entities for food recovery.

### 3.0 Current Food Recovery Landscape in Humboldt County

It is critical to understand the current landscape of the current food recovery network and the dynamic between the food bank, food pantries and the county in order to provide a useful assessment on how to improve the food recovery network to be compliant with SB 1383. It is important to also identify which nonprofit pantries stand out in terms of their ability to increase their capacity to service Tier 1 and Tier 2 generators. This is assessed though discussions with the Food for People Food Bank, food pantries, and the data gathered in our surveys. There are several pantries in Humboldt County that we have identified

as being able to increase their capacity with additional support. We have provided a list of the pantries we surveyed in Appendix B and listed the pantries that could increase their capacity in Section 6.

Humboldt County has 39 confirmed active pantries and one food bank, Food for People, which service the county as a whole<sup>3</sup>. Food for people is a Partner Distribution Organization of Redwood Empire Food Bank an affiliated partner food bank of Feeding America. Food donors that have a relationship with Food for People are serviced in two ways. The first being that Food for People pick up food donation from the food donor and either deliver it to their partner food pantries or take it back to their warehouse locations to sort the product for pickup by the food pantry network. Another way the food donors are serviced is Food for People connects the food pantry with the donor and coordinate with the pantry on pickup dates and times. The pantry will pick up the food donation and take it back to their agency location for distribution to their clients. Though our survey, it appears that most of the food donations in the County are coordinated through the food bank, who assist with the administration, tracking and agreement components of the operations.

In our discussions with Food for People they identified that they typically handle pallet sized quantities of food whereas Tier 2 generators quantities are typically by the case. The food bank did say they may be open to assisting with Tier 2 generators in the future but with boundaries. They will not be able to recover any prepared food donations. There are a large number of Tier 2 generators that need to be brought into compliance based on our data gathering surveys. There are opportunities in the County for food repurposing kitchens in the long term and some pantries have indicated that are able to take prepared foods, the required compliance lift for Tier 2 generators is significant. This makes supporting those pantries that have expressing willingness to participate and looking into building repurposing kitchens essential to assisting Tier 2 generators.

Through our discussions with the food pantries, food bank and County it is apparent that everyone wants to participate in food donation as much as they are able. There is a willingness to collaborate and work together that we have not seen in other counties. The rural makeup of the County does present challenges but through the collaboration and support of the county, these challenges can be mitigated. Jurisdictions are taking steps to educate and outreach to their Tier 1 and Tier 2 businesses on the regulation of SB1383. For example, the City of Eureka hosted an educational event where every Tier1 and Tier 2 generator was invited to participate. They went through what SB1383 was, the regulations and what was needed to be compliant. They recorded this event to be able to share with generators that were not able to attend and potentially with other jurisdictions and their businesses.

Abound has had a discussion with the County's Environmental Health Department to discuss how they would be willing to participate in SB 1383. We discussed the opportunity for Environmental Health to assist in outreach, which could include information on health inspection sheets stating that food donation is encouraged by Environmental Health. This could also include collaborations on outreach materials between the Cities and Environmental Health educating on SB 1383 as well as letting businesses know that food donation is, again, encouraged by Environmental Health. More discussions need to be had with Environmental Health to determine whether they have the staff and ability to assist with compliance inspections. More outreach strategies and materials are detailed in Section 7.

---

<sup>3</sup> Note that only 28 food pantries responded to our request for surveys, but The Team confirmed there are 38 active pantries in Humboldt County.

## 4.0 Capacity Evaluation

The capacity evaluation aims to address two questions: 1) What is the projected amount of edible food produced from all Tier 1 and Tier 2 generators?<sup>4</sup> 2) Does the current network of food recovery agencies have the available infrastructure to manage the edible food? If the assessment determines there is a gap, and that the current infrastructure will not be sufficient to collect all available edible food from Tier 1 and Tier 2 generators, based on these calculations, then jurisdictions must provide a plan to ensure that gap is closed.

### 4.1 Estimation #1 Disposal Based Method

The most straightforward means of estimating the amount of edible food available for recovery within a jurisdiction is to extrapolate from disposal figures using a waste characterization. Specifically, this estimation uses the most recent CalRecycle Disposal Reporting Service<sup>5</sup> records of tons of material disposed, and the “2018 Facility-Based Characterization of Solid Waste in California<sup>6</sup>” released in May 2020. From these figures the following food waste estimates are obtained:

In 2019, the most recent year for which data is available, Humboldt County Disposed of **105,435 tons<sup>7</sup>** of waste. This figure is provided by CalRecycle and is based off the most up-to-date information from Electronic Annual Reports.

The 2018 Waste Characterization finds **2.84% of** waste is edible food. As such, Humboldt County is disposing of **3,588 tons** of edible food. CalRecycle is seeking to recover 20% of the potentially donatable tons from current disposal by 2025. At current rates, this would suggest rescuing at least **718 tons of food per year**.

### 4.2 Estimation #2 – Business Based Method

Another approach to estimating the amount of food waste considers the individual businesses that would be subject to SB 1383 edible food requirements. These businesses are identified, then the amount of food waste each may generate is estimated using sector-specific waste characterizations. Currently, this analysis is done using publicly available data from several different sources. Abound performed this evaluation and provided the number of Tier 1 and Tier 2 generators.

This method suggests that covered businesses generate **1,590 tons** of food waste of which **348 tons** are edible. Commercial Food waste is estimated to be slightly more donatable than the overall food waste stream at **21.9%** recoverable.

#### 4.2.1 Estimation #2 – Methodology

The CalRecycle Commercial Sector Waste Characterization provides sector-specific estimations of how many pounds per employee of waste is produced by each business type. The results of this analysis are

---

<sup>4</sup> Note that the 20% food recovery goal is not used to assess capacity. Capacity is assessed based on the number and type of Tier One and Tier Two generators in the jurisdiction.

<sup>5</sup> <https://www2.calrecycle.ca.gov/LGCentral/DiversionProgram/JurisdictionDiversionPost2006>

<sup>6</sup> <https://www2.calrecycle.ca.gov/Publications/Details/1666>

<sup>7</sup> <https://www2.calrecycle.ca.gov/LGCentral/DisposalReporting/Origin/CountywideDetail>

provided in the table below. Food waste is the waste type used for this analysis. **Appendix A** provides the complete list of each of these generators and their estimated generation.<sup>8</sup>

**Table 1: Food Waste Generation by Business Type**

Business Type	Pounds per Employee per Week
Arts and Education	33.07
Durable Wholesale/Trucking	2.31
Education	5.59
Hotels	21.25
Electronic Equipment	1.35
Food and Nondurable Wholesale	18.63
Manufacturing	1.21
Medical and Health	5.57
Public Administration	2.11
Restaurant	46.89
Food Stores	19.33
Retail Trade	14.79
Services (Management & Administration)	7.07
Services (Professional)	5.92
Services (Repair and Personal)	2.69
Other	3.08

CalRecycle’s 2018 Waste Characterization provides an update to the earlier waste characterization and suggests that 22% percent of food waste is edible. This percentage is applied to the amount of food waste generated, based on the number of employees.<sup>9</sup>

Businesses are listed under the North American Industry Classification System (NAICS). This data is sourced through ReferenceUSA, which aggregates NAICS data with employment statistics from the Employment Development Department. This data provides contact information for each business in a jurisdiction, the type of business it is (e.g., grocery store, restaurant, wholesale food distributor), and an estimated range of the employees at the location. The employee count is the basis for estimating the size of the business.<sup>10</sup>

#### 4.2.2 Calculation of Tonnages – CalRecycle Guidance Documents

To determine the availability of new tonnages of edible food waste, the employment numbers are estimated for each Tier 1 and Tier 2 generator, using data provided by the NAICS. These employment numbers are multiplied by the pounds per person per week waste generation data provided by the

<sup>8</sup> CalRecycle - 2014 Generator-Based Characterization of Commercial Sector Disposal and Diversion in California – September 10<sup>th</sup>, 2015.

<sup>9</sup> CalRecycle - 2018 Disposal-Facility-Based Characterization of Solid Waste in California – 5/15/2020. <https://www2.calrecycle.ca.gov/Publications/Details/1666>

<sup>10</sup> Reference USA - <https://referenceusa.com/Account/LogOn>

CalRecycle Commercial Sector Waste Characterization Study. The edible food waste from each eligible Tier 1 and Tier 2 business is summed. Each businesses' eligible food is calculated as follows:

**1) Estimate Employees at Business:**

$$\text{Estimated Employees} = (\text{Employee Range Low} + \text{Employee Range High}) \div 2$$

(e.g., Employee Range: 10-19:  $2(10+19) \div 2 = 14.5$  employees)

**2) Calculate Annual Food Waste at Business:**

$$\text{Food Waste (TPY)} = \text{Employees} \times \text{Food Waste Pounds per Employee Per Week} \times 52 \div 2000$$

**3) Estimate Amount of Edible Food Waste at Business:**

$$\text{Edible Food Waste (TPY)} = \text{Food Waste} \times 22\%$$

**4) Repeat and Sum for each Tier 1 and Tier 2 Business:**

Once summed, this is the estimate for edible food waste generated by SB 1383 covered businesses. Note this amount will be affected by participation rates of each business. In addition, the Waste Characterization analysis is based on a statewide level and may not accurately represent the individual member jurisdiction. Using the CalRecycle calculator guidance, it estimates the Tier 1 and Tier 2 generators to produce the following about of edible food per year:

**Table 2: Recoverable Food Tons by Tier 1 and 2**

Category	Recoverable Food Tons per Year	Recoverable Food Pounds per Year
Tier 1 - TOTAL	792	1,584,000
Tier 2 - TOTAL	798	1,596,000
<b>TOTAL:</b>	<b>1,590</b>	<b>3,180,000</b>

### 4.3 Estimation #3 – Food for People Data

Abound has interviewed and submitted data requests to Food for People to better understand their current operations and gather baseline food recovery data. Food for People is actively collecting food from Tier 1 and Tier 2 generators, where these tonnages have been estimated from their current collection program. Food for People estimates that annually 336,000 – 500,000 pounds of food was collected a year from Tier 1 and Tier 2 generators. Based on the survey of Tier 1 generators at least 18 Tier 1 generators are working with Food for People. This equates to an annual collection of 18,666 lbs. per donor per year. This data can be extrapolated by multiplying it against the number of Tier 1 and 2 donors that require compliance to estimate the total potential pounds of food that must be recovered. It is important to note that this method has inherent conservancies as many Tier 2 donors will be donating significantly less food than its Tier 1 counterparts.

**Table 3: Estimated Pounds of Additional Recovered Food from Tier 1 and Tier 2**

Tier	Number that Requires Compliance	Estimated Edible Food
Tier 1	26	485,316 pounds
Tier 2	120	2,239,920 pounds
Total	146	2,725,236 pounds

## 4.4 Summary of Capacity

These data do not provide exact numbers, however CalRecycle provides jurisdictions the ability to use best available information to estimate these numbers where the CalRecycle tool is provided as a guide. The table below provides a summary of the data.

**Table 4: Summary of Total Estimated Edible Food from all Generators**

Calculation Option	Source of Calculation	Estimated Edible Food from all Generators
Option 1	Based on Disposal Amounts	1,436,000 pounds
Option 2	Generator Based Tonnage Assessment	3,180,000 pounds
Option 3	Food for People Collection Data Extrapolation	485,316 pounds (Tier 1 only) 2,725,236 (Tier 1 and 2)

Ultimately each jurisdiction must use a number that best reflects the actual amount of edible food within the jurisdiction, to best plan for SB 1383 compliance. CalRecycle has stated that this is in initial assessment of capacity, and these numbers may be updated each year as more data becomes available.

## 5.0 Summary Tier 1 and Tier 2 Generator Survey

A critical component to understanding how much capacity is needed in a region is to identify the baseline of how many Tier 1 and Tier 2 generators are currently participating in edible food recovery and how many will require programs to be compliant. Abound surveyed all the potential Tier 1 and Tier 2 generators in Humboldt County to determine (1) if they fit the definitions of Tier 1 and Tier 2 generators per SB 1383, (2) if they participate in food recovery programs currently, (3) if they have extraordinary circumstances that may prevent the recovery of food, (4) how their food recovery program is going and (5) if they have on-site contracts with the food pantries.

### 5.1 Tier 1 and 2 Generator Survey Approach

The Team compiled a list of potential Tier 1 and Tier 2 generators where the survey questions assisted in further qualifying the Tier 1 and Tier 2 generators. The questions were also kept simple and concise as to not be overly burdensome and overwhelming, while still gathering important information to assess compliance. We want to ensure we are setting the tone for a positive relationship in the future so the generators that need to come into compliance collaborate with food recovery organizations well.

The surveys were conducted via telephone. Through our past experiences, this has proven to be more effective than email exchanges. These interviews aimed to guide generators through the basics of SB 1383 and the questions needed for the report. This was also an opportunity to answer any questions they may have had and ensure that there is sufficient follow up should the generator need multiple phone call attempts to be reached. Thorough notes were taken along with the answers to the survey questions that assisted in the assessments and final recommendations of this report. This information has been provided in Appendix C.

As The Team surveyed the Tier 1 and Tier 2 generators, certain generators explained that they did not qualify under the SB 1383 Tier definitions. Some examples of Tier 1 generators that did not qualify included nursery and gardening supply companies, beer distributors and animal feed companies.

Examples of nonqualifying Tier 2 generators include private schools, clinics with no on-site food service, restaurants that do not meet the size requirements of SB1383 and schools that do not have a cafeteria. Additionally, businesses must be ‘primarily engaged’ in the retail sale of food. Businesses such as Target, CVS, Rite Aid and Walgreens sell food, but there are not primarily engaged in the sale of food. (Note that locations such as Costco meet the requirements because the sale of food and food products is over 50% of their total building.)

## 5.2 Tier 1 and 2 Generator Survey Results

The survey of Tier 1 generators showed that as many as 54 generators are required to have food donation programs to be compliant with SB 1383. Of those, 33 are participating in food recovery programs and 21 will need to begin food recovery programs. Although the survey results showed that the majority of the Tier 1 generators were not aware of SB 1383, there were a decent percentage of generators that were familiar with the SB 1383 regulations. Generators identified barriers that have kept them from participating in a food donation program including a lack of excess edible food available for donation, composting their excess food, and repurposing their excess. These generators would benefit from targeted outreach and education on SB 1383 regulations, the benefits of donating their excess edible food and further awareness that food donation is allowed based on the California Retail Food Code (Cal Code).

**Table 5: Summary of Generator Results**

TIER 1:		TIER 2:	
Yes Participating	33	Yes Participating	44
Not Participating	10	Not Participating	53
Non-Responsive	11	Non-Responsive	33
<b>Total Tier 1 Generators</b>	<b>54</b>	<b>Total Tier 2 Generators</b>	<b>130</b>
Did Not Qualify	30	Did Not Qualify	83
Closed	11	Closed	23
<b>Total Generators Called</b>	<b>95</b>	<b>Total Generators Called</b>	<b>236</b>

The following table summarizes the number of Tier 1 generators by jurisdiction in Humboldt County.

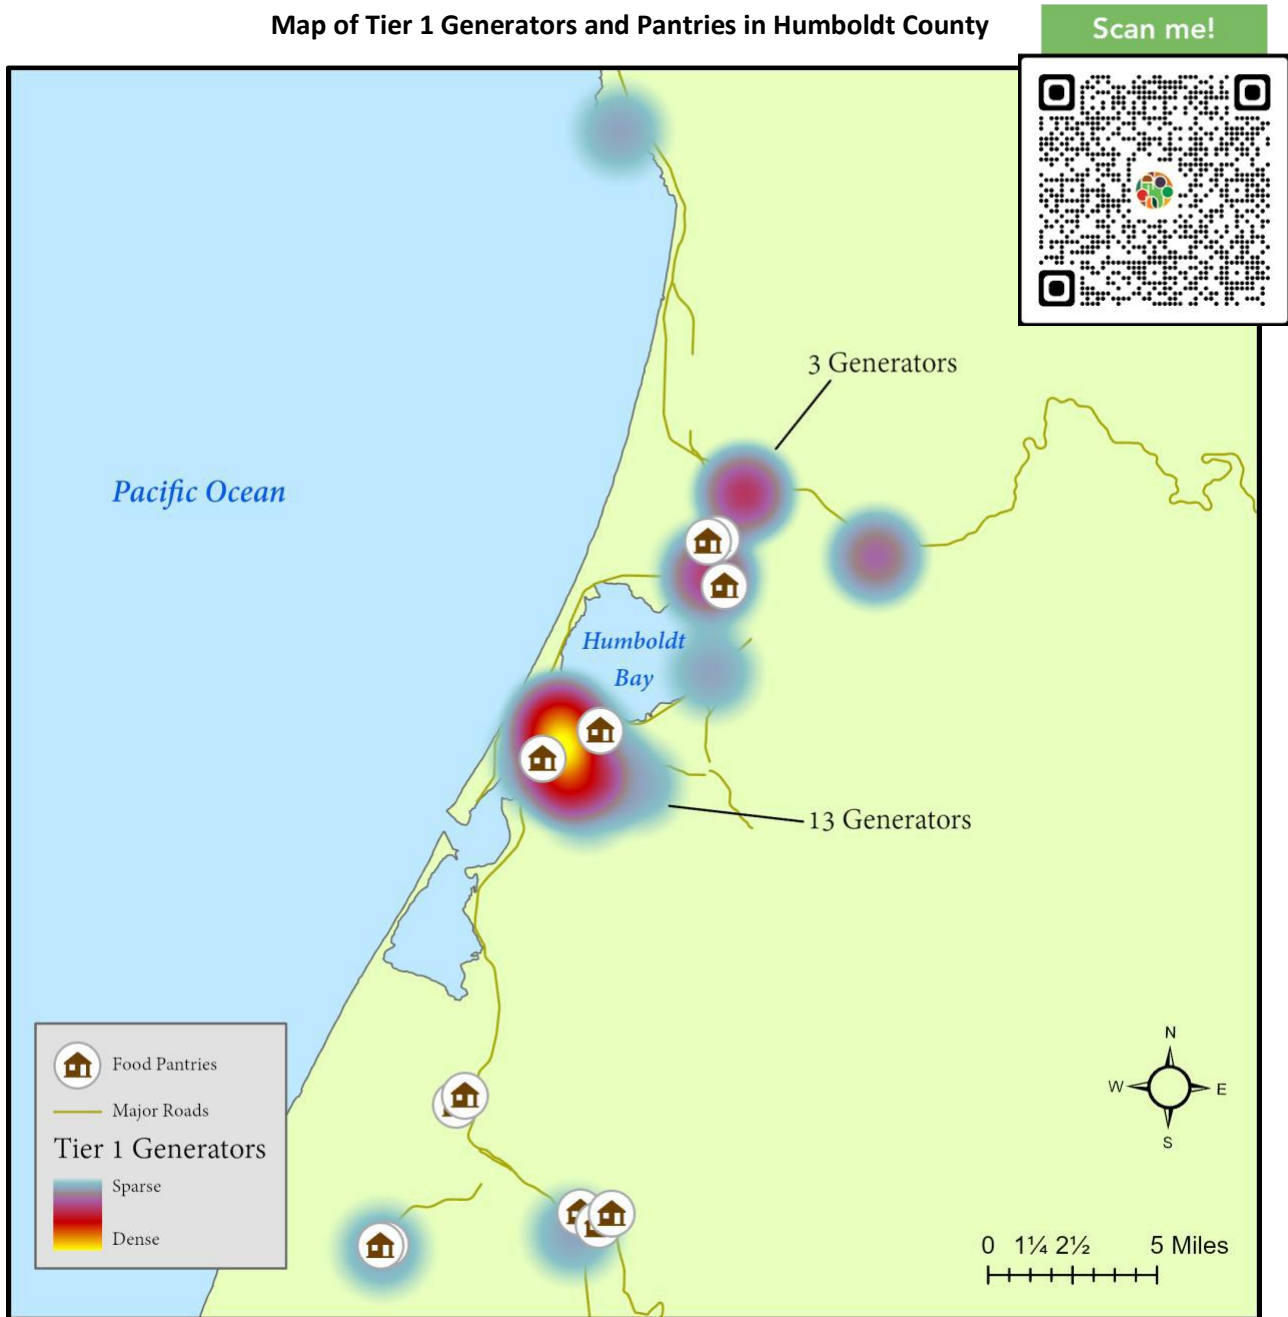

**Table 6: Tier 1 Generator Compliance Summary**

Jurisdiction	Participating	Not Participating
Eureka	12	13
Arcata	11	4
Fortuna	3	1
Humboldt Unincorporated Cities	6	0
Ferndale	0	1
Rio Dell	0	0
Trinidad	0	1
Blue Lake	1	2
<b>Total</b>	<b>33</b>	<b>21</b>

Abound has prepared an interactive map showing locations of Tier 1 and Tier 2 generators which can be accessed through the QR code below.

**Map of Tier 1 Generators and Pantries in Humboldt County**

# Map of Tier 2 Generators and Pantries in Humboldt County

Scan me!

Below are examples of Generators indicating the barriers or reasons for not participating in a food donation program. We have included various education strategies to encourage participation. Please see Appendix C for a summary of generator results.

**Table 7: Examples of Current Barriers to Participation**

<i>Abound's Survey Question: If you do not donate, what are the barriers or extenuating circumstances?</i>		
<b>Generator</b>	<b>Survey Answers:</b>	<b>Education Needed</b>
Hum Yum	<i>"Taking raw ingredients and turning them into various products. Very conscious of orders and often has little to no waste. If there are any excess raw ingredients ordered, then she takes them home for personal use."</i>	Education of SB 1383 requirements. The need for an agreement in place with a pantry.
Mad River Farm Kitchen	<i>"Compost excess food"</i>	Education on the benefits of food donation of edible food. .
Pacific Shellfish	<i>"Only have fish heads and guts leftover"</i>	Education on the requirements of SB 1383. They need an agreement in place with a pantry and can donate only when they have available excess edible food.
McKinleyville Union School District	<i>Currently Donates: "Would like to find pantries that are able to take larger quantities of food."</i>	Provide generators with a list of the pantries in their area and onboarding assistance from administrator to ensure pantries are a good fit for generators.

There were several identified Tier 1 generators that did not have food that was suitable for food donation such as beer distributors, coffee roasters and animal feed companies.

<b>Example Generators Not Suitable for Donation</b>	
<b>Company Name</b>	<b>Company Description</b>
C Ashdon Cider Inc	Cider beverage manufacturing company
Eel River Brewing	Beer Distributor
Gold Rush Coffee	Coffee Only
Nilsen Co.	Animal feed and grain company
South Fork Mountain Spring Water	Water distributor
Humboldt Extracts	Make vape juice

The survey of Tier 2 generators showed that 44 are participating in excess edible food donation programs as detailed in Appendix C. The majority of participating Tier 2 generators were schools. Additional outreach and education will need to be conducted to onboard the remaining Tier 2 generators and additional schools not participating in a food donation program.

We identified that 86 Tier 2 generators are not participating in a food donation program. There are 53 generators that confirmed they are not participating and 33 generators that were nonresponsive to our outreach efforts. The majority of businesses not participating are the remaining schools and a several restaurants. Many of the nonparticipating Tier 2 generators listed that they did not have excess edible food, have staffing challenges, identified that the students would bring the excess food home with them (schools), they compost their excess food, have COVID challenges, repurpose their excess into other usable items, and are in a location without food pantries.

The following table summarizes the number of Tier 2 generators by jurisdiction in Humboldt County.

**Table 8: Summary of Tier 2 Generators by Jurisdiction**

Jurisdiction	Participating:	Not Participating
Eureka	13	29
Arcata	13	12
Fortuna	0	15
Humboldt Unincorporated Cities	15	28
Ferndale	0	2
Rio Dell	3	0
<b>Total</b>	<b>44</b>	<b>86</b>

Usually, when establishments are participating in food donation, they are more likely to be responsive to the surveys. Many of those responding Tier 2 generators, who identified as not participating, do not see the importance of beginning food donation in 2022, as the SB 1383 regulations do not take effect for Tier 2 generators until 2024. While not uncommon, this lack of urgency made it challenging to gather the necessary information from the Tier 2 generators.

Responses to the survey and their answers have been provided in Appendix C. The Team made a minimum of 4 calls to the nonresponsive food generators to gather their food donation data. The results of the survey determined several key items.

1. Roughly half of both Tier 1 and Tier 2 generators were aware of SB1383 regulations. While the generators may have said they were aware of the regulations, many did note that their understanding was limited of how it would affect their business operations or only have a basic knowledge of the regulations.
2. The responses from the Tier 1 generators reflect a wide range of answers to whether they have agreements with the food pantries. They included that they do have agreements but not onsite, they were unsure, no agreements and yes, they have agreements.
3. A majority of the Tier 2 generators that are participating in a food donation program do not have a written agreement with the food pantry that they partner with.
4. Of the participating generators, it was reported that the programs were going well overall. There were comments of what generators would like to see change in the future. These include needing

a clearer understanding of food types accepted at their local pantries, wanting to find pantries that have larger capacity to receive food donations and better tracking procedures for pounds donated.

5. Although reports of limited or no excess food could be a reality for the operation, it could also be an indication that the generators do not have an understanding of their opportunities for donation. It is important through the implementation of SB 1383 that these generators are appropriately educated on opportunities to donate. In addition, for generators that do not have excess edible food, it is necessary that they provide ample documentation demonstrating this.
6. Generators identified barriers including excess food is composted, repurposed excess food into other food items and that staffing shortages may impede donation programs.
7. It is likely that many generators that are participating in edible food recovery are not donating all available food, where better reporting, education and infrastructure availability are necessary to confirm. This finding is based on our extensive experience in edible food recovery programs.

### 5.3 Tier 1 and Tier 2 Recommendations

Generator participation is a key component to establishing a successful food recovery network. There are several actions that Humboldt County can take to encourage successful participation.

1. Ensure that generators have contacts with their food bank and/or pantry onsite and the ability to track how much food they are donating onsite.
2. Encourage and promote discussions about more opportunities for participation and collaboration. For example, generators could share space, cold storage, transportation, and other underutilized resources.
3. Promote an outreach and education program for generators, so that they have a clear understanding of what is donatable and what is not. Additionally, promoting source reduction education could also help with the amount of food that is thrown away onsite. Some possible programs include feeding employees with nearing-end-of-life foods.

## 6.0 Survey of Food Recovery Participants

A critical part of the evaluation of a region's capacity to recover edible food is understanding the current food recovery programs in place, where there is availability to do more, and where infrastructure is needed to expand capacity. This is of particular importance to ensuring SB 1383 targets are met and for reducing waste to landfill and tackling food insecurity within the region. The Team surveyed all the food recovery non-profits within Humboldt County, understanding that non-profits do not work within the boundaries of a jurisdiction to gain a broad understanding of the current network which was vital to our programmatic recommendations offered in this report.

### 6.1 Food Recovery Agencies Survey Approach

The Team identified the potentially active food pantries through a couple of different methods. These included researching the nonprofit agencies through Humboldt County and word of mouth referrals through conversations with the food pantries during the surveys. It was important that The Team develop questions that covered a wide range of topics to provide a detailed understanding of the food pantries' operations. These questions include how much food each agency receives through food recovery, where that food was sourced, what is their current capacity, what infrastructure would be most helpful to their

current operations, what infrastructure would be helpful to increase their overall capacity to receive more food, and other notes pertaining to the non-profit operation.

The surveys were conducted through phone interviews to walk the participants through the questions, answer any questions they may have, and ensure there is adequate follow-up should the participant require multiple phone calls. Notes were made about each participant, where as much information as possible was gathered about the participants to assist in the assessments and final recommendations.

## 6.2 Summary of Pantries

Abound surveyed 49 potential food pantries where 12 were nonresponsive. Food for People confirmed 10 of the nonresponsive pantries are active despite being unable to reach them. Additionally, 9 were closed, discontinued service or do not currently have a food pantry. The remaining 28 food pantries responded to our survey via phone discussion. These responses have been listed in Appendix B. (Please note that documentation and detailed answers to the surveys have not been provided to protect the confidential nature of some of the responses). The survey was created to measure the current infrastructure of food recovery agencies as well as assist us in understanding the relationships between the food pantries and the food bank. We looked at ways the food pantry network could prepare for the Tier 1 and Tier 2 generators food donation implementation as well as ways to use funding in the most cost effective and impactful manner.

There are several key findings that were identified through the survey that have helped to inform the recommendations on how Humboldt County can progress in their efforts to maximize food recovery and track the efforts made in the County.

1. Many of the agencies did note that the number of pounds recovered was either unknown or an estimate by the organization. Food pantries should be accurately tracking how much food is being received through the use of on-site scales. Through education, food pantries who previously mentioned they do not need scales will see the operational benefits of tracking their food donations.
  - a) Of note, several generators also mentioned that they would like to see more accurate tracking of food donations and pounds recovered from the pantries they are partnered with. While the generators are responsible for donation logs that would include pounds, they are echoing the importance of tracking food donations.

### Question 2

Is this an estimate or range?

### Question 10

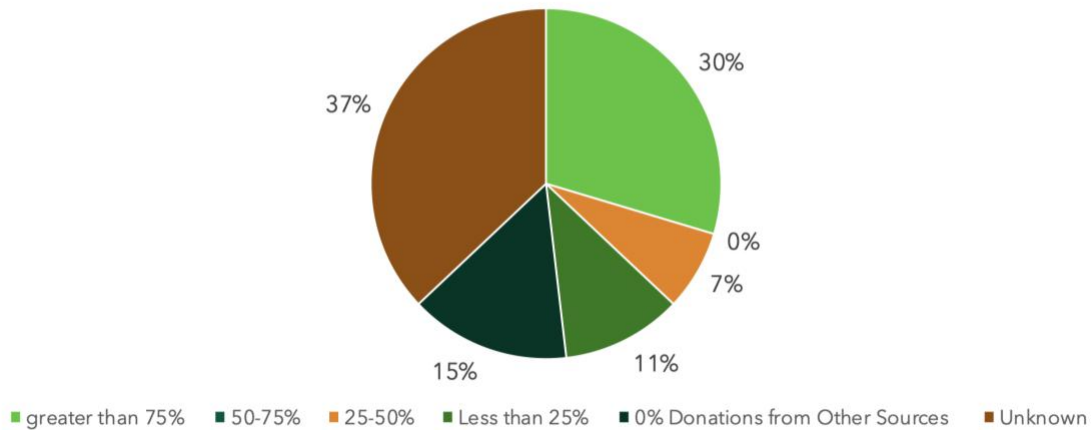

Do you need resources to accurately weigh recovered food? Scales? Pallet jacks with scales?

2. Many of the food pantries responded that they were working heavily with the food bank or other nonprofit to receive their food. This is likely referring to Food for People.

### Question 3

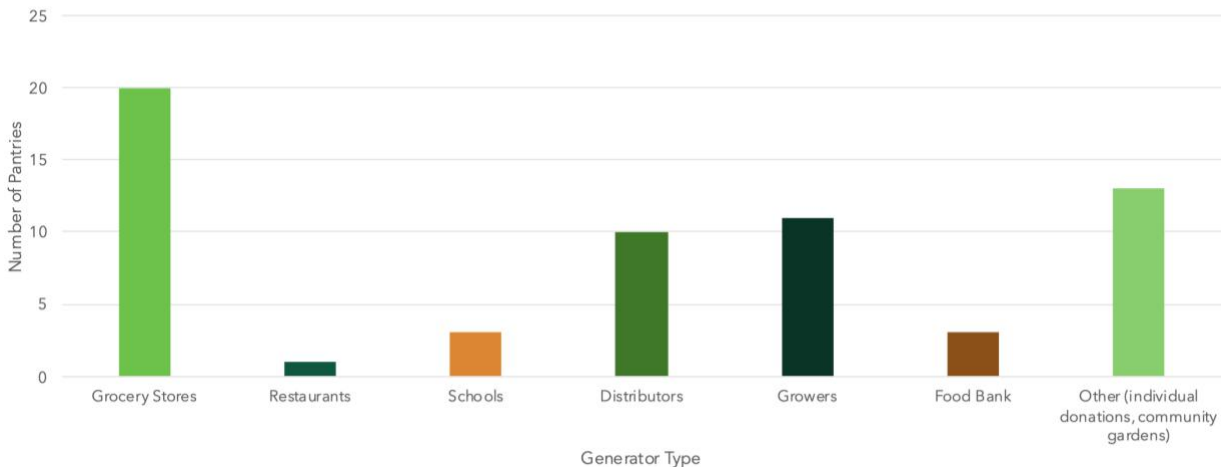

How much of that food is received from other non - profits or food banks?

3. The majority of the food donations in Humboldt County are coming from grocery stores, distributors and growers. While we see that schools make up most of the food donations from Tier 2, it is likely that the quantity of the food donations from schools are not as significant as grocery rescue or other Tier 1 food donations.

### Question 6

Where do you usually receive recovered food from?

4. 81% of the food pantries identified that Covid 19 affected their operations. There was a wide range of responses as to what kind of changes they saw to their operations. These included a lack of volunteers and staff, loss of food donors and a decrease in food recovery activity. While several pantries noted there were more people in need, others noted they saw a dramatic decrease in the number of individuals they served. Some pantries implemented new procedures and went from a client choice format to a predetermined distribution format.

### Question 8

Has Covid effected your operation?

- 74% of food pantries identified that they anticipate changes to their operations in the near future. These include hiring more staff, reopening facilities that were previously closed, and going back to a grocery style food pantry (client choice rather than automatic distribution). Food for People identified that they are currently leasing multiple spaces while their main facility is being rebuilt. Once they are in their new building, hopefully by 2023, they will have expanded capacity and storage.

### Question 9

Do you anticipate any changes to your operation in the near future?

- Over half of the food pantries are expecting to expand their capacity with an additional 11% wanting to expand but have a funding barrier. The majority of these plans include facility reopenings or expansions.

### Question 19

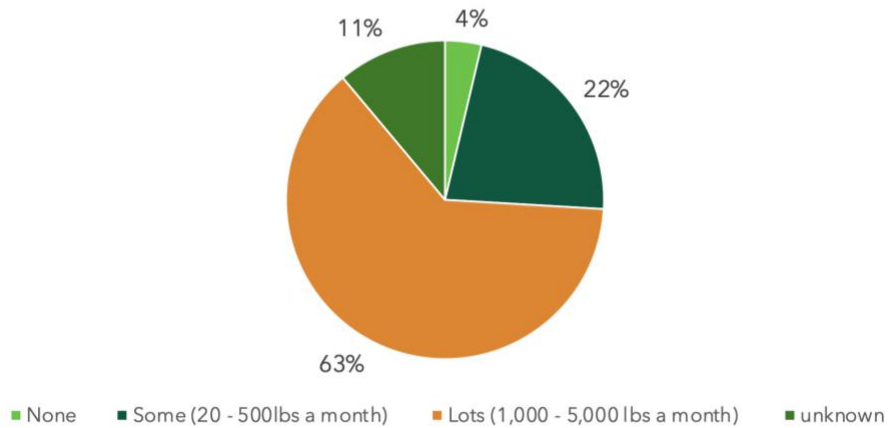

Do you have current plans to purchase or expand your capacity?

7. The Team identified through the survey that 4% of the pantries are unable to receive any more food with their current capacity, however the remaining 96% could receive additional pounds with their current or planned capacity. Although this may be true, 81% of the food pantries identified that they would not be equipped to handle the additional logistics operations that may be necessary.
- a) Of note, while these pantries said they could receive addition food with their current capacity, the amount varied from 20 pounds a month to 2,000 a month.

### Question 11

If given the opportunity, how many more pounds of food could you receive each month with your current capacity?

### Question 21

If you could add new donors, would your pantry be equipped to handle those additional logistics operations?

- Some of the food pantries that work with Food for People mentioned having an agreement through them under Feeding America's umbrella. A majority of the food pantries do not have agreements with their donors, operating under the verbal agreement of what is expected from each party.

### Question 13

Do you have written agreements with any of your donors?

- Facility size and the need for more staff or volunteers was identified as a limiting factor in increasing the capacity of the food pantries.

### Question 27

If you are unable to accept more food or add new donors now, what would you need most to recover additional food and begin working with new donors?

10. The food pantries accept all types of food within the required safety guidelines. Notably, that while they may be able to receive all types of products, they may not have the cold storage capacity to store all types of products for distribution.
11. The food pantries utilize a wide variety of methods to manage their logistics. The food bank, volunteers, donors, pantry staff and third-party logistics companies assist in the recovery of edible food. This is encouraging as it shows a diverse ability to handle logistical operations.
12. The majority of pantries expressed a need in staff, volunteers, software, drivers and cold storage. This is an opportunity for expanded third-party logistics and cold storage solutions through engaging additional stakeholders to relieve some of this pressure.

These results provide detailed insight into the current landscape of food recovery in the region, where food recovery networks are complex. The survey asked two specific questions regarding the ability for donors to expand current capacity. 1) Could you recover more food each month with your current capacity? 2) Do you have current plans to purchase or expand new infrastructure? Food recovery agencies that responded favorably the questions are listed in the table below.

**Table 9: Pantries with Available Capacity**

Name of Pantry	Location	Have Available Current Capacity?	Plans to Expand?
Eureka Rescue Mission-Men’s Program (Meal)	Eureka	Yes	Yes
Food for People	Eureka (plus various distribution site locations)	Yes	Yes
Humboldt Senior Resource Center/ Dining Center	Eureka	Yes	Yes
St Joseph Health Loleta Community Resource Center	Loleta	Yes	No

Name of Pantry	Location	Have Available Current Capacity?	Plans to Expand?
Our Savior’s Lutheran Church	Ferndale	Yes	No
Salvation Army	Eureka	Yes	No
Southern Humboldt Family Resource Center	Redway	Yes	No

These food recovery agencies that met those parameters have been identified as key pantries that could meet both the objectives of SB 1383 and to catalyze a broader, more sustainable network of food recovery.

### 6.2.1 Pantry Recommendations

Importantly, these pantry surveys represent an initial snapshot of the current programs. There are great benefits to strengthening these operations to meet Humboldt County’s key objectives. Providing strategic funding for these pantries would serve several important purposes:

1. Funding would allow for the food pantries to expand their recovery efforts of the existing participating Tier 1 and Tier 2 generators and implement a food donation program for those Tier 1 and Tier 2 generators not currently participating for SB 1383 compliance specifically where the food bank is unable to provide the recovery service.
2. Provide resources needed to recover Tier 2 generators which will improve food recovery operations in preparation for the Tier 2 compliance start date. Supporting these efforts will be required in order to service the Tier 2 generators, which require more coordination and controls to be recovered safely and effectively.
3. Our initial analysis on the pantry responses did show that Eureka Rescue Mission, Southern Humboldt Resource Center, and the Food for People Distribution sites are likely to be valuable participants that could be used quickly and efficiently to enhance food recovery in the region.
  - a. Although we were not able to reach Arcata House Partnership, we have identified them as a potentially valuable partner through conversations with Food for People.
  - b. Our recommendations include a closer review of these pantry operations in order to finalize the funding proposal.

Humboldt County should complete the following steps to address the challenges that were identified in the surveys to support pantries beyond the identified partners above.

1. Earmark funds for an independent administrator to specifically manage donor on-boarding, contracts, funding allocation, reporting and other administrative responsibilities.
2. Invest in scales for measurement of food both at a pantry level (bench scales) and for volunteers (briefcase scales). This could come in the form of a scale fund where the administrator could allocate funds for scales as they see necessary to assist in the accurate tracking of food donation pounds.

3. Several pantries requested software to enhance their operations. Investment in a food recovery software will assist with pantry operations and may ease logistical challenges.
4. Increase Cold-storage Capacity (refrigerators and freezers). In consideration of limited space and electrical capacity, it is recommended that Humboldt County consider funding for alternate party cold storage solutions including but are not limited to solar powered cold storage containers.
5. The food pantry network relies on volunteers to pick up their food donations. They have identified that there is a volunteer shortage resulting in logistical challenges. A logistics fund will ease the pressure on the pantry network, so they are not as dependent on volunteers. Additionally, Tier 1 generators typically have food donations too large to fit in a standard vehicle. By utilizing third party logistics companies to assist in the pick-ups and drop-offs, we are ensuring better food safety and the opportunity to receive more product without the limitations of a volunteer's standard vehicle.

### 6.3 Food for People Summary

Food for People serves as the County's food bank and is affiliated with the Feeding America network of food banks as a Partner Distribution Organization (PDO) under the oversight of Redwood Empire Food Bank. In February 2020, Food for People lost the use of their long-time distribution center facilitating the transfer of operations to a temporary facility. Construction has started on the rebuilding of a new distribution center that will increase the food bank's throughput and capacity by adding flex space in the main distribution center campus and by maintaining additional off-sight warehouse space. In our conversations with the Executive Director and Director of Programs as well as through a tour of the existing facility, our interaction mirrored the positive and supportive comments we received from non-profit agencies during the survey process. Our surveys found a high level of confidence, support, and good will towards Food for People from both the non-profit agencies that work with the food bank and food generators alike.

Specific to the current excess edible food recovery, Food for People conducts the majority of pick-ups from currently participating Tier 1 generators over an expansive area directly transferring the product to their current warehouse where it is sorted and made available to member agencies. Member agencies are charged a \$55 annual fee in addition to shared maintenance fees of \$0.19/lb. on select items. Food for People also relies on member agencies to assist in food recovery from currently participating Tier 1 and select Tier 2 generators. Unlike many Feeding America affiliated food banks throughout the state, Food for People has expressed an interest and desire to participate in Tier 2 service. Though the idea of Tier 2 participation will likely be limited to schools and donors of packaged goods, the reputation Food for People has in the county as a trusted and reliable non-profit, may uniquely position them to coordinate Tier 2 on-boarding at some point.

A Pantry Network Coordinator at Food for People is used to manage the non-profit pantry network as well as donor relations services. Additional funding for this position will be required to effectively on-board remaining Tier 1 donors and assist agencies conducting Tier 1 food recovery to ensure program effectiveness and food safety.

#### 6.3.1 Food for People Recommendations

In light of Food for People's effectiveness in recovering, sorting and distributing food from existing Tier 1 donors, we feel it is important to provide them with additional staffing resources needed to onboard and service the currently non-participating Tier 1 donors. Based on discussions with Food for People and an

overview of their operations, we estimate the need for an additional 4.5 administration hours per week to effectively on-board the remaining Tier 1 donors (and select Tier 2 donors) as well as maintain donor relations and program efficiency. Additionally, we see the need to provide additional warehouse and driver hours. We anticipate an additional 15 labor hours per week in the warehouse to augment volunteer hours) and 24 driver hours per week needed to service an expansive county.

In addition to staffing, the food bank will require additional equipment including funds towards a refrigerated box truck, an electric pallet jack (with scale) to accurately weigh inbound product and supplies used to safely sort through and manage food donations.

## 7.0 Education and Outreach Plan

Considering large scale participation in excess edible food recovery as directed by SB1383 is still a developing process, education and outreach to food waste generators and non-profit agencies informing about the law's requirements and targets is a vital element the implementation process. Abound Food Care recommends a detailed education and outreach program that fully utilizes public and private tools to effectively connect with food waste generators and the non-profit agencies participating in edible food recovery. Abound Food Care focuses on maximizing and aggregating outreach touchpoints by the jurisdiction, waste haulers, Abound's Outreach staff, and multiple food industry partners.

**'Comprehensive Municipal Program'** Abound recommends incorporating a comprehensive outreach plan that utilizes multiple municipal departments to provide education relative to SB1383 requirements and excess edible food donation.

- **Building and Planning Depts** provide Food Industry specific education materials at both the plan submission stage as well as the final building inspection phase for any new or remodel construction for food waste generators.
- **Public Works:** Public Works (Waste and Recycling) is the agency that shoulders the greatest burden of implementing SB 1383 along with their contract waste hauler(s). The use of public works staff and waste hauling staff assigned to that city to provide the initial outreach touchpoints that sets up additional touchpoints ultimately leading to program participation.
- **Parks & Recreation:** Parks and Recreation Departments can provide food waste and excess edible food donation information for any events held at municipal facilities.
- **Schools:** Most schools fall into the category of being Tier 2 waste generators. Additionally, California public schools have the ability to assist in identifying and serving underserved families (McKinny-Vento). Additionally, some school food production facilities can be used to repurpose excess edible food within its own system.
- **Utilities:** Municipal utility agencies (water, power) can assist by providing outreach information on utility statements/invoices.
- **Service and Trade Organizations:** Engaging with service and trade organizations within a municipality (Chamber of Commerce, Rotary, Kiwanis, etc.) is an effective way to connect with food waste generators as well as community leaders all of which help to promote the food recovery effort and increase access to volunteers.
- **Private Industry Participation:** Abound Food Care's food industry partners who provide goods and services to permitted food establishments have been willing to assist in providing outreach utilizing their normal methods of communication with customers (CRM outreach campaigns, invoice messages, email, or text message campaign).

- **Environmental Health Dept:** The California Retail Food Code (CalCode) provides statewide food safety guidelines for local environmental health agencies. While Environmental Health Department participation varies, CalCode does provide language that informs permitted food establishments that food donation is allowed and mentions federal liability protection. In certain jurisdictions, listing this portion of CalCode means each inspection that takes place which includes the signature of a staff member translates into a verifiable outreach touchpoint. Other counties go further in allowing Environmental Health inspectors to provide outreach materials informing operators about local food donation programs.

The Team has prepared documents that can be used by HWMA and their member jurisdictions to outreach to generators about SB 1383 to ensure full compliance with the regulation. They can be downloaded and modified as needed from the following google drive.

[https://drive.google.com/drive/folders/1GhaM\\_bMT9BRLeR3qEOCKnwLml5IGZpqn?usp=sharing](https://drive.google.com/drive/folders/1GhaM_bMT9BRLeR3qEOCKnwLml5IGZpqn?usp=sharing)

## 8.0 Funding Recommendations

The funding recommendations have been provided based on the surveys of the Tier 1 and 2 generators, the detailed assessment of the food recovery agencies, and the information and documentation provided by Food for People. Given the phased SB 1383 requirements and the reality that pantries and the community are in a state of adjustment from COVID back to regular business operations, a phased funding approach allows Humboldt County to evaluate the program, track metrics for success and make adjustments as needed. Abound has determined that a short-term funding plan (12-24 months) with the expressed focus of bringing Tier 1 generators into compliance and preparing for Tier 2 compliance, and a long-term funding program (post 24months) is the most prudent next steps. It is our recommendation that Humboldt County create a funding mechanism for annual expenditures. These funding recommendations are provided below.

**Funding Programs to Support Food Recovery Agencies**

**Short Term Funding Plan (12-24 months)**

**Long Term Funding Plan (+24 months)**

Budget Item	Quantity	Approx. Price	Total	Notes	Quantity	Approx. Price	Total	Notes
Bench Scale	10	\$579	\$5,790	*One time costs		\$579		TBD
Briefcase Scales	28	\$111	\$3,108	*One time costs		\$111		TBD
Forklift	0	\$30,000*	\$30,000	*Potential one time cost Hoopa Valley Tribe Food Pantry. On tribal land so participation and funding voluntary. Not subject to SB1383 requirements		\$32,000		TBD
Food Recovery Supply Kits	84	\$150	\$12,600	Thermometers (\$65 each), freezer bags (\$40), freezer blanket (\$45) Three kits will be provided to each non-profit.	150	\$150	\$22,500	Thermometers (\$65 each), freezer bags (\$40), freezer blanket (\$45) Three kits will be provided to each non-profit. This accounts for replacement costs
Smallwares and Supplies	Varied	Misc	\$10,000	Hand carts (\$120), tables (\$60), canopies, boxes, shelving, bags, paper towels, gloves, etc.	Varied	Misc	\$10,000	Hand carts (\$120), tables (\$60), canopies, boxes, shelving, bags, paper towels, gloves, etc.
Third-party Food Safety Training/ Auditing	35	\$275	\$9,625	Audits to QC food pantry operations that provide training during the audit process.		\$275		TBD
E-Food Safety Training	112	\$7.95	\$890	2hr online food safety training program, or 4-5 people per pantry.	112	\$7.95	\$890	2hr online food safety training program, or 4-5 people per pantry.
Alternate Cold Storage	2	\$80,000.00	\$160,000	Third party or portable cold storage (purchase, rent or lease)	1	\$80,000	\$80,000	Third party or portable cold storage (purchase, rent or lease)
Increase Cold Storage Capacity - 3 door refrigerators	5	\$4,500	\$22,500	*One time costs. Based on pantry requests.		\$4,500		TBD
Increase Cold Storage Capacity -3 door freezers	4	\$5,600	\$22,400	*One time costs. Based on pantry requests.		\$5,600		TBD

Budget Item	Quantity	Approx. Price	Total	Notes	Quantity	Approx. Price	Total	Notes
Refer Sprinter Van	1	\$52,000	\$52,000	Annual lease at an estimated \$2,167 per month	1	\$26,000		Annual lease at an estimated \$2,167 per month
Backup Generator	1	\$8,000	\$8,000	*One time cost. Power Outages		\$8,000		TBD
Software Program	1	\$20,000.00	\$20,000.00	This would be used to purchase operations software and donor tracking to pantries that requested assistance.	1	\$20,000.00	\$20,000.00	This would be used to assist in offsetting the cost of operations software and donor tracking to pantries that requested assistance.
Third-party logistics	50,000	\$0.70	\$35,000.00	Would cover cost of third-party collecting food. In addition, this fund would be used to offset the cost of drivers and fuel from other non-profit members to provide third party logistics. (cost is \$0.70 per mile)		\$0.70	\$0.00	TBD
Annual Food Bank Membership Cost	56	\$55.00	\$3,080.00	Offset the cost of membership to the Food for People Food Bank	56	\$55.00	\$3,080.00	
Program Administration Fee	1	\$120,000.00	\$120,000.00	Program Development and Oversight	1	\$132,000.00	\$132,000.00	Program Development and Oversight
<b>Total One Time Costs - Short-Term</b>			<b>\$61,798</b>		<b>Total Annual Long-Term Costs</b>		<b>\$268,470</b>	
<b>Total Annual Costs - Short Term (24 Months)</b>			<b>\$423,195</b>					

**Funding Programs to Support Food for People**

**Long Term Funding Plan (+24 months)**

Budget Item	Quantity	Approx. Price	Total	Notes	Quantity	Approx. Price	Total	Notes
Program Coordinator	468	\$28	\$13,104	Onboard and service the currently non-participating Tier 1 donors (contracting, site visits, donor relations)	327	\$30	\$9,810	Administration of onboarding and servicing selected Tier 2 generators (contracting, site visits, donor relations)
Electric Pallet Jack w/ Scale	1	\$8,500	\$8,500	*one time cost. Based on Food for People request		\$8,500	\$0	TBD
Warehouse Position	1560	\$24	\$37,440	Assist in sorting food donations and managing inventory	1092	\$26	\$28,392	Assist in sorting food donations and managing inventory
Various Supplies	Various	\$3,000	\$3,000	Various supplies include thermal blankets, thermometers, and digital scales		\$3,000		
16' Refrigerated Box Truck w/ Liftgate	1	\$120,000	\$120,000	These funds will go towards the purchase of a 16' refrigerated box truck with liftgate		\$120,000		
Driver	2496	\$31	\$78,000	Assist in the collection of excess food from Tier 1 generators	1748	\$33	\$58,121	Assist in the collection of excess food from Tier 1 and select Tier 2 generators
<b>Total One Time Costs - Short-Term</b>			<b>\$131,500</b>		<b>Total One Time Costs - Long-Term (+24)</b>			<b>\$0</b>
<b>Total Annual Costs - Short Term (24 Months)</b>			<b>\$128,544</b>		<b>Total Annual Costs - Long Term (+24 Months)</b>			<b>\$96,323</b>

**Food Reprocessing Kitchen Pilot**

**Short Term Funding Plan (12-24 months)**

**Long Term Funding Plan (+24 months)**

Budget Item	Quantity	Approx. Price	Total	Notes	Quantity	Approx. Price	Total	Notes
Food Reprocessing Kitchen- Pilot		\$125,000	\$0		1	\$125,000	\$125,000	Locations TBD. Considerations are in rural areas of the County in addition to supporting higher density regions that do not have sufficient pantry capacity.
Food Reprocessing Kitchen Coordinator - Pilot		\$28,000	\$0		1	\$28,000	\$28,000	
<b>Total One Time Costs - Short Term</b>			<b>\$0</b>		<b>Total One Time Costs - LongTerm</b>		<b>\$125,000</b>	
<b>Total Annual Costs - Short Term (24 Months)</b>			<b>\$0</b>		<b>Total Annual Costs - Long Term (+24 Months)</b>		<b>\$28,000</b>

Food For People St. Joseph's Pantry Shelf	2292 Newburg Road	Fortuna	707-725-1148	40K-50K per month	Volunteers and transportation. Would need more food delivered rather than volunteers to pick up.	No	They would be more specific and say they would like to receive more protein products. Receive canned tuna, salmon, they get frozen chicken breast from time to time, maybe 4-5 months out of the year. A complaint mentioned was that if you're using the FDA as your model, you need to give out food accordingly. They asked Food For People to up the amount of protein, which they did, but still isn't enough. Another 5-10K pounds of good protein like chicken, pork, ground beef.
Humboldt Senior Resource Center/ Dining Center (Fortuna)	Gene Lucas Community Center 3000 Newburg Rd	Fortuna	707-725-6245	Unknown. During COVID they received nothing, no gleaned donations from Safeway, the fish and the hog they may estimated 300 lbs one month and then not get it again for 3 months.	Refrigeration/cold storage and space.	Yes, reopening in 3 weeks.	When they reopen in three weeks they could receive food to offer to people to take home not for their nutrition program, non refrigerated

## Appendix D: Survey Results

# Humboldt Survey Results

Abound Food Care

## Question 1

# How much food are you recovering per month?

## Question 2

Is this an estimate or range?

### Question 3

How much of that food is received from other non-profits or food banks?

■ greater than 75% ■ 50-75% ■ 25-50% ■ Less than 25% ■ 0% Donations from Other Sources ■ Unknown

## Question 4

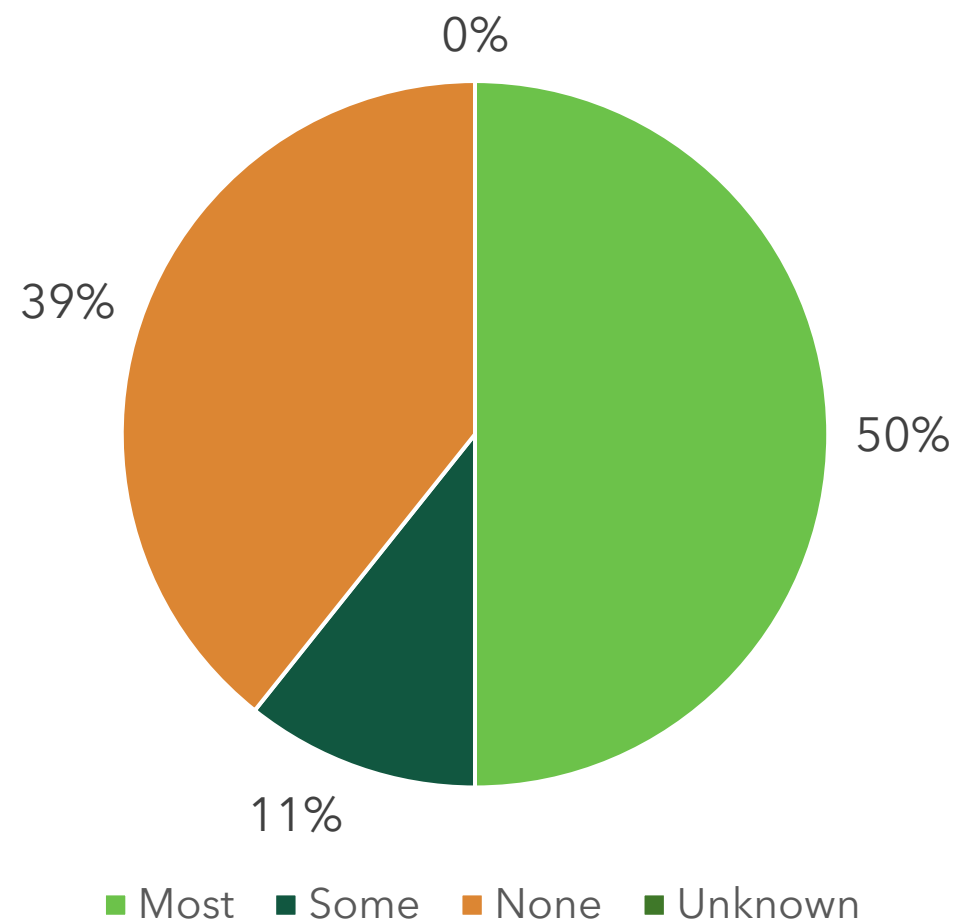

How much of that food is donated?

■ greater than 75%   ■ 50-75%   ■ 25-50%   ■ Less than 25%   ■ 0% - All Purchased   ■ Unknown

## Question 5

How much of that food is purchased or purchased from the food bank?

## Question 6

# Where do you usually receive recovered food from?

## Question 7

How much of your food is coordinated through the food bank?

## Question 8

Has Covid effected your operation?

## Question 9

Do you anticipate any changes to your operation in the near future?

## Question 10

Do you need resources to accurately weigh recovered food? Scales?  
Pallet jacks with scales?

## Question 11

If given the opportunity, how many more pounds of food could you receive each month with your current capacity?

## Question 12

Of that amount, what percentage of perishable vs non-perishable product?

### Question 13

Do you have written agreements with any of your donors?

## Question 14:

**What types of food do you accept? What types do you not accept?**

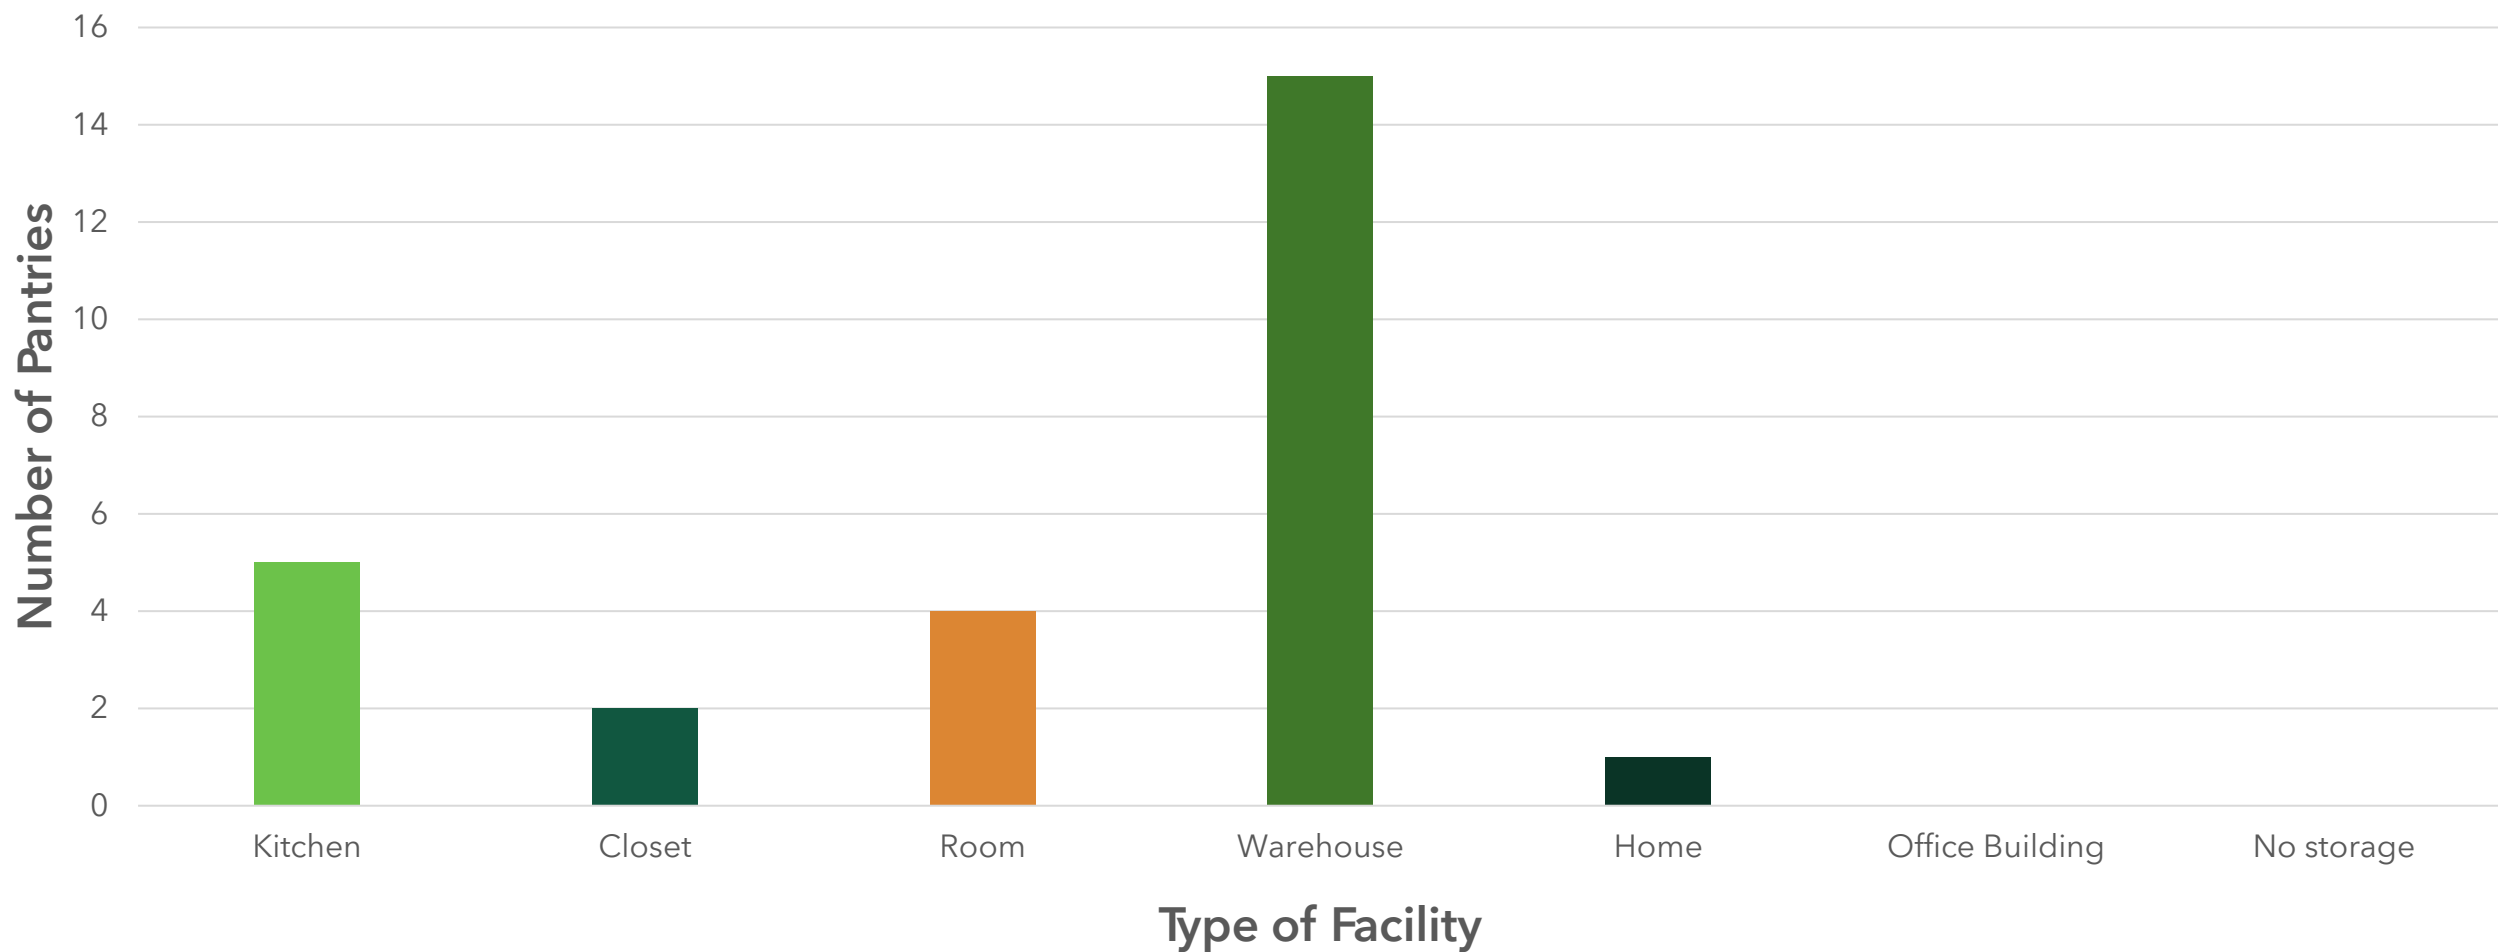

(all that apply: prepared, dry goods, shelf stable, dairy, frozen foods, produce, bakery)

**Non-profits reported that they can accept all types of foods, within safety requirements. Some had specifics, but all were open to a range of foods.**

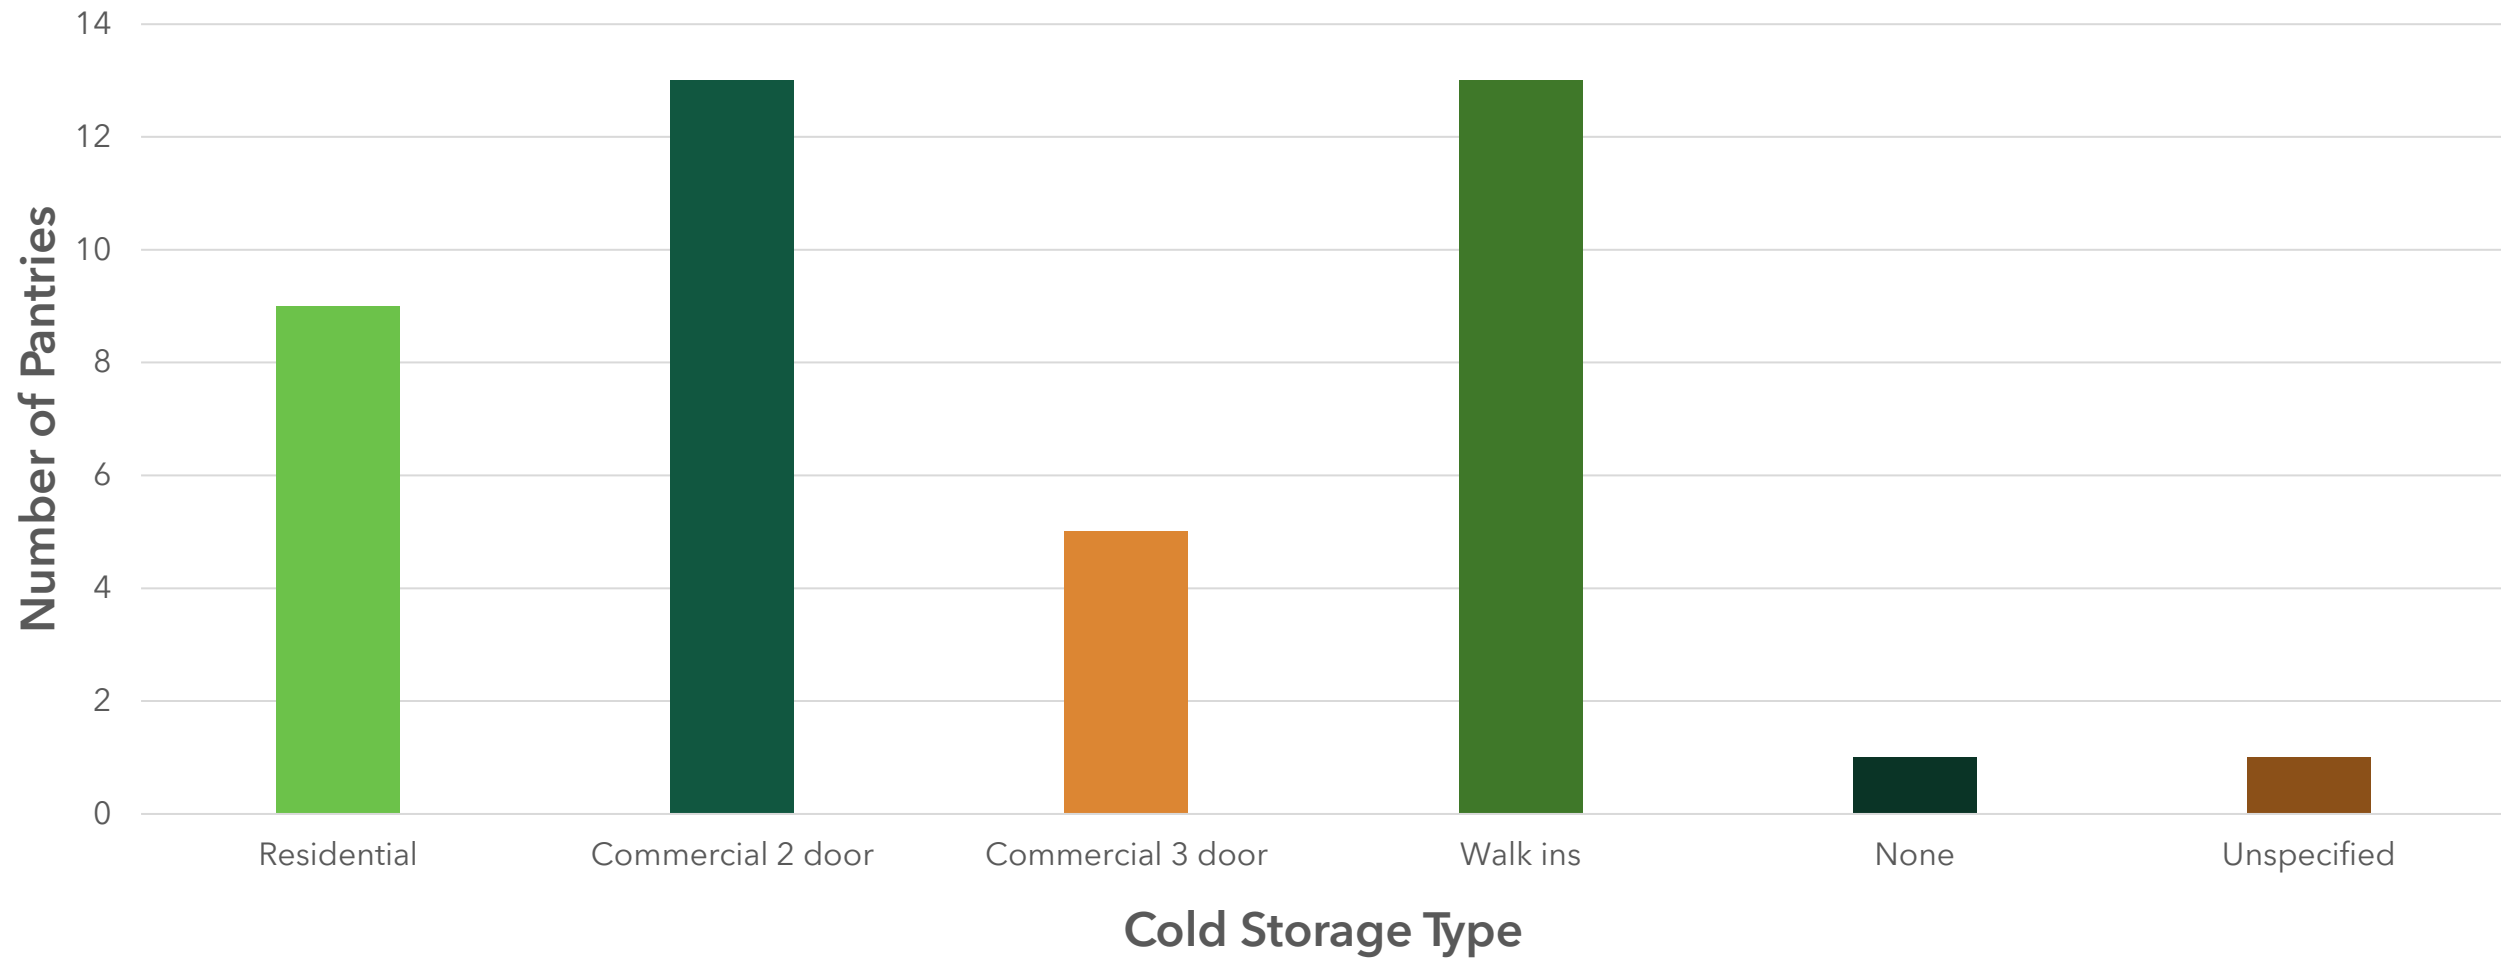

## Question 15

What is the size of your facility you are working in currently?

## Question 16

Do you utilize freezers and / or refrigerators at your pantry?

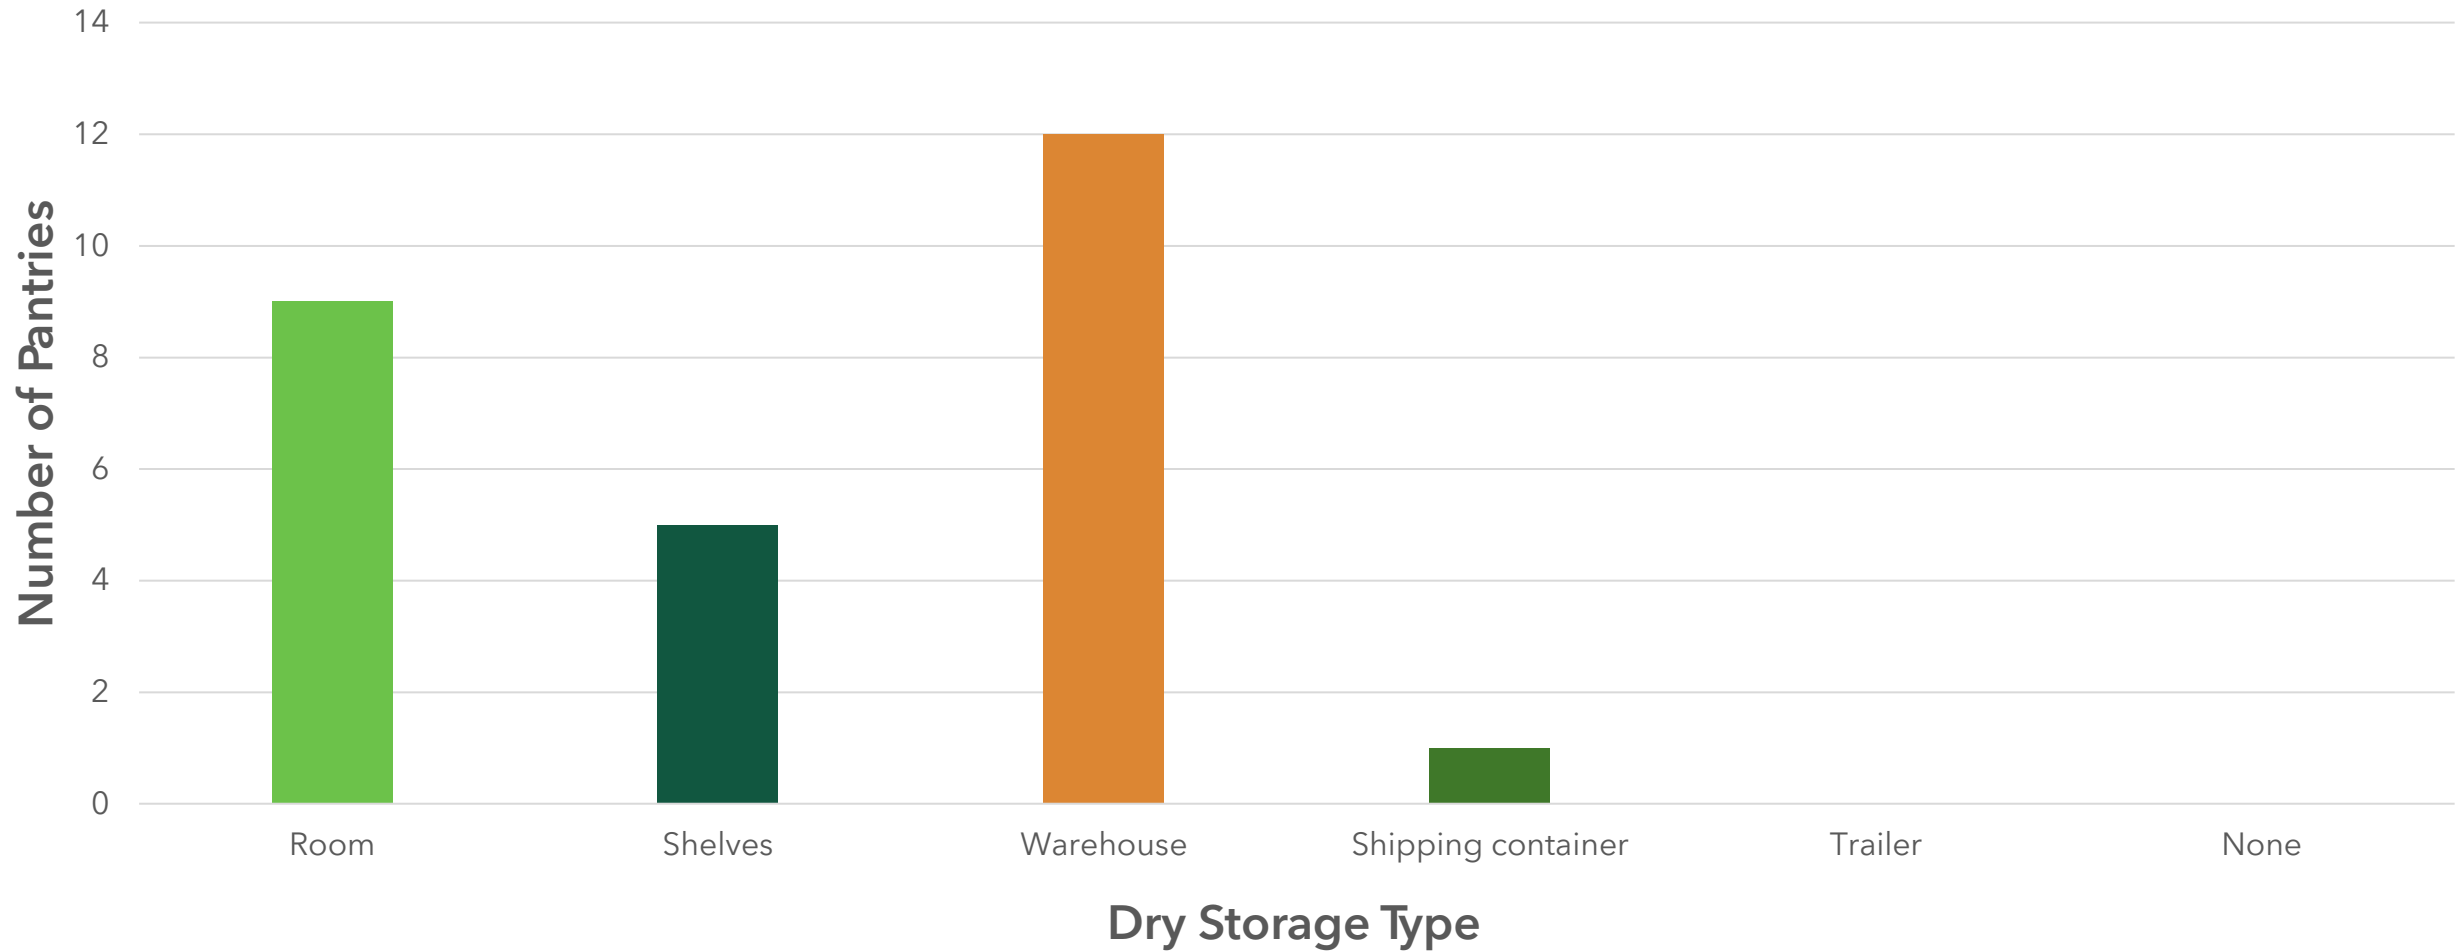

## Question 17

Do you have access to additional cold storage? If so, what type?

## Question 18

What type of space and material do you use for dry storage?

## Question 19

Do you have current plans to purchase or expand your capacity?

## Question 20

Can you add new food donors to your route? If so, how many, what type of food?

## Question 21

If you could add new donors, would your pantry be equipped to handle those additional logistics operations?

## Question 22

How do you usually receive your food? Volunteer pick ups and drop off?

## Question 23

Donor drop off?

## Question 24

# Food bank drop off?

## Question 25

Pantry staff picks-up?

## Question 26

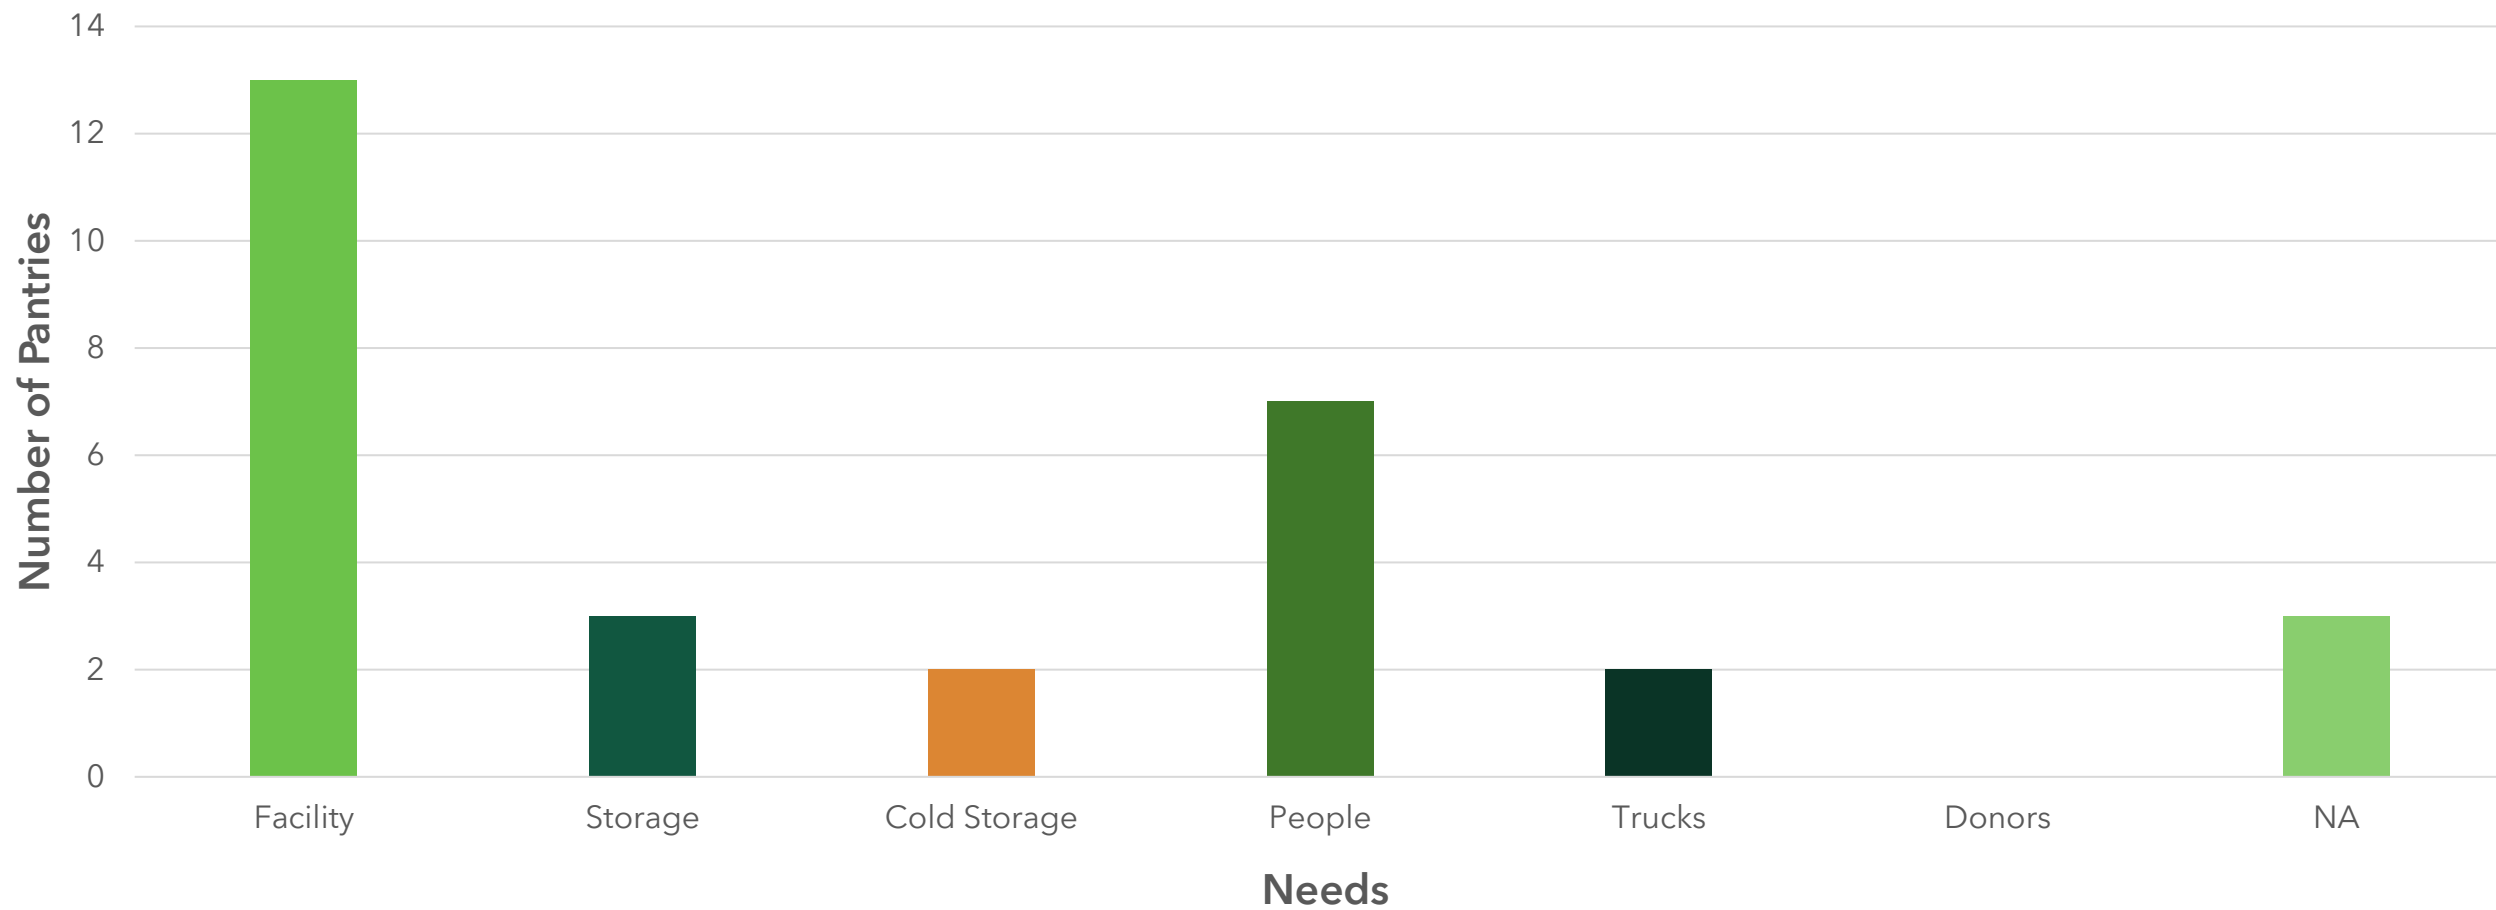

# Third party logistics?

## Question 27

If you are unable to accept more food or add new donors now, what would you need most to recover additional food and begin working with new donors?

## Question 28

Do you ever lack the staff or volunteers needed to recover available food?

## Question 29

Do you ever lack Refrigerator / Freezers?

## Question 30

Do you ever lack scales?

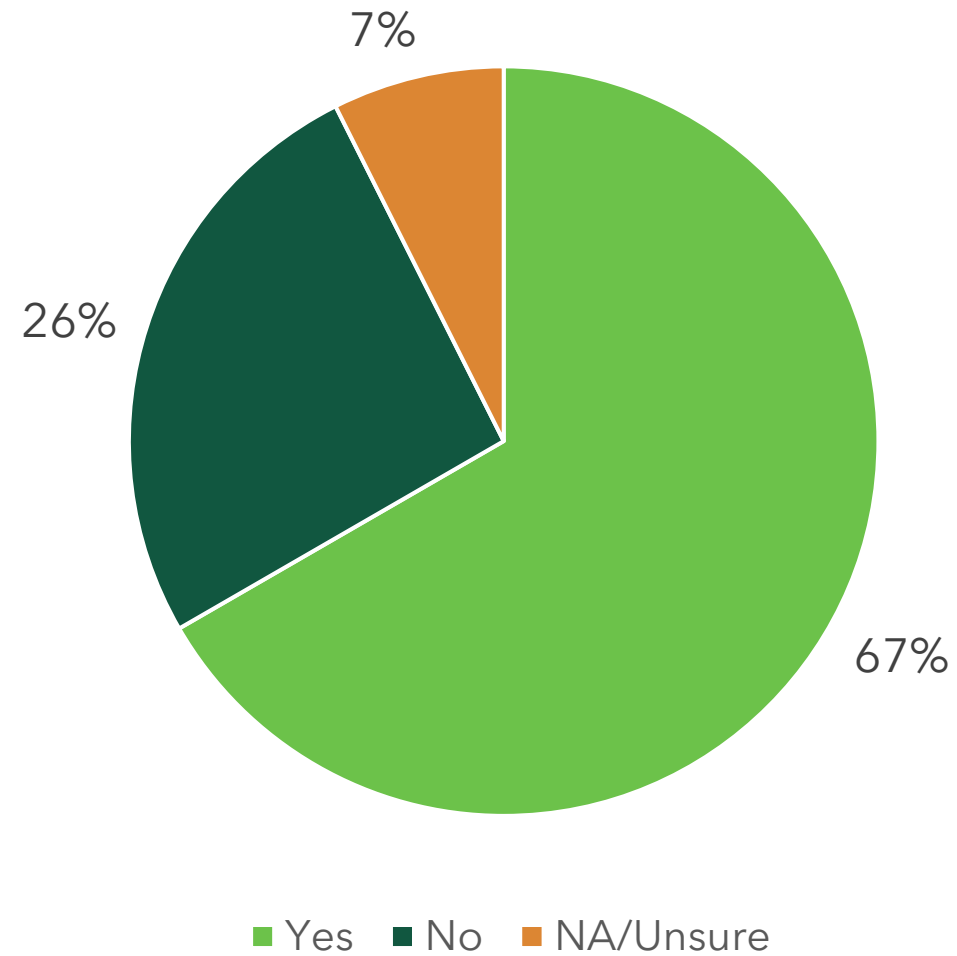

### Question 31

Do you ever lack Drivers?

## Question 32

Would you like software?

### Question 33

Would you like food safety training?

### Question 34

Would you like supplies / materials?

# COMPLIANCE PLAN ROAD MAP

## SB 1383 Compliance:

Regional Organic  
Waste Plan

**June 9, 2022**

Humboldt Waste  
Management Authority

*Sequoia  
sempervirens*

(This Page Intentionally Left Blank)

## Executive Summary

SB 1383 requires significant action by local jurisdictions, residential and commercial organics generators, haulers, and facilities to reduce organics disposal. It will require the jurisdictions and its member agencies to further enhance organics landfill reduction efforts related to food waste, green waste, wood waste, paper, cardboard, and other organics. This SB 1383 Compliance Plan Road Map presents a strategy for the HWMA's compliance with SB 1383 requirements through expansion of its existing programs and implementation of new programs and policies. HWMA is primarily responsible for post-collection, the delineation of roles, member agencies need to coordinate and contribute to a regional program.

The Scope of Work is divided into 5 tasks within this draft Plan which will be under review for the next 10 weeks with the Local Task Force.

- Task 1 - Compliance Plan Road Map
- Task 2 - Organics Processing and Collection
- Task 3 - Edible Food Recovery
- Task 4 - Procurement
- Task 5 - Waste Management Structure

There will be short-term, medium term, and long-term strategies for the Compliance Plan Road Map.

- Near-Term                      December 1, 2021, to December 31, 2022
- Medium-Term                January 1, 2023, to January 1, 2027
- Long-Term                     January 1, 2027, to January 1, 2042

The near-term plan to achieve SB 1383 compliance involves the following activities:

- SB 1383 Waivers for 5-year Extensions applications starting on December 1, 2021
- SB 1383 Local Assistance Grant Program had to apply by February 1, 2022
- SB 619 Notice of Intent to Comply had to apply by March 1, 2022
- Initial Jurisdictional Compliance Report had to apply April 1, 2022

The new SB 1383 tons for the 2025 target to achieve a 75% organic waste reduction amounts total 37,332 tons. This is comprised of the following: 1) Food waste - 18,703 tons, 2) Green waste - 5,525 tons, 3) Wood waste - 6,825 tons, 4) Compostable paper - 6,694 tons; and 5) Manure – 817 tons.

Task 2 will analyze the ability to provide 15-years of organic waste processing capacity with the following programs for the medium-term and long-term:

- Current Green Waste Handling Facilities in-County
- Proposed Food Waste Processing Facilities out-of-County and in-County
- Backyard Composting
- Community Composting
- Agricultural Composting
- Collection Programs with SB 1383 Compliance (short-term to long-term)

The critical path to SB 1383 compliance is the Hawthorne Street Transfer Station as the hub to process residential and commercial organic waste, as it already has a Solid Waste Facility Permit. Reinstating the pilot program to transfer commercial food waste out of County for a medium-term period to a permitted compost facility from a bunker inside the new proposed Tip Floor inside of the HWMA St. Transfer Station could start as soon as January 1, 2023. Should that not happen, the Road Map to compliance is longer.

There are eight permitted food waste compost facilities in northern California southbound along Hwy. 101. The RFP to transfer food waste to one of these facilities could have the following requirements to ensure reliable and complaints services:

- Fully permitted with land use, waste, water, and air permits
- Guarantee capacity for up to 5-years
- Ability to accept and process raw commercial food waste
- Provide a list of acceptable organic waste types that are accepted
- Disclosure all past violations over the last five years
- Recording and reporting tonnage data
- Provide site visits to HWMA and the member agencies

The mandatory three-cart collection is deemed the most appropriate solution for the jurisdictions as CalRecycle has made this system the least onerous to comply with the components of SB 1383 as listed below:

- Education and Outreach
- Monitoring & Enforcement
- Contamination Minimization Monitoring
- Recordkeeping and Reporting

SB 1383 procurement requirements provide the jurisdictions with a flexible portfolio of options that include compost mulch, bioenergy, and renewable natural gas, where up to 6,000 tons per year of compost use (or up to 9,000 tons per year of wood mulch), are the targeted amounts, or a combination thereof.

## Introduction

Humboldt Waste Management Authority (HWMA) is a California Joint Powers Authority formed in 1999 and The Authority is a public agency, comprised of six municipal members that include the County of Humboldt and the Cities of Arcata, Blue Lake, Eureka, Ferndale, and Rio Dell. The remaining non-member public agency jurisdictions in Humboldt are the cities of Fortuna and Trinidad. It is the desire of these HWMA member and non-member entities to coordinate and work regionally, through HWMA, on SB 1383 and Organic Regional Compliance Services. SB 1383 requires 75% reduction of organic waste by 75%, and 20% recovery of edible food currently sent to landfill and the demonstration of 15-years of organic processing capacity. Additionally, SB 1383 also sets a goal that not less than 20% of edible food that is currently disposed of is recovered for human consumption by 2025.

California is now experiencing the effects of a climate crisis: hotter summers with world record-breaking temperatures, even more devastating fire seasons, more extreme droughts, and rising sea levels that erode our coastlines. Scientists tell us that greenhouse gases released by human activities, such as landfilling food and yard waste, cause climate change. To respond to this climate crisis, California is implementing statewide organic waste recycling and surplus food recovery. SB 1383 is not just another recycling law; it is a bill to reduce short-lived climate pollutants and was designed to address climate change impacts.

There is a total of 7 incorporated cities in the County of Humboldt. HWMA is comprised of six representatives from 8 cities including Arcata, Blue Lake, Eureka, Ferndale, Rio Dell, and the County of Humboldt. The Humboldt County Solid Waste Local Task Force (“HCSWLTF” or “Local Task Force”) is comprised of representatives from all 8 jurisdictions, with administrative support provided by HWMA. At their July 6, 2021 meeting, the Local Task Force requested the HWMA Board of Directors to coordinate with the HCSWLTF in the development and circulation of a Request for Proposals (RFP) for a Regional SB 1383 Action Plan for all its municipal jurisdictions, selection of a successful consultant, and management of the consultant contract. HWMA contracted with Edgar & Associates (Edgar) in December 2021 to provide consulting services to coordinate on SB 1383 issues. With SB 1383 being effective on January 1, 2022, there is a compressed time frame to catch up and achieve compliance.

SB 1383 requires significant action by local jurisdictions, residential and commercial organics generators, haulers, and facilities to reduce organics disposal. It will require the jurisdictions to further enhance organics landfill reduction efforts related to food waste, green waste, wood waste, paper, cardboard, and other organics. This SB 1383 Compliance Plan Road Map presents a strategy for the jurisdictions compliance with SB 1383 requirements through expansion of its existing programs and implementation of new programs and policies. HWMA is primarily responsible for post-collection and the delineation of roles which member agencies need to coordinate and contribute to a regional program.

SB 1383 is a major overhaul of the solid waste and recycling structure in over 30 years when being compared to AB 939, which set a goal of 50% diversion by 2000. The magnitude and scope of SB 1383 requirements with the inclusion of penalties for non-compliance extends to jurisdictions, generators, facilities, and haulers. SB 1383 expands beyond AB 341 and AB 1826 mandatory commercial recycling and organics diversion requirements through its broad organics definition and its applicability to all sectors, including single-family, multi-family, and commercial generators. Whereas AB 341 set a statewide recycling goal of 75% by 2020, not mandated or enforced. CalRecycle reported a statewide recycling rate of just 42% in 2020; more work needs to be done. During this period, Humboldt County increased their disposal of organics waste by 25% from a 2014 base year.

SB 1383 requires mandatory collection with local and state enforcement with impacts in both recyclables and organics reduction, collection, and processing programs. Additionally, SB 1383 covers activities not accounted for in AB 939, AB 341, or AB 1826, such as monitoring and enforcement, recovered organic waste product procurement, education and outreach, reporting and record keeping, and edible food recovery.

SB 1383 compliance deliverables act as guidelines to aid municipal jurisdictions to establish appropriate legal authority in municipal code, develop critical pathways to enable expansion of food recovery infrastructure, and establish organic diversion programs to identify appropriate policies and activities to maintain compliance.

## **Current Solid Waste & Diversion Services Infrastructure**

HWMA currently has municipal solid waste management, disposal, and diversion services that are handled through a combination of private and public providers. Waste management services are administered through individual City and County collection programs, and for certain services, such as transportation and disposal of solid waste, on a multi-jurisdictional basis.

### **Curbside Collection**

Jurisdictions enter into individual franchise collection agreements with one of three curbside haulers for the collection of solid waste, recyclables, and green waste (where available). Table 1 and Figure 1 below provides an overview. HWMA member agencies are obligated to direct their solid waste materials to HWMA's Hawthorne Street Transfer Station or an approved HWMA satellite transfer station. Non-member agencies direct their hauler to transport solid waste and recyclables to designated transfer stations.

Not all of the unincorporated areas are offered curbside collection services. This is due primarily to the large geographic area and low-density populations that are unable to support affordable collection services. Residents in these areas self-haul their solid waste and recyclables to a transfer station for management and disposal. Collection haulers include one of three companies: Humboldt Sanitation, Recology or Tom's Trash.

**Table 1: Jurisdiction, Collection Haulers & Services**

Jurisdiction	Collection Hauler	Collection Services			Universal or Voluntary Collection
		Solid Waste	Curbside Recyclables	GreenWaste	
Arcata	Recology	✓	✓	✓	Universal
Blue Lake	Humboldt Sanitation	✓	✓		Voluntary
Eureka	Recology	✓	✓	✓	Universal
Ferndale	Recology	✓	✓	✓	Voluntary
Fortuna	Recology	✓	✓	✓	Voluntary
Rio Dell	Recology	✓	✓	✓	Voluntary
Trinidad	Humboldt Sanitation	✓	✓		Voluntary

**Unincorporated County Collection Areas**

Greater Arcata Area	Recology	✓	✓	✓	Voluntary
Greater Eureka Area	Recology	✓	✓	✓	Voluntary
Fieldbrook/Blue Lake	Recology	✓	✓	✓	Voluntary
Northwest Humboldt	Humboldt Sanitation	✓	✓		Voluntary
Willow Creek	Tom's Trash	✓	✓		Voluntary
Holmes/Redcrest	Recology	✓	✓		Voluntary
Weott/Myers Flat	Recology	✓	✓		Voluntary
Garberville	Recology	✓	✓		Voluntary

**Transfer Stations & Services**

Three privately and one publicly owned transfer stations accept curbside collected and self-hauled materials from solid waste haulers, contractors, and the general public. Some transfer stations also accept materials collected from rural container sites, and this tonnage is reflected

in the overall transfer station tonnage. Municipal waste is transferred into trailers and hauled to out-of-county landfills.

**Humboldt Sanitation:** accepts approximately 20,000 tons annually of solid wastes, green wastes, recycling and special materials from member and nonmember agencies.

**HWMA Hawthorne Street Transfer Station:** accepts approximately 71,000 tons annually of solid wastes, green wastes, recycling, household hazardous wastes and special materials from member agencies.

**Recology Eel River Transfer Station:** accepts approximately 28,000 tons annually of solid wastes, green wastes, recycling and special materials from member and nonmember agencies.

**Redway Transfer Station:** accepts approximately 5,700 tons annually of solid wastes, green wastes, recycling and special materials from member agencies.

**Material Recovery Facility (Recycling Only):**

**Recology Humboldt:** Mixed recycling sorting and processing facility that accepts approximately 14,000 tons of mixed recycling from HWMA member agencies and nonmember jurisdictions.

**Organics Processing Facilities**

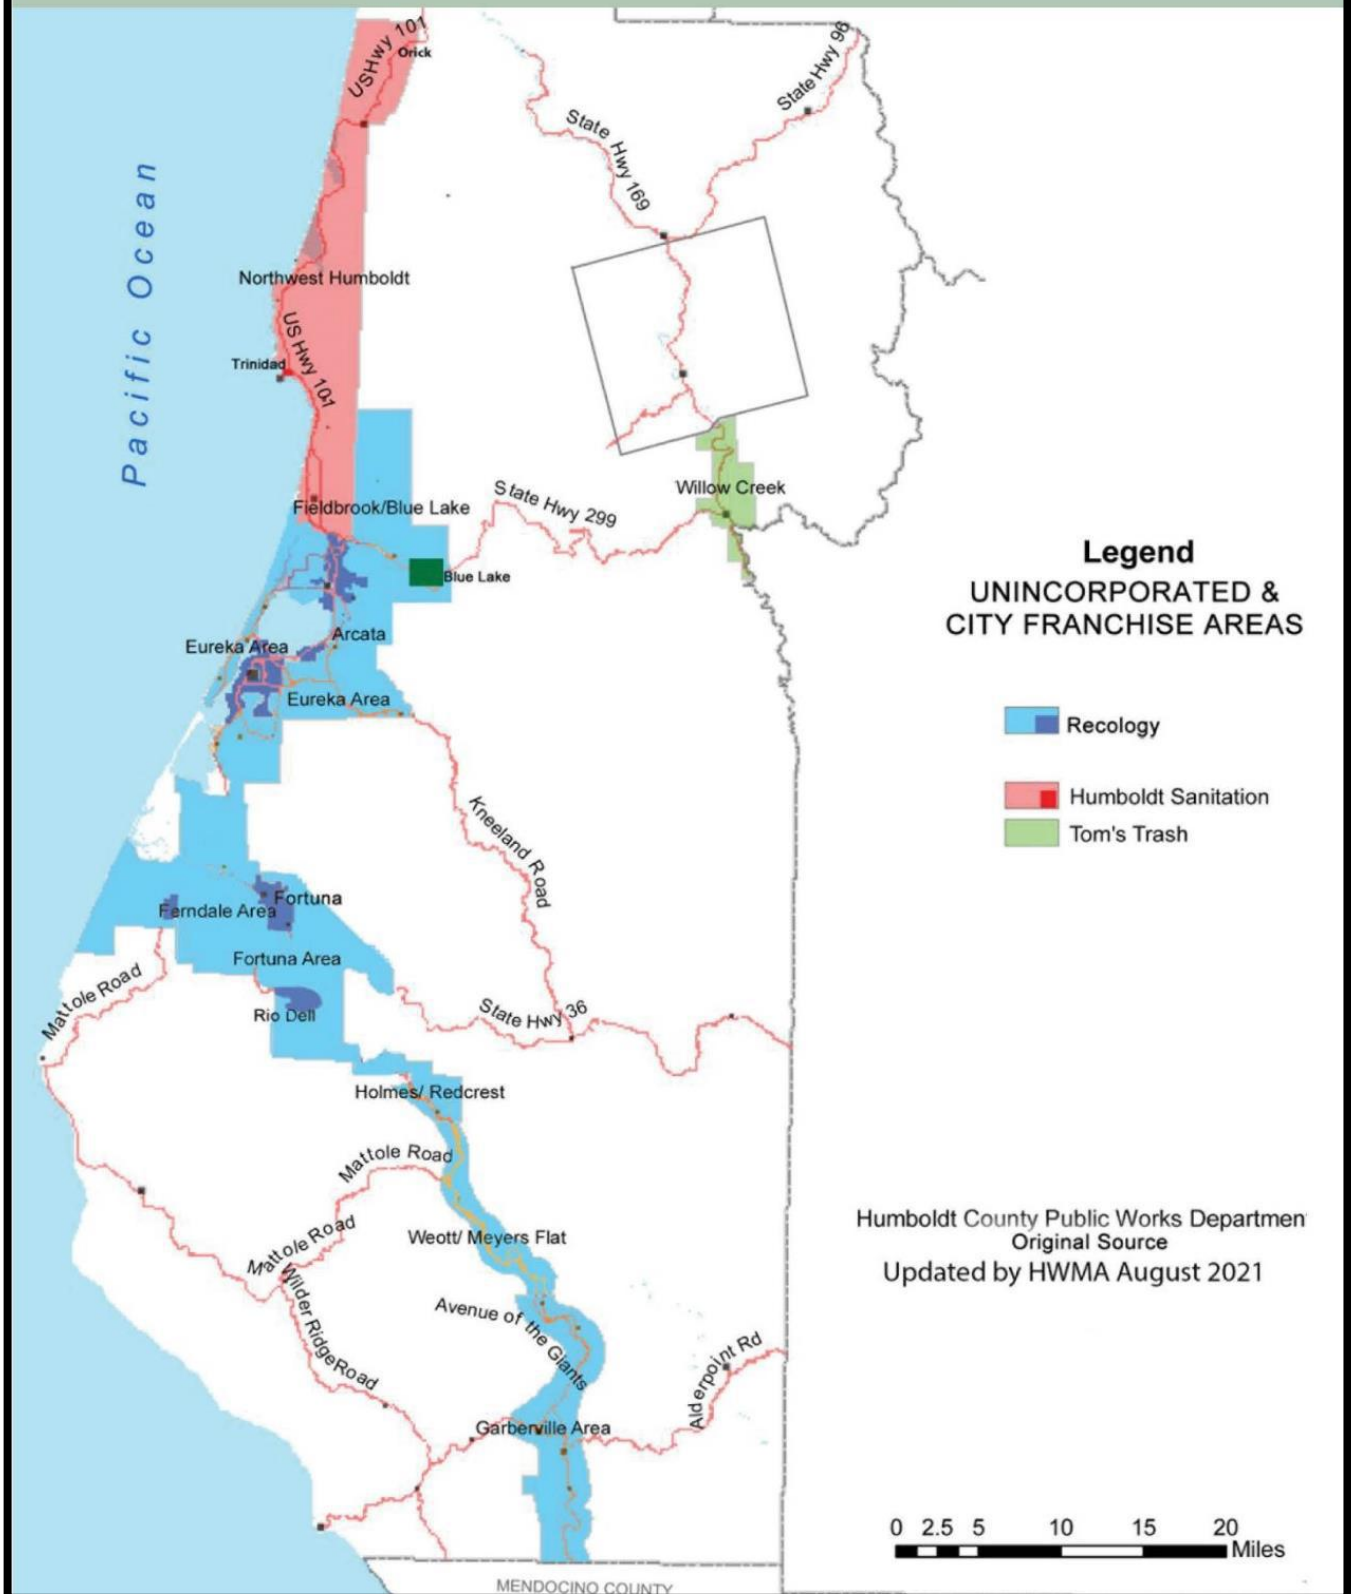

**Wes Green Company:** permitted green waste only into composted materials. Total annual tonnage accepted is approximately 18,000 tons with 4,500 tons coming from nonmember agency sources.

There are several other small organic processors that include Blue Lake Rancheria, North Coast Co-Op, Full Cycle Compost, The Local Worm Guy and residential composters. Tonnage information is not available at this time. A survey was conducted by Edgar of these operations and will be presented later in this Plan.

**Biosolids Composting from Wastewater Treatment Plants:** Wastewater treatment plants located in Arcata, Eureka and Fortuna treat wastewater and regularly remove and compost biosolids from their respective anaerobic digesters. Edgar will be interviewing these facilities to determine if they want to pursue receiving SB 1383 organic waste as a feedstock to produce biomethane.

# Figure 1: Humboldt County Map and Franchise Areas

Reference: *Request for Proposal: Humboldt County SB 1383 & Organics Compliance Services*

### **Transportation and Disposal to Out-of-Area Landfills**

There are no operating landfills in Humboldt. All solid waste is transported primarily to landfills located out-of-county. The solid waste that that are being transferred out-of-county includes SB 1383 organics waste, such as food waste, that will be targeted to be diverted from disposal. Food waste is currently being hauled out-of-county within the municipal solid waste.

- Dry Creek Landfill (White City, Oregon):
  - All HWMA solid waste and Humboldt Sanitation.
- Anderson Landfill (Anderson, CA):
  - Includes Fortuna and Redway material, and self-hauled by independent haulers.
- Potrero Hills Landfill (Suisun City, CA):
  - Incidental materials by self-haulers.

### **Scope of Work**

The Scope of Work is divided into 5 tasks within this draft Plan which will be under review for the next 10 weeks with the Local Task Force. There will be short-term, medium term, and long-term strategies.

- Near-Term                      December 1, 2021, to December 31, 2022
- Medium-Term                 January 1, 2023, to January 1, 2027
- Long-Term                     January 1, 2027, to January 1, 2042

### **Task 1 - Compliance Plan Road Map**

Edgar will be recommending diversion programs for member agencies that target organic materials currently being landfilled. Program and plan development will address both short-term programs and long-term strategies that will be comprehensive, efficient, and cost-effective, keeping Humboldt’s specific needs and goals central throughout. Edgar will provide an approach that will ensure Humboldt will meet future mandates, deadlines and avoid possible monetary fines imposed by the State under SB 1383.

### **Task 2 - Organics Processing and Collection**

The tasks include developing and implementing new programs related to SB 1383; including but not limited to: residential curbside organics (including food waste) collection programs, source-separated commercial food waste programs, and other organic materials as identified through discussions with Humboldt and the cities:

- Completing the required capacity and infrastructure assessment of organic waste.
- Identifying additional export organics capacity opportunities regionally, including an evaluation of their permit readiness, cost, and feedstock requirements.
- Expanding organics ordinances and modelling their impacts, where compost and mulch may be backhauled from the export facilities to fulfill procurement requirements.

### **Task 3 - Edible Food Recovery**

Our team with the stakeholders will work towards a shared purpose and vision of capturing edible food. Edgar with Abound have existing experience developing edible food recovery programs that result in feeding hungry people, safely and with dignity. Our programs look to create new jobs and training opportunities, as well as build relationships across food donors and food recovery organizations that foster trust and brand protection between parties. We are pioneering sustainable funding models and developing innovative programs that significantly enhance community resiliency. Our team members are exceptionally knowledgeable on SB 1383 edible food recovery requirements, are key members of the Edible Food Recovery Technical Advisory Committee (EFR TC) through the California Resource and Recovery Association (CRRRA), developing guidance documents and resources for the entire State.

### **Task 4 - Procurement**

Edgar will review each jurisdiction's use of recovered organic waste products (compost, renewable natural gas, mulch) and provide an analysis and recommendations on what each jurisdiction will address to achieve SB 1383 compliance. The analysis will include an estimate of potential compost/mulch quantities that could be applied to parks, open space, rights-of-way, and other jurisdiction-owned properties, as well as provide potential multi-jurisdictional partnership alternatives that will meet the SB 1383 requirements.

Edgar will recommend policy updates to each jurisdiction, including updates to existing Environmental Preferred Purchasing Policies to ensure SB 1383 compliance, and will assist with the development of recordkeeping and reporting process, including annual checklist and guidance document.

### **Task 5 - Waste Management Structure.**

After the Final Compliance Plan Roadmap is present on May 16, 2022, Edgar will provide a comprehensive analysis, including evaluation of compliance obligations, assessment of resource gaps and staffing needs, an analysis and recommendation of rates and fees to future HWMA's Waste Management Fee along with anticipated curbside customer rate impacts and recommendations for regional monitoring, enforcement, reporting, and recordkeeping activities.

## Task 1: Compliance Plan Road Map

In an effort to combat Climate Change, California has developed a range of approaches that will result in the reduction of climate change pollutants. The consequences of climate change are rapidly moving from the realm of prediction to the day-to-day experiences of the people living in California. Each of the last five years have been the hottest years on record. Wildfires in the State are increasingly common to the point at which the State of California now has a reliable wildfire season in which the skies are greyed for weeks at a time. Humboldt County exists in California's north coast, which is subject to droughts, forest fires, and the rising of the ocean waters.

In 2016, Californian legislators decided to act against global warming and the greenhouse gases that cause it. The State passed SB 1383, which is a bill designed to reduce methane emissions, which are produced in large part from the decomposition of organic waste in our State's landfills. The goal of SB 1383 is to reduce the amount of organic waste to 25% of what was buried in 2014 by the year 2025. This is the most ambitious bill of its kind, and the member agencies are prepared to comprehensively meet the requirements of the law. This plan provides a Road Map, for the jurisdictions will meet each of ten of the requirements of the SB 1383. This plan will serve as a step-by-step guide to help the jurisdictions navigate each of the requirements, which are listed below.

### SB 1383 IN ACTION JURISDICTION REQUIREMENTS

				
ORDINANCE	ORGANICS COLLECTION SERVICE	CAPACITY PLANNING	EDUCATION & OUTREACH	MONITORING & ENFORCEMENT
				
CONTAMINATION MONITORING	ORGANIC WASTE PROCUREMENT	RECYCLED PAPER PROCUREMENT	EDIBLE FOOD RECOVERY	REPORTING

- **ORDINANCE** | A Model Ordinance following examples provided by CalRecycle and StopWaste.Org was provided to HWMA for use by participating jurisdictions. A webcast Workshop has been offered by Edgar to discuss the Model Ordinance.
- **ORGANICS COLLECTION SERVICE** | This is the cornerstone of the SB 1383 law. The law provides for universal organic recycling and conventional recycling access for every resident and business in California. Further, SB 1383 will standardize collection programs with container labelling and colors across the Humboldt County and State.
- **CAPACITY PLANNING** | The County will prepare the organic waste processing capacity for a 15-year period meeting both its organic waste recycling and edible food recovery capacity planning requirements.
- **EDUCATION AND OUTREACH** | Participating jurisdictions develop programs with a standardize consistent message to keep the communities informed and educated on both the importance and execution of organic waste recycling.
- **MONITORING AND ENFORCEMENT** | SB 1383 will either be enforced *by* the jurisdictions or *on* the jurisdictions. Participating jurisdictions will enforce the State’s law and avoid fines issued by the Department of Resource Recovery and Recycling (CalRecycle).
- **CONTAMINATION MONITORING** | As with any recycling program, sorting is central to the success. Participating jurisdictions will plan route reviews and correct sorting errors to ensure materials are collected with minimal contamination.
- **ORGANIC WASTE PRODUCT PROCUREMENT** | Diverting 75% of discarded organics will require an end destination for the resulting final products. SB 1383 has provisions requiring jurisdictions to support markets for compost, mulch, bioenergy, and other recycled organic waste products. This plan specifies exactly how much of the population-based requirement.
- **RECYCLED PAPER PROCUREMENT** | A model policy following CalRecycle tools for purchasing the highest recycled content paper available was provided.
- **EDIBLE FOOD RECOVERY** | Recovering edible food for human consumption reduces more than three times as much greenhouse gas as composting. HWMA will reach out to regional agencies to develop partnerships for our larger food generators to rescue food for hungry families, in compliance with the regulation.
- **REPORTING** | SB 1383 has robust recordkeeping and reporting requirements. This plan details where each of the records are kept, and how reporting will occur.

## SB 1383 Background and Implementation

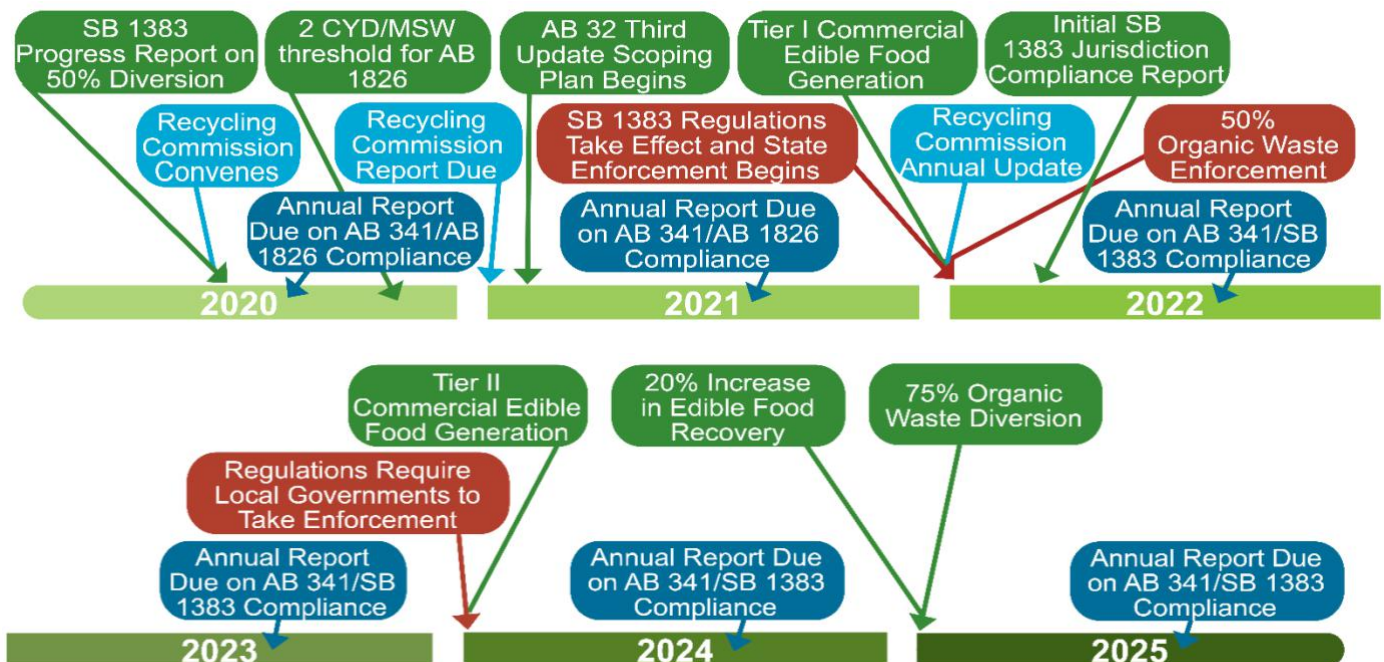

**SB 1383 “Organics Reduction for Methane Mitigation”** | Senate Bill 1383 identifies the reduction of methane generation of organic waste as a prioritized climate change mitigation strategy. As such, SB 1383 mandates reductions in the landfilling of organic waste, and thereby methane emissions. Whereas AB 341 and AB 1826 placed the burden of mandatory collection on the generators with a local government planning effort, SB 1383 explicitly shares the responsibility with local government where CalRecycle has added fines and penalties much like AB 939, but with delayed enforcement until 2024. CalRecycle, in consultation with CARB, has adopted regulations that achieve the specified targets for reducing organic waste in landfills by 2022 and 2025. SB 1383 has authorized local jurisdictions to charge and collect fees to recover the local jurisdiction’s costs incurred in complying with the regulations. The regulations have included requirements intended to meet the goal that not less than 20% of edible food that is currently disposed of is recovered for human consumption by 2025. The Implementation Schedule and reporting Compliance checklist is provided in Figure 2 below.

Specifically, this bill adds two goals for organic waste disposal reductions:

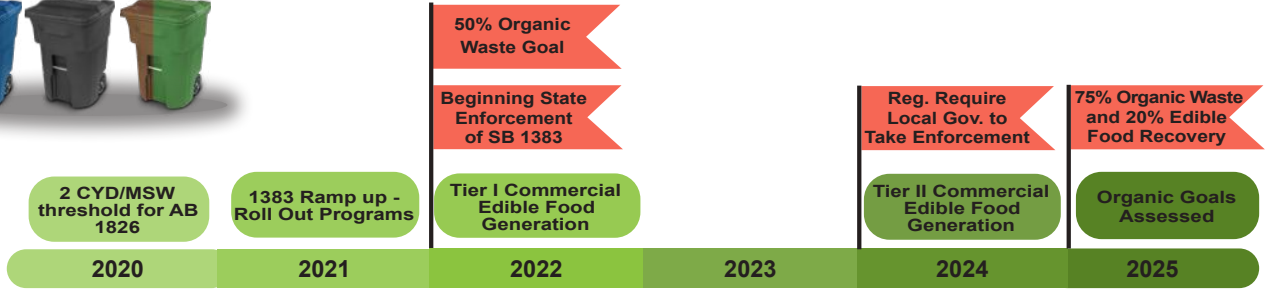

- ✓ A 50% reduction in the level of statewide disposal of organic waste from the 2014 level by 2020.
- ✓ A 75% reduction in the level of statewide disposal of organic waste from the 2014 level by 2025.

Figure 2 - Implementation Schedule for SB 1383

# SB 1383 Compliance Checklist

## Three Container Collection Program

### Ordinance(s) or Similar Enforceable Mechanisms

	Regulation	Due Date	Projected Program Date	Responsible Party
<input type="checkbox"/> Jurisdiction adopts and keeps a record of a three container collection system	§ 18981.2	Jan., 1, 2022	by Jan., 1, 2023	Jurisdiction
<input type="checkbox"/> Reportable ordinance or other enforceable mechanisms to CalRecycle	§ 18994.1	Jan., 1, 2022	by Jan., 1, 2023	Jurisdiction
<input type="checkbox"/> Designate an enforcement lead	§ 18994.1	Jan., 1, 2022	by Jan., 1, 2023	Jurisdiction
<input type="checkbox"/> Generators to have three containers, wherever trash containers are located	§ 18995.1	Jan., 1, 2022	by Jan., 1, 2024	Jurisdiction
<input type="checkbox"/> Annual review of generators	§ 18995.1	Jan., 1, 2022	Aug., 1 annually	Jurisdiction
<input type="checkbox"/> Adopt an ordinance requiring compliance with CALGreen Building Code	§ 18989.1	Jan., 1, 2022	by Jan., 1, 2023	Jurisdiction
<input type="checkbox"/> Issue Notice of Violation within 60 days of offense, follow up within another 90 days, issue penalties within 150	§ 18995.4	Jan., 1, 2024	by Jan., 1, 2024	Jurisdiction
<input type="checkbox"/> Provide tenants information within 14 days of move in	§ 18984.1	Ongoing	Ongoing	Jurisdiction
<input type="checkbox"/> Venues and large events must require vendors meet 3 container requirements	§ 18991.1	Ongoing	Ongoing	Jurisdiction
<input type="checkbox"/> Recordkeeping: Enforcement actions	§ 18995.2	Ongoing	Ongoing	Jurisdiction

### Three Container System

<input type="checkbox"/> Provide a three container system	§ 18984.1	Jan., 1, 2022	on or after Jan., 1, 2024	Hauler
<input type="checkbox"/> Haulers: Identify facilities where they transfer organics waste and provide documentation	§ 18988.1	April 1, 2022	on or after Jan., 1, 2023	Hauler
<input type="checkbox"/> Properly label the cart	§ 18984.8	Aug., 1, 2022	on or after Jan., 1, 2024	Hauler
<input type="checkbox"/> Recordkeeping: Geographic area, type of service, used facilities, recovery rates, etc.	§ 18984.4	Aug., 1, 2022	on or after Aug., 1, 2022	Jurisdiction
<input type="checkbox"/> Match gray, blue, green system when replacing container	§ 18984.7	Dec., 1, 2022	on or after Jan., 1, 2024	Hauler

## Route Review

	Regulation	Due Date	Projected Program Date	Responsible Party
<input type="checkbox"/> Perform waste Route Review to verify commercial businesses and residential generators are meeting requirements	§ 18984.5	April 1, 2022	by Aug., 1, 2023	Jurisdiction
<input type="checkbox"/> OPTIONAL in lieu of Route Review: Sample all hauler routes (minimum of 25-40 samples). Under 25% contamination, or additional outreach is required.	§ 18984.5	April 1, 2022	by Aug., 1, 2023	Hauler
<input type="checkbox"/> Facility Quarterly Waste Characterizations of Gray Container Stream	§ 17409.5.7	July 1, 2022	by Aug., 1, 2022	Facility
<input type="checkbox"/> Recordkeeping: Waste evaluation documentation	§ 18984.6	Ongoing	Ongoing	Hauler

## Outreach and Education

<input type="checkbox"/> Provide generators information annually. Includes sorting instructions, sorting outreach materials, community compost, approved haulers, source reduction, etc.	§ 18985.1	Feb., 1, 2022	Ongoing	Jurisdiction
<input type="checkbox"/> Recordkeeping: Track outreach efforts	§ 18985.3	Feb., 1, 2022	Ongoing	Jurisdiction

## Edible Food Recovery

<input type="checkbox"/> Inspections to be performed at Tier 1 and Tier 2	§ 18995.1	Jan., 1, 2022 Jan., 1, 2024	Sept., 1, 2022	Jurisdiction
<input type="checkbox"/> Edible food recovery outreach: List organizations and how to access them	§ 18985.2	Feb., 1, 2022	July., 1, 2022	Jurisdiction
<input type="checkbox"/> Estimate edible food capacity	§ 18990.2	Aug 1, 2022	June., 1, 2022	County with Jurisdiction

## Procurement

<input type="checkbox"/> Must procure (population x 0.08 tons) of organic waste product equivalent annually	§ 18993.1	Jan., 1, 2022	After Jan., 1, 2023	Jurisdiction
<input type="checkbox"/> Must meet procured paper standards	§ 18993.3	Jan., 1, 2022	After Jan., 1, 2023	Jurisdiction
<input type="checkbox"/> Recordkeeping: Records of both	§ 18985.3	Ongoing	Ongoing	Jurisdiction

## Planning and Reporting

<input type="checkbox"/> Initial Jurisdiction Compliance Report	§ 18994.1	April 1, 2022	April 1, 2022	Jurisdiction
<input type="checkbox"/> Estimate tons organic waste disposed and capacity needed. Evaluate expansion options, including community compost	§ 18992.1	Aug., 1, 2022	Aug. 1, 2022	County with Jurisdiction
<input type="checkbox"/> Jurisdictional Annual Report	§ 18994.2	Aug., 1, 2022	Aug. 1, 2022	Jurisdiction
<input type="checkbox"/> Create implementation schedule	§ 18990.1	Dec., 1, 2022	Dec., 1, 2022	County with Jurisdiction

### **SB 1383 Initial Compliance – Short-Term**

The short-term plan to achieve SB 1383 compliance involves the following activities:

- SB 1383 Waivers for 5-year Extensions applications starting on December 1, 2021
- SB 1383 Local Assistance Grant Program had to apply by February 1, 2022
- SB 619 Notice of Intent to Comply had to apply by March 1, 2022
- Initial Jurisdictional Compliance Report had to apply April 1, 2022

### **SB 1383 Waivers for 5-year Extensions starting December 1, 2021**

A jurisdiction (city or special district providing solid waste collection services) may apply to CalRecycle for a waiver for some or all its generators for some or all the requirements. To qualify for a low population waiver, the following must apply to the jurisdiction:

- The jurisdiction disposed less than 5,000 tons of solid waste in 2014 as reported in the CalRecycle Disposal Reporting System.
- The jurisdiction has a total population of less than 7,500 people.

Unincorporated County areas (may apply to CalRecycle for a waiver for some or all the generators within the unincorporated county from some or all the requirements. To qualify for a low population waiver, the following must apply:

- The identified census tracts have a population density of less than 75 people per square mile within the jurisdiction and be in unincorporated portions of the County.

CalRecycle-approved waivers are valid for a period of up to five years. A jurisdiction may apply to renew a waiver at any time up to 180 days prior to the expiration of an existing approved waiver. Table 2 and Figure 2 below shows the low population area of Humboldt County. An approved waiver is for collection and collection related activities and does not waive a jurisdiction from its obligation to comply with the other requirements of the SB 1383 regulations including, but not limited to, promoting, and providing information to generators about waste prevention, procurement, edible food recovery, community composting, managing organic waste on-site, and other means of recovering organic waste as shown in Table 3 below.

The cities of Eureka, Fortuna, and Arcata, and the portions of the unincorporated County of more than 75 people in a census tract are expected to have SB 1383 programs starting in 2022, where the rest of the County and the cities will need to start SB 1383 collection programs by 2027, as shown in the Table 2 below. With SB 619 allowing up to one year phase in of programs without being subject to administrative penalties, the Compliance Roadmap will focus on starting in 2023 with the medium-term food waste export programs for a term of up to 5 years. Building local food waste processing on a regional approach will take over 5 years and may be ready as soon as 2027, when the initial waiver expires, where the entire County could demonstrate 15-years of organic processing capacity within the County.

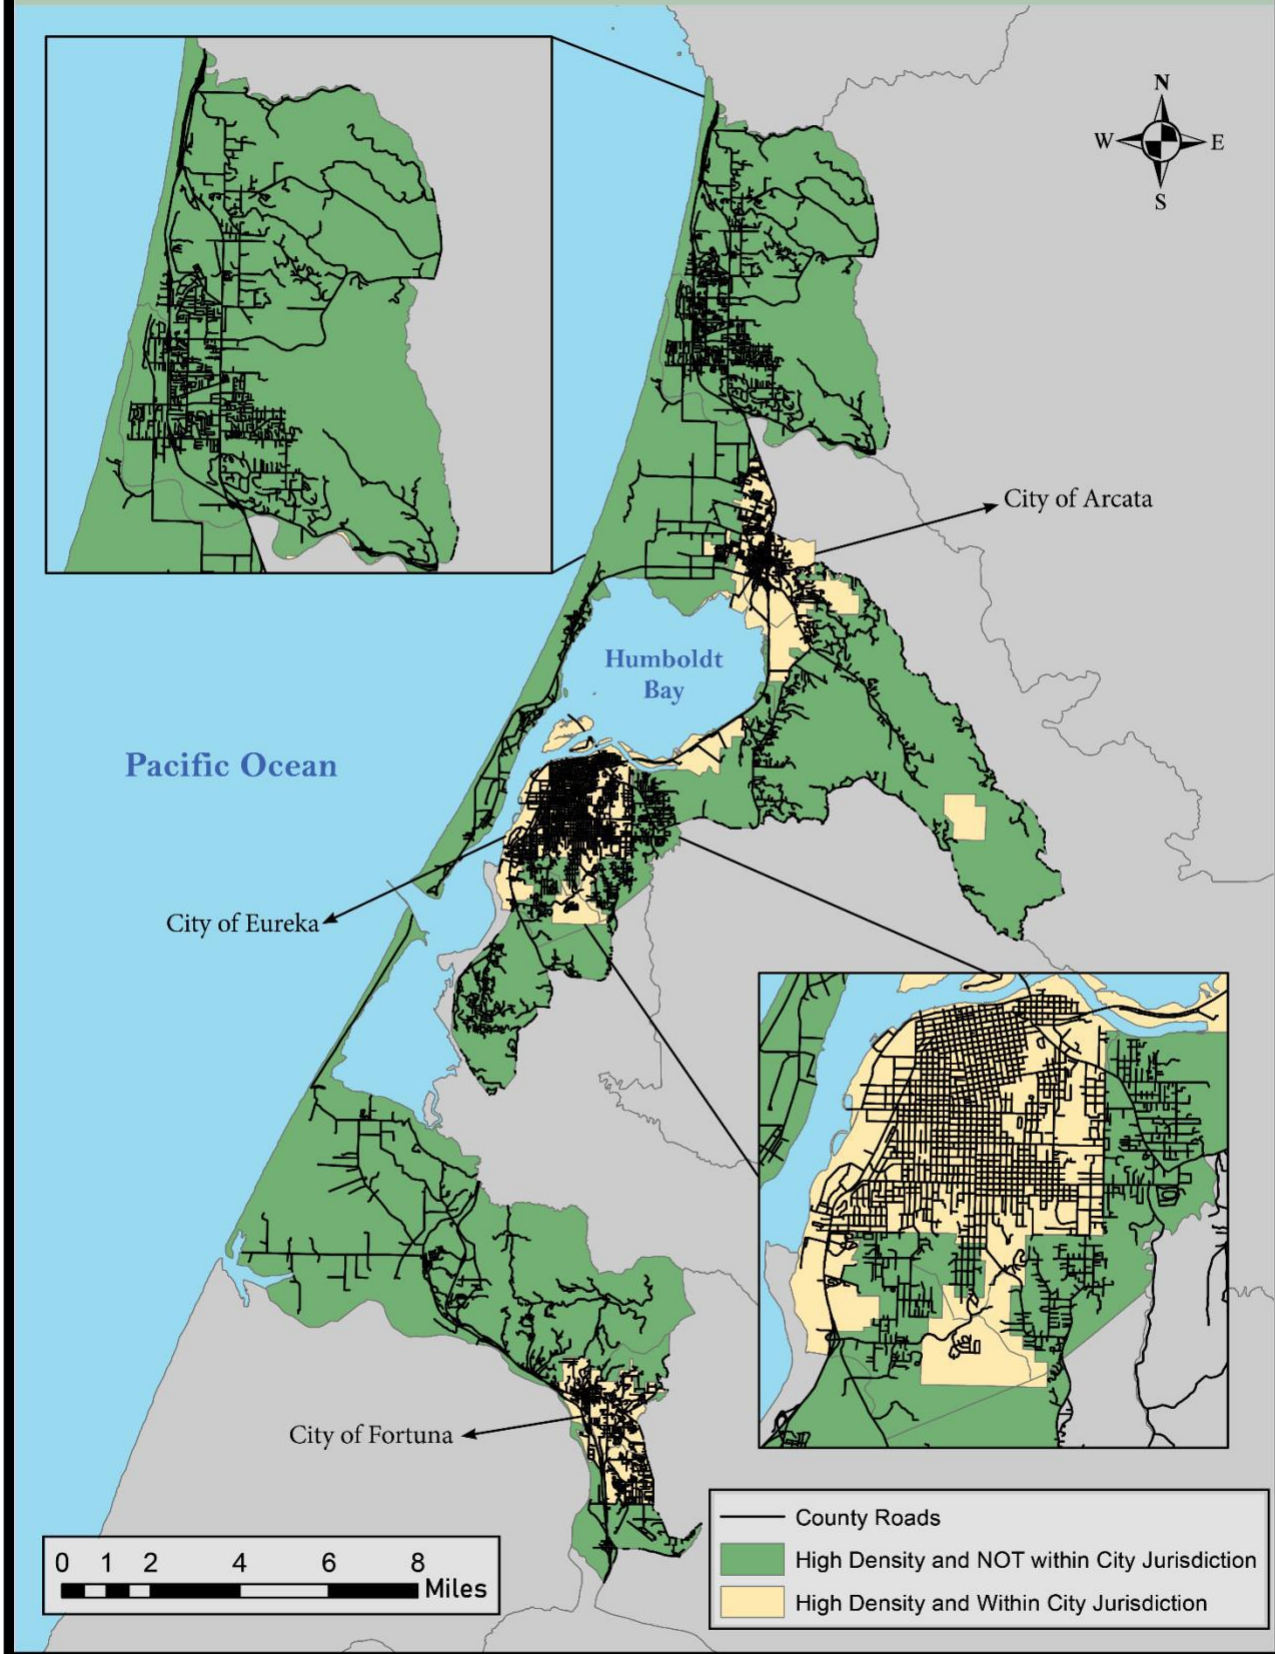

**Table 2 – SB 1383 Waivers and SB 619 Notice to Comply**

Jurisdiction	Area (sq miles)	2019 Population	2014 Disposal Tons	People/Square Mile	Exemption/ 5-Year Waiver	Collection Start Date
Eureka	9.4	26,278	25,053	2,796	None	2023
Fortuna	4.9	12,195	12,140	2,489	None	2023
Arcata	9.1	18,579	7,318	2,042	None	2023
Unincorporated Humboldt	4,020	71,444 TBD	33,570 TBD	> 75 people/mile < 75 people/mile	None Low Density	2023 2027
Rio Dell	2.3	3,325	767	1,446	Population/Disposal	By 2027
Ferndale	1.0	1,339	602	1,339	Population/Disposal	By 2027
Blue Lake	0.6	1,233	535	2,055	Population/Disposal	By 2027
Trinidad	0.5	347	349	694	Population/Disposal	By 2027

**Table 3 – SB 1383 Requirements for Low Population and Low Density**

SB 1383 - Department Issued Waivers		
	Low Population – Rio Dell, Ferndale, Blue Lake, and Trinidad	Low Density
Waiver Requirement #1	5,000 or fewer tons disposed in 2014	Potions of unincorporated County
	7,500 or fewer people in 2014.	Is a census tract in unincorporated area
Waiver Requirement #2		Has fewer than 75 people per square mile
Duration	Up to 5 years	Up to 5 years

SB 1383 Remaining Requirements	Education and Outreach Hauler Recordkeeping CalGreen and MWELO Edible Food Recovery Capacity Planning Procurement Reporting Enforcement Facility Requirements Adopt an Ordinance	Education and Outreach Hauler Recordkeeping CalGreen and MWELO Edible Food Recovery Capacity Planning Procurement Reporting Enforcement Facility Requirements Adopt an Ordinance

## Figure 2: Humboldt County High Population Density

**SB 1383 Local Assistance Grant Program – By Feb 1, 2022**

The Department of Resources Recycling and Recovery (CalRecycle) is administering a one-time grant program meant to provide aid in the implementation of the SB 1383 regulations. This non-competitive grant program provides \$57,000,000 of funding to local jurisdictions to assist with the implementation of regulation requirements associated with SB 1383, including but not limited to:

- Capacity Planning
- Collection
- Edible Food Recovery
- Education and outreach (include organic waste & edible food recovery)
- Enforcement and Inspection
- Program Evaluation/Gap Analysis
- Procurement Requirements
- Record Keeping

With the applications being filed before February 1, 2022, the participating agencies could receive up to \$ 250,819 total with the allocation for each city is generally based on the population with based funding of at least \$20,000 per jurisdictions as noted in Table 4 below:

**Table 4 – SB 1383 Local Assistance Grant Amount**

Humboldt County	Grant Amount
Arcata	\$ 23,199
Blue Lake	\$ 20,000
Eureka	\$ 35,271
Ferndale	\$ 20,000
Fortuna	\$ 20,000
Rio Dell	\$ 20,000
Trinidad	\$ 20,000
Humboldt County	\$ 92,349
Total	\$ 250,819

The second round of funding will have until June 14, 2022, to submit the documentation. On or after September 1, 2022, CalRecycle will consider funding recommendations, and if approved, conditionally awards grants on this date.

The First-Round grant term is for 2 years starting on April 1, 2022, and ending on April 1, 2024, with Progress Reports due every six months, and a Final Report due at the end of the grant. The Second-Round grant term is for 2 years starting on September 1, 2022, and ending on September 1, 2024, with Progress Reports due every six months, and a Final Report due at the end of the grant.

### **SB 619 Notice of Intent to Comply – By March 1, 2022**

Jurisdictions are required to implement SB 1383 starting on January 1, 2022. As jurisdictions are preparing to implement the law, many local governments are facing challenges due to the COVID-19 pandemic. In response, Governor Newsom signed SB 619 (Laird) into law to support local governments as they design and implement successful organic waste recycling programs throughout the state. The law authorizes CalRecycle to waive civil penalties if a jurisdiction submits a Notification of Intent to Comply (NOIC) for some or all the regulatory requirements and successfully implements a plan to correct their violations. When the State of California adopted SB 1383, CalRecycle was authorized to levy enforcement fines of \$10,000 per day for jurisdictions that do not meet SB 1383 requirements.

Jurisdictions that are unable to fully implement the regulations due to the COVID-19 pandemic, may submit to CalRecycle a Notification of Intent to Comply by March 1, 2022. A condition of this relief is that jurisdictions must submit a “Notice of Intent to Comply” to CalRecycle along with a schedule for compliance, and a resolution approving the Notice of Intent to Comply. A jurisdiction shall, at minimum, include the following in its notification:

- A detailed description of the continuing violations.
- A detailed explanation of the reasons, supported by documentation, why the jurisdiction is unable to comply.
- A description of the impacts of the COVID-19 pandemic on compliance.
- A description of the proposed actions the jurisdiction will take to remedy the violations within the timelines with a proposed schedule for doing so. The proposed actions shall be tailored to remedy the violations in a timely manner

Edgar provided a sample Notice of Intent to Comply form, as well as the Resolution, and followed up with a webcast to the member agencies. The plan is to phase in SB 1383 programs during 2022 with implementation by January 1, 2023.

CalRecycle will review each request within 45 business days of receiving a notification of intent to comply to ensure that it is complete and accurate. If the notification is not complete or accurate, CalRecycle will contact the person submitting the notification for clarification. CalRecycle will respond in writing to a jurisdiction within 45 business days of receiving a notification of intent to comply with one of the following responses:

1. Approval
2. Disapproval
  - a. If CalRecycle disapproves the notification, CalRecycle will include the reasons for disapproval.
3. Request for additional information
4. Timeline for a decision on approval or disapproval.

When CalRecycle approves a jurisdiction’s notification, the jurisdiction may be eligible

for both of the following:

1. Administrative civil penalty relief for the 2022 calendar year.
2. A corrective action plan.
  - a. CalRecycle may address through a corrective action plan any violations disclosed in a jurisdiction's notification that will take more than 180 days to correct. In this situation, the proposed actions and schedule in the jurisdiction's approved notification will be in effect until a corrective action plan is issued.

CalRecycle may establish any maximum compliance deadline in a corrective action plan that it determines to be necessary and appropriate under the circumstances for the correction of a violation of the regulations. CalRecycle may address through a corrective action plan any violations disclosed in a jurisdiction's notification that may take more than 180 days to correct.

### **Waiving Administrative Civil Penalties**

CalRecycle may waive administrative civil penalties for the violations if the jurisdiction implements the actions proposed in the notification to remedy the violations. For violations that commence during the 2022 calendar year and continue into the 2023 calendar year, administrative civil penalties may begin accruing as of January 1, 2023. Those administrative civil penalties accruing on and after January 1, 2023, shall be waived upon complete compliance with the terms of a corrective action plan. Note: If a jurisdiction fails to adhere to the proposed actions and schedule described in the approved notification, then CalRecycle may revoke its approval and impose administrative civil penalties for violations occurring during the 2022 calendar year retroactive to the date of violation.

### **SB 1383 Substantial Compliance Process**

The SB 1383 enforcement structure allows CalRecycle to focus on compliance assistance first and dedicate enforcement efforts to serious offenders. The regulations allow for flexibility and deadline extensions in some instances when there are extenuating circumstances causing compliance issues despite a jurisdiction's substantial efforts, such as the COVID-19 pandemic and natural disasters.

The enforcement process is an escalating process, and the timelines are not triggered until a Notice of Violation (NOV) is issued.

- CalRecycle has discretion to address compliance issues with a jurisdiction through compliance evaluations prior to moving to enforcement proceedings.
- CalRecycle will consider the totality of circumstances surrounding a jurisdiction's compliance prior to issuing NOVs.
- CalRecycle has discretion to issue NOVs and, depending on circumstances, not seek penalties.

If CalRecycle takes enforcement action, it can consider **extenuating circumstances** as well as **substantial efforts** made by a jurisdiction and place the entity on a Corrective Action Plan (CAP). CalRecycle has enforcement discretion to allow for a longer timeline for compliance.

**Notice of Violation (NOV)** - If CalRecycle determines a jurisdiction is violating one or more requirements and decides to take enforcement action, it must issue an NOV.

- A jurisdiction will have **90 days** to correct the violation.
- That timeframe can be extended an **additional 90 days** to a **total of 180 days** if CalRecycle finds that additional time is necessary.

**Corrective Action Plan (CAP)** - For violations due to barriers outside a jurisdiction's control (**extenuating circumstances**) and when a **substantial effort** is made towards compliance:

- Jurisdictions can be placed on a Corrective Action Plan, with extended compliance timelines.

Extenuating circumstances are:

- Acts of God such as earthquakes, wildfires, flooding, and other emergencies (such as pandemics) or natural disasters.
- Delays in obtaining discretionary permits or other government agency approvals.
- An organic waste recycling infrastructure capacity deficiency requiring more than 180 days to cure.

**Substantial effort** is where a jurisdiction has done everything within its authority and ability to comply. **Substantial effort does not include** circumstances where a decision-making body of a jurisdiction has not taken the necessary steps to comply with the chapter, including, but not limited to:

- Failure to provide adequate staff resources to meet its obligations, or
- Failure to provide sufficient funding to meet its obligations, or
- Failure to adopt the ordinance(s) or similarly enforceable mechanisms.

If a jurisdiction does not demonstrate that they have made a **substantial effort**, they would not be eligible for the extended compliance deadlines. However, CalRecycle will consider the totality of circumstances surrounding a jurisdiction's compliance prior to issuing NOVs.

Penalties are imposed after all other compliance actions have failed.

- If a jurisdiction does not meet NOV or CAP deadlines, CalRecycle has another opportunity to exercise enforcement discretion by determining when to commence an action to impose administrative civil penalties.
- When CalRecycle commences an action to impose administrative civil penalties, it shall serve an accusation and hold a hearing—if requested by the respondent (roughly, a 180-day process).

### **AB 939's Good Faith Effort vs. SB 1383's Compliance Determination**

AB 939 established a specified waste diversion target for each jurisdiction.

- A *Good Faith Effort* determination relies upon a suite of indicators to determine if a jurisdiction is actively trying to implement programs and achieve its targets.

SB 1383 establishes a statewide target and prohibits a target for each jurisdiction.

- SB 1383 requires a more prescriptive approach and state minimum standards.
- Jurisdictions must demonstrate compliance with each prescriptive standard.
- Legislators amended SB 1383 to remove the requirement that CalRecycle use the AB 939 *Good Faith Effort* requirement for its enforcement for SB 1383.
- The 75 percent organic waste diversion target in 2025 will not be reachable with the longer compliance process under the *Good Faith Effort* standard.

**Eligibility for a CAP through the NOIC Process** – For violations identified in the SB 619 NOIC, CalRecycle may address any violations disclosed through a CAP that will take more than 180 days to correct.

A jurisdiction is not required to demonstrate a substantial effort to be eligible for a CAP through the NOIC process. This differs from the SB 1383 enforcement process.

These **Substantial Compliance Process** allows for extended compliance timelines (under certain circumstances), giving jurisdictions additional flexibility to come into compliance before penalties are issued.

Currently, at the HWMA special meeting held on February 22, HWMA staff presented a concept for organic waste processing at the current Eureka Recycling Center location. Staff was directed to return with a cost breakdown and critical pathway.

## Initial Jurisdictional Compliance Report – By April 1, 2022

Each jurisdiction shall report to CalRecycle on its implementation and compliance with SB 1383 requirements by April 1, 2022, the following information:

1. A copy of ordinances or other enforceable mechanisms adopted pursuant to this chapter;
2. The following reporting items:

The type of organic waste collection service(s) provided by the jurisdiction to its generators.

- a. The total number of generators that receive each type of organic waste collection service provided by the jurisdiction.
  - b. If the jurisdiction allows placement of compostable plastics in containers, the jurisdiction shall identify each facility that has notified the jurisdiction that it accepts and recovers that material.
  - c. If the jurisdiction allows organic waste to be collected in plastic bags and placed in containers, the jurisdiction shall identify each facility that has notified the jurisdiction that it can accept and remove plastic bags when it recovers source separated organic waste.
3. The following contact information:
    - a. The name, mailing address, phone number, and email address of the employee of the jurisdiction that the jurisdiction has designated as the primary contact person for the purposes of receiving communications regarding compliance with this chapter.
    - b. The name and address of the agent designated by the jurisdiction for the receipt of service of process from CalRecycle for the purposes of enforcement.

Edgar has notified the member agencies and both Recology and Humboldt Sanitation of the need for the haulers to provide the total number of generators that receive each type of organic waste collection service provided by the jurisdiction which would include the programs under AB 1826 that mandated collection starting in 2016, and whether there is any current bagged use.

### Ordinance by April 1, 2022

SB 1383 requires that jurisdictions establish legal authority to implement and mandate programs through adoption of ordinances, policies, or similarly enforceable mechanisms. The adoption of an Ordinance or a SB 1383 Enforcement Mechanism is essential to the success of a collection program. The State regulations mandate that all jurisdictions adopt one, and will need to include all aspects of SB 1383 including Edible Food Rescue, Procurement, and Model Water Efficient Landscape Ordinance (MWELo). The CalRecycle “Model Mandatory Organic Waste Disposal Reduction Ordinance” was used as a guide.

Under the SB 1383 Regulations, local jurisdictions that do not adopt enforceable mechanism by January 1, 2022, to implement the SB 1383 Regulations locally are subject to penalties issued by CalRecycle. On October 5, 2021, the Governor signed SB 619 to provide some relief for

jurisdictions that may not be compliant with SB 1383 requirements by the January 1, 2022, deadline.

To obtain the benefits of SB 619, NOIC will need to adopt to comply with the SB 1383 Regulations by resolution at a Council or Board meeting and send the notification to CalRecycle by March 1, 2022. If CalRecycle approves the notification, penalties will not accrue against the City during 2022. However, if the jurisdiction does not take action to comply with the extended deadline, then the City would be liable for the fines retroactively.

The proposed ordinance is a mechanism for the jurisdiction to enforce the SB 1383 Regulations. Key provisions of the proposed ordinance are highlighted below (the list is not comprehensive):

Single-family, multi-family and businesses must subscribe to solid waste, recyclables and organics collection service and properly sort these materials.

- Businesses and multi-family buildings must acquire and supply an adequate number of labeled, color-specific containers for employees, contractors, tenants, and customers, consistent with the 3-container program provided by Recology and educate employees and tenants about proper sorting.
- Businesses (excluding multi-family) must provide additional labeled or color-specific containers for organic waste and recyclable materials generated by that business in all areas where the business provides disposal containers for employees, tenants, customers, and other users of the premises.
- The jurisdictions review requests from businesses and/or multi-family buildings for waivers from organic waste collection requirements, and grant waivers when criteria are met.
- Ensure that collection containers provided by the haulers meet color requirements and are labeled to specify the materials allowed for those containers.
- Self-haulers of organic materials must source-separate organics, take them to a facility that recovers organics, and keep specified records.
- Develop and implement an edible food recovery program that recovers edible food from commercial edible food generators for human consumption.
- Commercial edible food generators must enter into written agreements with food recovery organizations and keep specified records.
- Food recovery organizations and services must maintain certain records, including written agreements with commercial edible food generators.
- The jurisdictions must inspect and enforce the requirements in the Ordinance. The penalties for violations are consistent with the jurisdiction's penalties for other ordinances.
- Ensure that contamination monitoring of containers to inspect for prohibited contaminants is conducted.
- The jurisdictions must provide educational materials, issue notice of violations, and issue administrative citations for violations of the Ordinance as specified.

- The jurisdictions shall work with the haulers and others to ensure that education and outreach regarding the SB 1383 requirements are provided to generators, haulers, facilities, and edible food recovery organizations.

While the jurisdictions may designate a public or private entity to fulfill some of its SB 1383 regulatory responsibilities via contracts, MOUs or written agreements, the jurisdictions itself remains responsible for its SB 1383 compliance and enforcing other entities' compliance with the SB 1383 regulations through the Ordinance. Under the SB 1383 Regulations, the jurisdictions are also not allowed to delegate the authority to impose civil penalties for any violation of the Ordinance, or to issue waivers, to a private entity.

The SB 1383 regulations also require the jurisdictions to:

- Procure recycled content paper, and procure recovered organic waste products (i.e., compost, mulch, electricity generated from biomass conversion, and renewable natural gas) at levels prescribed by the state annually.
- Keep specified records and report implementation efforts.

The jurisdictions must adopt certain CALGreen and Model Water Efficient Landscape Ordinance (MWELO) provisions specific to organic waste diversion. Because some of the jurisdictions may have already has incorporated the current CALGreen and MWELO provisions in the Code, those provisions may not be part of their Ordinance.

#### **StopWaste.Org - Alameda County Waste Management Agency – Model Ordinance**

To assist member agencies and to create a consistent set of requirements throughout Alameda County, StopWaste committed to preparing a countywide model ordinance. Member agencies would adopt an “opt-in” ordinance after the Alameda County Waste Management Authority (ACWMA) Board adopts the proposed countywide ordinance. Member agencies would have the ability to adopt the opt-in ordinance (first and second readings). This is how ACWMA conducts their business to provide an overall framework. A comparison of the CalRecycle Model Ordinance prepared by HF&H and the ACWMA Ordinance is compare on Table 5 below.

HWMA is primarily responsible for post-collection, and member agencies are poised to coordinate and work regionally on the development of model Ordinances but does not adopt Model Ordinances. The SB 1383 Model Ordinance prepared by Edgar (Appendix A) is expected to aid the individual municipal jurisdictions in their respective establishment of appropriate legal authority in their existing municipal codes and ordinances and describe critical pathways to enable expansion of existing food recovery and develop organic diversion programs and identify new programs and policies as appropriate. Edgar will offer a webcast in March to review the proposed Model Ordinance.

**Table 5 – Comparison on SB 1383 Model Ordinance**

	CalRecycle (Prepared by HF&H)	ACWMA – StopWaste.org
Single-Family	Must get service unless self-haul, includes color requirements	Must get service unless self-haul - enforced by member agency
Commercial & Multifamily	Must subscribe to 3-bin system, includes color requirements	Must subscribe to 3-bin system, enforced by member agency, color requirements

**SB 1383 Targeted Tonnage Analysis**

The state of California has set its statewide organic waste diversion goal to be that 2025 organic disposal is 25% of the amount disposed of in 2014. Edgar has calculated the amount of new tons of diversion that would need to occur by 2025 to have jurisdictions divert their fair share of organic waste to keep pace with this goal. To make this determination, Edgar estimated the amount of organic waste disposed of by jurisdictions in 2014, present year, and the new tons that will be needed to achieve the goal. This is done using the following information:

- a. Humboldt disposal tonnages as reported to CalRecycle under the disposal reporting system.
- b. Humboldt Waste Management Authority Waste Characterization Report Dated March 2012.
- c. Humboldt Waste Management Authority Waste Characterization Study Dated October 2021.

d. CalTrans Population Projections for Humboldt County.

Edgar is using a tonnage model that has several advantages:

- It ensures the Humboldt is using a consistent baseline with local waste characterization data.
- it provides reasonable estimates of organics that must be recovered. This model analysis assumes that Humboldt County and the cities provide programs to divert their fair share of organics sent to landfill, 75% organics diversion in 2025, compared to 2014 baseline disposal.
- The most relevant population growth data could be utilized to update the model.

The California Department of Finance data is typically used, but was dated from 2010 with negative growth towards 2020, and the new 2020 census data projections to 2030 are not posted yet. The CALTRANS data from 2017 shows a higher growth population with more recent data. With unprecedented growth coming to Humboldt County, Edgar has requested the most recent data for population growth to 2030 and 2045. Until relevant data can be provided, the 2017 CALTRANS data will be used. Using this data may underrepresent the future waste generation rate and will calculate a lower targeted organic waste tonnage while determining the fair-share of organic waste reduction to reach the statewide mandate of 75% by 2025 and calculations to determine the 15-year of organic waste processing capacity.

The first calculation in Table 6 below is to determine what percentage of the disposed tons belong to each sector (commercial, residential, and self-haul). A follow-up calculation uses the above-mentioned waste characterizations to ascertain the percentage of these sectors' waste is organic. For the purposes of this study, organic waste are compostable papers, manures, green waste, wood wastes, and food waste. Textile, carpets, and baled fiber material that are defined as SB 1383 organic waste types are not included in these calculations.

**Table 6 – Percentage of Organic Waste from 2011 to 2020**

	% of Waste Belonging to Each Sector									
	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
Commercial	26%	26%	27%	28%	29%	29%	30%	31%	31%	32%
Residential	28%	27%	26%	25%	25%	24%	23%	22%	22%	21%
Multifamily	5%	5%	5%	5%	5%	5%	4%	4%	4%	4%
Self-Haul	41%	41%	42%	42%	42%	42%	42%	43%	43%	43%
	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%

	% of Each Sector's Waste that is Organic									
	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
Commercial	48%	47%	47%	47%	46%	45%	44%	43%	42%	41%
Residential	59%	58%	57%	47%	48%	48%	48%	49%	49%	50%
Multifamily	59%	58%	57%	40%	42%	43%	45%	47%	48%	50%
Self-Haul	41%	40%	39%	39%	38%	36%	34%	33%	31%	29%

Using the 2012 and 2020 waste characterizations and the disposal data reported to CalRecycle, a trendline is established estimating the amount of organic waste disposed for all years in between, including the 2014 base year. Although Humboldt's population has remained steady for the past several years, disposal has been increasing overall. The 30% increase in disposal has been coupled with a modest decrease in the percentage of waste that is organic. The net result is that Humboldt is disposing **8,308 tons** more tons in 2020 than it did in 2014. This is a 25% increase in organic disposal.

According to CalTrans projections for Humboldt County, the Humboldt County population will increase to 136,254 by 2025. At that rate, and without further organic waste diversion, the disposal amount will increase from **42,709 tons in 2020** to **44,748 tons in 2025**. Thus, for Humboldt County to meet its SB 1383 fair share target of less than **8,503 tons** of organic waste disposal in 2025, Humboldt County must create capacity to divert **37,332 new tons of organic waste in 2025**. The SB 1383 Tonnage Model is provided in Appendix B with detailed information on the amount of tonnages by source; commercial, residential, multi-family, and self-haul, and by organic waste type; food waste, green waste, compostable paper, manure, and the amount of greenhouse gases avoided from diverting organics from landfilling.

The target new SB 1383 tons for 2025 to achieve a 75% organic waste reduction amounts of the following: 1) Food waste - 18,703 tons, 2) Green waste -5,525 tons, 3) Wood waste - 6,825 tons, 4) Compostable paper - 6,694 tons; and 5) Manure – 817 tons.

We also note that the SB 1383 75% organic waste diversion mandate is not required for a specific jurisdiction or landfill but is a statewide mandate that will be analyzed after 2025 by CalRecycle. With the standard 3-contianer system in place, CalRecycle will focus on program design and implementation with reasonable outreach, education, and monitoring. Targeted tonnage and program design are key to developing programs, but SB 1383 does not require that member agencies to meet the 75% goal in 2025 with a tonnage calculation.

## Task 2: Organic Processing and Collection

The task includes developing and implementing new programs related to SB 1383; including but not limited to: backyard composting, community composting, residential curbside organics (including food waste) collection programs, source-separated commercial food waste programs, and other organic materials as identified through discussions with participating jurisdictions. For each possible program, concepts and recommendations will be proposed that will invite stakeholders to review and comment in this draft Compliance Plan Road Map, where a final plan would be issued after review by the Local Task Force. This task will review the following issues for the medium-term and long-term:

- Current Green Waste Handling Facilities
- Proposed Food Waste Processing Facilities
- Backyard Composting
- Community Composting
- Agricultural Composting
- Collection Programs with SB 1383 Compliance (short-term to long-term)

### **Current Green Waste Handling Facilities**

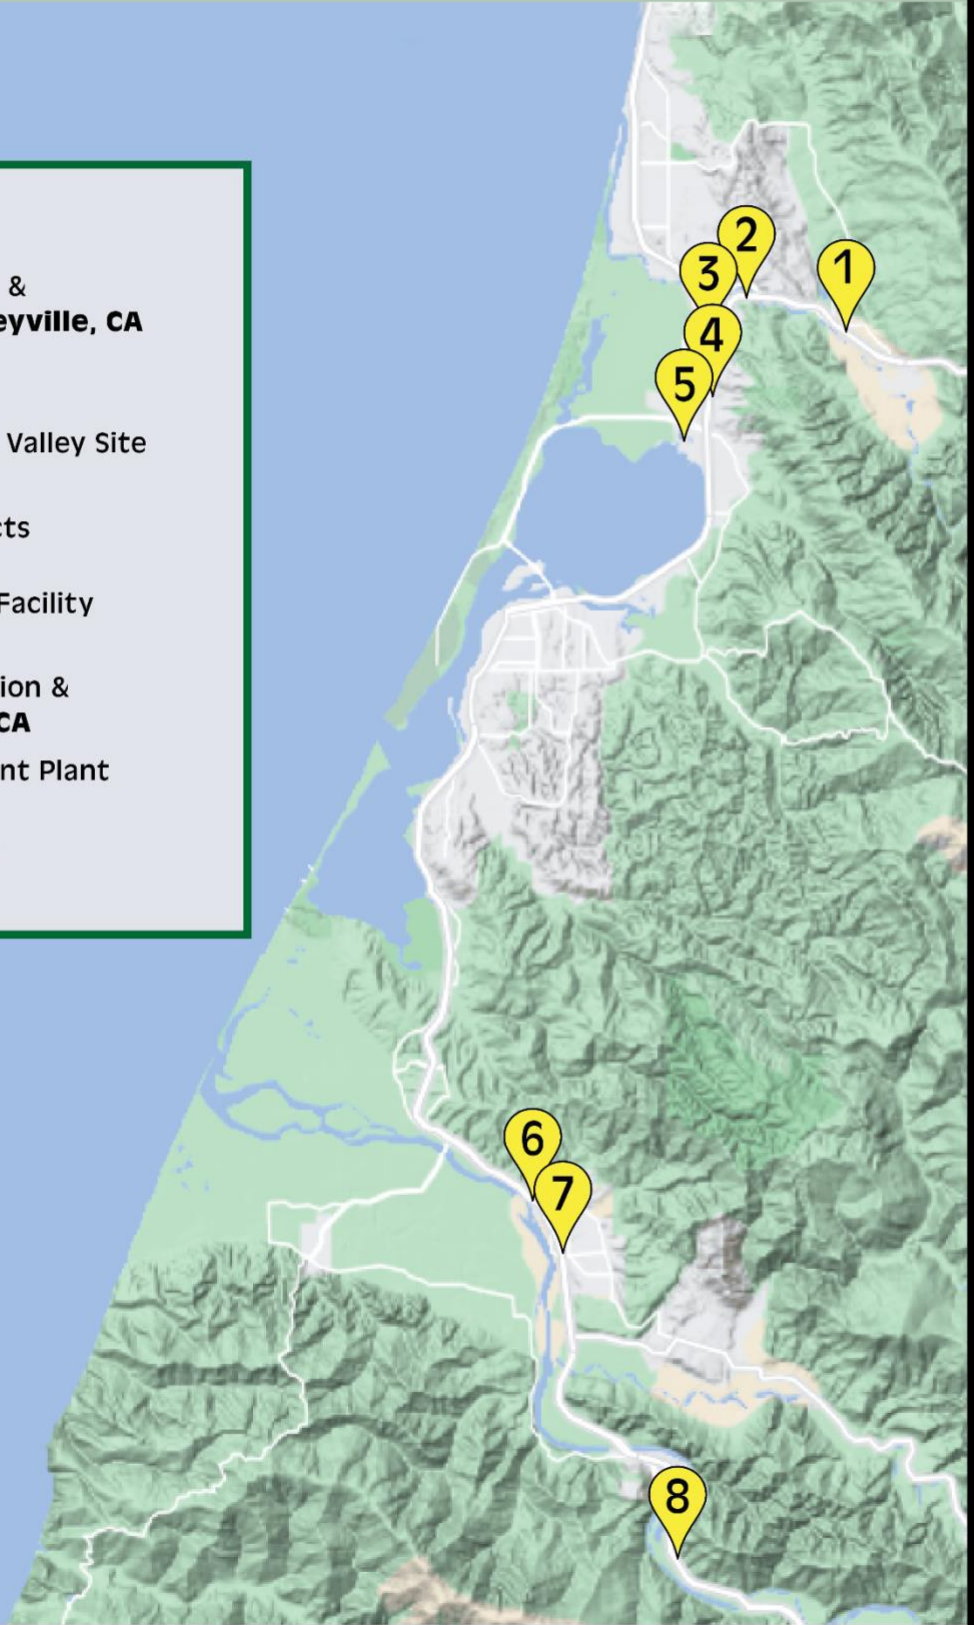

When analyzing programs and facilities to fulfill the organic processing capacity needs, it is the intent to fully optimize the current in-County green waste processing capacity. The Wes Green Company Compost Facility can only process clean green material up to 12,500 cubic yards on-site under an Enforcement Agency Notification Tier accepting approximately 18,000 tons per year with 4,500 tons coming from nonmember agency sources.

There are several other smaller community composters in the County as identified in Figure 3 and Table 7 below where data is being obtained. Self-haul green waste from commercial landscapers and residencies can continue to deliver clean green materials to these facilities. Interviews and site visits are underway to verify the current operational capacity and peak capacity. With this information, a 15-year organic processing analysis can be performed. According to the SB 1383 target tons model, there may be about 5,300 new tons of green waste and 6,600 new tons of wood waste would need to be diverted by 2025 and is it the goal to keep all this material in Humboldt County.

SB 1383 requires that residential food waste be diverted. Only a few communities in urban dense communities have a fourth cart for food waste in California. It is typical that residential food waste is co-collected with residential green waste in the green cart. The moment the food waste is commingled with the green waste, CalRecycle has determined that material must go to a permitted food waste composting facility, where there are none in Humboldt County. Food waste must be separated out from the green waste in order to keep green waste in County.

## Figure 3: Humboldt County Permitted Green Material Handling Facility Sites

Freedom Dynamics	animal manure, Hay, Grain, Straw	4000 CY	500 CYPD	Not currently operating - willing to discuss how to develop food waste composting facility		17856 - Agriculture material	2

CalRecycle has expectations that starting January 1, 2022, all jurisdictions have a co-collected residential green waste and food waste program, and it is the goal of the Roadmap to have that start on January 1, 2023, with the filing of SB 619 applications. When co-collection starts, existing compost operations will not have the ability to process co-collected residential.

## Potential Food Waste Processing Facilities

### Hawthorne Street Transfer Station

A Technical Memorandum and a PowerPoint presentation has been prepared on the organic waste processing options at Hawthorne Street Transfer Station and is provided in Appendix C with a Site Plan of the Solid Waste Facility Permit footprint.

The following was discussed at the HWMA Board on February 22, 2022, where additional information will be discussed at the March 10, 2022, HWMA Board meeting.

- Relocate the Eureka Recycling Center to a Heavy Industry Zone where recycling collection and processing is permitted by right, or a Light Industrial Zone where a recycling collection is permitted by right.
- Permit an Organics Processing Operation within the Eureka Recycling Center space which is a 30-day Transfer Processing Report Amendment process to the Solid Waste Facility Permit with the County Division of Environmental Health acting as the Local Enforcement Agency (LEA) for CalRecycle. A meeting with the LEA is scheduled for March 4, 2022, to verify the permitting pathway.

The critical path to SB 1383 compliance is finding a new Heavy Industrial Location within the City of Eureka for the Recycling Center, or possibly relocate to another jurisdiction, and the ordering of new equipment. Recycling processing is a permitted use in the Heavy Industry Zone within the City of Eureka without needed a Conditional Use Permit.

The Hawthorne Street Transfer Station is the hub and the key to compliance. Reinstating the pilot program to transfer commercial food waste out of County for a short-term period to a permitted compost facility from a bunker inside the new proposed Tip Floor inside of the HWMA St. Transfer Station could start as soon as January 1, 2023.

Having indoor floor space to process the residential co-collected organics to keep green waste in County is the key to SB 1383 compliance when starting the collection program. The critical path to start organics collection is the re-location of the Eureka Recycling Center.

The site has a Full Solid Waste Facility Permit (SWFP) with a Five-Year SWFP Permit Review due on December 17, 2025 and can be routinely amended following the 30-day Transfer/Processing Report process with the LEA. Preparing the application package could take up to 45 days. The facility can accept all types of municipal solid waste which includes source-separated food waste, co-mingled residential green, and food waste. The site is 4.3 acres in which the Eureka Recycling Center is located within the current SWFP footprint.

The 19,000 square foot Recycling Building could be repurposed into the Organics Processing Building with the following activity:

- Residential Organics: Receive and process residential co-collected organics (green waste with bagged food waste). Bagged food waste could be manually separated on a floor sort since it only represents 3% to 5% of the co-collected material. Several other facilities throughout the state conducts this activity. The bagged food waste would be combined with the commercial food waste. This separation allows green waste to continue to be processed at existing in-county facilities.
- Commercial Organics: Receive and process source-separated commercial organics with the bagged residential food waste being added to this stream. Even with best management practices and training, commercial organics still average 33% contamination that must be removed prior to composting or anaerobic digestion.
  - Option 1 – For the short-term, transfer commercial food waste out of County to a permitted facility and place that service out to RFP. This could be a 5-year period until local food waste permitted capacity is secured.
  - Option 2 – Process the commercial food waste with an extruder or screw-press processing technology into an organic slurry. The 33% contamination would be loaded out to the Transfer Station to Dry Creek Landfill. The 67% organic slurry would be a product with more options
- Medium-Term:
  - Slurry could be transferred out of County to a permitted compost or anaerobic digestion facility
- Long-Term:
  - Slurry could be made pumpable (added liquids) for anaerobic digestion feedstock at a local wastewater treatment plant.
  - Slurry could be used as animal feed for fish food at the proposed Nordic Facility.
  - Slurry could be mixed with green waste for a compost feedstock for a further in County permitted food waste compost facility. Several local composting facilities have expressed interest in permitting a food waste compost facility.

Adding food waste processing equipment in the future could take 6 to 9 months to order and install, with costs under \$1 million to purchase and install. The electrical load of the Facility should be reviewed to determine the viability of adding processing equipment.

Although there are green waste collection and self-haul services in some communities, we understand the County does not currently have collection and commercial processing of food waste materials. Edgar will provide the County with an analysis and implementation timeline to

establish a compost and/or an anaerobic digestion facility once the interview and site visits are conducted.

The evaluation will show the site location and infrastructure options for organics processing facilities, including evaluation of existing wastewater treatment plants, evaluation, and recommendation of potential composting technologies, and will compare and analyze collection options. This will be a multiyear process with plans to open County facilities by 2027; the 2027 timeline aligns with when waivers will expire for smaller cities, the proposed short term 5-year out-of-county compost capacity contracts expires, and the Dry Creek Landfill disposal contract ends.

Edgar has decades of experience in siting and permitting compost and anaerobic digestion (AD) facilities. Based on the analysis and results, Edgar will develop a finance plan to implement in County composting and AD services, such as grant funding and rate optimization. Recommendations will consider future waste generation over the next 20 years. On behalf of clients, Edgar has applied for and been awarded over \$20 million in CalRecycle and CEC grant funding in the last few years. With \$270 million budgeted for SB 1383 infrastructure at CalRecycle and further sustainable funding in the future, Edgar could additionally assist Humboldt in securing grant dollars under a separate scope of work.

Local capacity for SB 1383 organic waste streams of green and food waste will take at least five years to get permitted and operational. In the meantime, short-term processing capacity for the next five years needs to be procured with an RFP process to find permitted food waste compost capacity where the organic waste needs to be transferred out of County.

There are no operating landfills in Humboldt. All solid waste is transported primarily to landfills located out-of-county. The municipal solid waste that that are being transferred out-of-county includes food waste that will be targeted to be diverted from disposal to a permitted compost facility. Dry Creek Landfill was contacted as they currently operate a green waste composting facility. They have no plans currently to permit a food waste processing facility.

There are eight permitted food waste compost facilities in northern California down southbound Hwy. 101, as shown in Figure 4 below. There are two in Mendocino County, one in Lake County, two in Yolo County, one on Solano County, one in Napa County and one in Marin County. These facilities are being interviewed and visited to determine if they have capacity for food waste from Humboldt County, and if they would be included in the RFP.

The RFP could have the following requirements to ensure reliable and complaints services:

- Fully permitted with land use, waste, water, and air permits
- Guarantee capacity for up to 5-years
- Ability to accept and process raw commercial food waste
- Provide a list of acceptable organic waste types that are accepted
- Disclosure all past violations over the last five years

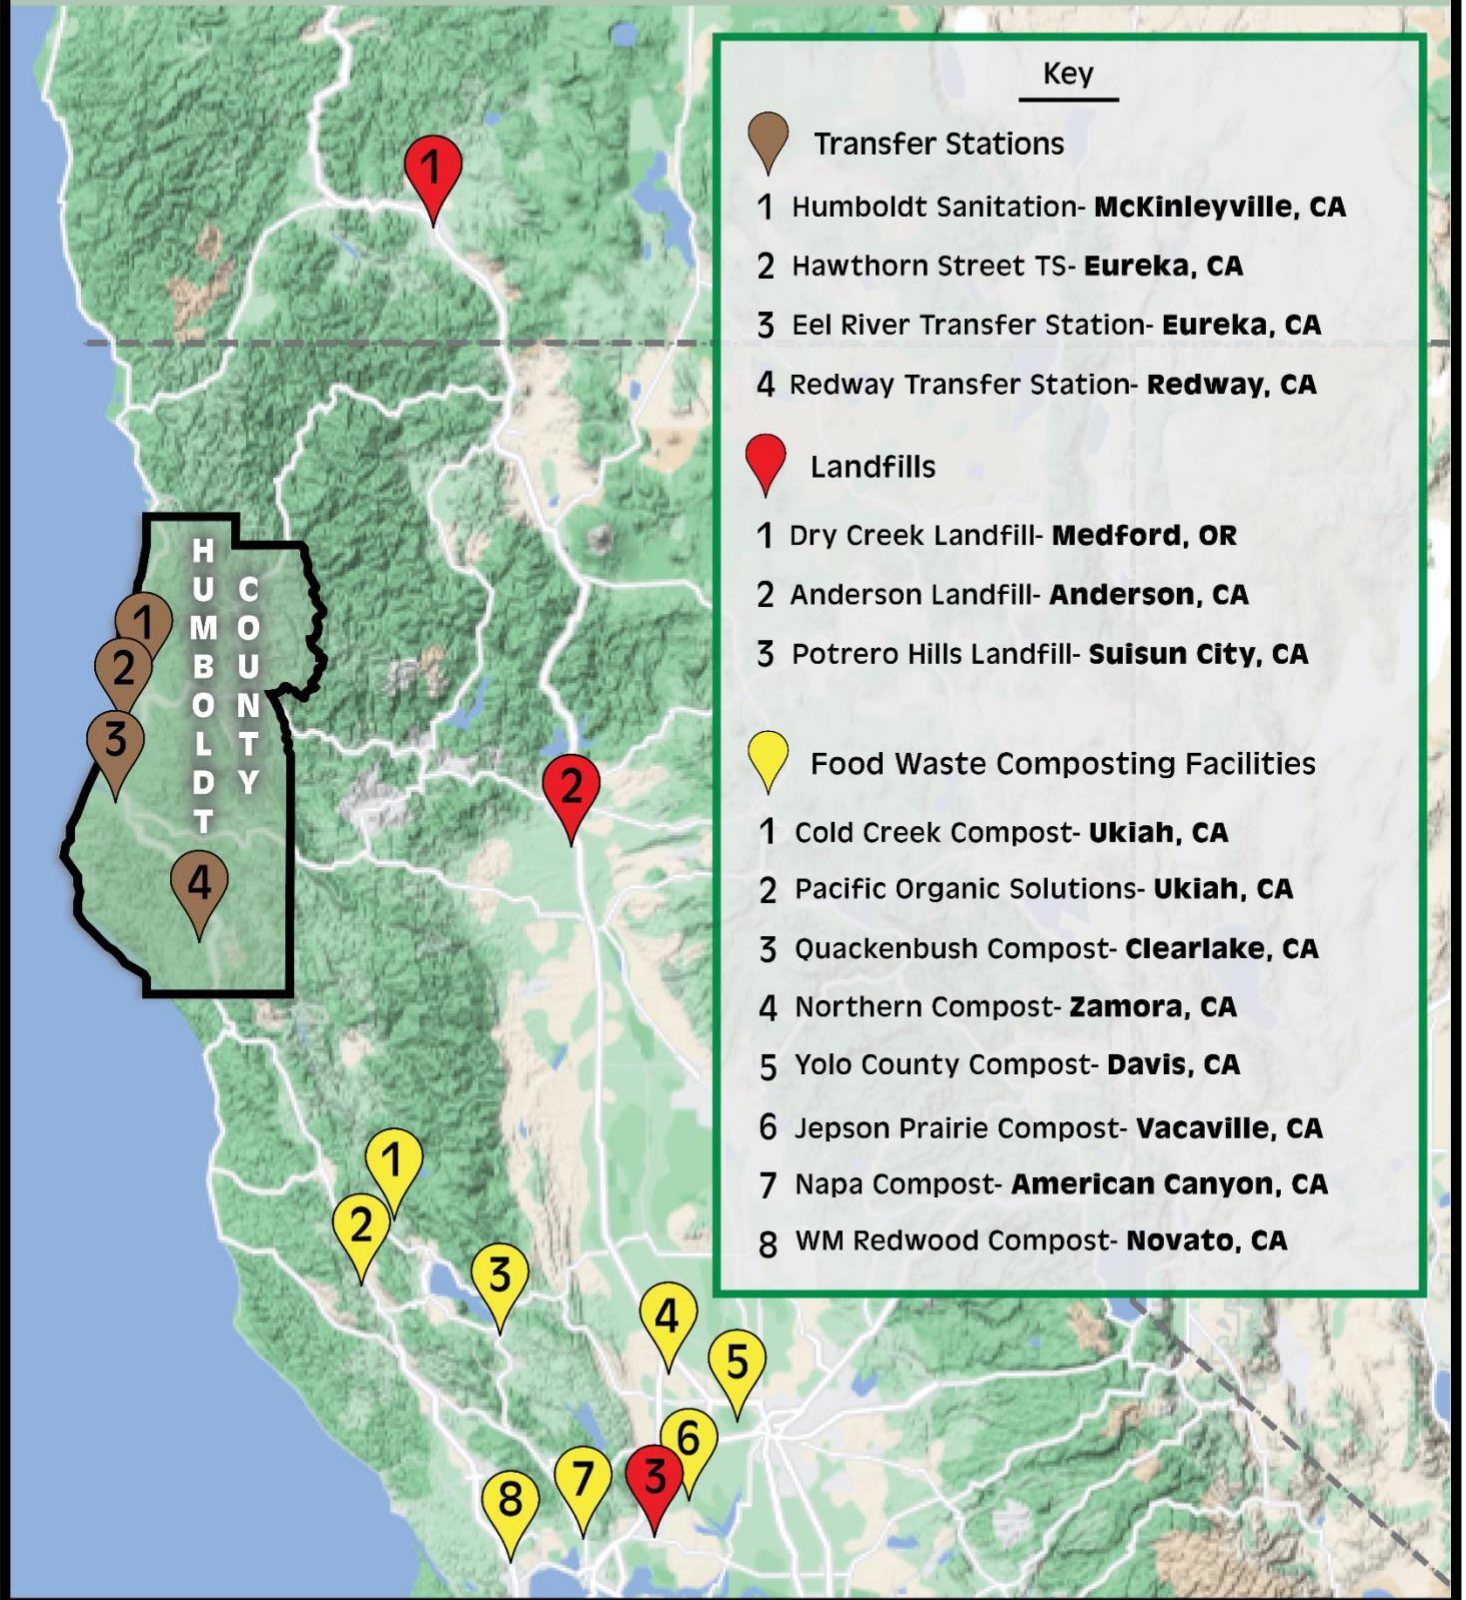

- Recording and reporting tonnage data
- Provide site visits to HWMA and the member agencies

A vehicles miles traveled (VMT) and greenhouse gas (GHG) analysis will be prepared to demonstrate that net GHG avoidance by hauling the food waste to a composting facility instead hauling the organics that are part of the municipal solid waste now to a methane generating landfill. The VMT may incrementally increase, but the GHG avoidance from not generating methane far outweighs any increase in additional hauling. Methane is a short-live climate pollutant that is 84-86 times stronger than carbon dioxide over a 20-year period. About 60% of global methane emissions are due to human activities.

The SB 1383 Tonnage Model is provided in Appendix B with detailed information on the amount of tonnages by source; commercial, residential, multi-family, and self-haul, and by organic waste type; food waste, green waste, compostable paper, and manure, and the amount of greenhouse gases avoided from diverting organics from landfilling. In 2025, should the targets be met, 21,115 metric tons of carbon dioxide equivalents would be avoided.

# Figure 4: Permitted Solid Waste Facilities

Existing Transfer Stations, Landfills, and Food Waste Composting Capacity Facilities

## Backyard Composting

Many local governments encourage backyard composting—an array of activities that allow people to recycle organic materials at home—to reduce trash disposal, save money, and conserve natural resources according to a recent BioCycle article from June 2020. About 30 percent of the typical household’s waste is yard trimmings and food scraps that can be composted. Community public works managers across the nation have learned that the relatively small investment needed to help citizens begin composting at home is repaid many times over as local governments no longer have to collect, transport, compost, or dispose of tons of organic material.

Composting is the controlled decomposition of organic materials into a soil-like substance called compost. Organic materials, such as grass clippings, leaves, yard trimmings, food scraps, and non-recyclable paper products, can be composted at home in compost bins or piles. Backyard composting is an easy and economical way for individuals to convert their organic waste into a soil amendment that they can use to mulch landscaping, enhance plant growth, enrich topsoil, and provide other benefits to plants and soil.

Backyard composting provides the following benefits:

- Reduces collection, transfer, and centralized processing
- Lowers residential trash bills (where unit costing exists)
- Creates jobs (home composting program coordination and promotion)
- Reduces air and water pollution
- Reduces the need to purchase fertilizers and pesticides

Backyard composting has other benefits, such as improving soil health and fertility, providing a hands-on method of science education (especially worm composting), reducing traffic congestion (less hauling of materials), increasing exercise and relaxation, and increasing a sense of personal responsibility and personal and community pride.

When households use their compost to improve the soil, they do more than just add nutrients to the soil. Compost worked into the soil increases aeration, helps control soil erosion, increases the soil water-holding capacity, reduces water demands of plants and trees, neutralizes soil toxins, and reduces mineral leaching from the soil. Plants growing in soil with added compost have a sound root structure and deeper root growth, so they are better able to withstand drought and freeze.

Regardless of the size of the community, backyard composting programs tend to have at least one paid staff person who is responsible for the program, brochures on composting, workshops, a subsidized home composting bin distribution program, and an outreach program that educates school children or teachers about home or in-school composting. Some programs also have an Extension-run volunteer training program, a compost demonstration site, other written materials, advertising, and a telephone hotline.

Based on an averaging of program rankings for BioCycle surveys, the most effective backyard composting program components were:

- Subsidized bin distribution
- Variable collection fees for refuse
- Volunteer training and outreach programs
- School programs
- Workshops
- Books or booklets distribution
- Utility bill inserts
- Demonstration sites and displays
- Bin distribution at cost
- Newspaper ads

The most recommended approaches for starting backyard composting programs were to: (1) recruit a volunteer community group (such as Master Gardener or Composters) to help with education, and (2) provide free or low-cost compost bins to increase residents' interest in composting. The survey respondents made other recommendations for developing programs:

- Focus efforts on single-family households, targeting home gardeners first.
- Develop a home composting brochure (possibly adapted from existing ones).
- Harness volunteers and community support and offer workshops.
- Distribute information through the internet, the media, and local groups.
- Include grass cycling tips in any promotional and educational information.
- Consider a mobile or neighborhood chipping program for brush and branches.
- Structure economic incentives for home composting by adopting refuse collection rates that reward waste reduction.
- Consider having a subsidized compost bin purchase program and one-day sales.
- Evaluate cost-sharing opportunities between jurisdictions, especially for educational efforts and bin distribution programs.
- Provide a home composting hotline number.
- Remember that success is measured over the course of at least a few years.
- Monitor results, participation and diversion rates, and cost per ton diverted.

Survey respondents identified several barriers to home composting, including apathy and resistance to change; the desire to have a “perfect, manicured yard;” concerns about odors, flies, and rodents; and the time and labor needed for composting.

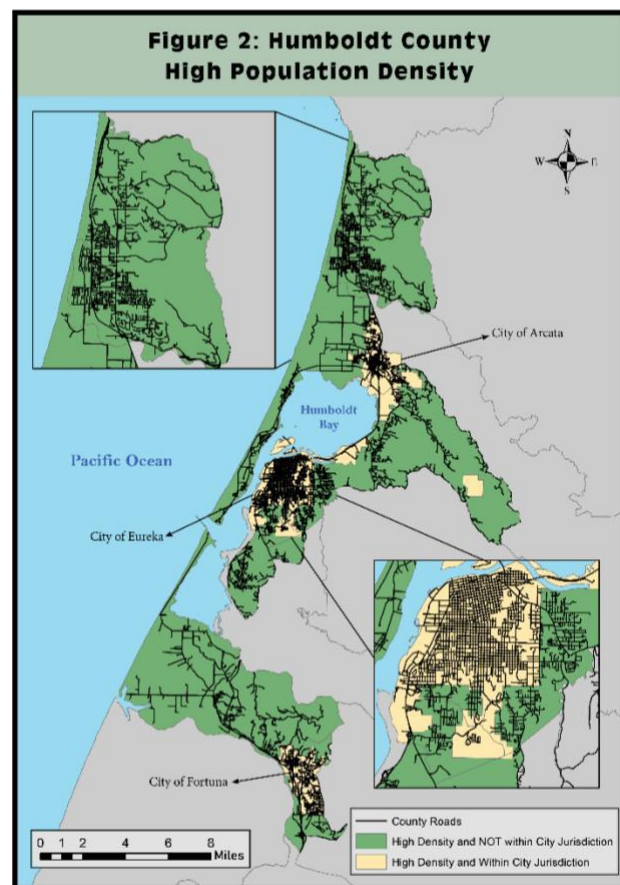

Backyard composting in rural areas is prevalent, where urban area has space concerns, lack of greens to balance the food for C:N ratio and porosity, and lack of proper equipment and training. Backyard composting will create local capacity but will not provide adequate capacity for the SB 1383 target tons.

### **Low-Population Density - Rural Area**

A growing number of municipalities and states are implementing household food waste diversion efforts such as curbside compost programs, though these programs present challenges for participation and implementation. While many food waste diversion programs are occurring in densely populated regions, understanding food waste management in rural regions is less studied. A recent research paper by Frontier Sustainable Food Systems from their January 21, 2020 edition, examines the food waste perceptions and current and future food waste management behaviors of residents.

Other than the High Population Densities shown on Figure 2 copied to the left, the rest of Humboldt County is rural. SB 1383 collections program for these rural areas are phased in until 2027 with the CalRecycle waivers which should give plenty of time to promote backyard composting.

The findings suggest 55% of the rural resident’s support banning food waste from landfills. Furthermore, 72% of residents compost at least some of their food waste currently and more than 75% anticipate doing so in the future. Conversely, 34% of residents anticipate using the garbage or a curbside compost pickup program in the future with urban county residents, renters, and those currently using garbage most interested in curbside programs. The majority of respondents were unwilling to pay anything additional for curbside compost pickup programs. These results suggest food waste management strategies

in rural regions may be different than densely populated areas, particularly for programs that may require significant investments and have limited participation given the popularity of home

composting. As a result, greater investment in education and infrastructure for backyard composting may be an important component of rural food waste management. For the low population densities areas of Humboldt County, SB 1383 collection programs may be phased in up to 2027, where there is time to incorporate backyard composting programs for those who may not have the awareness and training.

As food waste has continued to grow in recent years, there has been a focus on food waste diversion efforts directed at the household level, where significant portions of food waste are generated in high-income countries. Such efforts including curbside compost pickup programs are growing in popularity in urban areas but are also being suggested for more rural regions as well. This study examined the food waste perceptions and current and future food waste management behaviors of respondents in a rural area. The results suggest that most of the respondents support banning food from landfills, which may be in part because the majority of respondents were already managing their food waste in ways to minimize its introduction into the waste stream. Backyard composting or feeding food waste to pets or livestock was the most common food waste management behavior currently and in the future. While most respondents indicated their interest in a curbside compost pickup program, most were also unwilling to pay any additional costs associated with such a program.

Since there are unique challenges of implementing a program in a rural region, where economies of scale may not be achievable and costs may be significant, this has important policy implications about the tradeoffs for such efforts. Concentrating compost pickup programs in areas with higher population density may garner the greatest participation. A focus on consumer education and backyard composting infrastructure may provide fruitful outcomes for rural regions where many households are already composting or will do so in the future, and where other food waste management options relevant to densely populated regions may be less viable.

Given the complexity of these challenges and tradeoffs, and the current lack of research on rural food waste management strategies, additional research could help fill important gaps. This research could focus on assessing food waste strategies and household perceptions in additional rural regions to understand whether these results are more generalizable. As well, interdisciplinary research that could analyze the tradeoffs in food waste strategies across transportation and environmental costs and benefits would be significantly beneficial and assist rural municipalities in understanding which potential food waste management strategies would be most appropriate for a given scale of community. Finally, as more states and regions are implementing food waste policies, these varying policies offer a natural experiment to understand compliance and policy pathways for achieving reduced food waste and food waste management outcomes, if such policies can measure compliance.

### **High Density Population Areas and the Cities**

Backyard composting offers community members an easy and efficient method to process residential food scraps. Cumulatively, backyard composting programs can provide communities with limited organic waste processing capacity with very little capital investment. Participating jurisdictions can support a backyard composting program with education, equipment, guidelines,

training, and incentives. These programs can help manage costs while encouraging local production and use of compost. Member agencies can decide how the program is best structured for their community.

## Education

Education and training are essential elements of a successful backyard composting program. Effective composting education helps community members avoid practices that may create offensive nuisance within residential neighborhoods. If done poorly, back yard composting can produce odors and attract vectors. Consequentially, this could reduce participation and community acceptance of the backyard composting program. Education can be an effective tool to address these problems rather than imposing strict regulatory guidelines. Member agencies that wish to support a backyard composting program, could offer residents training in basic home composting practices. In-person workshops are typically the most effective, but various educational programs have been used with success, which could include:

- Free in-Person workshop
  - Who are the composting experts available in your community?
- In house or third party? - expensive to keep compost expert on staff.
- Publicly owned demonstration site available?
  - Use a location that has required infrastructure (chairs/table) and equipment (i.e., Library, community center, event center)
  - Online classes- More frequently attended than in-person, but likely not as effective.
- Master composting course
  - Master Composter certification courses train people in more advanced composting skills and how to teach others about composting – “train the trainers”
  - Require that participants complete volunteer hours in community-based composting education to get certificate
- Demonstration site
  - Visitors can learn about composting on their own schedule and view different types of composting systems they can purchase or build to use in their yards or at community composting gardens.
  - The sites can hold workshops offered as part of a home composting program or Master Composter course

- Potential collaboration with community composting organizations
- Compost Hotline
- These hotlines can provide information on general and more technical aspects of home composting and serve as the number for ordering bins and scheduling classes
- Online/printed educational material
- Original or linked from other online sources (such as universities or other municipalities)

### Equipment

It is encouraged that member agencies find a composting bin that they will promote to use within the backyard composting program. There are several different at-home composting bin designs on the market and a few factors to consider.

- Ability to provide conditions for ideal composting
  - Volume – ideally accommodate min 27 cubic feet (or 1 cubic yard) of material to achieve active composting temperatures (3 foot by 3 feet by 3-foot bin)
  - Aeration – openings no greater than 1/4” to avoid mice and rat infestation
- Ability to keep vectors and pests out
- Large opening to allow for ventilation and airflow

Part of the educational curriculum should be instructions on how the chosen bin is to be operated successfully. Member agencies can have a voucher or rebate program, sell bins at a subsidized rate, sell bins at wholesale costs, or offer them for free. Some jurisdictions have required workshop attendance to receive a composting bin.

### Guidelines

Member agencies should conduct preliminary research on the potential for a backyard composting program. It is encouraged that member agencies survey the community’s interest in backyard composting. This data can help identify interested areas where a focused and coordinated marketing effort can be more effective. A staggered program rollout is an option when member agency financial resources may not be available for a full-scale program roll out. Ordinances are another tool to foster good practices and prevent bad practices. If this approach is considered, it is recommended to avoid nuanced technical requirements for backyard composting. Instead, identify and prohibit the negative consequences of poor composting practices. For instance, ordinances could prohibit nuisances and/or stipulate requirements for Best Management Practices. Additionally, member agencies may want to be able to act in cases where someone is being truly negligent or irresponsible. Ordinances can also mandate education and training – it is at the discretion of member agencies.

### **Incentives**

Backyard composting programs won't be capable of replacing curbside collection for residential organics due to space limitations and urbanization. Unfortunately, to avoid attracting vectors and other nuisance, not all food scraps should be composted at home. Particularly, meat and other animal products as well as cooked food would need to be a part of curbside collection. This type of guideline has shown to support the success of backyard composting programs. Participating jurisdictions could, however, offer a reduced "organics" rate for residents participating in the backyard composting with training and verification of best practices. This rate consideration could be based on an established percentage of vegetative food waste from residential kitchen food scraps diverted to a backyard composting system. However, ensuring continued participation in the backyard composting program to not justify the rate increase could be difficult to enforce without proper training and verification.

### **Conclusions**

Backyard composting programs can offer cost-efficient local composting capacity for vegetative food waste that would otherwise require long hauling distances or capital-intensive infrastructure. However, backyard composting does not provide 15-years of organic processing capacity for residential sources, and does not address commercial organic composting, where the residential green waste provides adequate bulking agents for the proper C:N ration and porosity to maintain aerobic conditions. Member agencies can support backyard program development through providing education, training, equipment, and verification. Case studies conducted by the Institute on Local Self Reliance was summarized for this memo – full report is linked below.

<https://ilsr.org/wp-content/uploads/2018/06/Yes-In-My-Backyard-Full-Report-v2.pdf>

### **Community Composting**

CalRecycle exempts composting activity that is less than 100 cubic yards and a footprint that is less than 750 square feet, from permit and notification requirements. With those constraints, a typical community compost may be able to manage about 200 tons per year per location. Most community composting activities operate within these parameters, making it easy for those operations to comply with state regulations. Community composting at 200 tons/year per facility does not provide 15-years of organic processing capacity and may receive waste from both or residential sources, where green waste provides adequate bulking agents to add porosity and the proper C:N ratio with food waste to maintain aerobic conditions.

Community composting confronts legal hurdles when organizations operate a fee-based organic waste collection and hauling service when operating in exclusive franchise zones. All franchise agreements vary, but composting collection fee-based collection services are maybe in violation of certain exclusive franchise agreement guidelines. Community compost operations where the generator donates or sell their organics are viable wherever it is convenient. At just 200 tons per year per location, there is hope that the franchised hauler would see the greater good of the community benefits.

If member agencies want to facilitate community composting operation's ability to collect food scraps, language will have to be incorporated into municipal code and the franchise agreement to allow such services. Otherwise, a drop-off, or self-haul, based program with a fee for processing has been shown to be successful. When defining community composting within the solid waste ordinances, it is recommended that member agencies consider including the definitions, below:

**“Community Composting”** means any activity that composts green material, agricultural material, food material, and vegetative food material, alone or in combination, and the total amount of feedstock and Compost on-site at any one time does not exceed 100 cubic yards and 750 square feet, as specified in 14 CCR 94 Section 17855(a)(4); or as otherwise defined b 14 CCR Section 18982 (a)(8).

**“Community Composting Operation”, “Community Composting Organization” or “Community Composter”** means any for-profit or non-profit entity that offers hauling and collection of vegetative food scraps for the purpose of composting the material in accordance with the above definition of Community Composting. Community Composting Organizations may charge generators a fee for providing services. Community Composting Organizations conducting business in the City of **<INSERT CITY>** will be restricted to hauling no more than **<VOLUME OR WEIGHT>** of vegetative food waste.

**“Self-hauler”** means a person, who hauls Solid Waste, Organic Waste or recyclable material they have generated to another person or Community Composter. Self-haul also includes a person who back-hauls waste, or as otherwise defined in 14 CCR 502 Section 18982 (a)(66). Back-haul means generating and transporting Organic Waste to a destination owned and operated by the generator using the generator's own employees and equipment, or as otherwise defined in 14 CCR Section 505 18982 (a)(66)(A).

Passage of an ordinance maybe the most effective method to facilitate community composting hauling and processing services. Otherwise, drop-off programs are an alternative avenue to community composting to maintain operations in compliance with some exclusive franchise agreements.

In the Summer 2022, CalRecycle will be soliciting grants application for \$5 million in a typical amount of \$30,000 per location. Active community composters in Humboldt County will be interviewed on March 3-4 to determine if they qualify based on regulatorily requirements, and if they show interest in the upcoming CalRecycle grant.

## Legal Definitions

Sustainable Economies Law Center advocates for community composting operations and is linked below. Groups that are providing a fee-for-service that is in a typical waste management exclusive franchise agreements may actually violate contracts a designated waste hauler holding those exclusive rights over all waste streams with jurisdictions. Some contracts extend only to the collection of municipal solid waste materials, which by their definition in these contracts is usually along the lines of “any discarded material set out for collection and transported to a permitted facility for final disposal.” The existing franchise agreements between member agencies should be examined to determine if their franchise is exclusive over all organic waste.

Since the material community-based compost organizations are recovering to build local soils are treated as “resources.” Generators ‘may donate or sell’ resources and choose a service that can reuse their resources to make local compost for the benefit of their community, then the generators are also choosing to self-haul or donate this organic material and therefore create organic waste that are subject to waste hauling contracts (which under SB 1383 now needs to be source-separated and diverted from landfills as the final disposal facility).

There is also a lot of language in SB 1383 that will not allow jurisdictions to prohibit generators from reducing/preventing their waste, managing their own materials on-site, or donating materials to community compost sites. These clauses may help entities to sign contracts that explicitly allow community-based resource recovery work which could be limited to 200 tons per year to stay within the CalRecycle regulatory definition.

## Amendment to Franchise Agreement and Ordinance

The City of San Diego amended the solid waste ordinance to include provisions for non-franchise small scale recyclable hauling services. The program is the Certified Recyclable Material Collector (CRMC) and is capped to operate under 1,000 tons/year for all types of recyclable materials. The recent organics program pushed San Diego to include ‘vegetative food waste’ to be defined as a ‘recyclable’, which allowed community composting operations room to offer a fee-based collection service within the already established program. This was an effective strategy for San Diego.

Recology is aware of existing community composting operations within Humboldt County. They may have exclusive rights to all waste generated within some of the member agency jurisdictions. SB1383 requirements will require a solid waste ordinance to include organic waste diversion programs. It may be advantageous to use this opportunity to incorporate language that facilitates community composting operations.

## Residential Drop-Off Programs

Drop-off programs have become a common method to legally operate small scale community composting systems within the parameters of franchise law. This system is in alignment with the

self-hauler protections. Residential food scraps can be dropped off by residents or commercial generators on scheduled days and in central locations of the community with in the 100 cubic yard limitations. Alternatively, residents can drop off food scraps at the community composting facility during operating hours. Often, residents using this type of service are given a small container to fill with food scraps and mulch to prevent odors. Residents using this kind of system pay a fee to process the food scraps. This system has worked in many communities. However, this type of program would require community composters in Humboldt County to change operational structure – some maybe currently operating a fee-based collection service in exclusive franchise areas.

Title 14 CCR section 18984.9 - *Organic Waste Generator Requirements* - provides room for community composting activities. The language doesn't prohibit a generator from preventing or reducing waste generation, managing organic waste on site, or using a community composting site. *Self-hauling rights and Organic Waste Generator Requirements provides framework for community composting drop-off programs.*

Food2Soil ([www.food2soil.net](http://www.food2soil.net)) is a non-profit in San Diego that is working to develop varying systems to build resilience in community composting infrastructure. In unincorporated areas of San Diego County, they provide training and help manage a network of small community composting sites in their soil farmer program. These sites utilize a drop off program, which provides containers and mulch. Food2Soil helps manage monitoring, reporting and ensures Best Management Practices are employed. This is a very effective community composting drop off program.

### Recommendations

It is recommended this SB 1383 Road Map promote community composting operations and education with verification on back yard composting. Member agencies desire these programs. To effectively facilitate community composting operations, member agencies may include language in the upcoming waste ordinance or franchise agreement amendment to facilitate community composting programs.

Additionally, The Institute for Local Self-Reliance (ILSR) has developed documents that support community composting infrastructure and back yard composting efforts. ILSR is a great resource for member agencies to use to bolster education for community composting programs.

<https://ilsr.org/wp-content/uploads/2019/03/Compost-BMP-v1.pdf>

## Agricultural Composting

The agricultural sector is the largest market statewide for compost use and could be explored further in Humboldt County. With a livestock and livestock products valued at over \$ 190 million per year and nursery stock at over \$55 million per year as noted in the 2016 Humboldt County Crop Report, returning organics to soil for these productive industries will create healthier soils. Clean green materials as a feedstock for composting which may be labeled “Certified Organic” would benefit the working lands of Humboldt County. SB 1383

will enable California farmers and nurseries to attain and use organic products made from urban green material more easily. Recycling organic materials completes the urban-to-agriculture loop which helps growers’ meet sustainability commitments. From fork-to-farm, composting organics balances urban development with environmental protection. For cities surrounded by agriculture, or with pockets of agriculture, an urban-to-agriculture program is a true, sustainable solution and a great carbon farming opportunity.

Agricultural composters have a track record of developing and supporting carbon projects throughout California. A typical facility on 10-acres of land could compost green materials and spread on rangelands and irrigated crops to curb erosion, improve water efficiency, reduce weeds, moderate soil temperatures, and sequester carbon. This is called carbon farming. A noted carbon-focused project is the Marin Carbon Project. This project consists of a consortium of independent agricultural institutions that enhance carbon sequestration in rangeland, agricultural land and forest soils through applied research, demonstration, and implementation throughout the state.

Title 14 CCR - Section 17852 has the following definitions for agricultural composting:

**“Agricultural By-Product Material”** means post-harvest agricultural by-products separated at a processing facility.

(A) Agricultural By-product Material includes, but is not limited to, solid or semi-solid materials from fruit, nut, cotton, and vegetable processing facilities such as stems, leaves, seeds, nut hulls and shells, peels, and off-grade, over-ripe, or under-ripe produce.

(B) Agricultural By-product Material does not contain packaging material, physical contaminants, or hazardous materials, and does not include wastewater, sludges, or additives.

**“Agricultural Material”** means waste material of plant or animal origin, which results directly from the conduct of agriculture, animal husbandry, horticulture, aquaculture,

silviculture, vermiculture, viticulture and similar activities undertaken for the production of food or fiber for human or animal consumption or use, which is separated at the point of generation, and which contains no other solid waste. With the exception of grape pomace or material generated during nut or grain hulling, shelling, and processing, agricultural material has not been processed except at its point of generation and has not been processed in a way that alters its essential character as a waste resulting from the production of food or fiber for human or animal consumption or use. Material that is defined in this section 17852 as “food material” or “vegetative food material” is not agricultural material. Agricultural material includes, but is not limited to, manures, orchard and vineyard pruning, grape pomace, and crop residues.

**“Agricultural Material Composting Operation”** means an operation that produces compost from green or agricultural material additives, and/or amendments.

**“Amendments”** means materials added to stabilized or cured compost to provide attributes for certain compost products, such as product bulk, product nutrient value, product pH, and soils blend. Amendments do not include septage, biosolids, or compost feedstock.

The facility operations cannot exceed 12,500 cubic yards, and could average 40 tons per day, or peak at 100 tons per day, where the compost is used on site and there are only incidental commercial compost sales.

“Regenerative Agriculture” describes farming and grazing practices that, among other benefits, reverse climate change by rebuilding soil organic matter with the use of compost and biochar to restore degraded soil biodiversity. This process draws carbon into the soil while simultaneously improving the water cycle. Lawrence Livermore Labs released a January 2020 report, “Getting to Neutral – Options for Negative Carbon Emissions in California,” which featured natural climate solutions in which compost and biochar are used to sequester carbon into soils leading to carbon neutrality by 2045. These programs are noted as the most cost-effective climate solutions at a cost of only \$11 per metric ton of carbon dioxide. By contrast, the California Air Resources Board (CARB) regulatory offset price has a floor price of about \$17 per metric ton. Natural climate solutions are estimated to result in negative emissions of 21.6 million metric tons of CO<sub>2</sub> per year which will be needed in order to get to carbon neutral by in 2045.

The Climate Action Reserve develops voluntary GHG offsets and is working on a Soil Enrichment Protocol which will provide a strong basis for the CARB’s regulatory protocol. CARB prepared a

discussion paper in September 2019 for soil organic carbon accrual on non-forest lands. Validating and monetizing carbon negative emissions is needed to provide incentives for the use of compost at agricultural sites.

Compost production and use is now viewed as contributing to carbon neutrality in CARB's policy documents. The January 2019 Draft California 2030 Natural and Working Lands Climate Change Implementation Plan looks to double down on compost and mulch use by adding 31,000 to 62,000 acres each year through 2030. Additionally, the plan is to increase mulching on cropland at a rate of 10,400 to 20,800 acres per year. According to new research, soil could act as a significant carbon sink, holding up to three times as much carbon as is found in the atmosphere. Dirt can save the Earth and make the planet more resilient, provided that increasing quantities of recycled organics (such as compost, mulch, and biochar) are reintroduced to the world's soils each year. This Plan is now being incorporated into the Third Update of CARB's AB 32 Scoping Plan in 2022.

## Collection Services Plan

SB 1383 compliance requires implementation of mandatory residential and commercial solid waste collection and mandatory recycling and organics collection and processing programs. At the core of SB 1383 implementation is the universal collection of separated organic waste and recyclable waste, in addition to the collection of municipal solid waste (MSW). Every generator will be required to separate these wastes into the respective green, blue, and gray containers or be subject to fines issued by the participating jurisdictions. The contents of these containers are to be taken to facilities that are appropriate for processing the waste stream.

The three-cart collection is deemed the most appropriate solution for the jurisdictions as CalRecycle has made this system the least onerous to comply with the components of SB 1383 as listed below and further discussed in this section.

- Education and Outreach
- Monitoring & Enforcement
- Contamination Minimization Monitoring
- Recordkeeping and Reporting

Organics and recyclables are separated in containers by the generator. This has proven to be the most reliable and customer friendly form of accommodating the compliance requirements for SB 1383. The recyclables and organics have lower levels of contamination, providing for more effective processing costs. Additionally, the separated containers will be monitored for contamination. The three-cart collection system was pioneered by Recology in San Francisco two decades ago and is known as the 'Fantastic Three'.

The CalRecycle preferred three-carts system to collect organics as specific for Humboldt County shown to the left is also found in Appendix D with SB 1383 regulatory requirement references.

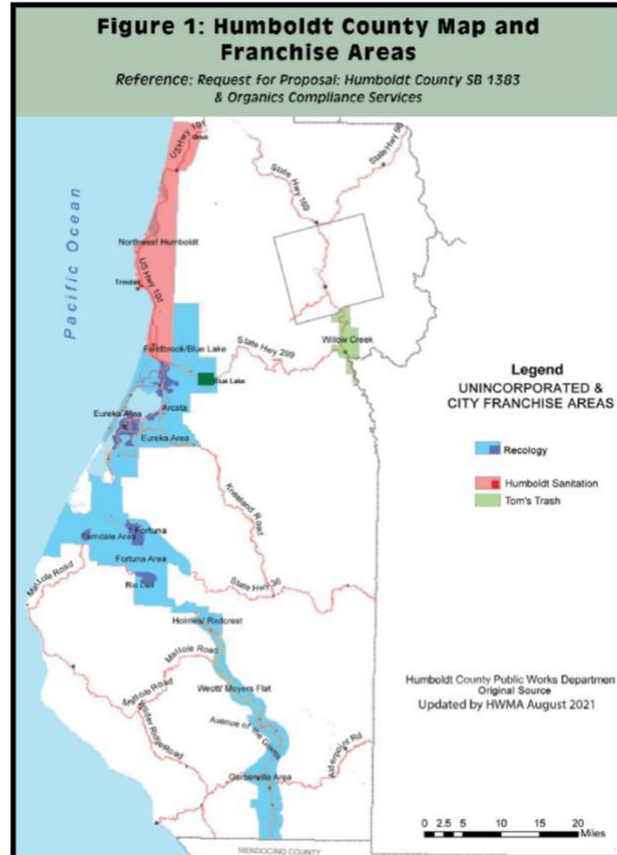

Edgar has met with Recology and Humboldt Sanitation to discuss the necessary updates to the current collection system. Figure 1 shows the franchises areas of Humboldt County.

Edgar has been intimately involved with all revisions and updates to SB 1383 regulations and Title 14 State minimum standards for compostable materials handling with a focus on contamination issues at the point of generation, processing, and market specification. Edgar has represented haulers and franchise collectors in developing curbside organic education, auditing, and collection programs to limit contamination when designing and adding food waste to collection streams.

With multiple haulers in the County, there needs to be a common message on the types of organic waste that can be collected. This harmonized program will be necessary for the facility to meet the processing capacities, residual limitations, and market expectations of the compost product (CDFA/OMRI organic certified, and the United States Composting Council – Seal of Testing Assurance Program verifications). It is highly likely that the franchise agreements managed by the County and the cities will need to be modified to accommodate SB 1383 requirements, where each member agencies are responsible with advice from Edgar to mesh with this draft Plan.

Due to the unique characteristics of each city, HWMA with Edgar has provided a generic, but comprehensive, Model SB 1383 Ordinance that each City could opt into or seek their own specific ordinance should they opt out. As previously mentioned in Task 1, Edgar followed the CalRecycle Model Ordinance by HF&H and the Alameda County Management Agency’s StopWaste.Org methodology and prepare and Ordinance that each member agency could use for a consistent message on types of organic waste collection based upon the processing and technology of the permitted compost facility that will receive the organic waste.

Edgar has completed some initial assessments and calculations of Humboldt’s targeted tons as presented in Task 1. This information can update as relevant population growth data is provided. This draft plan provides a pathway for compliance, based on data analysis, best practices in the industry, and regulatory requirements. Edgar had wanted to audit the Annual Reports and the AB 1826 information for each jurisdiction and Humboldt County, but AB 1826 has not been implemented in the County. AB 1826 implementation and enforcement to address the

commercial sector should have happened first, but did not occur, since there are not local food waste processing facilities in the County. Since the jurisdictions do not have a Commercial Organic Generator List, Edgar has prepared that list, based on NAICS codes and other publicly available information, and is provided in Appendix E.

Edgar has worked with multiple haulers and several cities to create regional plans. Each city and franchise agreement are unique, but with a regional compost facility, there needs to be a common message on feedstock types and expected contamination limits, especially with the emerging trends on state-mandated compostability requirements. On behalf of the compost industry, the California Compost Coalition sponsored AB 1201 (Ting) regarding compostability standards for packaging and weighed in heavily on the SB 1335 regulatory process for public food service facilities.

Edgar visited Humboldt's Hawthorne Street Transfer Station and the Eel River Transfer Station, with the goal of using our experience of co-locating and permitting organic waste transfer facilities to understand fully the opportunities at these facilities, and review operations plans, and procedures as presented earlier in Task 2. Additionally, Edgar has met with Recology on numerous occasions and Humboldt Sanitation separately to survey their current operations, future plans and expectations and understand the best approach to common messaging for organics collection. The meetings encourage open dialog, where it is our experience that there are many common challenges faced by cities and haulers throughout the State, and where Edgar has encouraged collaboration, transparency and working together in good faith. Edgar has worked with each party to ensure there is clear understanding of the goals and objectives of these meetings and next steps.

Over the years, Edgar has resolved and integrated collection services with transfer operations to dovetail into the operations plan of regional compost facilities and/or anaerobic digestion facilities that have specific feedstock requirements for certain technology types. While Edgar is facility and technology driven, Edgar has represented local haulers and their communities, while understanding the cost concerns of implementation and the need to address the concerns of any potentially impacted disadvantaged community. During the near-term, Edgar will work with the participating jurisdictions to deliver on this draft Compliance Plan Road Map.

### **Near-Term Collection and Processing**

For cities of Eureka, Fortuna, and Arcata, and the portions of the unincorporated County with applicable high population density, the following is anticipated in 2022:

- Provided the opt-in universal Mandatory Collection Program following the Model Ordinance.
- Develop generic Education and Outreach program utilizing the work of the franchise haulers.
- Assist with the development of necessary recordkeeping and reporting documents relating to monthly, quarterly, and/or annual legislative reporting requirements as provided later in this section.

- Modify the Solid Waste Facility Permit for the Humboldt Hawthorne Street Transfer Station with a Transfer/Processing Report Amendment to transfer out co-collected residential organic wastes and source-separated commercial organic wastes to dovetail into the proposed collection programs.
- Prepare a mini-RFP for out-of-county compost facilities to receive and process organic waste from Humboldt County for up to 5-year period (from 2023 to 2028).
- Analyze the response to the RFP and make recommendations on the use of the compost facility based on organic waste types accepted, pricing, compliance record, logistics, available compost, and mulches on a back-haul program for procurement as proposed in the next section.
- Based on an analysis and result of the RFP to export food wastes, develop discuss a funding plan to implement collection services which will likely result in a rate increase. Based on Edgar’s internal studies of SB 1383 rate impacts, we have observed the average statewide rate increase is approximately \$9 per household, per month, phased in until 2025.

Start organic waste collection in 2023, transferred from Hawthorne Transfer Station, and processed at the selected food waste compost facility

#### **Medium-Term Collection and Processing**

Medium-Term collection and processing should start in 2023 for the high-density populations areas of Humboldt County should the Hawthorne Transfer Station have its Solid Waste Facility Permit amended to transfer and/or process food waste.

- Review the opt-in universal Mandatory Collection Program results after one year of implementation and suggest changes for the high-density and for the low-density areas under the 5-year waiver
- Anticipate a range of cost increases for in-County facilities compare to export costs and suggest any possible rate increases
- Start all the SB 13 requirements associated with collection and processing organics
- Permit in-County food waste processing facilities
- Plan for new contracts for the newly permitting food waste processing facilities
- Plan for new contracts when the current green waste and landfill disposal contracts end in 2027

#### **Long-Term Collection and Processing**

Long-Term collection and processing should start in 2027 for the low-density populations’ areas of Humboldt County 2027 when the short-term food waste transfer contract expires, and the new in-County facilities are permitted and operational. Ensure that there is 15-years of organic waste processing capacity in-County.

## Education and Outreach

SB 1383 prescribes that annual education and outreach is provided through print and/or electronic media to generators within a jurisdiction, with the option to conduct additional outreach through direct contact with generators via workshops, meetings, or on-site visits. Additionally, there is another subset of specific information that must be provided to Tier 1 and Tier 2 Commercial Edible Food Generators that is presented in the next section.

All education and outreach must be translated into non-English languages spoken by a substantial number of the public provided the organic waste collection services. “This provides jurisdictions the flexibility to make the determination of when education and outreach materials need to be translated. If there’s a lot of contamination in certain communities with linguistic isolation, the Jurisdiction will know if they need to be translating to bridge the gap. In addition to its own website, participating jurisdictions should coordinate with its haulers to post consistent messaging regarding SB 1383. The member agencies will also conduct SB 1383 outreach through its social media accounts as well as print, in person, and event outreach. Outreach materials will be produced in both English and Spanish to reach as many members of our community as possible. The haulers should also have a website which it will use to post SB 1383 information to the public. The member agencies will need to meet the Section 18985.1 requirements in its outreach materials, including provision of the following typical information:

Information to generators on how to properly sort materials into the appropriate blue, green, or grey bins.

- Information emphasizing the importance of reducing waste from a climate change perspective, and how organic waste contributes to methane pollution.
- Information on how to donate edible food.
- Education and Outreach Action Items.
- The member agencies with the hauler will conduct the required outreach and education to all generators in their jurisdiction which will meet the language, and other, requirements of SB 1383.
- The member agencies should provide letter notices minimal of annually to non-compliant generators.
- Sample public outreach and education material from Recology is provided in Appendix F.

## Monitoring & Enforcement

SB 1383 states that “a jurisdiction remains ultimately responsible for compliance with the requirements of this chapter.” Responsibility includes the compliance of residents and businesses within the member agencies communities. As such, SB 1383 requires the member agencies to implement robust monitoring and enforcement programs for all aspects of the regulations. The prescribed enforcement programs include, but are not limited to:

- Contamination monitoring for prohibited container contaminants via route reviews or waste evaluations.
- Investigate complaints received regarding non-compliant entities.
- Inspection of Tier 1 and Tier 2 Commercial Edible Food Generators to ensure that they contract with a Food Recovery Organization or Food Recovery Service. Tier 1 inspections commence January 1, 2022; Tier 2 inspections commence January 1, 2024.
- Beginning January 1, 2022, until December 31, 2023, a jurisdiction shall provide education materials describing the applicable requirements of SB 1383 in response to violations; and
- Beginning January 1, 2024, a jurisdiction shall enforce any violations of SB 1383 (excluding prohibited container contaminants), by issuing Notices of Violations (NOVs), and issuing penalties if violations are not corrected. Penalties range from fifty dollars (\$50) to five hundred dollars (\$500) per violation.

The first step the member agencies should have taken is the adoption of a SB 1383 Enforcement Mechanism. In addition to its essential supporting role in the collection program, it is also one of the first requirements the jurisdiction must fulfill, due by April 1, 2022. The first reading could happen before April 1, 2022, and a second reading shortly thereafter to receive the SB 1383 Local Government Assistance Funding, or by June 14, 2022, for the second round of funding.

The member agencies will need to designate staff to be responsible for the imposition of fines and approval of waivers. This enforcement staff will also require the haulers’ staff counterparts in monitoring and other aspects of SB 1383 implementation. These other aspects will include the annual desk review of all generators, as well as overseeing the waste evaluations and route reviews.

Staff will need to be hired to implement SB 1383 which includes the inspections and lid flipping. Staff will flip the lids, and will conduct the inspection, recording, and eventually reporting. When on route, staff will conduct the lid flipping. Inspecting one’s MSW, recyclables, and organics may be very personal for the generator. Whereas staff have the right to inspect the discards in the containers, be aware of safety during recordkeeping.

Table 8 below identifies the requirement for a successful SB 1383 programs with the edible food recovery program mentioned in the next section:

**Generator Review – By January 1, 2023**

Member agencies will be required to annually perform a complete assessment of all its generators to ensure adequate subscription service or an acceptable waiver for each account. This “Desk Review” will require a substantial amount of staff time and access to the complete list of accounts for trash service within member agencies service area. This may require that member agencies delegate this task to the haulers, where the member agencies would have to collaborate information regarding the customer account and collection service level information.

Staff will need to do the “Desk Review” for their recycling and organics accounts. With either option of member agencies or the hauler administrating this review, the person(s) conducting the desk review must record the following information for each generator that has at least two cubic yards of MSW service a week:

- Generator Name and Address,
- The route(s) servicing the generator (e.g., Wednesday – West, Route #4672, MF-ORG #1),
- The means of organics compliance (Subscription, Waiver, Self-haul),
- Whether the Generator is required to donate edible food (Tier 1, Tier 2),
- Has the generator received outreach materials,
- Waiver date, edible food service used, and Self-haul facility used (if applicable).

To facilitate this desk review, a blank Desk Review Checklist in Excel is attached as **Appendix G** and is included with this report. Regardless of who completes the desk review, the member agencies must provide the final approval of any recommended waivers, as outlined by the member agencies SB 1383 Ordinance.

The Monitoring and Enforcement Schedule to meet SB 1383 requirements is listed on Table 8 below.

**Table 8 - Monitoring and Enforcement Schedule**

Action	Date	Conducted by	Incentive	Note
1st Compliance Review	During 2022	Compliance Officer	Courtesy Notice	Compliance officer compares jurisdictions records with haulers account list and notices non-compliant entities.
Inspect Tier 1 Generators	December 28 2023	Compliance Officer	Courtesy Notice	A list of Tier 1 Generators in jurisdictions will be determined.
Practice Route Review	During 2022	Compliance Officer, jurisdictions, and hauler	None	Allows haulers and jurisdictions drivers to be trained prior to the regulations start date of April 1
1st Route Review	During 2022	Jurisdictions and hauler	Cart Tags and Flyers	Latest date of this review, a Friday. Date should be set earlier if pickup occurs on other weekdays.
(Alternative) 1st Waste Evaluation	During 2022	Jurisdictions and hauler	Notices to Generators on Route	Latest date of this review, a Friday. Date should be set earlier if pickup occurs on other weekdays.
(Alternative) 2nd Evaluation	During 2022	Jurisdictions and hauler	Notices to Generators on Route	Second waste evaluation must be in a distinct season. Does not apply if route review is conducted instead.
2nd Compliance Review	December 28 2022	Compliance Officer	1 Year Warning	Compliance officer compares jurisdictions records with haulers account list and notices non-compliant entities. Advises generators of N.O.V dates.
2nd Route Review	March 23 2023	Jurisdictions and hauler	Notices to Generators	All routes must be reviewed with at least 25 samples per route.
(Alternative) 3rd Waste Evaluation	March 23 2023	Jurisdictions and hauler	Notices to Generators on Route	Routes with high levels of contamination would receive notices.
(Alternative) 4th Waste Evaluation	October 30 2023	Jurisdictions and hauler	Notices to Generators on Route	Routes with high levels of contamination would receive notices.
Enforced Compliance Review	Dec 18 2023	Compliance Officer	60 Day Notice of Violation	Before January 1st requirement, avoids holidays and weekends
Inspect Tier 2 - Generators	Dec 18 2023	Compliance Officer	60 Day Notice NOV	Education and Outreach should advise Tier 2

**Table 8 - Monitoring and Enforcement Schedule**

				Generators in advance of inspection.
1st Series of Fines Issued	Feb 16 2024	Compliance Officer	\$50-\$100 Fine	Sixty Days from the Dec 18th N.O.V.
2nd Series of Fines Issued	April 16 2024	Compliance Officer	\$100-\$200 Fine	Sixty days from the first fine.
3rd Series of Fines Issued	June 17th 2024	Compliance Officer	\$250-\$500 Fine	First weekday sixty days from the second fine. Subsequent fines continue at this amount.

**Monitoring and Enforcement Action Items:**

1. Jurisdiction and hauler will complete the desk review for all commercial, residential and MFD customers being phased in during 2022 with full implementation starting January 1, 2023.
2. Member agency and hauler to hire appropriate to implement SB 1383 which includes the items in this section and will include the staff into the next rate review to implement SB 1383.
3. Waivers will be issued by the member agency to any applicable accounts. These will be recorded as part of the jurisdiction’s recordkeeping requirements.
4. Member agencies will add the responsibility amended contracts.
5. Dedicated enforcement staff is recommended for the member agencies, and the risk that SB 1383 enforcement would not be sufficiently prioritized.
6. Existing code enforcement staff may be preoccupied with other tasks which may put ember agencies at risk of CalRecycle penalties if SB 1383 compliance is not enforced.
7. Edible food rescue program enforcement may be added the responsibility of existing code enforcement personal.

## Contamination Minimization Monitoring

### Route Review/Lid Flip Program

Contamination monitoring is required under the SB 1383 regulations to ensure materials are being sorted appropriately to reduce contamination of recycling and organics collection. This involves annual route review, including all blue, green, and grey container streams. These contamination inspections occur in field, however there is an option to conduct waste evaluations at the recipient facilities if on-route reviews are difficult or infeasible.

The Route Reviews should begin during 2022 and will be conducted by staff. Lid flip responsibilities could be placed upon the haulers by the route driver and one office staff. A lid flip protocol should be developed in conjunction with all parties but may be based on follow the following steps:

1. Staff responsible for the lid flips and undergo specific trainings to ensure understanding of SB 1383 requirements, and recordkeeping.
2. Member agencies may phase in the initial route review during 2022 with full implementation starting January 1, 2023.
3. An agreed upon form of recordkeeping should be implemented which could include blank notification papers, cart tags, and either a tablet or a clipboard to track their route review. The results of the route review must be delivered to the member agencies in a timely manner.
4. Every route shall randomly select *at least* 25 samples. During each stop the containers will be audited for:
  - a. Recyclables, food, or green waste in the grey bin.
  - b. Food or trash in the blue recyclables bin.
  - c. Trash or recyclables in the green bin.
5. If found, the container will be tag and a notification paper informing the generator on what mistakes they had made and information on how to properly sort their waste. The container may additionally be issued a 'non-collection notice' until the contamination has been corrected. Alternatively, the container could be collected as garbage. All notes, photographic evidence, etc. will be placed on the tracking sheet or entered into the service software.
6. A protocol shall be developed for non-collection of contaminated containers and fines.
7. All information shall be aggregated by staff for recordkeeping.
8. This process must be repeated a minimum of annually, or at higher intervals if there is a prevalence of contamination in the collection streams.

### Waste Evaluation

Member agencies may wish to opt for a Waste Evaluation in lieu of a Route Review for any route. A Waste Evaluation requires auditing 200lbs samples of material from a collection vehicle at an appropriate location (transfer station, landfill, compost facility, material recovery facility.) SB

1383 defines the calculation methodology that must be implemented to determine the contamination of the stream. This option has some inherent difficulties (arranging a local to complete the waste audit and requiring the notification of every customer on the route should the material be over the contamination limits), is more expensive (increased staff time to complete the audits), and is time-consuming, it may be necessary for some routes or perhaps part of some facility's standard operational programs. Participating jurisdictions should determine if any of the current/potential routes would be better served using a Waste Evaluation.

#### Contamination Monitoring Action Items:

1. Member agencies should phase in monitoring containers for contamination during 2022, with full implementation starting January 1, 2023.
2. Waste Evaluations should be reserved for routes that for whatever reason are unable to be assessed in field.
3. Considerations like data transmittal between the member agencies and the hauler and operational logistics need to be discussed and the program should be memorialized in the contract amendment.

### Recordkeeping and Reporting

SB 1383 contains three primary reporting requirements for jurisdictions: an initial jurisdiction compliance report, annual report, and on-going maintenance of a centralized implementation record. Initial jurisdiction compliance reports are due April 1, 2022, and require at a minimum, inclusion of:

Jurisdiction Annual Reports are due October 1, 2022, for the period covering January 1, 2022, through June 30, 2022. In subsequent years (beginning in CY 2023), the report will be due on August 1st for the preceding Calendar Year's activity. The records required by the Annual Report are a vast expansion on previous reporting requirements under AB 939.

The third and final reporting requirement is the on-going maintenance of an Implementation Record. SB 1383 requires that jurisdictions maintain all records required by SB 1383 in a central location (electronic or physical) that can be readily accessed by CalRecycle within ten business days. *"All records and information must be included in the Implementation Record within 60 days of the creation of the record or information [and] shall be retained by the Jurisdiction for five (5) years."* The required record is vast, and maintenance of the Implementation Record is likely to be one of the most burdensome tasks for the member agencies and the haulers.

Member agencies should utilize the regulatory language of SB 1383 and CalRecycle guidance documents to organize its records as required under the law. Some documents, such as the SB 1383 Ordinance, are strictly the domain of the jurisdiction. Other documents may need to be sourced from the haulers. The Table 9 on the next page identifies the recordkeeping requirements of section 18995.2 of SB 1383.

**Table 9 – Implementation Record**

#	Requirement	Section	Type	Owner
1)	Copy of Ordinances and Other Enforceable Mechanisms	981.2	City Documents	Member agencies
2.1)	All solid waste accounts with more 2CY/week generation	995.1	Generator Review	Hauler
2.2)	Route Review/Evaluation	995.4	Route Review	Hauler
3)	Collection Service Records	984.4	Route Review	Hauler
4)	Contamination Minimization Records	984.6	Route Review	Hauler
5)	Waiver and exemption Records	984.14	Generator Review	Member agencies
6)	Education and Outreach	985.3	Documents	Member agencies and Hauler
7)	Hauler Program Records	988.4	Documents	Hauler
8)	Edible Food Recovery Programs	991.2	City Documents	Member agencies
9)	All Recovered Organic Waste Procurement Targets Records	993.2	Procurement	Member agencies
10)	Recycled Paper Procurement Records	993.4	Procurement	Member agencies
11)	All inspection, route review, and compliance review	995.1d	Route Review	Hauler
12)	Enforcement Action Records	-	City Documents	Member agencies
13)	Records of Complaints	995.3	Documents	Hauler
14)	Performance Based Documentation (if applicable)	998.4	N/A	N/A

**Recordkeeping and Reporting Action Items**

- The hauler will provide all records to the member agencies for the aspects of SB 1383 that they are primarily responsible, as designated in Table 9.
- The City will maintain records for aspects of SB 1383 that they are primarily responsible, as designated in Table 9.
- Records will be delivered to CalRecycle per the SB 1383 requirements.

(This Page Intentionally Left Blank)

## Task 3: Edible Food Recovery Program

Our team of experienced professionals works towards a shared purpose and vision of capturing edible food and are currently working to understand and evaluate the current edible food recovery capacity within the County. Using our existing experience developing edible food recovery programs we will provide the Jurisdictions a pathway to meet the SB 1383 compliance requirements that result in feeding hungry people, safely and with dignity. Our recommendations will look to create new jobs and training opportunities, build relationships across food donors and food recovery organizations, and foster trust and brand protection between parties. We will include suggestions that include our pioneering sustainable funding models and developing innovative programs that significantly enhance community resiliency.

To fully comply with the Edible Food Recovery program requirements of SB 1383, the Jurisdictions must inspect Tier One and Tier Two Commercial Edible Food Generators. This may be delegated this to Environmental Health, a third party or to Code enforcement, who can conduct random inspections to determine if the Tier One or Two generators are in compliance with the regulation. Additionally, each Jurisdiction will be required to post information regarding food recovery organizations and services on their individual websites. The final report will ensure that these listed organizations can manage an influx of edible food.

SB 1383 requires that jurisdictions implement an edible food recovery program, subject to minimum programmatic requirements. At a minimum this includes:

- Implementation of an edible food recovery program that includes education of Tier One and Tier Two Commercial Edible Food Generators annually
- Increase access to Food Recovery Organizations and Food Recovery Services, through collaboration with incorporated cities within the County; and
- Develop a list of Food Recovery Organizations and Services operating within the service area and update the list annually

Member agencies will implement a food rescue program consistent with the requirements of SB 1383. The food rescue programs are divided into two phases of compliance. Tier One is defined in the regulations as being all Supermarkets, wholesale food distributors, and grocery stores above 10,000 square feet. This Tier is required to begin edible food donation by January 1, 2023, with the filing of the SB 619 Notice of Intent to Comply. Tier Two businesses include very large restaurants with more than 250 seats, hotels with more than 200 rooms, health facilities with more than 100 beds, large venues and events, and state and educational facilities with large cafeterias. Tier Two is required to begin rescuing food by January 1, 2024.

Member agencies could consider outreaching to businesses which are close to meeting these requirements, and encouraged them to adopt food rescue programs, which provides immeasurable benefits for those individuals who rely on food distribution to ensure their food security. Although not required to do so by regulations, other large food generators can assist SB 1383 progress and alleviate hunger in the region by voluntarily participating in food rescue programs as well as help increase the cost effectiveness of any investments in food recovery programs.

A list of businesses by member agencies that appear to meet the requirements of either a Tier 1 or a Tier 2 business has been assembled and are currently being audited through direct survey to determine their required compliance level. These businesses were identified based on their North American Industrial Classification (NAICS) codes, which are available through the Department of Employment. Those businesses which match the categorical requirements (e.g., Supermarkets) or size and category requirements (Restaurant + over 250 seats) are included on the list. As size is difficult to ascertain in some instances, a judgement call based on number of employees, experience, or satellite imagery is used to evaluate a business's eligibility. A business can opt out of mandatory programs if it can demonstrate it does not meet the criteria, the list errors on the side of more food rescue. This initial opt-out will be done through the survey and interview of business operations. A finalized list will be sent to each Jurisdiction once complete.

#### **Develop an Edible Food Recovery Program**

Our team will provide a report that summarizes the next steps and recommended programs for the development of an edible food recovery program for the region. This report will summarize the following tasks and provide a clear pathway, with recommendations regarding best practice protocols for compliance and funding guidance.

#### **Tier 1 and Tier 2 Edible Food Waste Generators Compliance Assessment**

The team is currently verifying the Tier 1 and 2 generators and is assessing which generators have a current relationship with a food recovery agency and if that relationship has a contract or written agreement for food recovery in place. The team is also identifying if generators may be able to expand their current food donations and by how much. Specific notes regarding collection requirements, types of food and other important characteristics will be noted during the assessment.

The team will provide a detailed report identifying participating cities' Tier 1 and Tier 2 edible food waste generators, their statuses on participation in edible food donation programs, and their SB 1383 food recovery compliance statuses of such edible food donation programs. The report will be compiled in the form of one regional document, with the information on each participating city formatted by sections.

### **Food Recovery Agencies and Organizations Capacity Assessment**

The team is identifying food recovery agencies and organizations in the participating cities and surveying their operations. These calls will engage with those organizations, discuss SB 1383, existing capacity and infrastructure in a way to support collaborative and foster. The team is currently completing these calls and will summarize the results to understand and fully evaluate capacity and infrastructure requirements, in addition to further understanding the current landscape of the organizations.

These results will be compared to the results of the Tier 1 and Tier 2 food generators to first answer the question of the compliance gap with SB 1383. The results will be detailed in the Final Report which will provide clear recommendations and next steps towards building a regional food recovery program. The detailed report will include a list of the edible food recovery organizations in and around the participating cities' limits. We will also provide participating cities with a list of edible food waste generators that comply with SB 1383 and requirements associated with expanded recovery for those generators not compliant with SB 1383. Additionally, the report will include information on the recovery capacity of the food recovery organizations in and around the participating cities' city limits. We will detail whether these organizations have existing contracts or written agreements with the participating cities' Tier 1 and Tier 2 food waste generators. The report will also include details on whether additional capacity is needed for participating cities to accommodate the increase in edible food, the infrastructure needed to operate a successful edible food recovery program in Humboldt County and opportunities for participating cities to fund such infrastructure. The report will be compiled in the form of one regional document, with the information on each participating city formatted by sections.

### **Develop and Advise on Policies, Funding, Contracts, Ordinances**

Funding strategies for edible food recovery are a new concept being discussed throughout the State which must be considered with local dynamics, waste system structures, contracts, and community support. Our team will include recommendations for building funding structures in the Final Report, including a budget for program development for the region. Of primary concern is transparency, equity and maximizing efficiency of funding, which will be guided by the information gathered through Compliance and Capacity Assessments. Additionally, using best practices across the edible food recovery sector a user-friendly contract would be developed that could be utilized across the region between generators and food recovery agencies. This will include a discussion of potential penalties that could be assessed by jurisdictions against non-compliance generators to ensure full compliance with SB 1383.

Monitoring and enforcement of the edible food recovery requirements are an important aspect of SB 1383 compliance where the jurisdictions have several operations. These include assessing options within existing programs such as County Public Health, waste hauling services, or other scoping services for a third-party contractor and aiding with soliciting bids for this compliance activity locally.

### **Develop Monitoring, Reporting, Recordkeeping and Compliance Programs**

The team will provide a model, utilizing existing local infrastructure and advising on the most efficient way to close any identified gaps, that will effectively monitor, aggregate reporting infrastructure, contracts between generators and non-profits, donation programs and track all required outreach to ensure full compliance with SB 1383. This could include utilizing technology software, partnering with local entities (Waste Haulers, County Public Health, or other), that will result in a long-standing program that transparently provides information to the jurisdictions. This program will also outline additional requirements which could be considered, for example program effectiveness metrics, food safety tracking and other informational items which could be used to measure program results from funding, should the County move forward with a funding program. These recommendations will depend on the results of the survey and regional specifications.

### **Develop Outreach and Education Plan**

Outreach programs will be suggested, building off the passion and years of experience from the sub-consultant, Abound Food Care. The focus will be effectiveness of outreach programs, partnerships with existing stakeholders, and clear and consistent communication of program intent and food safety. The current surveys of Tier 1 and 2 generators is an initial outreach contact, where this friendly and informative process will be built upon to develop a coordinated approach to education programs. The team will develop an annual outreach program, which will include multilingual outreach, education materials, a detailed plan to provide comprehensive outreach and education efforts for participating cities' Tier 1 and Tier 2 edible food waste generators and stakeholder groups using tools available through CalRecycle, the County and those developed through our previous outreach campaigns. Strategies and suggestions of software and/or other reporting mechanisms will be recommended in the final report.

### **Strategic Plan for Edible Food Recovery**

The results of the Capacity Assessments and Program Recommendations will be summarized in a Strategic Plan for Humboldt County. We will provide a detail analysis highlighting outreach efforts that were conducted, the surveys and assessments that were performed, the food recovery needs and operations of participating cities' Tier 1 and Tier 2 waste generators, the food recovery needs and operations of food recovery organizations in and around Humboldt County. Based on our experience and expertise, the team will provide analysis and a strategic plan complete with best use of funds needed to cover capacity gaps, methods to encourage collaborative participation and recommendations on the necessary steps that participating cities should consider ensuring SB 1383 compliance. This will further discuss funding requirements and opportunities. Our work in other regions of the State is being lauded by CalRecycle as the suggested model framework for jurisdictions to meet the intentions of edible food recovery regulations under SB 1383.

## Task 4: Procurement

SB 1383 mandates jurisdictions procure minimum amounts of products derived from recovered organic waste to ensure markets for the newly diverted material exist. These procurement targets are determined based on a jurisdiction's population, where 0.08 tons of organic waste derived procurement must be achieved annually per person. Procurement may be achieved through any combination of bioenergy, compost, mulch, and organically derived renewable natural gas.

SB 1383 regulations contain two primary requirements for jurisdictions surrounding product procurement:

1. Beginning January 1, 2022, jurisdictions shall annually procure a quantity of recovered organic waste products (generated in California) that meet or exceed their current annual recovered organic waste product procurement target. The procurement target will vary based on the recovered organic waste commodity chosen (or combination of commodities).
2. Jurisdictions will also be required to procure paper products, and printing and writing paper if they cost the same or less than comparable virgin materials. It is important to note that paper products include, but are not limited to, paper janitorial supplies, cartons, wrapping, packaging, file folders, hanging files, corrugated boxes, tissue, and toweling.

Edgar will review each jurisdiction's current use of recovered organic waste products (compost, renewable natural gas, mulch, etc.), compared to the amount required to be used annually, as well as the required use of recycled paper products and postconsumer fiber, and provide an analysis and recommendation on what each jurisdiction will address to achieve SB 1383 compliance. The analysis includes an estimate of potential compost/mulch quantities that could be applied to parks, open space, rights-of-way, and other jurisdiction-owned properties as well as provide potential multi-jurisdictional partnership alternatives that will meet the SB 1383 requirements.

- Expanding organics ordinances and modelling their impacts, where compost and mulch may be backhauled from the export facilities to fulfill procurement requirements.
- Establishing a procurement plan for each city for organic waste products made from local organics collection, measuring procurement requirements for Humboldt and the positive environmental impacts of the use.

Edgar will recommend policy updates to each jurisdiction, including updates to existing Environmental Preferred Purchasing Policies to ensure SB 1383 compliance, and will assist with the development of recordkeeping and reporting process, including an annual checklist and guidance document.

Edgar & Associates was deeply involved with the development of SB 1383 procurement requirements to provide the jurisdictions with a flexible portfolio of options that include compost mulch, bioenergy, and renewable natural gas. The organic products procurement target amounts are based upon population of the jurisdiction and is summarized below in Table 10.

**Table 10 – Organic Waste Product Procurement Targeted Amounts**

Member Agency	Compost Use (tons) (Up to)	Mulch Use (tons) (Up to)	Bioenergy (MW) (Up to)	Renewable Natural Gas (DGE) (Up to)
Arcata	839	1,446	0.107	30,371
Eureka	1,252	2,158	0.160	45,321
Fortuna	561	967	0.072	20,301
Unincorporated Humboldt County	3,338	5,754	0.427	120,842
Total	5,990	10,325	0.766	216,835

The low-density population member agencies may phase in procurement over time but still need to comply with procurement requirements starting January 1, 2023. The amount of additional procurement is incremental where the program can be expanded to accommodate these new tons of up to 291 compost tons and/or up to 501 tons of wood mulch as shown in Table 11 below.

**Table 11 – Organic Waste Product Procurement Targeted Amounts**

Low Density Member Agency	Compost Use (tons) (Up to)	Mulch Use (tons) (Up to)	Bioenergy (MW) (Up to)	Renewable Natural Gas (DGE) (Up to)
Blue Lake	58	99	0.007	2,088
Ferndale	62	107	0.008	2,243
Trinidad	17	29	0.002	605
Rio Dell	154	266	0.02	5,588
Total	291	501	0.037	10,524

Also starting in 2027, a local compost facility should be permitted and operational. The procurement tons for compost and mulch could be sourced from that facility. Member agencies could plan to use the bulk of the compost material for local parks, community gardens, school gardens, wastewater treatment plant and for the local golf course. The remaining compost will be provided to the residents of Member agencies for free as compost giveaways. Mulch will be used for road siding and landscaping along local roads and within parks should extra capacity be needed.

The most likely options for procurement from 2022 to 2027 is to procure as much local compost and mulch from in-county facilities for use on jurisdictional parks, golf course, schools, roadways, and public works projects. As part of the work plan, the acreage of available land will be determined as to where compost and mulch could be applied. The jurisdictions above will need to procure up to 5,990 tons of compost and/or up to 10,325 tons of wood mulch per year to comply with SB 1383 and could use a blended portfolio of both. Bioenergy and RNG are options but are not realistic at this time since the majority of the local refuse fleets are not on the compressed natural gas (CNG) platform to drop in RNG fuel, and there are no biomass energy projects being proposed in the region. To meet the tonnage requirements, compost and mulch may need to be back-hauled from the selected out-of-county compost facility.

## Recycled Paper Procurement

Member Agencies must adopt environmentally preferable purchasing practices to meet the paper procurement requirements described in Section 18993.3. These requirements state that the jurisdictions provider of paper products must certify the amount of recycled content present in the paper, and that should an equal or lower cost paper with a higher recycled content exist, that this paper should be the procured paper source<sup>1</sup>. This recycled paper procurement policy is being included in the updating of their Ordinance that should be adopted before April 1, 2022, to receive grant funding.

---

<sup>1</sup> Public Resource Code : Section 22150-22154. <https://law.justia.com/codes/california/2009/pcc/22150-22154.html>

## Task 5: Waste Management Structure

During the medium-term, Edgar will provide a comprehensive analysis, including evaluation of compliance obligations, assessment of resource gaps and staffing needs, an analysis and recommendation of rates and fees to future HWMA's Waste Management Fee along with anticipated curbside customer rate impacts and recommendations for regional monitoring, enforcement, reporting, and record keeping activities.

Edgar will be on-call to assist in the Waste Management Structure analysis on a time and material basis following our standard rate schedule as directed by HWMA.

## Project Schedule

	Quarter 1 By March 1, 2022	Quarter 2 By May 16, 2022	Quarter 3 By August 16, 2022	Quarter 4 By December 31,2022	Years 2-4
<b>Task 1 – Compliance Road Map</b>					
1a – SB 1383 Waivers for Extension	Submit Waiver Requests by December 1, 2022				
1b - Targeted Tonnage Analysis	Determine Targeted Tons				
1c - SB 619 Notice of Intent to File	Submit NOI on March 1, 2022				
1d – Initial Jurisdictional Report		Submit Initial Jurisdictional Report on April 1, 2022			
1e – Ordinance	Draft Model Ordinance and review Franchise Agreements	Cities opt-in and adopt Ordinance	Cities that opt-out and adopt own		
	Quarter 1 By March 1, 2022	Quarter 2 By May 16, 2022	Quarter 3 By August 16, 2022	Quarter 4 By November 16, 2022	Years 2-4
<b>Task 2 – Organic Processing and Collection</b>					
Task 2a – Organic Processing and Collection	Review franchises and local facilities and make recommendations.	Prioritize green waste to local compost facilities. Outreach & education for collections to transfer organics out of county	Possible start dates to start SB 1383 collection programs after selection of out-of-County compost facility		Possible start dates to start SB 1383 collection programs after selection of out-of-County compost facility
Task 2b – Short-Term Collection and Processing	Recommend that RFP be issued for 5-year export agreement for SB 1383 organics.	Prepare Issue RFP to permitted out-of-County food waste compost facility. Select export compost facility	Select permitted out-of-County food waste compost facility.		Export for up to 5 years until in-County compost facility can be permitted
Task 2c – In-County Organic Waste Processing	Visit possible locations of regional compost facility	Review past reports and studies on siting a regional compost facility	Prepare Report on possible locations and funding plan Meet with community	Prepare Report on possible locations and funding plan	Permit selected facilities that could take up to 5 years
Task 2d – Long-Term Collection and Processing	File waivers to defer collection to 2027 for the smaller cities				Cease out of County transfer in 2027, and bring on smaller cities

	Quarter 1 By March 1, 2022	Quarter 2 By May 16, 2022	Quarter 3 By August 16, 2022	Quarter 4 By December 31, 2022	Years 2-4
<b>Task 3 – Edible Food Recovery</b>					
Task 3a - Develop and Edible Food Recovery Program	Provide oversight, guidance, and management of Edible Food Recovery Program, including meetings and project check-ins.				
Task 3b - Tier 1 and Tier 2 Generator Compliance	Finalize list, conduct surveys and assessments.				
Task 3c - Food Recovery Agency Capacity Assessment	Conduct surveys and full infrastructure assessments.				
Task 3d - Develop and Advise on Policies, etc.	Complete standard contract for generator and non-profits. Draft Ordinance and Program elements.	Cities opt-in and adopt Ordinance Complete final Program development elements.	Cities that opt-out and adopt own Ordinance	Additional programs, such as tracking and enhancing food safety auditing programs, can be provided in subsequent years.	
Task 3e - Develop Monitoring and Reporting, etc.	Draft monitoring, reporting and compliance program elements.	Determine if third-party contractor will assist with compliance. Finalize monitoring, recordkeeping and compliance program elements.			
Task 3f - Develop Outreach and Education Plan	Develop and Finalize Outreach and Education Plan.				Assistance with implementation of outreach and education can be provided in subsequent years.
Task 3g - Strategic Plan for Edible Food Recovery	All sub-task elements, surveys, infrastructure assessments and suggestion on funding program development will be finalized in a formal Strategic Plan for Edible Food Recovery that will be delivered no later than May 16th.			Additional assistance on implementation of the strategic plan can be provided in subsequent years.	

	Quarter 1 By March 1, 2022	Quarter 2 By May 16, 2022	Quarter 3 By August 16, 2022	Quarter 4 By December 1, 2022	Years 2-4
<b>Task 4 – Procurement</b>					
Task 4 – Procurement	Determine amount of organic waste products to be procured	Adopt opt-in Ordinance with Procurement policies	Work with local compost facilities first to procure compost. With selection of out-of-County compost facility, bundle the RFP to include the back-haul and compost and mulch from the facility to meet procurement requirements		After 2027, procure all compost and mulch locally
<b>Task 5 – Waste Management Structure</b>					
Task 5 – Waste Management Structure		Final Compliance Plan Roadmap	Assess rate impact and make recommendations		Update in 2024 with in-county facility

## **ORDINANCE 2021-01: ORGANICS REDUCTION AND RECYCLING ORDINANCE**

The jurisdiction hereby ordains as follows:

### **SECTION 1. PURPOSE AND FINDINGS**

- (a) The purpose of this Ordinance is to reduce the amount of organic and recyclable materials deposited in landfills from commercial and residential generators. This Ordinance repeals seeks to provide a single framework to achieve its purposes and comply with various state laws as set forth below.
- (b) State recycling law, Assembly Bill 939 of 1989, the California Integrated Waste Management Act of 1989 (approved by the Governor of the State of California on September 29, 1989, which among other things, added Division 30 (Section 40000, et seq.) to the Public Resources Code, as amended, supplemented, superseded, and replaced from time to time), requires cities and counties to reduce, reuse, and recycle (including composting) Solid Waste generated in their jurisdictions to the maximum extent feasible before any incineration or landfill disposal of waste, to conserve water, energy, and other natural resources, and to protect the environment.
- (c) State recycling law, Assembly Bill 341 of 2011 (approved by the Governor of the State of California on October 5, 2011, which amended Sections 41730, 41731, 41734, 41735, 41736, 41800, 42926, 44004, and 50001 of, and added Sections 40004, 41734.5, and 41780.01 and Chapter 12.8 (commencing with Section 42649) to Part 3 of Division 30 of, and added and repealed Section 41780.02 of, the Public Resources Code, as amended, supplemented, superseded and replaced from time to time), places requirements on businesses and multi-family property owners that generate a specified threshold amount of Solid Waste to arrange for recycling service and requires jurisdictions to implement a Mandatory Commercial Recycling program.
- (d) State organics recycling law, Assembly Bill 1826 of 2014 (approved by the Governor of the State of California on September 28, 2014, which added Chapter 12.9 (commencing with Section 42649.8) to Part 3 of Division 30 of the Public Resources Code, relating to Solid Waste, as amended, supplemented, superseded, and replaced from time to time), requires businesses and multi-family property owners that generate a specified threshold amount of Solid Waste, recycling, and Organic Waste per week to arrange for recycling service for those materials, requires counties and cities to implement a recycling program to divert Organic Waste from businesses subject to the law, and to implement a Mandatory Commercial Organics Recycling program.
- (e) State organics recycling law, Senate Bill 1383 of 2016, the Short-lived Climate Pollutant Reduction Act of 2016 (approved by the Governor of the State of

California on September 19, 2016, which added Sections 39730.5, 39730.6, and 39730.8 to the Health and Safety Code, and added Chapter 13.1 (commencing with Section 42652) to Part 3 of Division 30 of the Public Resources Code, as amended, supplemented, superseded, and replaced from time to time), took effect on January 1, 2017 and sets Statewide Organic Waste disposal reduction targets of 50 percent by 2020 and 75 percent by 2025, based on the 2014 organics waste disposal baseline, set forth in Section 39730.6 of the Health and Safety Code, and requires CalRecycle to develop regulations to reduce organics in landfills as a source of methane. The SB 1383 Regulations place requirements on multiple entities, including counties, cities, residential households, Commercial Businesses (including Multi-Family Residential Dwellings), Commercial Edible Food Generators, haulers, Self-Haulers, Food Recovery Organizations, and Food Recovery Services to support achievement of statewide Organic Waste disposal reduction targets with compliance required beginning January 1, 2022.

- (f) In furtherance of the food recovery objectives of the laws noted above and to reduce legal risks associated with food recovery, the State food donation law, Assembly Bill 1219 of 2017, the California Good Samaritan Food Donation Act of 2017 (approved by the Governor of the State of California on October 9, 2017, which amended Section 1714.25 of the Civil Code, amended Section 58502 of, and repealed Section 58506 of, the Food and Agricultural Code, and amended Sections 114432, 114433, and 114434 of, and added Section 114435 to, the Health and Safety Code, as amended, supplemented, superseded and replaced from time to time), provides additional protections for entities that donate and distribute food for human consumption.
- (g) By January 1, 2022, the SB 1383 Regulations require jurisdictions to adopt and enforce an ordinance or other enforceable mechanism to implement relevant provisions of the SB 1383 Regulations concerning regulation of organic waste collection services, generators of organic waste, waste haulers, and generators and processors of edible food, together with enforcement mechanisms and administrative civil penalties for violations of local regulations.
- (h) It is in the public interest for cities, the County, sanitary districts, haulers, processors, facility operators, businesses, institutions, and the public, to work together to advance the goals in the state legislation noted above.

## **SECTION 2. TITLE OF ORDINANCE**

This Ordinance is titled “Organics Reduction and Recycling Ordinance”.

## **SECTION 3. DEFINITIONS**

The following definitions govern the use of terms in this Ordinance:

- (a) “Jurisdiction” refers to the city, county, or a special district that provides solid waste collection services and has adopted this ordinance.
- (b) “Back-Haul” means generating and transporting Organic Waste to a destination owned and operated by a generator using the generator’s own employees and equipment, or as otherwise defined in 14 CCR Section 18982(a)(66)(A).
- (c) “C&D” means construction and demolition debris.
- (d) “CalRecycle” means California's Department of Resources Recycling and Recovery, which is the state agency designated with responsibility for developing, implementing, and enforcing the SB 1383 Regulations.
- (e) “California Code of Regulations” or “CCR” means the State of California Code of Regulations. CCR references in this Ordinance are preceded with a number that refers to the relevant Title of the CCR (e.g., “14 CCR” refers to Title 14 of CCR).
- (f) “Certification of Recycling Service Form” means documentation certifying that a Commercial Business does not subscribe to collection services for Compost Containers and/or Recycling Containers because the Commercial Business has arranged for collection of its Source Separated Compost Container Organic Waste and/or Source Separated Recyclable Materials by self-hauling, Back-Haul,

contracting with a third-party hauler, or shares service with another Commercial Business.

- (g) “Commercial Business” or “Commercial” means a firm, partnership, proprietorship, joint-stock company, corporation, institution or association (whether incorporated or unincorporated or for-profit or nonprofit), strip mall, industrial facility, or a Multi-Family Residential Dwelling, or as otherwise defined in 14 CCR Section 18982(a)(6).
- (h) “Commercial Edible Food Generator” includes a Tier One, or a Tier Two Commercial Edible Food Generator as defined herein or as otherwise defined in 14 CCR Section 18982(a)(73) and (a)(74). For the purposes of this definition, Food Recovery Organizations and Food Recovery Services are not Commercial Edible Food Generators pursuant to 14 CCR Section 18982(a)(7).
- (i) “Community Composting” means any activity that composts green material, agricultural material, food material, and vegetative food material, alone or in combination, and the total amount of feedstock and Compost on-site at any one time does not exceed 100 cubic yards and 750 square feet, as specified in 14 CCR Section 17855(a)(4); or, as otherwise defined by 14 CCR Section 18982(a)(8).
- (j) “Compliance Review” means a review of records by the Enforcement Agency to evaluate compliance with this Ordinance.
- (k) “Compost” has the same meaning as in 14 CCR Section 17896.2(a)(4), which stated, as of the effective date of this Ordinance, that “Compost” means the product resulting from the controlled biological decomposition of organic Solid Waste that is Source Separated from the municipal Solid Waste stream, or which is separated at a centralized facility.
- (l) “Compost Container” has the same meaning as “Green Container” in 14 CCR Section 18982(a)(29) and shall be used for the purpose of storage and collection of Source Separated Compost Container Organic Waste.
- (m) “Compostable Plastics” or “Compostable Plastic” means plastic materials that meet the ASTM D6400 and D6868 standards for compostability and are certified by the Biodegradable Products Institute (BPI) or similar third-party approved by the jurisdiction for placement in the Compost Container.
- (n) “Container Contamination” or “Contaminated Container” means a container, regardless of type, which contains Prohibited Container Contaminants, or as otherwise defined in 14 CCR Section 18982(a)(55).
- (o) “Edible Food” means food intended for human consumption, or as otherwise defined in 14 CCR Section 18982(a)(18). For the purposes of this Ordinance or as otherwise defined in 14 CCR Section 18982(a)(18), “Edible Food” is not Solid Waste if it is recovered and not discarded. Nothing in this Ordinance or in 14 CCR, Division 7, Chapter 12 requires or authorizes the Recovery of Edible Food that does not meet the food safety requirements of the California Retail Food Code, as

codified in the Health and Safety Code Section 113700, et seq.

- (p) “Enforcement Action” means an action of the relevant Enforcement Agency to address non-compliance with this Ordinance including, but not limited to, issuing administrative citations, fines, penalties, or using other remedies.
- (q) “Enforcement Agency” means an entity with the authority to enforce part, or all of this Ordinance as specified herein. Employees and agents of an Enforcement Agency may carry out inspections and enforcement activities pursuant to this Ordinance. Nothing in this Ordinance authorizing an entity to enforce its terms shall require that entity to undertake such enforcement except as agreed to by that entity.
- (r) “Excluded Waste” means hazardous substances, hazardous waste, infectious waste, designated waste, volatile, corrosive, medical waste, infectious, regulated radioactive waste, and toxic substances or material that facility operator(s), which receive materials from a jurisdiction and its generators, reasonably believe(s) would, as a result of or upon acceptance, transfer, processing, or disposal, be a violation of local, State, or Federal law, regulation, or ordinance, including: land use restrictions or conditions, waste that cannot be disposed of in Class III landfills or accepted at the facility by permit conditions, waste that in the reasonable opinion of the jurisdiction or a Regulated Hauler operating in the jurisdiction would present a significant risk to human health or the environment, cause a nuisance or otherwise create or expose the jurisdiction or a Regulated Hauler to potential liability; but not including de minimis volumes or concentrations of waste of a type and amount normally found in Single-Family or Multi-Family Solid Waste after implementation of programs for the safe collection, processing, recycling, treatment, and disposal of batteries and paint in compliance with Sections 41500 and 41802 of the Public Resources Code. Excluded Waste does not include used motor oil and filters, household batteries, universal wastes, and/or latex paint when such materials are defined as allowable materials for collection through the jurisdiction’s collection programs and the generator or customer has properly placed the materials for collection pursuant to instructions provided by the jurisdiction or the Regulated Hauler providing service to the generator.

- (s) “Food Distributor” means a company that distributes food to entities including, but not limited to, Supermarkets and Grocery Stores, or as otherwise defined in 14 CCR Section 18982(a)(22).
- (t) “Food Facility” has the same meaning as in Section 113789 of the Health and Safety Code.
- (u) “Food Recovery” means actions to collect and distribute food for human consumption that otherwise would be disposed, or as otherwise defined in 14 CCR Section 18982(a)(24).
- (v) “Food Recovery Organization” means an entity that engages in the collection or receipt of Edible Food from Commercial Edible Food Generators and distributes that Edible Food to the public for Food Recovery either directly or through other entities or as otherwise defined in 14 CCR Section 18982(a)(25), including, but not limited to:
  - (1) A food bank as defined in Section 113783 of the Health and Safety Code;
  - (2) A nonprofit charitable organization as defined in Section 113841 of the Health and Safety code; and,
  - (3) A nonprofit charitable temporary food facility as defined in Section 113842 of the Health and Safety Code.

A Food Recovery Organization is not a Commercial Edible Food Generator for the purposes of this Ordinance and implementation of 14 CCR, Division 7, Chapter 12 pursuant to 14 CCR Section 18982(a)(7). If the definition in 14 CCR Section 18982(a)(25) for Food Recovery Organization differs from this definition, the definition in 14 CCR Section 18982(a)(25) shall apply to this Ordinance.

- (w) “Food Recovery Service” means a person or entity that collects and transports Edible Food from a Commercial Edible Food Generator to a Food Recovery Organization or other entities for Food Recovery, or as otherwise defined in 14 CCR Section 18982(a)(26). A Food Recovery Service is not a Commercial Edible Food Generator for the purposes of this Ordinance and implementation of 14 CCR, Division 7, Chapter 12 pursuant to 14 CCR Section 18982(a)(7).
- (x) “Food Scraps” means all edible or inedible food such as, but not limited to, fruits, vegetables, meat, poultry, seafood, shellfish, bones, rice, beans, pasta, bread, cheese, coffee grounds, and eggshells. Food Scraps excludes fats, oils, and grease when such materials are Source Separated from other Food Scraps.
- (y) “Food Service Provider” means an entity primarily engaged in providing food services to institutional, governmental, Commercial, or industrial locations of others based on contractual arrangements with these types of organizations, or as otherwise defined in 14 CCR Section 18982(a)(27).

- (aa) “Food-Soiled Paper” is compostable paper material that has come in contact with food or liquid, such as, but not limited to, compostable paper plates, napkins, and pizza boxes, and is approved by the applicable the Jurisdiction for placement in the Compost Container.
- (bb) “Food Waste” means Food Scraps, Food-Soiled Paper, and Compostable Plastics in combination or separately.
- (cc) “Grocery Store” means a store primarily engaged in the retail sale of canned food; dry goods; fresh fruits and vegetables; fresh meats, fish, and poultry; and any area that is not separately owned within the store where the food is prepared and served, including a bakery, deli, and meat and seafood departments, or as otherwise defined in 14 CCR Section 18982(a)(30).
- (dd) “Hauler Route” means the designated itinerary or sequence of stops for each segment of a jurisdiction’s collection service area, or as otherwise defined in 14 CCR Section 18982(a) (31.5).
- (ee) “Health Facility” has the same meaning as in Section 1250 of the Health and Safety Code.
- (ff) “High Diversion Organic Waste Processing Facility” means a facility that is in compliance with the reporting requirements of 14 CCR Section 18815.5(d) and meets or exceeds an annual average mixed waste organic content Recovery rate of 50 percent between January 1, 2022 and December 31, 2024, and 75 percent after January 1, 2025, as calculated pursuant to 14 CCR Section 18815.5(e) for Organic Waste received from the “Mixed waste organic collection stream” as defined in 14 CCR Section 17402(a)(11.5); or, as otherwise defined in 14 CCR Section 18982(a)(33).
- (gg) “Hotel” has the same meaning as in Section 17210 of the Business and Professions Code.
- (hh) “Inspection” means an Enforcement Agency’s electronic or on-site review of records, containers, and an entity’s collection, handling, recycling, or landfill disposal of Organic Waste or Edible Food handling to determine if the entity is complying with requirements set forth in this Ordinance, or as otherwise defined in 14 CCR Section 18982(a)(35).
- (ii) “Landfill Container” has the same meaning as “Gray Container” in 14 CCR Section 18982(a)(28) and shall be used for the purpose of storage and collection of Landfill Container Waste.
- (jj) “Landfill Container Waste” means Solid Waste that is collected in a Landfill Container that is part of a three-container or three-plus container collection service that prohibits the placement of Organic Waste in the Landfill Container as specified in 14 CCR Sections 18984.1(a) and (b), or as otherwise defined in 14 CCR Section

17402(a) (6.5). (Three container collection service refers to service collecting materials in Landfill Containers, Organics Containers, and Recycling Containers.)

- (kk) "Large Event" means an event, including, but not limited to, a sporting event or a flea market, that charges an admission price, or is operated by a local agency, and serves an average of more than 2,000 individuals per day of operation of the event, at a location that includes, but is not limited to, a public, nonprofit, or privately owned park, parking lot, golf course, street system, or other open space when being used for an event. If the definition in 14 CCR Section 18982(a)(38) differs from this definition, the definition in 14 CCR Section 18982(a)(38) shall apply to this Ordinance. For the purposes of this definition of Large Event, "local agency" means all public agencies except those that are not subject to the regulatory authority of the jurisdiction.
- (ll) "Large Venue" means a permanent venue facility that annually seats or serves an average of more than 2,000 individuals within the grounds of the facility per day of operation. For purposes of this Ordinance and implementation of 14 CCR, Division 7, Chapter 12, a venue facility includes, but is not limited to, a public, nonprofit, or privately owned or operated stadium, amphitheater, arena, hall, amusement park, conference or civic center, zoo, aquarium, airport, racetrack, horse track, performing arts center, fairground, museum, theater, or other public attraction facility. For purposes of this Ordinance and implementation of 14 CCR, Division 7, Chapter 12, a site under common ownership or control that includes more than one Large Venue that is contiguous with other Large Venues in the site, is a single Large Venue. If the definition in 14 CCR Section 18982(a)(39) differs from this definition, the definition in 14 CCR Section 18982(a)(39) shall apply to this Ordinance.

- (mm) “Mixed Waste Organic Collection Stream” or “Mixed Waste” means Organic Waste collected in a container that is required by 14 CCR Sections 18984.1, 18984.2 or 18984.3 to be taken to a High Diversion Organic Waste Processing Facility or as otherwise defined in 14 CCR Section 17402(a) (11.5).
- (nn) “Multi-Family Residential Dwelling” or “Multi-Family” means of, from, or pertaining to residential premises with five or more dwelling units. Multi-Family premises are considered a distinct type of Commercial Business for the purposes of implementing this Ordinance. Consistent with the SB 1383 Regulations, residential premises that consist of fewer than five units are not “Multi-Family” and instead are “Single-Family” for the purposes of implementing this Ordinance. Multi-Family premises do not include hotels, motels, or other transient occupancy facilities, which are considered other types of Commercial Businesses.
- (oo) “MWELo” stands for Model Water Efficiency Landscape Ordinance.
- (pp) “Non-Compostable Paper” includes, but is not limited to, paper that is coated, lined or treated with a non-compostable material, or otherwise unacceptable to the compostable materials handling facility processing the material.
- (qq) “Non-Organic Recyclables” means non-putrescible and non-hazardous recyclable materials including but not limited to recyclable food and beverage glass containers, metal (aluminum and steel) food and beverage cans, HDPE (high density polyethylene) bottles and PET (polyethylene terephthalate) bottles, and other materials specified in 14 CCR Section 18982(a)(43).
- (rr) “Notice of Violation” means a notice that a violation has occurred that includes a compliance date to avoid an action to seek penalties, or as otherwise defined in 14 CCR Section 18982(a)(45) or further explained in 14 CCR Section 18995.4.
- (ss) “Organic Waste” means Solid Waste containing material originated from living organisms and their metabolic waste products, including but not limited to food, green material, landscape and pruning waste, organic textiles and carpets, lumber, wood, Paper Products, Printing and Writing Paper, manure, biosolids, digestate, and sludges or as otherwise defined in 14 CCR Section 18982(a)(46). Biosolids and digestate are as defined by 14 CCR Section 18982(a).
- (tt) “Organic Waste Generator” means a Person or entity that is responsible for the initial creation of Organic Waste, or as otherwise defined in 14 CCR Section 18982(a)(48).
- (uu) “Paper Products” include, but are not limited to, paper janitorial supplies, cartons, wrapping, packaging, file folders, hanging files, corrugated boxes, tissue, and toweling, or as otherwise defined in 14 CCR Section 18982(a)(51).
- (vv) “Person” includes an individual, firm, limited liability company, association, partnership, political subdivision, government agency, municipality, industry, public or private corporation, or any other entity whatsoever, or as otherwise defined in Public Resources Code Section 40170.

- (ww) "Printing and Writing Paper" include, but are not limited to, copy, xerographic, watermark, cotton fiber, offset, forms, computer printout paper, white wove envelopes, manila envelopes, book paper, note pads, writing tablets, newsprint, and other writing papers, posters, index cards, calendars, brochures, reports, magazines, and publications, or as otherwise defined in 14 CCR Section 18982(a)(54).
- (xx) "Prohibited Container Contaminants" includes all of the following: (i) materials placed in the Recycling Container that are not identified as acceptable Source Separated Recyclable Materials for the jurisdiction's Recycling Container; (ii) materials placed in the Compost Container that are not identified as acceptable Source Separated Compost Container Organic Waste for the jurisdiction's Compost Container; (iii) materials placed in the Landfill Container that are acceptable Source Separated Recyclable Materials and/or acceptable Source Separated Compost Container Organic Waste that can be placed in the jurisdiction's Compost Container and/or Recycling Container; and, (iv) Excluded Waste placed in any container.
- (yy) "Recovery" means any activity or process described in 14 CCR Section 18983.1(b), or as otherwise defined in 14 CCR Section 18982(a)(49).
- (zz) "Recycling Container" has the same meaning as "Blue Container" in 14 CCR Section 18982(a)(5) and shall be used for the purpose of storage and collection of Source Separated Recyclable Materials and Source Separated Recycling Container Organic Waste.
- (aaa) "Regulated Hauler" means a Person that collects Solid Waste (other than Solid Waste generated by a permitted building project) originating in the jurisdiction from Compost Containers, Recycling Containers, and/or Landfill Containers, and does so under a contract, franchise agreement, or permit with the jurisdiction.
- (bbb) "Remote Monitoring" means the use of mechanical or electronic devices to identify the types of materials in Recycling Containers, Compost Containers, and/or Landfill Containers for purposes of identifying the quantity of materials in containers (level of fill) and/or presence of Prohibited Container Contaminants.
- (ccc) "Restaurant" means an establishment primarily engaged in the retail sale of food and drinks for on-premises or immediate consumption, or as otherwise defined in 14 CCR Section 18982(a)(64).
- (ddd) "Route Review" means a visual Inspection of containers along a Hauler Route for the purpose of determining Container Contamination, and may include mechanical or electronic Inspection methods such as the use of cameras, or as otherwise defined in 14 CCR Section 18982(a)(65).

- (eee) "SB 1383" means Senate Bill 1383 of 2016, the Short-lived Climate Pollutant Reduction Act of 2016.
- (fff) "SB 1383 Regulations" means or refers to, for the purposes of this Ordinance, the Short-Lived Climate Pollutants: Organic Waste Reduction regulations developed by CalRecycle and adopted in 2020 that created 14 CCR, Division 7, Chapter 12 and amended portions of regulations of 14 CCR and 27 CCR.
- (ggg) "Self-Hauler" means a Person, who hauls Solid Waste, Organic Waste or recyclable material they have generated to another Person for disposition as allowed by the jurisdiction and otherwise in accordance with all applicable laws. Self-Hauler also includes a Person who Back-Hauls such materials, and as otherwise defined in 14 CCR Section 18982(a)(66).
- (hhh) "Single-Family" means, for purposes of this Ordinance, of, from, or pertaining to any residential premises with fewer than five units.
- (iii) "Solid Waste" has the same meaning as defined in Public Resources Code Section 40191, which defines Solid Waste as all putrescible and non-putrescible solid, semisolid, and liquid wastes, including garbage, trash, refuse, paper, rubbish, ashes, industrial wastes, demolition and construction wastes, abandoned vehicles and parts thereof, discarded home and industrial appliances, dewatered, treated, or chemically fixed sewage sludge which is not hazardous waste, manure, vegetable or animal solid and semi-solid wastes, and other discarded solid and semisolid wastes, with the exception that Solid Waste does not include any of the following wastes:
- (1) Hazardous waste, as defined in the Public Resources Code Section 40141.
  - (2) Radioactive waste regulated pursuant to the State Radiation Control Law (Chapter 8 (commencing with Section 114960) of Part 9 of Division 104 of the Health and Safety Code).
  - (3) Medical waste regulated pursuant to the State Medical Waste Management Act (Part 14 (commencing with Section 117600) of Division 104 of the Health and Safety Code). Untreated medical waste shall not be disposed of in a Solid Waste landfill, as defined in Public Resources Code Section 40195.1. Medical waste that has been treated and deemed to be Solid Waste shall be regulated pursuant to Division 30 of the Public Resources Code.
- (jjj) "Source Separated" means materials, including commingled recyclable materials, that have been separated or kept separate from the Solid Waste stream, at the point of generation, for the purpose of additional sorting or processing those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products, which meet the quality standards necessary to be used in the marketplace, or as otherwise defined in 14 CCR Section 17402.5(b)(4). For the purposes of this Ordinance,

Source Separated shall include separation of materials by the generator, property owner, property owner's employee, property manager, or property manager's employee into different containers for the purpose of collection such that Source Separated materials are separated from Landfill Container Waste or other Solid Waste for the purposes of collection and processing.

(kkk) "Source Separated Compost Container Organic Waste" means Source Separated Organic Waste that can be placed in a Compost Container that is specifically intended for the separate collection of Organic Waste by the generator, excluding Source Separated Recycling Container Organic Waste, carpets, Non-Compostable Paper, and textiles.

(lll) "Source Separated Recyclable Materials" means Source Separated Non-Organic Recyclables and Source Separated Recycling Container Organic Waste.

(mmm) "Source Separated Recycling Container Organic Waste" means Source Separated Organic Wastes that can be placed in a Recycling Container that is limited to the collection of those Organic Wastes and Non-Organic Recyclables, as defined herein or as otherwise defined in Sections 18982(a)(43) and 18982(a)(46). Source Separated Recycling Container Organic Waste shall include materials as determined by the jurisdiction and includes unsoiled Paper Products and Printing and Writing Paper.

(nnn) "Supermarket" means a full-line, self-service retail store with gross annual sales of two million dollars (\$2,000,000), or more, and which sells a line of dry grocery, canned goods, or nonfood items and some perishable items, or as otherwise defined in 14 CCR Section 18982(a)(71).

(ooo) "Tier One Commercial Edible Food Generator" means a Commercial Edible Food Generator that is one of the following:

- (1) Supermarket.
- (2) Grocery Store with a total facility size equal to or greater than 10,000 square feet.
- (3) Food Service Provider.
- (4) Food Distributor.
- (5) Wholesale Food Vendor.

If the definition in 14 CCR Section 18982(a)(73) of Tier One Commercial Edible Food Generator differs from this definition, the definition in 14 CCR Section 18982(a)(73) shall apply to this Ordinance.

(ppp) "Tier Two Commercial Edible Food Generator" means a Commercial Edible Food Generator that is one of the following:

- (1) Restaurant with 250 or more seats, or a total facility size equal to or greater than 5,000 square feet.
- (2) Hotel with an on-site Food Facility and 200 or more rooms.
- (3) Health facility with an on-site Food Facility and 100 or more beds.
- (4) Large Venue.
- (5) Large Event.

If the definition in 14 CCR Section 18982(a)(74) of Tier Two Commercial Edible Food Generator differs from this definition as to entities subject to the regulatory authority of the jurisdiction, the definition in 14 CCR Section 18982(a)(74) shall apply to this Ordinance.

(qqq) “Wholesale Food Vendor” means a business or establishment engaged in the merchant wholesale distribution of food, where food (including fruits and vegetables) is received, shipped, stored, prepared for distribution to a retailer, warehouse, distributor, or other destination, or as otherwise defined in 14 CCR Section 189852(a)(76).

## **SECTION 4. REQUIREMENTS FOR SINGLE-FAMILY GENERATORS**

Except Single-Family Organic Waste Generators that meet the Self-Hauler requirements in Section 10 of this Ordinance and/or that are located in a census tract for which CalRecycle has issued a low population waiver (as described in 14 CCR Section 18984.12) for a period of up to five years, Single-Family generators shall:

- (a) Be subscribed to the collection service(s) approved by the jurisdiction for Compost Containers, Recycling Containers, and Landfill Containers. A jurisdiction shall have the right to review the number and size of a generator’s containers to evaluate the adequacy of capacity provided for each type of collection service and to review the separation of materials and containment of materials. A Single-Family generator shall adjust its service level for its collection services as requested by the jurisdiction in order to meet the standards set forth in this Ordinance. Generators may manage their Organic Waste by preventing or reducing their Organic Waste, managing Organic Waste on site, and/or using a Community Composting site pursuant to 14 CCR Section 18984.9(c) to the extent permitted by other applicable laws.
- (b) Participate in the Organic Waste collection service(s) approved by the jurisdiction by placing designated materials in designated containers as described below, and not placing Prohibited Container Contaminants in collection containers. Generator shall place Source Separated Compost Container Organic Waste,

including Food Waste, in the Compost Container; Source Separated Recyclable Materials in the Recycling Container; and Landfill Container Waste in the Landfill Container. Generators shall not place materials designated for the Landfill Container into the Compost Container or the Recycling Container.

- (c) The Enforcement Agency for the provisions of this Section 4 is the jurisdiction.

## **SECTION 5. REQUIREMENTS FOR COMMERCIAL BUSINESS GENERATORS INCLUDING MULTI-FAMILY RESIDENTIAL DWELLINGS**

Commercial Business Organic Waste Generators, including Multi-Family Residential Dwellings, except Commercial Businesses that meet the Self-Hauler requirements in Section 10 of this Ordinance, meet waiver requirements in Section 6 of this Ordinance, or that are located in a census tract for which CalRecycle has issued a low population waiver (as described in 14 CCR Section 18984.12) shall:

- (1) Be subscribed to collection service(s) approved by the jurisdiction for Compost Containers, Recycling Containers, and Landfill Containers and comply with requirements of those services as described below. The jurisdiction shall have the right to review the number and size of a generator's containers and frequency of collection to evaluate adequacy of capacity provided for each type of collection service for proper separation of materials and containment of materials; and Commercial Businesses shall adjust their service level for their collection services as requested by the jurisdiction.
  - (2) Participate in collection services approved by the jurisdiction for Organic Waste collection service(s) by placing designated materials in designated containers as described below. Generator shall place Source Separated Compost Container Organic Waste, including Food Waste, in the Compost Container; Source Separated Recyclable Materials in the Recycling Container; and Landfill Container Waste in the Landfill Container. Generator shall not place materials designated for the Landfill Container into the Compost Container or Recycling Container.
- (a) Supply and allow access to adequate number, size and location of collection containers with sufficient labels or colors for employees, contractors, tenants, and customers, consistent with the Recycling Container, Compost Container, and Landfill Container collection service or, if self-hauling, per the Commercial Businesses' instructions to support its compliance with its self-haul program, in accordance with Section 10.

- (b) Excluding Multi-Family Residential Dwellings, provide containers for the collection of Source Separated Compost Container Organic Waste and Source Separated Recyclable Materials generated by that business in all areas where the Commercial Business provides disposal containers for employees, contractors, tenants, customers and other users of the premises (“User Disposal Containers”). Such User Disposal Containers do not need to be provided in restrooms. If a Commercial Business does not generate, or has a waiver pertaining to, any of the materials that would be collected in one type of User Disposal Container, then the business does not have to provide that particular type of container in all areas where User Disposal Containers are provided. Pursuant to 14 CCR Section 18984.9(b), the User Disposal Containers provided by the business shall have either:
- (1) A body or lid that conforms with the following container colors, with either lids conforming to these color requirements or bodies conforming to these color requirements, or both lids and bodies conforming to these color requirements: gray or black containers for Landfill Container Waste, blue containers for Source Separated Recyclable Materials, and green containers for Source Separated Compost Container Organic Waste. Notwithstanding the foregoing, a Commercial Business is not required to replace functional containers, including containers purchased prior to January 1, 2022, that do not comply with the color requirements of this Section 5(b)(1) prior to the end of the useful life of those containers, or prior to January 1, 2036, whichever comes first.
  - (2) Container labels that include language or graphic images, or both, indicating the primary materials accepted and the primary materials prohibited in that container, or containers with imprinted text or graphic images that indicate the primary materials accepted and primary materials prohibited in the container. Pursuant 14 CCR Section 18984.8, the container labeling requirements are required on new containers commencing January 1, 2022.
- (c) For Multi-Family Residential Dwellings, provide containers for the collection of Source Separated Compost Container Organic Waste and Source Separated Recyclable Materials in all common areas where those materials are being generated and disposal containers are provided for tenants, and in areas for internal consolidation of materials that are later deposited in Organics Containers, Recycling Containers, and Landfill Containers for collection by Regulated Haulers. Such containers do not need to be provided in restrooms accessible from common areas of the Multi-Family Dwelling. Such containers shall comply with the color and labeling requirements specified in subsections (b)(1) and (b)(2) above.
- (d) To the extent practical through education, training, inspection, and/or other measures, prohibit employees from placing materials in a container not designated for those materials per the Recycling Container, Compost Container, and Landfill Container collection service or, if self-hauling, per the Commercial Businesses’

instructions to support its compliance with its self-haul program, in accordance with Section 10.

- (e) Periodically inspect Recycling Containers, Compost Containers, and Landfill Containers for contamination and inform employees if containers are contaminated and of the requirements to keep contaminants out of those containers pursuant to 14 CCR Section 18984.9(b)(3).
- (f) Annually provide information to employees, contractors, tenants, building residents, and customers about Organic Waste Recovery requirements and about proper sorting of Source Separated Compost Container Organic Waste and Source Separated Recyclable Materials.
- (g) Provide information before or within fourteen days of new occupation of the premises to new tenants and no less than fourteen days before tenants move out of the premises, unless a tenant does not provide fourteen or more days' notice to before moving out, that describes requirements to keep Source Separated Compost Container Organic Waste and Source Separated Recyclable Materials separate from each other and from Landfill Container Waste and the location of containers and the rules governing their use at the property.
- (h) Provide or arrange access for the Enforcement Agency to their properties during all Inspections conducted in connection with this Ordinance and timely provide documents requested by the Enforcement Agency to confirm compliance with the requirements of this Ordinance.
- (i) At Commercial Business' option and subject to approval by the Enforcement Agency, implement its own Remote Monitoring program for self-inspection of the types of materials placed in Recycling Containers, Compost Containers, and Landfill Containers for the purpose of monitoring the contents of containers to determine appropriate levels of service and to identify Prohibited Container Contaminants. Purchase and maintenance of the Remote Monitoring program shall be the responsibility of the Commercial Business.
- (j) Nothing in this Section prohibits a generator from preventing or reducing waste generation, managing Organic Waste on site, or using a Community Composting site pursuant to 14 CCR Section 18984.9(c) to the extent permitted by other applicable laws.
- (k) The Enforcement Agency for the provisions of this Section 5 is the jurisdiction.

## SECTION 6. WAIVERS FOR COMMERCIAL BUSINESS GENERATORS

- (a) De Minimis Waivers. Except for Multi-Family Residential Dwellings, the Enforcement Agency may waive a Commercial Business' obligation to comply with some or all of the Organic Waste collection service requirements of this Ordinance if the Commercial Business provides documentation demonstrating that the business generates below a certain amount of Organic Waste material, as described in Section 6(a)(2) below. A Commercial Business requesting a de minimis waiver shall:
- (1) Submit an application to the Enforcement Agency specifying the service or requirements for which it is requesting a waiver.
  - (2) Provide documentation with the application that either:
    - (A) The Commercial Business' total Solid Waste collection service is two cubic yards or more per week and Organic Waste subject to collection in a Recycling Container or Compost Container comprises less than 20 gallons per week per applicable container of the business' total waste; or,
    - (B) The Commercial Business' total Solid Waste collection service is less than two cubic yards per week and Organic Waste subject to collection in a Recycling Container or Compost Container comprises less than 10 gallons per week per applicable container of the business' total waste.
    - (C) For the purposes of subsections (A) and (B) above, total Solid Waste shall be the sum of weekly Landfill Container Waste, Source Separated Recyclable Materials, and Source Separated Compost Container Organic Waste measured in cubic yards.
  - (3) If the waiver is granted, notify the Enforcement Agency granting the waiver if circumstances change such that Commercial Business's Organic Waste exceeds threshold required for waiver, in which case the waiver will be rescinded.
  - (4) If the waiver is granted, provide written verification of continued eligibility for de minimis waiver to the Enforcement Agency every 5 years.
- (b) Physical Space Waivers. The Enforcement Agency may waive a Commercial Business' or property owner's (including a Multi-Family Residential Dwelling's) obligation to comply with some or all of the recyclable materials and/or Organic Waste collection service requirements of this Ordinance if the Enforcement Agency has evidence from a Regulated Hauler, licensed architect, licensed engineer, or other Person authorized by the Enforcement Agency demonstrating that the

premises lacks adequate space for the collection containers required for compliance with the Organic Waste collection requirements of Section 5.

A Commercial Business requesting a physical space waiver shall:

- (1) Submit an application to the Enforcement Agency specifying the service or requirements for which it is requesting a waiver.
  - (2) Provide documentation with the application that the premises lacks adequate space for Recycling Containers and/or Compost Containers, which shall include documentation from its Regulated Hauler, licensed architect, licensed engineer, or other Person authorized by the Enforcement Agency.
  - (3) If the waiver is granted, notify the Enforcement Agency granting the waiver if the Commercial Business' physical space configurations or amounts of Solid Waste generation change, in which case the waiver may be rescinded.
  - (4) If the waiver is granted, provide written verification to the Enforcement Agency of continued eligibility for a physical space waiver every five years.
- (c) Collection Frequency Waiver. The Enforcement Agency, at its discretion and in accordance with 14 CCR Section 18984.11(a)(3), may allow the owner or tenant of any residence, premises, business establishment or industry that subscribes to the jurisdiction's three- or, if relevant, three-plus container Organic Waste collection service to arrange for the collection of their Recycling Container, Landfill Container, or both once every fourteen days, rather than once per week.
- (d) The Enforcement Agency for the provisions of this Section 6 is the jurisdiction.
- (e) The Enforcement Agency may waive collection requirements for businesses located in a jurisdiction that is under a low disposal or low-density waiver issued from CalRecycle. These Enforcement Agency waivers are valid as long as the CalRecycle-issued waiver is valid.

## **SECTION 7. REQUIREMENTS FOR COMMERCIAL EDIBLE FOOD GENERATORS**

- (a) Tier One Commercial Edible Food Generators must comply with the requirements of this Section 7 commencing January 1, 2022, and Tier Two Commercial Edible Food Generators must comply commencing January 1, 2024, pursuant to 14 CCR Section 18991.3 or such later deadline established by State law or regulations.
- (b) Large Venue or Large Event operators not providing food services, but allowing for food to be provided by others, shall require Food Facilities operating at the Large Venue or Large Event to comply with the requirements of this Section, commencing January 1, 2024, or such later deadline established by State law or regulations.

- (c) Commercial Edible Food Generators shall comply with the following requirements:
- (1) Arrange to safely recover for human consumption the maximum amount of Edible Food that would otherwise be disposed.
  - (2) Enter into a contract or other written agreement with Food Recovery Organizations or Food Recovery Services for: (i) the collection for Food Recovery of Edible Food that would otherwise be disposed; or (ii) acceptance of Edible Food that would otherwise be disposed that the Commercial Edible Food Generator self-hauls to the Food Recovery Organization for Food Recovery.
  - (3) Use best efforts to abide by all contractual or written agreement requirements specified by the Food Recovery Organization or Food Recovery Service on how Edible Food should be prepared, packaged, labeled, handled, stored, distributed or transported to the Food Recovery Organization or Service.
  - (4) Not intentionally donate food that has not been prepared, packaged, handled, stored and/or transported in accordance with the safety requirements of the California Retail Food Code.
  - (5) Not intentionally spoil Edible Food that is capable of being recovered by a Food Recovery Organization or a Food Recovery Service.
  - (6) Allow the Enforcement Agency to review records upon request, including by providing electronic copies or allowing access to the premises, pursuant to 14 CCR Section 18991.4.
  - (7) Keep records that include the following information, or as otherwise specified in 14 CCR Section 18991.4:
    - (A) A list of each Food Recovery Service or Food Recovery Organization that collects or receives its Edible Food pursuant to a contract or written agreement established under 14 CCR Section 18991.3(b).
    - (B) A copy of all contracts and written agreements established under 14 CCR Section 18991.3(b) and/or this Ordinance.
    - (C) A record of the following information for each of those Food Recovery Services or Food Recovery Organizations:
      - (i) The name, address and contact information of the Food Recovery Service or Food Recovery Organization.
      - (ii) The types of food that will be collected by or self-hauled to the Food Recovery Service or Food Recovery Organization.
      - (iii) The established frequency that food will be collected or self-

hauled.

- (iv) The quantity of food, measured in pounds recovered per month, collected or self-hauled to a Food Recovery Service or Food Recovery Organization for Food Recovery.
- (D) If it has not entered into a contract or written agreement with Food Recovery Organizations or Food Recovery Services pursuant to Section 7(c)(2), a record that describes (i) its direct donation of Edible Food to end recipients (including employees) and/or (ii) its food waste prevention practices that result in it generating no surplus Edible Food that it can donate.
- (8) Tier One Commercial Edible Food Generators and Tier Two Commercial Edible Food Generators shall provide, upon request, a Food Recovery report to the Enforcement Agency that includes the information in Section 7(c)(7). Entities shall provide the requested information within 60 days of the request.
- (d) Nothing in this Ordinance shall be construed to limit or conflict with (1) the protections provided by the California Good Samaritan Food Donation Act of 2017, the Federal Good Samaritan Act, or share table and school food donation guidance pursuant to Senate Bill 557 of 2017 (approved by the Governor of the State of California on September 25, 2017, which added Article 13 commencing with Section 49580 to Chapter 9 of Part 27 of Division 4 of Title 2 of the Education Code, and to amend Section 114079 of the Health and Safety Code, relating to food safety, as amended, supplemented, superseded and replaced from time to time); or (2) otherwise applicable food safety and handling laws and regulations.
- (e) Nothing in this Ordinance prohibits a Commercial Edible Food Generator from donating Edible Food directly to end recipients for consumption, pursuant to Health and Safety Code Section 114432(a).
- (f) The Enforcement Agency for the provisions of this Section 7 is the jurisdiction.

## **SECTION 8. REQUIREMENTS FOR FOOD RECOVERY ORGANIZATIONS AND SERVICES**

- (a) Nothing in this Ordinance prohibits a Food Recovery Service or Food Recovery Organization from refusing to accept edible food from a Commercial Edible Food Generator, in accordance with 14 CCR Section 18990.2(d).
- (b) Food Recovery Services collecting or receiving Edible Food directly from Commercial Edible Food Generators, via a contract or written agreement established under 14 CCR Section 18991.3(b), shall maintain the following records, or as otherwise specified by 14 CCR Section 18991.5(a)(1):
  - (1) The name, address, and contact information for each Commercial Edible Food Generator from which the service collects Edible Food.

- (2) The quantity in pounds of Edible Food collected from each Commercial Edible Food Generator per month. This may also include the total quantity in pounds of food collected that was spoiled when received from a Commercial Edible Food Generator or otherwise not able to be used to feed people.
  - (3) The quantity in pounds of Edible Food transported to each Food Recovery Organization per month.
  - (4) The name, address, and contact information for each Food Recovery Organization that the Food Recovery Service transports Edible Food to for Food Recovery.
- (c) Food Recovery Organizations collecting or receiving Edible Food directly from Commercial Edible Food Generators, via a contract or written agreement established under 14 CCR Section 18991.3(b), shall maintain the following records, or as otherwise specified by 14 CCR Section 18991.5(a)(2):
- (1) The name, address, and contact information for each Commercial Edible Food Generator from which the organization receives Edible Food.
  - (2) The quantity in pounds of Edible Food received from each Commercial Edible Food Generator per month. This may also include the total quantity in pounds of food collected that was spoiled when received from a Commercial Edible Food Generator or otherwise not able to be used to feed people.
  - (3) The name, address, and contact information for each Food Recovery Service that the organization receives Edible Food from for Food Recovery.
- (d) Food Recovery Organizations and Food Recovery Services that have their primary address physically located in jurisdiction and contract with or have written agreements with one or more Commercial Edible Food Generators pursuant to 14 CCR Section 18991.3(b) shall report to the jurisdiction the total pounds of Edible Food recovered from the Tier One and Tier Two Commercial Edible Food Generators they have established a contract or written agreement with pursuant to 14 CCR Section 18991.3(b) according to the following schedule: (i) no later than August 15, 2022, submit an initial report covering the period of January 1, 2022 to June 30, 2022; and (ii) no later than March 31, 2023, and no later than every March 31 thereafter, submit a report covering the period of January 1 to December 31 of the previous calendar year.
- (e) In order to support Edible Food Recovery capacity planning assessments and similar studies, Food Recovery Services and Food Recovery Organizations operating within the jurisdiction shall provide, upon request, information and consultation to the Enforcement Agency regarding existing, or proposed new or expanded, Food Recovery capacity in a form that can be provided to or that can be accessed by the jurisdiction. A Food Recovery Service or Food Recovery

Organization contacted by the Enforcement Agency shall respond to such request for information within 60 days, unless a shorter timeframe is otherwise specified by the Enforcement Agency.

- (f) The Enforcement Agency for the provisions of this Section 8 is the jurisdiction.

## **SECTION 9. REQUIREMENTS FOR REGULATED HAULERS AND FACILITY OPERATORS**

- (a) Requirements for Regulated Haulers.

- (1) A Regulated Hauler providing Single-Family, Commercial, or industrial Organic Waste collection service to generators within the jurisdiction shall meet the following requirements and standards in connection with collection of Organic Waste:

- (A) Through written notice to the jurisdiction annually on or before March 31, identify the facilities to which they will transport Organic Waste including facilities for Source Separated Recyclable Materials and Source Separated Compost Container Organic Waste.

- (B) Transport Source Separated Recyclable Materials to a facility that recycles those materials and transport Source Separated Compost Container Organic Waste to a facility, operation, activity, or property that recovers Organic Waste as defined in 14 CCR, Division 7, Chapter 12, Article 2.

- (C) Obtain approval from the jurisdiction to haul Organic Waste, unless it is transporting Source Separated Organic Waste to a Community Composting site or lawfully transporting C&D in a manner that complies with 14 CCR Section 18989.1, Section 13 of this Ordinance, and any other jurisdiction rules.

- (2) Within the boundaries of the jurisdiction, a Regulated Hauler collecting Organic Waste shall:

- (A) Up to four times per year, provide reports to jurisdiction on Commercial Business account information and service levels in a form to be specified by the jurisdiction.

- (B) Assist in the dissemination of SB 1383 educational materials to Single-Family and Commercial Business accounts.
- (C) At least annually and during new staff on-boarding, train Regulated Hauler's customer service representatives and account managers/recycling coordinators serving Organic Waste Generators in the jurisdiction on the generator requirements set forth in Sections 4 and 5 of this Ordinance, SB 1383 Regulations as they may be revised from time to time and on resources available to assist in compliance. Trainings may be in a virtual or in-person format.
- (D) Where a Regulated Hauler provides Landfill Container collection service, notify Single-Family and Commercial Business accounts that (i) they must also be subscribed to Recycling Container collection service and Compost Container collection service to comply with this Ordinance, except if an applicable waiver has been granted for the account, if an applicable waiver application has been submitted and is under review for the account, or if the account has an approved Certification of Recycling Service Form and (ii) that the Regulated Hauler will inform the jurisdiction if the account fails to subscribe to a required collection service offered by the Regulated Hauler.
- (E) Provide quarterly reports to the jurisdiction identifying Single-Family and Commercial accounts that are subscribed to Landfill Container collection service but that are not subscribed to Recycling Container and/or Compost Container collection service. The jurisdiction shall provide this information to the jurisdiction If a Regulated Hauler providing Landfill Container collection service does not offer Recycling Container Collection Service and/or Compost Container collection service to its Landfill Container collection service customers, the requirements of subsection (D) and (E) shall not apply with respect to those customers and the type(s) of service that is not offered.
- (F) Conduct or comply with Container Contamination minimization efforts such as Route Reviews or waste evaluations. Inform generators when Container Contamination is observed by the Regulated Hauler.
- (G) If requested by the Enforcement Agency, assist generators with verification of physical space constraints when generator submits an application for a physical space waiver.
- (H) Provide Commercial Business accounts with interactive assistance such as employee trainings, in a virtual or in-person format, when Recycling Container collection service or Composting Container collection service is added, or upon request.

- (3) The Enforcement Agency for the provisions of this Section 9(a) is the jurisdiction.
- (b) Requirements for Facility Operators and Community Composting Operations
  - (1) Owners of facilities, operations, and activities that recover Organic Waste, including, but not limited to, compost facilities, in-vessel digestion facilities, and publicly-owned treatment works shall, upon request from the jurisdiction, provide within 60 days information regarding available and potential new or expanded capacity at their facilities, operations, and activities, including information about throughput and permitted capacity necessary for planning purposes.
  - (2) Community Composting operators shall, upon request from the jurisdiction, provide within 60 days information to support Organic Waste capacity planning, including, but not limited to, an estimate of the amount of Organic Waste anticipated to be handled at the Community Composting operation.
  - (3) The Enforcement Agency for the provisions of this Section 9(b) is the jurisdiction and any Designee of the jurisdiction.

## **SECTION 10. REQUIREMENTS FOR SELF-HAULERS**

- (a) Self-Haulers shall source separate all recyclable materials and Organic Waste (materials that the jurisdiction otherwise requires generators to separate for collection in the jurisdiction's organics and recycling collection program) generated or handled on-site from Solid Waste in a manner consistent with 14 CCR Sections 18984.1 and 18984.2 or shall haul Organic Waste to a High Diversion Organic Waste Processing Facility as specified in 14 CCR Section 18984.3.
- (b) Self-Haulers shall haul their Source Separated Recyclable Materials to a facility that recovers those materials; and haul their Source Separated Compost Container Organic Waste to a Solid Waste facility, operation, activity, or property that processes or recovers Source Separated Organic Waste. Alternatively, Self-Haulers may haul Organic Waste to a High Diversion Organic Waste Processing Facility. Self-Haulers may Back-haul to a destination owned and operated by the generator using the generator's own employees and equipment and then haul those consolidated materials to facilities meeting the requirements of this subsection (b).
- (c) Self-Haulers that are Commercial Businesses (including Multi-Family Residential Dwellings) shall keep a record of the amount of Organic Waste delivered to each Solid Waste facility, operation, activity, or property that processes or recovers

Organic Waste: this record shall be subject to Inspection by the Enforcement Agency. The records shall include the following information:

- (1) Delivery receipts and weight tickets from the entity accepting the material.
  - (2) The amount of material in cubic yards or tons transported by the generator to each entity.
  - (3) If the material is transported to an entity that does not have scales on-site or employs scales incapable of weighing the Self-Hauler's vehicle in a manner that allows it to determine the weight of materials received, the Self-Hauler is not required to record the weight of material but shall keep a record of the entities that received the Organic Waste.
- (d) Self-Haulers that are Commercial Businesses (including Multi-Family Residential Dwellings) shall submit a Certification of Recycling Service Form to the Enforcement Agency for review for compliance if they do not also subscribe to separate collection service for Compost Containers and/or Recycling Containers by a Regulated Hauler. Applications will be considered for approval to the extent permitted by other applicable laws.
  - (e) Self-Haulers that are Commercial Businesses (including Multi-Family Residential Dwellings) shall submit a new Certification of Recycling Service Form to the Enforcement Agency for compliance review every five years, if they do not also subscribe to separate collection service for Compost Containers and/or Recycling Containers by a Regulated Hauler.
  - (f) Self-Haulers shall notify the Enforcement Agency if they subscribe to separate collection service for Compost Containers and/or Recycling Containers by a Regulated Hauler, such that they are no longer Self-Haulers.
  - (g) Self-Haulers that are Commercial Businesses (including Multi-Family Residential Dwellings) shall provide information, upon request, collected in Section 10(c) to the Enforcement Agency. Entities shall provide the requested information within 60 days.
  - (h) A Single-Family Organic Waste Generator that self-hauls Organic Waste is not required to record or report information in Sections 10(c) through (g).
  - (i) The Enforcement Agency for the provisions of this Section 10 is the jurisdiction.

## **SECTION 11. COMPLIANCE WITH CALGREEN RECYCLING REQUIREMENTS**

- (a) Persons applying for a permit from the Jurisdiction for new construction and building additions and alternations shall comply with the requirements of this Section and all required components of the California Green Building Standards Code, 24 CCR, Part 11, known as CALGreen, as amended, if its project is covered by the scope of CALGreen. If the requirements of CALGreen are more stringent then the requirements of this Section, the CALGreen requirements shall apply.

Project applicants shall refer to Jurisdiction’s building and/or planning code for complete CALGreen requirements.

- (b) For projects covered by CALGreen, the applicants must, as a condition of the Jurisdiction’s permit approval, comply with the following:
- (1) Where five (5) or more Multi-Family dwelling units are constructed on a building site, provide readily accessible areas that serve occupants of all buildings on the site and are identified for the storage and collection of Blue Container and Green Container materials, consistent with the three container collection program offered by the Jurisdiction, or comply with provision of adequate space for recycling for Multi-Family and Commercial premises pursuant to Sections 4.408.1, 4.410.2, 5.408.1, and 5.410.1 of the California Green Building Standards Code, 24 CCR, Part 11 as amended provided amended requirements are more stringent than the CALGreen requirements for adequate recycling space effective January 1, 2020.
  - (2) New Commercial construction or additions resulting in more than 30% of the floor area shall provide readily accessible areas identified for the storage and collection of Blue Container and Green Container materials, consistent with the three container program offered by the Jurisdiction, or shall comply with provision of adequate space for recycling for Multi-Family and Commercial premises pursuant to Sections 4.408.1, 4.410.2, 5.408.1, and 5.410.1 of the California Green Building Standards Code, 24 CCR, Part 11 as amended provided amended requirements are more stringent than the CALGreen requirements for adequate recycling space effective January 1, 2020.
  - (3) Comply with CALGreen requirements and applicable law related to management of C&D, including diversion of Organic Waste in C&D from disposal. Comply with Jurisdiction’s C&D ordinance, and all written and published Jurisdiction policies and/or administrative guidelines regarding the collection, recycling, diversion, tracking, and/or reporting of C&D.

## **SECTION 12. MODEL WATER EFFICIENT LANDSCAPING ORDINANCE REQUIREMENTS**

- (a) Property owners or their building or landscape designers, including anyone requiring a building or planning permit, plan check, or landscape design review from the

Jurisdiction, who are constructing a new (Single-Family, Multi-Family, public, institutional, or Commercial) project with a landscape area greater than 500 square feet, or rehabilitating an existing landscape with a total landscape area greater than 2,500 square feet, shall comply with Sections 492.6(a)(3)(B) (C), (D), and (G) of the MWELo, including sections related to use of Compost and mulch as delineated in this Section 14.

- (b) The following Compost and mulch use requirements that are part of the MWELo are now also included as requirements of this ordinance. Other requirements of the MWELo are in effect and can be found in 23 CCR, Division 2, Chapter 2.7
- (c) Property owners or their building or landscape designers that meet the threshold for MWELo compliance outlined in Section 14(a) above shall:
  - (1) Comply with Sections 492.6 (a)(3)(B)(C), (D) and (G) of the MWELo, which requires the submittal of a landscape design plan with a soil preparation, mulch, and amendments section to include the following:
    - (A) For landscape installations, Compost at a rate of a minimum of four cubic yards per 1,000 square feet of permeable area shall be incorporated to a depth of six (6) inches into the soil. Soils with greater than six percent (6%) organic matter in the top six (6) inches of soil are exempt from adding Compost and tilling.
    - (B) For landscape installations, a minimum three- (3-) inch layer of mulch shall be applied on all exposed soil surfaces of planting areas except in turf areas, creeping or rooting groundcovers, or direct seeding applications where mulch is contraindicated. To provide habitat for beneficial insects and other wildlife up to five percent (5%) of the landscape area may be left without mulch. Designated insect habitat must be included in the landscape design plan as such.
    - (C) Organic mulch materials made from recycled or post-consumer materials shall take precedence over inorganic materials or virgin forest products unless the recycled post-consumer organic products are not locally available. Organic mulches are not required where prohibited by local fuel modification plan guidelines or other applicable local ordinances.
  - (2) The MWELo compliance items listed in this Section are not an inclusive list of MWELo requirements; therefore, property owners or their building or landscape designers that meet the threshold for MWELo compliance outlined in Section 14(a) shall consult the full MWELo for all requirements.
- (d) If, after the adoption of this ordinance, the California Department of Water Resources, or its successor agency, amends 23 CCR, Division 2, Chapter 2.7, Sections 492.6(a)(3)(B) (C), (D), and (G) of the MWELo September 15, 2015 requirements in a manner that requires Jurisdictions to incorporate the requirements of an updated MWELo in a local ordinance, and the amended requirements include

provisions more stringent than those required in this Section, the revised requirements of 23 CCR, Division 2, Chapter 2.7 shall be enforced.

## **SECTION 13. INSPECTIONS AND INVESTIGATIONS**

The Enforcement Agency is authorized to conduct Inspections and investigations, at random or otherwise, of any collection container, collection vehicle loads, or transfer, processing, or disposal facility for materials collected from generators, or Source Separated materials to confirm compliance with the provisions of this Ordinance for which it has enforcement authority by Organic Waste Generators, Commercial Businesses (including Multi-Family Residential Dwellings), Commercial Edible Food Generators, Regulated Haulers, Self-Haulers, Food Recovery Services, and Food Recovery Organizations, subject to applicable laws. This Section does not allow entry in a private residential dwelling unit for Inspection.

- (a) A Person subject to the requirements of this Ordinance shall provide or arrange for access during all Inspections (with the exception of a private residential dwelling unit) and shall cooperate with the Enforcement Agency during such Inspections and investigations. Such Inspections and investigations may include confirmation of proper placement of materials in containers, inspection of Edible Food Recovery activities, review of required records, or other verification or Inspection to confirm compliance with any other requirement of this Ordinance. Failure to provide or arrange for: (i) access to the premises; or (ii) access to records for any Inspection or investigation is a violation of this Ordinance and may result in penalties described in Section 14.
- (b) Any records obtained by the Enforcement Agency during Inspections and other reviews shall be subject to the requirements and applicable disclosure exemptions of the California Public Records Act as set forth in Government Code Section 6250 et seq.
- (c) The Enforcement Agency is authorized to conduct any Inspections or other investigations as reasonably necessary to further the goals of this Ordinance, subject to applicable laws.
- (d) The Enforcement Agency shall accept written complaints from persons regarding an entity that may be potentially non-compliant with this Ordinance.
- (e) The Enforcement Agency is the jurisdiction.

## **SECTION 14. ENFORCEMENT**

Violation of any provision of this Ordinance shall constitute grounds for issuance of a Notice of Violation and assessment of a fine by the Enforcement Agency. Enforcement Actions under this Ordinance are issuance of an administrative citation and assessment of a fine. The Enforcement Agency's procedures on

imposition of administrative citations and fines as contained shall govern the imposition, enforcement, collection, and review of administrative citations and fines issued to enforce this Ordinance and any rule or regulation adopted pursuant to this Ordinance, except as otherwise indicated in this Ordinance.

- (a) Other remedies allowed by law may be used, including civil action or prosecution as a misdemeanor or infraction. The Enforcement Agency may pursue civil actions in the California courts to seek recovery of unpaid administrative citations, and fines. The Enforcement Agency may choose to delay court action until such time as a sufficiently large number of violations, or cumulative size of violations exist such that court action is a reasonable use of Enforcement Agency staff and resources.
- (b) Process for Enforcement
  - (1) The following provisions of this Ordinance may be enforced beginning on January 1, 2022: Section 5 concerning Requirements for Commercial Business Generators, Section 6 concerning Waivers for Commercial Business Generators, Section 9 concerning Requirements for Haulers and Facility Operators, Section 10 concerning Requirements for Self-Haulers, and Inspections related to compliance with those sections.
  - (2) The following provisions of this Ordinance may be enforced beginning on January 1, 2024: Section 4 concerning Requirements for Single Family Generators, Section 7 concerning Requirements for Commercial Edible Food Generators, and Section 8 concerning Requirements for Food Recovery Organizations and Services, and Inspections related to compliance with those sections.
  - (3) The Enforcement Agency will monitor compliance with this Ordinance through Compliance Reviews, Route Reviews, investigation of complaints, and an Inspection program.
  - (4) The Enforcement Agency may issue a Notice of Violation requiring compliance within 60 days of issuance of the notice.
  - (5) Absent compliance by the respondent within the deadline set forth in the Notice of Violation, the Enforcement Agency shall commence an action to impose penalties, via an administrative citation and fine, pursuant to the Enforcement Agency's standard procedures.

(c) Penalty Amounts for Violations

The penalty levels are as follows:

- (1) For a first violation, the amount of the penalty shall be \$50 to \$100 per violation, or such higher amount as may be established by the Enforcement Agency.
- (2) For a second violation, the amount of the penalty shall be \$100 to \$200 per violation, or such higher amount as may be established by the Enforcement Agency.
- (3) For a third or subsequent violation, the amount of the penalty shall be \$250 to \$500 per violation, or such higher amount as may be established by the Enforcement Agency.

(d) Compliance Deadline Extension Considerations

The Enforcement Agency may extend the compliance deadlines set forth in a Notice of Violation if it finds that there are extenuating circumstances beyond the control of the respondent that make compliance within the deadlines impracticable, including the following:

- (1) Acts of nature such as earthquakes, wildfires, flooding, and other emergencies or natural disasters.
- (2) Delays not within the control of respondent or their agents in obtaining discretionary permits or other government agency approvals; or,
- (3) Deficiencies in Organic Waste recycling infrastructure or Edible Food Recovery capacity and the jurisdiction is under a corrective action plan with CalRecycle pursuant to 14 CCR Section 18996.2 due to those deficiencies.

(e) Appeals Process

Persons receiving an administrative citation containing a penalty for an uncorrected violation may request a hearing to appeal the citation. A hearing will be held only if it is requested within the time prescribed in the administrative citation and consistent with the Enforcement Agency's appeal procedures.

(f) Education Period for Non-Compliance

With respect to provisions of this Ordinance subject to enforcement starting January 1, 2024, the Enforcement Agency will, prior to that date, conduct Inspections, Route Reviews or waste evaluations, and Compliance Reviews, depending upon the type of regulated entity, to determine compliance, and if the Enforcement Agency determines that Organic Waste Generator, Self-Hauler, Regulated Hauler, Tier One Commercial Edible Food Generator, Food Recovery Organization, Food Recovery Service, or other entity is not in compliance, it shall provide educational materials to the entity describing its obligations under this Ordinance and a notice

that compliance is required and that violations may be subject to administrative citations, penalties, or other remedies starting on January 1, 2024.

(g) Civil Penalties for Non-Compliance

If the Enforcement Agency determines that an Organic Waste Generator, Self-Hauler, Regulated Hauler, Tier One or Tier Two Commercial Edible Food Generator, Food Recovery Organization, Food Recovery Service, or other entity is not in compliance with this Ordinance, it may document the noncompliance or violation, issue a Notice of Violation, and/or take Enforcement Action pursuant to this Section 14, as needed and consistent with the enforcement commencement dates set forth in subsection (c)(1), above.

(h) The Enforcement Agency for the provisions of this Section 14 is the jurisdiction.

## **SECTION 15. SEVERABILITY**

If any provision of this Ordinance or the application thereof is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such invalidity shall not affect the remaining provisions or application of the remaining provisions of this Ordinance, which can be given effect without the invalid provisions or application.

**SECTION 16. EFFECTIVE DATE AND REPEAL OF ORDINANCE XXXX-XX**

a) This Ordinance shall be posted at City Office after its adoption and shall take effect commencing on **January 1, 2022**.

Following introduction on \_\_\_\_\_2022, passed and adopted \_\_\_\_\_2022, by the following vote:

## **ORDINANCE 2021-01: ORGANICS REDUCTION AND RECYCLING ORDINANCE**

The City hereby ordains as follows:

### **SECTION 1. PURPOSE AND FINDINGS**

- (a) The purpose of this Ordinance is to reduce the amount of organic and recyclable materials deposited in landfills from commercial and residential generators. This Ordinance repeals seeks to provide a single framework to achieve its purposes and comply with various state laws as set forth below.
- (b) State recycling law, Assembly Bill 939 of 1989, the California Integrated Waste Management Act of 1989 (approved by the Governor of the State of California on September 29, 1989, which among other things, added Division 30 (Section 40000, et seq.) to the Public Resources Code, as amended, supplemented, superseded, and replaced from time to time), requires cities and counties to reduce, reuse, and recycle (including composting) Solid Waste generated in their jurisdictions to the maximum extent feasible before any incineration or landfill disposal of waste, to conserve water, energy, and other natural resources, and to protect the environment.
- (c) State recycling law, Assembly Bill 341 of 2011 (approved by the Governor of the State of California on October 5, 2011, which amended Sections 41730, 41731, 41734, 41735, 41736, 41800, 42926, 44004, and 50001 of, and added Sections 40004, 41734.5, and 41780.01 and Chapter 12.8 (commencing with Section 42649) to Part 3 of Division 30 of, and added and repealed Section 41780.02 of, the Public Resources Code, as amended, supplemented, superseded and replaced from time to time), places requirements on businesses and multi-family property owners that generate a specified threshold amount of Solid Waste to arrange for recycling service and requires jurisdictions to implement a Mandatory Commercial Recycling program.
- (d) State organics recycling law, Assembly Bill 1826 of 2014 (approved by the Governor of the State of California on September 28, 2014, which added Chapter 12.9 (commencing with Section 42649.8) to Part 3 of Division 30 of the Public Resources Code, relating to Solid Waste, as amended, supplemented, superseded, and replaced from time to time), requires businesses and multi-family property owners that generate a specified threshold amount of Solid Waste, recycling, and Organic Waste per week to arrange for recycling service for those materials, requires counties and cities to implement a recycling program to divert Organic Waste from businesses subject to the law, and to implement a Mandatory Commercial Organics Recycling program.
- (e) State organics recycling law, Senate Bill 1383 of 2016, the Short-lived Climate Pollutant Reduction Act of 2016 (approved by the Governor of the State of

California on September 19, 2016, which added Sections 39730.5, 39730.6, and 39730.8 to the Health and Safety Code, and added Chapter 13.1 (commencing with Section 42652) to Part 3 of Division 30 of the Public Resources Code, as amended, supplemented, superseded, and replaced from time to time), took effect on January 1, 2017 and sets Statewide Organic Waste disposal reduction targets of 50 percent by 2020 and 75 percent by 2025, based on the 2014 organics waste disposal baseline, set forth in Section 39730.6 of the Health and Safety Code, and requires CalRecycle to develop regulations to reduce organics in landfills as a source of methane. The SB 1383 Regulations place requirements on multiple entities, including counties, cities, residential households, Commercial Businesses (including Multi-Family Residential Dwellings), Commercial Edible Food Generators, haulers, Self-Haulers, Food Recovery Organizations, and Food Recovery Services to support achievement of statewide Organic Waste disposal reduction targets with compliance required beginning January 1, 2022.

- (f) In furtherance of the food recovery objectives of the laws noted above and to reduce legal risks associated with food recovery, the State food donation law, Assembly Bill 1219 of 2017, the California Good Samaritan Food Donation Act of 2017 (approved by the Governor of the State of California on October 9, 2017, which amended Section 1714.25 of the Civil Code, amended Section 58502 of, and repealed Section 58506 of, the Food and Agricultural Code, and amended Sections 114432, 114433, and 114434 of, and added Section 114435 to, the Health and Safety Code, as amended, supplemented, superseded and replaced from time to time), provides additional protections for entities that donate and distribute food for human consumption.
- (g) By January 1, 2022, the SB 1383 Regulations require jurisdictions to adopt and enforce an ordinance or other enforceable mechanism to implement relevant provisions of the SB 1383 Regulations concerning regulation of organic waste collection services, generators of organic waste, waste haulers, and generators and processors of edible food, together with enforcement mechanisms and administrative civil penalties for violations of local regulations.
- (h) It is in the public interest for haulers, processors, facility operators, businesses, institutions, and the public to work together to advance the goals in the state legislation noted above.

## **SECTION 2. TITLE OF ORDINANCE**

This Ordinance is titled “Organics Reduction and Recycling Ordinance”.

## **SECTION 3. DEFINITIONS**

The following definitions govern the use of terms in this Ordinance:

- (a) “Back-Haul” means generating and transporting Organic Waste to a destination owned and operated by a generator using the generator’s own employees and equipment, or as otherwise defined in 14 CCR Section 18982(a)(66)(A).
- (b) “C&D” means construction and demolition debris.
- (c) “CalRecycle” means California's Department of Resources Recycling and Recovery, which is the state agency designated with responsibility for developing, implementing, and enforcing the SB 1383 Regulations.
- (d) “California Code of Regulations” or “CCR” means the State of California Code of Regulations. CCR references in this Ordinance are preceded with a number that refers to the relevant Title of the CCR (e.g., “14 CCR” refers to Title 14 of CCR).
- (e) “Certification of Recycling Service Form” means documentation certifying that a Commercial Business does not subscribe to collection services for Compost Containers and/or Recycling Containers because the Commercial Business has arranged for collection of its Source Separated Compost Container Organic Waste and/or Source Separated Recyclable Materials by self-hauling, Back-Haul,

contracting with a third-party hauler, or shares service with another Commercial Business.

- (f) “Commercial Business” or “Commercial” means a firm, partnership, proprietorship, joint-stock company, corporation, institution or association (whether incorporated or unincorporated or for-profit or nonprofit), strip mall, industrial facility, or a Multi-Family Residential Dwelling, or as otherwise defined in 14 CCR Section 18982(a)(6).
- (g) “Commercial Edible Food Generator” includes a Tier One, or a Tier Two Commercial Edible Food Generator as defined herein or as otherwise defined in 14 CCR Section 18982(a)(73) and (a)(74). For the purposes of this definition, Food Recovery Organizations and Food Recovery Services are not Commercial Edible Food Generators pursuant to 14 CCR Section 18982(a)(7).
- (h) “Community Composting” means any activity that composts green material, agricultural material, food material, and vegetative food material, alone or in combination, and the total amount of feedstock and Compost on-site at any one time does not exceed 100 cubic yards and 750 square feet, as specified in 14 CCR Section 17855(a)(4); or, as otherwise defined by 14 CCR Section 18982(a)(8).
- (i) “Compliance Review” means a review of records by the Enforcement Agency to evaluate compliance with this Ordinance.
- (j) “Compost” has the same meaning as in 14 CCR Section 17896.2(a)(4), which stated, as of the effective date of this Ordinance, that “Compost” means the product resulting from the controlled biological decomposition of organic Solid Waste that is Source Separated from the municipal Solid Waste stream, or which is separated at a centralized facility.
- (k) “Compost Container” has the same meaning as “Green Container” in 14 CCR Section 18982(a)(29) and shall be used for the purpose of storage and collection of Source Separated Compost Container Organic Waste.
- (l) “Compostable Plastics” or “Compostable Plastic” means plastic materials that meet the ASTM D6400 and D6868 standards for compostability and are certified by the Biodegradable Products Institute (BPI) or similar third-party approved by the WMA and are approved by the City of Trinidad for placement in the Compost Container.
- (m) “Container Contamination” or “Contaminated Container” means a container, regardless of type, which contains Prohibited Container Contaminants, or as otherwise defined in 14 CCR Section 18982(a)(55).
- (n) “Designee” means an entity that the City of Trinidad contracts with or otherwise arranges to carry out or assist with any of the City of Trinidad with the SB 1383 Regulations or administration or enforcement of this Ordinance. A Designee may be a government entity, a private entity, or a combination of those entities.

- (o) “Edible Food” means food intended for human consumption, or as otherwise defined in 14 CCR Section 18982(a)(18). For the purposes of this Ordinance or as otherwise defined in 14 CCR Section 18982(a)(18), “Edible Food” is not Solid Waste if it is recovered and not discarded. Nothing in this Ordinance or in 14 CCR, Division 7, Chapter 12 requires or authorizes the Recovery of Edible Food that does not meet the food safety requirements of the California Retail Food Code, as codified in the Health and Safety Code Section 113700, et seq.
- (p) “Enforcement Action” means an action of the relevant Enforcement Agency to address non-compliance with this Ordinance including, but not limited to, issuing administrative citations, fines, penalties, or using other remedies.
- (q) “Enforcement Agency” means an entity with the authority to enforce part, or all of this Ordinance as specified herein. Employees and agents of an Enforcement Agency may carry out inspections and enforcement activities pursuant to this Ordinance. Nothing in this Ordinance authorizing an entity to enforce its terms shall require that entity to undertake such enforcement except as agreed to by that entity.
- (r) “Excluded Waste” means hazardous substances, hazardous waste, infectious waste, designated waste, volatile, corrosive, medical waste, infectious, regulated radioactive waste, and toxic substances or material that facility operator(s), which receive materials from the City of Trinidad and its generators, reasonably believe(s) would, as a result of or upon acceptance, transfer, processing, or disposal, be a violation of local, State, or Federal law, regulation, or ordinance, including: land use restrictions or conditions, waste that cannot be disposed of in Class III landfills or accepted at the facility by permit conditions, waste that in the reasonable opinion of the City of Trinidad or a Regulated Hauler operating in Trinidad would present a significant risk to human health or the environment, cause a nuisance or otherwise create or expose Trinidad or a Regulated Hauler to potential liability; but not including de minimis volumes or concentrations of waste of a type and amount normally found in Single-Family or Multi-Family Solid Waste after implementation of programs for the safe collection, processing, recycling, treatment, and disposal of batteries and paint in compliance with Sections 41500 and 41802 of the Public Resources Code. Excluded Waste does not include used motor oil and filters, household batteries, universal wastes, and/or latex paint when such materials are defined as allowable materials for collection through the City of Trinidad’s collection programs and the generator or customer has properly placed the materials for collection pursuant to instructions provided by the City of Trinidad or the Regulated Hauler providing service to the generator.

- (s) “Food Distributor” means a company that distributes food to entities including, but not limited to, Supermarkets and Grocery Stores, or as otherwise defined in 14 CCR Section 18982(a)(22).
- (t) “Food Facility” has the same meaning as in Section 113789 of the Health and Safety Code.
- (u) “Food Recovery” means actions to collect and distribute food for human consumption that otherwise would be disposed, or as otherwise defined in 14 CCR Section 18982(a)(24).
- (v) “Food Recovery Organization” means an entity that engages in the collection or receipt of Edible Food from Commercial Edible Food Generators and distributes that Edible Food to the public for Food Recovery either directly or through other entities or as otherwise defined in 14 CCR Section 18982(a)(25), including, but not limited to:
  - (1) A food bank as defined in Section 113783 of the Health and Safety Code;
  - (2) A nonprofit charitable organization as defined in Section 113841 of the Health and Safety code; and,
  - (3) A nonprofit charitable temporary food facility as defined in Section 113842 of the Health and Safety Code.

A Food Recovery Organization is not a Commercial Edible Food Generator for the purposes of this Ordinance and implementation of 14 CCR, Division 7, Chapter 12 pursuant to 14 CCR Section 18982(a)(7). If the definition in 14 CCR Section 18982(a)(25) for Food Recovery Organization differs from this definition, the definition in 14 CCR Section 18982(a)(25) shall apply to this Ordinance.

- (w) “Food Recovery Service” means a person or entity that collects and transports Edible Food from a Commercial Edible Food Generator to a Food Recovery Organization or other entities for Food Recovery, or as otherwise defined in 14 CCR Section 18982(a)(26). A Food Recovery Service is not a Commercial Edible Food Generator for the purposes of this Ordinance and implementation of 14 CCR, Division 7, Chapter 12 pursuant to 14 CCR Section 18982(a)(7).
- (x) “Food Scraps” means all edible or inedible food such as, but not limited to, fruits, vegetables, meat, poultry, seafood, shellfish, bones, rice, beans, pasta, bread, cheese, coffee grounds, and eggshells. Food Scraps excludes fats, oils, and grease when such materials are Source Separated from other Food Scraps.
- (y) “Food Service Provider” means an entity primarily engaged in providing food services to institutional, governmental, Commercial, or industrial locations of others based on contractual arrangements with these types of organizations, or as otherwise defined in 14 CCR Section 18982(a)(27).
- (z) “Food-Soiled Paper” is compostable paper material that has come in contact with

food or liquid, such as, but not limited to, compostable paper plates, napkins, and pizza boxes, and is approved by the applicable the City of Trinidad for placement in the Compost Container.

- (aa) “Food Waste” means Food Scraps, Food-Soiled Paper, and Compostable Plastics in combination or separately.
- (bb) “Grocery Store” means a store primarily engaged in the retail sale of canned food; dry goods; fresh fruits and vegetables; fresh meats, fish, and poultry; and any area that is not separately owned within the store where the food is prepared and served, including a bakery, deli, and meat and seafood departments, or as otherwise defined in 14 CCR Section 18982(a)(30).
- (cc) “Hauler Route” means the designated itinerary or sequence of stops for each segment of a Trinidad’s collection service area, or as otherwise defined in 14 CCR Section 18982(a) (31.5).
- (dd) “Health Facility” has the same meaning as in Section 1250 of the Health and Safety Code.
- (ee) “High Diversion Organic Waste Processing Facility” means a facility that is in compliance with the reporting requirements of 14 CCR Section 18815.5(d) and meets or exceeds an annual average mixed waste organic content Recovery rate of 50 percent between January 1, 2022 and December 31, 2024, and 75 percent after January 1, 2025, as calculated pursuant to 14 CCR Section 18815.5(e) for Organic Waste received from the “Mixed waste organic collection stream” as defined in 14 CCR Section 17402(a)(11.5); or, as otherwise defined in 14 CCR Section 18982(a)(33).
- (ff) “Hotel” has the same meaning as in Section 17210 of the Business and Professions Code.
- (gg) “Inspection” means an Enforcement Agency’s electronic or on-site review of records, containers, and an entity’s collection, handling, recycling, or landfill disposal of Organic Waste or Edible Food handling to determine if the entity is complying with requirements set forth in this Ordinance, or as otherwise defined in 14 CCR Section 18982(a)(35).
- (hh) “Landfill Container” has the same meaning as “Gray Container” in 14 CCR Section 18982(a)(28) and shall be used for the purpose of storage and collection of Landfill Container Waste.
- (ii) “Landfill Container Waste” means Solid Waste that is collected in a Landfill Container that is part of a three-container or three-plus container collection service that prohibits the placement of Organic Waste in the Landfill Container as specified in 14 CCR Sections 18984.1(a) and (b), or as otherwise defined in 14 CCR Section

17402(a) (6.5). (Three container collection service refers to service collecting materials in Landfill Containers, Organics Containers, and Recycling Containers.)

(jj) "Large Event" means an event, including, but not limited to, a sporting event or a flea market, that charges an admission price, or is operated by a local agency, and serves an average of more than 2,000 individuals per day of operation of the event, at a location that includes, but is not limited to, a public, nonprofit, or privately owned park, parking lot, golf course, street system, or other open space when being used for an event. If the definition in 14 CCR Section 18982(a)(38) differs from this definition, the definition in 14 CCR Section 18982(a)(38) shall apply to this Ordinance. For the purposes of this definition of Large Event, "local agency" means all public agencies except those that are not subject to the regulatory authority of the City of Trinidad.

(kk) "Large Venue" means a permanent venue facility that annually seats or serves an average of more than 2,000 individuals within the grounds of the facility per day of operation. For purposes of this Ordinance and implementation of 14 CCR, Division 7, Chapter 12, a venue facility includes, but is not limited to, a public, nonprofit, or privately owned or operated stadium, amphitheater, arena, hall, amusement park, conference or civic center, zoo, aquarium, airport, racetrack, horse track, performing arts center, fairground, museum, theater, or other public attraction facility. For purposes of this Ordinance and implementation of 14 CCR, Division 7, Chapter 12, a site under common ownership or control that includes more than one Large Venue that is contiguous with other Large Venues in the site, is a single Large Venue. If the definition in 14 CCR Section 18982(a)(39) differs from this definition, the definition in 14 CCR Section 18982(a)(39) shall apply to this Ordinance.

Trinidad(II) "Mixed Waste Organic Collection Stream" or "Mixed Waste" means Organic Waste collected in a container that is required by 14 CCR Sections 18984.1, 18984.2 or 18984.3 to be taken to a High Diversion Organic Waste Processing Facility or as otherwise defined in 14 CCR Section 17402(a) (11.5).

(mm) "Multi-Family Residential Dwelling" or "Multi-Family" means of, from, or pertaining to residential premises with five or more dwelling units. Multi-Family premises are considered a distinct type of Commercial Business for the purposes of implementing this Ordinance. Consistent with the SB 1383 Regulations, residential premises that consist of fewer than five units are not "Multi-Family" and instead are "Single-Family" for the purposes of implementing this Ordinance. Multi-Family premises do not include hotels, motels, or other transient occupancy facilities, which are considered other types of Commercial Businesses.

(nn) "MWELO" is the Model Water Efficient Landscape Ordinance.

(oo) "Non-Compostable Paper" includes, but is not limited to, paper that is coated, lined or treated with a non-compostable material, or otherwise unacceptable to the compostable materials handling facility processing the material.

(pp) "Non-Organic Recyclables" means non-putrescible and non-hazardous recyclable

materials including but not limited to recyclable food and beverage glass containers, metal (aluminum and steel) food and beverage cans, HDPE (high density polyethylene) bottles and PET (polyethylene terephthalate) bottles, and other materials specified in 14 CCR Section 18982(a)(43).

- (qq) "Notice of Violation" means a notice that a violation has occurred that includes a compliance date to avoid an action to seek penalties, or as otherwise defined in 14 CCR Section 18982(a)(45) or further explained in 14 CCR Section 18995.4.
- (rr) "Organic Waste" means Solid Waste containing material originated from living organisms and their metabolic waste products, including but not limited to food, green material, landscape and pruning waste, organic textiles and carpets, lumber, wood, Paper Products, Printing and Writing Paper, manure, biosolids, digestate, and sludges or as otherwise defined in 14 CCR Section 18982(a)(46). Biosolids and digestate are as defined by 14 CCR Section 18982(a).
- (ss) "Organic Waste Generator" means a Person or entity that is responsible for the initial creation of Organic Waste, or as otherwise defined in 14 CCR Section 18982(a)(48).
- (tt) "Paper Products" include, but are not limited to, paper janitorial supplies, cartons, wrapping, packaging, file folders, hanging files, corrugated boxes, tissue, and toweling, or as otherwise defined in 14 CCR Section 18982(a)(51).
- (uu) "Person" includes an individual, firm, limited liability company, association, partnership, political subdivision, government agency, municipality, industry, public or private corporation, or any other entity whatsoever, or as otherwise defined in Public Resources Code Section 40170.

- (vv) "Printing and Writing Paper" include, but are not limited to, copy, xerographic, watermark, cotton fiber, offset, forms, computer printout paper, white wove envelopes, manila envelopes, book paper, note pads, writing tablets, newsprint, and other writing papers, posters, index cards, calendars, brochures, reports, magazines, and publications, or as otherwise defined in 14 CCR Section 18982(a)(54).
- (ww) "Prohibited Container Contaminants" includes all of the following: (i) materials placed in the Recycling Container that are not identified as acceptable Source Separated Recyclable Materials for the Recycling Container; (ii) materials placed in the Compost Container that are not identified as acceptable Source Separated Compost Container Organic Waste for the Compost Container; (iii) materials placed in the Landfill Container that are acceptable Source Separated Recyclable Materials and/or acceptable Source Separated Compost Container Organic Waste that can be placed in the Compost Container and/or Recycling Container; and, (iv) Excluded Waste placed in any container.
- (xx) "Recovery" means any activity or process described in 14 CCR Section 18983.1(b), or as otherwise defined in 14 CCR Section 18982(a)(49).
- (yy) "Recycling Container" has the same meaning as "Blue Container" in 14 CCR Section 18982(a)(5) and shall be used for the purpose of storage and collection of Source Separated Recyclable Materials and Source Separated Recycling Container Organic Waste.
- (zz) "Regulated Hauler" means a Person that collects Solid Waste (other than Solid Waste generated by a permitted building project) originating in Trinidad from Compost Containers, Recycling Containers, and/or Landfill Containers, and does so under a contract, franchise agreement, or permit with the City of Trinidad.
- (aaa) "Remote Monitoring" means the use of mechanical or electronic devices to identify the types of materials in Recycling Containers, Compost Containers, and/or Landfill Containers for purposes of identifying the quantity of materials in containers (level of fill) and/or presence of Prohibited Container Contaminants.
- (bbb) "Restaurant" means an establishment primarily engaged in the retail sale of food and drinks for on-premises or immediate consumption, or as otherwise defined in 14 CCR Section 18982(a)(64).
- (ccc) "Route Review" means a visual Inspection of containers along a Hauler Route for the purpose of determining Container Contamination, and may include mechanical or electronic Inspection methods such as the use of cameras, or as otherwise defined in 14 CCR Section 18982(a)(65).

- (ddd) "SB 1383" means Senate Bill 1383 of 2016, the Short-lived Climate Pollutant Reduction Act of 2016.
- (eee) "SB 1383 Regulations" means or refers to, for the purposes of this Ordinance, the Short-Lived Climate Pollutants: Organic Waste Reduction regulations developed by CalRecycle and adopted in 2020 that created 14 CCR, Division 7, Chapter 12 and amended portions of regulations of 14 CCR and 27 CCR.
- (fff) "Self-Hauler" means a Person, who hauls Solid Waste, Organic Waste or recyclable material they have generated to another Person for disposition as allowed by the City of Trinidad and otherwise in accordance with all applicable laws. Self-Hauler also includes a Person who Back-Hauls such materials, and as otherwise defined in 14 CCR Section 18982(a)(66).
- (ggg) "Single-Family" means, for purposes of this Ordinance, of, from, or pertaining to any residential premises with fewer than five units.
- (hhh) "Solid Waste" has the same meaning as defined in Public Resources Code Section 40191, which defines Solid Waste as all putrescible and non-putrescible solid, semisolid, and liquid wastes, including garbage, trash, refuse, paper, rubbish, ashes, industrial wastes, demolition and construction wastes, abandoned vehicles and parts thereof, discarded home and industrial appliances, dewatered, treated, or chemically fixed sewage sludge which is not hazardous waste, manure, vegetable or animal solid and semi-solid wastes, and other discarded solid and semisolid wastes, with the exception that Solid Waste does not include any of the following wastes:
- (1) Hazardous waste, as defined in the Public Resources Code Section 40141.
  - (2) Radioactive waste regulated pursuant to the State Radiation Control Law (Chapter 8 (commencing with Section 114960) of Part 9 of Division 104 of the Health and Safety Code).
  - (3) Medical waste regulated pursuant to the State Medical Waste Management Act (Part 14 (commencing with Section 117600) of Division 104 of the Health and Safety Code). Untreated medical waste shall not be disposed of in a Solid Waste landfill, as defined in Public Resources Code Section 40195.1. Medical waste that has been treated and deemed to be Solid Waste shall be regulated pursuant to Division 30 of the Public Resources Code.
- (iii) "Source Separated" means materials, including commingled recyclable materials, that have been separated or kept separate from the Solid Waste stream, at the point of generation, for the purpose of additional sorting or processing those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products, which meet the quality standards necessary to be used in the marketplace, or as otherwise defined in 14 CCR Section 17402.5(b)(4). For the purposes of this Ordinance,

Source Separated shall include separation of materials by the generator, property owner, property owner's employee, property manager, or property manager's employee into different containers for the purpose of collection such that Source Separated materials are separated from Landfill Container Waste or other Solid Waste for the purposes of collection and processing.

(jjj) "Source Separated Compost Container Organic Waste" means Source Separated Organic Waste that can be placed in a Compost Container that is specifically intended for the separate collection of Organic Waste by the generator, excluding Source Separated Recycling Container Organic Waste, carpets, Non-Compostable Paper, and textiles.

(kkk) "Source Separated Recyclable Materials" means Source Separated Non-Organic Recyclables and Source Separated Recycling Container Organic Waste.

(lll) "Source Separated Recycling Container Organic Waste" means Source Separated Organic Wastes that can be placed in a Recycling Container that is limited to the collection of those Organic Wastes and Non-Organic Recyclables, as defined herein or as otherwise defined in Sections 18982(a)(43) and 18982(a)(46). Source Separated Recycling Container Organic Waste shall include materials as determined by the City of Trinidad and includes unsoiled Paper Products and Printing and Writing Paper.

(mmm) "Supermarket" means a full-line, self-service retail store with gross annual sales of two million dollars (\$2,000,000), or more, and which sells a line of dry grocery, canned goods, or nonfood items and some perishable items, or as otherwise defined in 14 CCR Section 18982(a)(71).

(nnn) "Tier One Commercial Edible Food Generator" means a Commercial Edible Food Generator that is one of the following:

- (1) Supermarket.
- (2) Grocery Store with a total facility size equal to or greater than 10,000 square feet.
- (3) Food Service Provider.
- (4) Food Distributor.
- (5) Wholesale Food Vendor.

If the definition in 14 CCR Section 18982(a)(73) of Tier One Commercial Edible Food Generator differs from this definition, the definition in 14 CCR Section 18982(a)(73) shall apply to this Ordinance.

(ooo) "Tier Two Commercial Edible Food Generator" means a Commercial Edible Food Generator that is one of the following:

- (1) Restaurant with 250 or more seats, or a total facility size equal to or greater than 5,000 square feet.
  - (2) Hotel with an on-site Food Facility and 200 or more rooms.
  - (3) Health facility with an on-site Food Facility and 100 or more beds.
  - (4) Large Venue.
  - (5) Large Event.
- (ppp) “Wholesale Food Vendor” means a business or establishment engaged in the merchant wholesale distribution of food, where food (including fruits and vegetables) is received, shipped, stored, prepared for distribution to a retailer, warehouse, distributor, or other destination, or as otherwise defined in 14 CCR Section 189852(a)(76).

## **SECTION 4. REQUIREMENTS FOR COMMERCIAL EDIBLE FOOD GENERATORS**

- (a) Tier One Commercial Edible Food Generators must comply with the requirements of this Section 7 commencing January 1, 2022, and Tier Two Commercial Edible Food Generators must comply commencing January 1, 2024, pursuant to 14 CCR Section 18991.3 or such later deadline established by State law or regulations.
- (b) Large Venue or Large Event operators not providing food services, but allowing for food to be provided by others, shall require Food Facilities operating at the Large Venue or Large Event to comply with the requirements of this Section, commencing January 1, 2024, or such later deadline established by State law or regulations.
- (c) Commercial Edible Food Generators shall comply with the following requirements:
  - (1) Arrange to safely recover for human consumption the maximum amount of Edible Food that would otherwise be disposed.
  - (2) Enter into a contract or other written agreement with Food Recovery Organizations or Food Recovery Services for: (i) the collection for Food Recovery of Edible Food that would otherwise be disposed; or (ii) acceptance of Edible Food that would otherwise be disposed that the Commercial Edible Food Generator self-hauls to the Food Recovery Organization for Food Recovery.
  - (3) Use best efforts to abide by all contractual or written agreement requirements specified by the Food Recovery Organization or Food Recovery Service on how Edible Food should be prepared, packaged, labeled, handled, stored, distributed or transported to the Food Recovery Organization or Service.
  - (4) Not intentionally donate food that has not been prepared, packaged, handled, stored and/or transported in accordance with the safety requirements of the California Retail Food Code.
  - (5) Not intentionally spoil Edible Food that is capable of being recovered by a Food Recovery Organization or a Food Recovery Service.
  - (6) Allow the Enforcement Agency to review records upon request, including by providing electronic copies or allowing access to the premises, pursuant to 14 CCR Section 18991.4.
  - (7) Keep records that include the following information, or as otherwise specified in 14 CCR Section 18991.4:
    - (A) A list of each Food Recovery Service or Food Recovery Organization

that collects or receives its Edible Food pursuant to a contract or written agreement established under 14 CCR Section 18991.3(b).

- (B) A copy of all contracts and written agreements established under 14 CCR Section 18991.3(b) and/or this Ordinance.
  - (C) A record of the following information for each of those Food Recovery Services or Food Recovery Organizations:
    - (i) The name, address and contact information of the Food Recovery Service or Food Recovery Organization.
    - (ii) The types of food that will be collected by or self-hauled to the Food Recovery Service or Food Recovery Organization.
    - (iii) The established frequency that food will be collected or self-hauled.
    - (iv) The quantity of food, measured in pounds recovered per month, collected or self-hauled to a Food Recovery Service or Food Recovery Organization for Food Recovery.
  - (D) If it has not entered into a contract or written agreement with Food Recovery Organizations or Food Recovery Services pursuant to Section 7(c)(2), a record that describes (i) its direct donation of Edible Food to end recipients (including employees) and/or (ii) its food waste prevention practices that result in it generating no surplus Edible Food that it can donate.
- (8) Tier One Commercial Edible Food Generators and Tier Two Commercial Edible Food Generators shall provide, upon request, a Food Recovery report to the Enforcement Agency that includes the information in Section 7(c)(7). Entities shall provide the requested information within 60 days of the request.
- (d) Nothing in this Ordinance shall be construed to limit or conflict with (1) the protections provided by the California Good Samaritan Food Donation Act of 2017, the Federal Good Samaritan Act, or share table and school food donation guidance pursuant to Senate Bill 557 of 2017 (approved by the Governor of the State of California on September 25, 2017, which added Article 13 commencing with Section 49580 to Chapter 9 of Part 27 of Division 4 of Title 2 of the Education Code, and to amend Section 114079 of the Health and Safety Code, relating to food safety, as amended, supplemented, superseded and replaced from time to time); or (2) otherwise applicable food safety and handling laws and regulations.
  - (e) Nothing in this Ordinance prohibits a Commercial Edible Food Generator from donating Edible Food directly to end recipients for consumption, pursuant to Health and Safety Code Section 114432(a).
  - (f) The Enforcement Agency for the provisions of this section is the City of Trinidad.

## **SECTION 5. REQUIREMENTS FOR FOOD RECOVERY ORGANIZATIONS AND SERVICES**

- (a) Nothing in this Ordinance prohibits a Food Recovery Service or Food Recovery Organization from refusing to accept edible food from a Commercial Edible Food Generator, in accordance with 14 CCR Section 18990.2(d).
- (b) Food Recovery Services collecting or receiving Edible Food directly from Commercial Edible Food Generators, via a contract or written agreement established under 14 CCR Section 18991.3(b), shall maintain the following records, or as otherwise specified by 14 CCR Section 18991.5(a)(1):
  - (1) The name, address, and contact information for each Commercial Edible Food Generator from which the service collects Edible Food.
  - (2) The quantity in pounds of Edible Food collected from each Commercial Edible Food Generator per month. This may also include the total quantity in pounds of food collected that was spoiled when received from a Commercial Edible Food Generator or otherwise not able to be used to feed people.
  - (3) The quantity in pounds of Edible Food transported to each Food Recovery Organization per month.
  - (4) The name, address, and contact information for each Food Recovery Organization that the Food Recovery Service transports Edible Food to for Food Recovery.
- (c) Food Recovery Organizations collecting or receiving Edible Food directly from Commercial Edible Food Generators, via a contract or written agreement established under 14 CCR Section 18991.3(b), shall maintain the following records, or as otherwise specified by 14 CCR Section 18991.5(a)(2):
  - (1) The name, address, and contact information for each Commercial Edible Food Generator from which the organization receives Edible Food.
  - (2) The quantity in pounds of Edible Food received from each Commercial Edible Food Generator per month. This may also include the total quantity in pounds of food collected that was spoiled when received from a Commercial Edible Food Generator or otherwise not able to be used to feed people.
  - (3) The name, address, and contact information for each Food Recovery Service that the organization receives Edible Food from for Food Recovery.
- (d) Food Recovery Organizations and Food Recovery Services that have their primary address physically located in Trinidad and contract with or have written

agreements with one or more Commercial Edible Food Generators pursuant to 14 CCR Section 18991.3(b) shall report to the City of Trinidad the total pounds of Edible Food recovered from the Tier One and Tier Two Commercial Edible Food Generators they have established a contract or written agreement with pursuant to 14 CCR Section 18991.3(b) according to the following schedule: (i) no later than August 15, 2022, submit an initial report covering the period of January 1, 2022 to June 30, 2022; and (ii) no later than March 31, 2023, and no later than every March 31 thereafter, submit a report covering the period of January 1 to December 31 of the previous calendar year.

- (e) In order to support Edible Food Recovery capacity planning assessments and similar studies, Food Recovery Services and Food Recovery Organizations operating in Trinidad shall provide, upon request, information and consultation to the City of Trinidad regarding existing, or proposed new or expanded, Food Recovery capacity in a form that can be provided to or that can be accessed by the City of Trinidad. A Food Recovery Service or Food Recovery Organization contacted by the Enforcement Agency shall respond to such request for information within 60 days, unless a shorter timeframe is otherwise specified by the Enforcement Agency.
- (f) The Enforcement Agency for the provisions of this section is Trinidad City of Trinidad.

## **SECTION 6. REQUIREMENTS FOR REGULATED HAULERS AND FACILITY OPERATORS**

- (a) Requirements for Regulated Haulers.
  - (1) A Regulated Hauler providing Single-Family, Commercial, or industrial Organic Waste collection service to generators within Trinidad shall meet the following requirements and standards in connection with collection of Organic Waste:
    - (A) Through written notice to the City of Trinidad annually on or before March 31, identify the facilities to which they will transport Organic Waste including facilities for Source Separated Recyclable Materials and Source Separated Compost Container Organic Waste if applicable.
    - (B) Transport Source Separated Recyclable Materials to a facility that recycles those materials and transport Source Separated Compost Container Organic Waste to a facility, operation, activity, or property that recovers Organic Waste as defined in 14 CCR, Division 7, Chapter 12, Article 2.
    - (C) Obtain approval from the City of Trinidad to haul Organic Waste, unless it is transporting Source Separated Organic Waste to a Community Composting site or lawfully transporting C&D in a

manner that complies with 14 CCR Section 18989.1 and any City of Trinidad rules.

- (2) Within the boundaries of Trinidad in which it has customers, a Regulated Hauler collecting Organic Waste shall:
- (A) Up to four times per year, provide reports to the City of Trinidad on Commercial Business account information and service levels in a form to be specified by the Trinidad.
  - (B) Assist in the dissemination of SB 1383 educational materials to Single-Family and Commercial Business accounts.
  - (C) At least annually and during new staff on-boarding, train Regulated Hauler's customer service representatives and account managers/recycling coordinators serving Organic Waste Generators in Trinidad on any generator requirements.
  - (D) Provide quarterly reports to the Trinidad identifying Single-Family and Commercial accounts that are subscribed to Landfill Container collection service, Recycling Container service, and/or Compost Container collection service. If a Regulated Hauler providing Landfill Container collection service does not offer Recycling Container Collection Service and/or Compost Container collection service to its Landfill Container collection service customers, the requirements of subsection (D) and (E) shall not apply with respect to those customers and the type(s) of service that is not offered.
  - (E) Inform generators when Container Contamination is observed by the Regulated Hauler.
  - (F) If requested by the Enforcement Agency, assist generators with verification of physical space constraints when generator submits an application for a physical space waiver.
  - (G) Provide Commercial Business accounts with interactive assistance such as employee trainings, in a virtual or in-person format, when Recycling Container collection service or Composting Container collection service is added, or upon request.

- (3) The Enforcement Agency for this section is the City of Trinidad.
- (b) Requirements for Facility Operators and Community Composting Operations
  - (1) Owners of facilities, operations, and activities that recover Organic Waste, including, but not limited to, compost facilities, in-vessel digestion facilities, and publicly owned treatment works shall, upon request from the City of Trinidad, provide within 60 days information regarding available and potential new or expanded capacity at their facilities, operations, and activities, including information about throughput and permitted capacity necessary for planning purposes.
  - (2) Community Composting operators shall, upon request from the City of Trinidad, provide within 60 days information to support Organic Waste capacity planning, including, but not limited to, an estimate of the amount of OrganicWaste anticipated to be handled at the Community Composting operation.
  - (3) The Enforcement Agency for the provisions of this section is the City of Trinidad.

## **SECTION 7. COMPLIANCE WITH CALGREEN RECYCLING REQUIREMENTS**

- (a) Persons applying for a permit from the Jurisdiction for new construction and building additions and alternations shall comply with the requirements of this section and all required components of the California Green Building Standards Code, 24 CCR, Part 11, known as CALGreen, as amended, if its project is covered by the scope of CALGreen. If the requirements of CALGreen are more stringent then the requirements of this section, the CALGreen requirements shall apply.

Project applicants shall refer to Jurisdiction’s building and/or planning code for complete CALGreen requirements.

- (b) For projects covered by CALGreen, the applicants must, as a condition of the Jurisdiction’s permit approval, comply with the following:
  - (1) Where five (5) or more Multi-Family dwelling units are constructed on a building site, provide readily accessible areas that serve occupants of all buildings on the site and are identified for the storage and collection of Blue Container and Green Container materials, consistent with the three container collection program offered by the Jurisdiction, or comply with provision of adequate space for recycling for Multi-Family and Commercial premises pursuant to Sections 4.408.1, 4.410.2, 5.408.1, and 5.410.1 of the California Green Building Standards Code, 24 CCR, Part 11 as amended provided amended requirements are more stringent than the CALGreen requirements for adequate recycling space effective January 1, 2020.

- (2) New Commercial construction or additions resulting in more than 30% of the floor area shall provide readily accessible areas identified for the storage and collection of Blue Container and Green Container materials, consistent with the three container program offered by the Jurisdiction, or shall comply with provision of adequate space for recycling for Multi-Family and Commercial premises pursuant to Sections 4.408.1, 4.410.2, 5.408.1, and 5.410.1 of the California Green Building Standards Code, 24 CCR, Part 11 as amended provided amended requirements are more stringent than the CALGreen requirements for adequate recycling space effective January 1, 2020.
- (3) Comply with CALGreen requirements and applicable law related to management of C&D, including diversion of Organic Waste in C&D from disposal. Comply with Jurisdiction's C&D ordinance, and all written and published Jurisdiction policies and/or administrative guidelines regarding the collection, recycling, diversion, tracking, and/or reporting of C&D.

## **SECTION 8. MODEL WATER EFFICIENT LANDSCAPING ORDINANCE REQUIREMENTS**

- (a) Property owners or their building or landscape designers, including anyone requiring a building or planning permit, plan check, or landscape design review from the Jurisdiction, who are constructing a new (Single-Family, Multi-Family, public, institutional, or Commercial) project with a landscape area greater than 500 square feet, or rehabilitating an existing landscape with a total landscape area greater than 2,500 square feet, shall comply with Sections 492.6(a)(3)(B) (C), (D), and (G) of the MWELO, including sections related to use of Compost and mulch.
- (b) The following Compost and mulch use requirements that are part of the MWELO are now also included as requirements of this ordinance. Other requirements of the MWELO are in effect and can be found in 23 CCR, Division 2, Chapter 2.7
- (c) Property owners or their building or landscape designers that meet the threshold for MWELO compliance outlined in Section 8(a) above shall:
  - (1) Comply with Sections 492.6 (a)(3)(B)(C), (D) and (G) of the MWELO, which requires the submittal of a landscape design plan with a soil preparation, mulch, and amendments section to include the following:
    - (A) For landscape installations, Compost at a rate of a minimum of four cubic yards per 1,000 square feet of permeable area shall be incorporated to a depth of six (6) inches into the soil. Soils with greater than six percent (6%) organic matter in the top six (6) inches of soil are exempt from adding Compost and tilling.
    - (B) For landscape installations, a minimum three- (3-) inch layer of mulch shall be applied on all exposed soil surfaces of planting areas except in turf areas, creeping or rooting groundcovers, or direct seeding applications where mulch is contraindicated. To provide habitat for

beneficial insects and other wildlife up to five percent (5%) of the landscape area may be left without mulch. Designated insect habitat must be included in the landscape design plan as such.

- (C) Organic mulch materials made from recycled or post-consumer materials shall take precedence over inorganic materials or virgin forest products unless the recycled post-consumer organic products are not locally available. Organic mulches are not required where prohibited by local fuel modification plan guidelines or other applicable local ordinances.
- (2) The MWELo compliance items listed in this Section are not an inclusive list of MWELo requirements; therefore, property owners or their building or landscape designers that meet the threshold for MWELo compliance outlined in Section 14(a) shall consult the full MWELo for all requirements.
- (d) If, after the adoption of this ordinance, the California Department of Water Resources, or its successor agency, amends 23 CCR, Division 2, Chapter 2.7, Sections 492.6(a)(3)(B) (C), (D), and (G) of the MWELo September 15, 2015 requirements in a manner that requires Jurisdictions to incorporate the requirements of an updated MWELo in a local ordinance, and the amended requirements include provisions more stringent than those required in this Section, the revised requirements of 23 CCR, Division 2, Chapter 2.7 shall be enforced.

## **SECTION 9. INSPECTIONS AND INVESTIGATIONS**

The Enforcement Agency is authorized to conduct Inspections and investigations, at random or otherwise, of any collection container, collection vehicle loads, or transfer, processing, or disposal facility for materials collected from generators, or Source Separated materials to confirm compliance with the provisions of this Ordinance for which it has enforcement authority by Organic Waste Generators, Commercial Businesses (including Multi-Family Residential Dwellings), Commercial Edible Food Generators, Regulated Haulers, Self-Haulers, Food Recovery Services, and Food Recovery Organizations, subject to applicable laws. This section does not allow entry in a private residential dwelling unit for Inspection.

- (a) A Person subject to the requirements of this Ordinance shall provide or arrange for access during all Inspections (with the exception of a private residential dwelling unit) and shall cooperate with the Enforcement Agency during such Inspections and investigations. Such Inspections and investigations may include confirmation of proper placement of materials in containers, inspection of Edible Food Recovery activities, review of required records, or other verification or Inspection to confirm compliance with any other requirement of this Ordinance. Failure to provide or arrange for: (i) access to the premises; or (ii) access to records for any Inspection or investigation is a violation of this Ordinance and may result in penalties .
- (b) Any records obtained by the Enforcement Agency during Inspections and other

reviews shall be subject to the requirements and applicable disclosure exemptions of the California Public Records Act as set forth in Government Code Section 6250 et seq.

- (c) The Enforcement Agency is authorized to conduct any Inspections or other investigations as reasonably necessary to further the goals of this Ordinance, subject to applicable laws.
- (d) The Enforcement Agency shall accept written complaints from persons regarding an entity that may be potentially non-compliant with this Ordinance.
- (e) The Enforcement Agency is the City of Trinidad and any Designee authorized by Trinidad to enforce one or more sections of this Ordinance.

## **SECTION 10. ENFORCEMENT**

Violation of any provision of this Ordinance shall constitute grounds for issuance of a Notice of Violation and assessment of a fine by the Enforcement Agency. Enforcement Actions under this Ordinance are issuance of an administrative citation and assessment of a fine. The Enforcement Agency's procedures on imposition of administrative citations and fines as contained shall govern the imposition, enforcement, collection, and review of administrative citations and fines issued to enforce this Ordinance and any rule or regulation adopted pursuant to this Ordinance, except as otherwise indicated in this Ordinance.

- (a) Other remedies allowed by law may be used, including civil action or prosecution as a misdemeanor or infraction. The Enforcement Agency may pursue civil actions in the California courts to seek recovery of unpaid administrative citations, and fines. The Enforcement Agency may choose to delay court action until such time as a sufficiently large number of violations, or cumulative size of violations exist such that court action is a reasonable use of Enforcement Agency staff and resources.
- (b) Process for Enforcement
  - (1) All provisions of this Ordinance may be enforced beginning on January 1, 2024:
  - (2) The Enforcement Agency will monitor compliance with this Ordinance through Compliance Reviews, investigation of complaints, and an inspection program.
  - (3) The Enforcement Agency may issue a Notice of Violation requiring compliance within 60 days of issuance of the notice.
  - (4) Absent compliance by the respondent within the deadline set forth in the Notice of Violation, the Enforcement Agency shall commence an action to impose penalties, via an administrative citation and fine, pursuant to the Enforcement Agency's standard procedures.

(c) Penalty Amounts for Violations

The penalty levels are as follows:

- (1) For a first violation, the amount of the penalty shall be \$50 to \$100 per violation, or such higher amount as may be established by the Enforcement Agency.
- (2) For a second violation, the amount of the penalty shall be \$100 to \$200 per violation, or such higher amount as may be established by the Enforcement Agency.
- (3) For a third or subsequent violation, the amount of the penalty shall be \$250 to \$500 per violation, or such higher amount as may be established by the Enforcement Agency.

(d) Compliance Deadline Extension Considerations

The Enforcement Agency may extend the compliance deadlines set forth in a Notice of Violation if it finds that there are extenuating circumstances beyond the control of the respondent that make compliance within the deadlines impracticable, including the following:

- (1) Acts of nature such as earthquakes, wildfires, flooding, and other emergencies or natural disasters.
- (2) Delays not within the control of respondent or their agents in obtaining discretionary permits or other government agency approvals; or,

(e) Appeals Process

Persons receiving an administrative citation containing a penalty for an uncorrected violation may request a hearing to appeal the citation. A hearing will be held only if it is requested within the time prescribed in the administrative citation and consistent with the Enforcement Agency's appeal procedures.

(f) Education Period for Non-Compliance

With respect to provisions of this Ordinance subject to enforcement starting January 1, 2024, the Enforcement Agency will, prior to that date, conduct Inspections, Compliance Reviews, and other enforcement investigative actions depending upon the type of regulated entity, to determine compliance, and if the Enforcement Agency determines that Organic Waste Generator, Self-Hauler, Regulated Hauler, Tier One Commercial Edible Food Generator, Food Recovery Organization, Food Recovery Service, or other entity is not in compliance, it shall provide educational materials to the entity describing its obligations under this Ordinance and a notice that compliance is required and that violations may be subject to administrative citations, penalties, or other remedies starting on January 1, 2024.

(g) Civil Penalties for Non-Compliance

If the Enforcement Agency determines that an Organic Waste Generator, Self-Hauler, Regulated Hauler, Tier One or Tier Two Commercial Edible Food Generator, Food Recovery Organization, Food Recovery Service, or other entity is not in compliance with this Ordinance, it may document the noncompliance or violation, issue a Notice of Violation, and/or take Enforcement Action pursuant to this section, as needed and consistent with the enforcement commencement dates set forth above.

(h) The Enforcement Agency for the provisions of this section is the City of Trinidad and any Designee authorized by the City of Trinidad to enforce one or more sections of this Ordinance.

## **SECTION 11. SEVERABILITY**

If any provision of this Ordinance or the application thereof is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such invalidity shall not affect the remaining provisions or application of the remaining provisions of this Ordinance, which can be given effect without the invalid provisions or application.

**SECTION 12. EFFECTIVE DATE AND REPEAL OF ORDINANCE 2022-02**

This Ordinance shall be posted at City Office after its adoption and shall take effect commencing on January 1, 2022.

Following introduction on \_\_\_\_\_ 2022, passed and adopted \_\_\_\_\_ 2022, by the following vote:

## Humboldt County SB 1383:

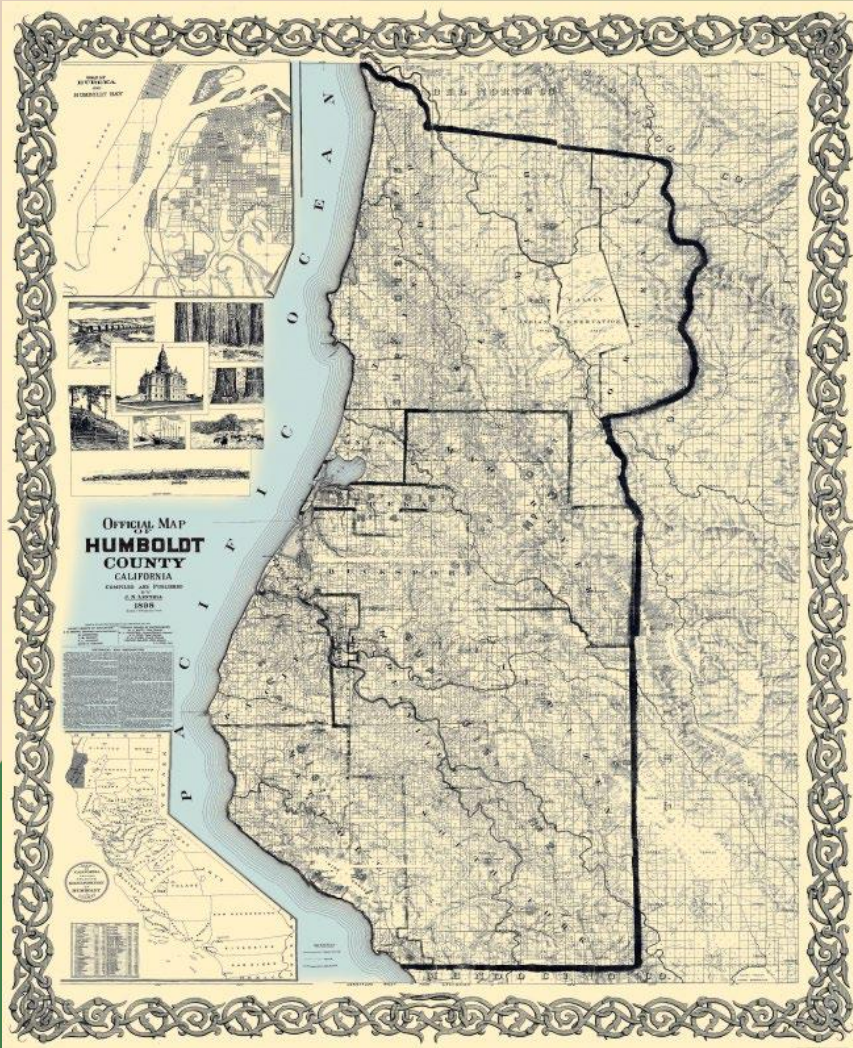

Organic Processing Options at the  
Eureka Recycling Center

02 / 22 / 2022

Humboldt Waste Management Authority

## Task 2: Organics Processing and Collection

- Always keep Green Waste in-County
- Residential Co-Collection in bags to separate out
- Modify SWFPs at Transfer Stations to separate out Green Waste from Food Waste
- Export Food Waste for the next 5 Years
- Issue RFP for export Food Waste capacity for 5 years
- Develop in-County Food Waste Capacity within 5 years

# Relocate the Eureka Recycling Center

- CRV locations closing statewide
- Permit the Organics Processing Building there
- Recycling Centers can be sited within existing Zoning Code

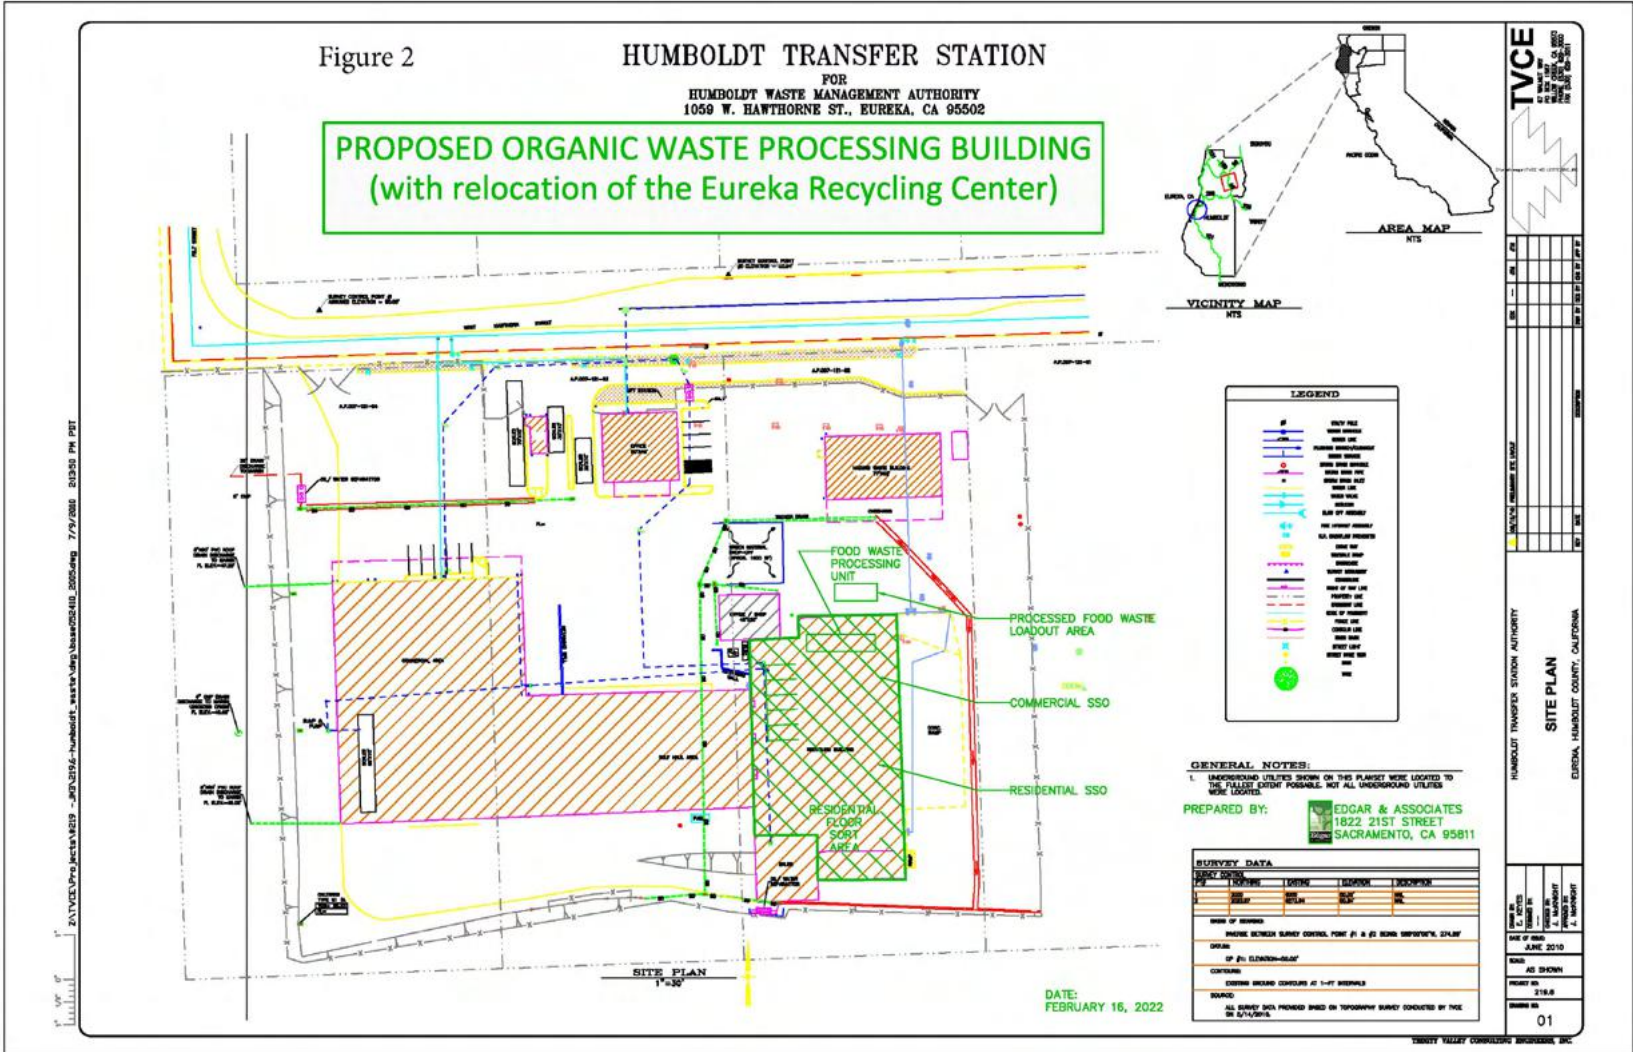

Land Use	Zoning Districts		
	Hinge Industrial HN	Light Industrial LI	Heavy Industrial HI
<b>Table 212-1: Allowed Land Uses in the Industrial Zoning Districts</b>			
<i>P = Permitted Use</i> <i>M = Minor Use Permit Required</i> <i>C = Use Permit Required</i> <i>- = Prohibited</i>			
Land Use	Zoning Districts		
	Hinge Industrial HN	Light Industrial LI	Heavy Industrial HI
Recycling collection facility	P	P	P
Recycling processing facility	C	C	P

# Organics Processing Building

- Enclosed facility within the Solid Waste Facility Permit (SWFP) footprint for this 19,000 square foot building
- Covered for stormwater management and meet state minimum standards
- Commercial food on one half (16,000 new tons by 2025), and residential co-collected organics on the other half (10,000 to 12,000 current tons and 11,000 new tons by 2025)
- With a SWFP Amendment package submitted, only takes 30-day to approve by the County Environmental Health Division
- Meeting with Environmental Health on March 4 to verify permitting process

# Hawthorne St. Transfer Station

# Organic Processing Plans

- 
- Residential Co-Collected Organics
    - Remove bagged food waste and add to the commercial food waste
    - Otherwise, co-collected organics needs to go to a fully permitted food waste compost facility
    - Clean green remains and stays in County
  - Commercial Organics
    - Place in bunker inside building and transfer out for a 3-to-5-year period to a permitted food waste facility
    - Flexibility for other processing options inside building
    - Short-term RFP to transfer food waste to permitted facility

# Permitting local Food Waste Processing Capacity

- 
- Interviewing all current Humboldt compost facilities to calculate 15-years of dedicated capacity
  - Reviewing anaerobic digestion opportunities at local wastewater treatment plants
  - Takes 3 to 5 years to up to 10 years to permit food waste compost facilities with CalRecycle and Regional Water Board regulations
  - Seek Grant Funding
  - Support Community Compost at less than 750 square feet and up to 100 cubic yards on-site. Not enough capacity for the projected waste stream
  - Support backyard composting with training and verification

# Summary

- 
- Easier to relocate Recycling Center with by-right Zoning then permit a new organics transfer station
  - Food waste transfer may be feasible as soon as January 1, 2023, where SB 619 allows a one-year phase in without administrative penalties
  - Will verify on March 4, 2022, with County Environmental Health on the 30-day Solid Waste Facility amendment process
  - Will report back on March 10, 2022

# Thank you!

## ***Staff Report***

**DATE:** October 9, 2022 For Meeting of: October 13, 2022

**FROM:** Eric Keller-Heckman, Interim Executive Director

**SUBJECT:** Item 7)  
Receive Presentation Regional Organics Processing: Preliminary Pathway For SB  
1383 Regional Organics Processing & Development

**RECOMMENDED ACTION:** Voice vote.  
That the Board:

- 1) Receive Presentation; and
- 2) Discuss and Provide Preferred Direction for the Preliminary Pathway
- 3) Set a Special Joint Meeting with the HWMA Board of Directors and the Humboldt County Solid Waste Task Force for the Purpose of Discussing Draft Pathway for SB 1383 Regional Organics Processing & Development; and
- 4) Other Direction as Appropriate

### **DISCUSSION:**

Staff will provide a presentation to the Board outlining key questions and a preliminary pathway so the Board may review and provide direction on organics processing and development regionalization efforts.

Staff recommends the Board consider holding a second joint study session with members of the Humboldt County Solid Waste Task force for the purpose of presenting and discussing the draft Board directives.

To prepare for the presentation, Board members are encouraged to review HWMA's Joint Powers Agreement in advance of the meeting.

### **FISCAL IMPACT**

This project was not included in the approved FY 2022-23 Budget.

**HUMBOLDT WASTE MANAGEMENT AUTHORITY  
JOINT EXERCISE OF POWERS AGREEMENT  
(Adopted November 17, 1999  
Amended April 8, 2002  
Amended June 14, 2002  
Amended November 10, 2016)**

**SECTION 1. DEFINITIONS**

The terms defined in this Section that are capitalized in this AGREEMENT have the following meanings:

"ACT" means the California Integrated Waste Management Act of 1989 (California Public Resources Code Sections 40000 et seq.) and all regulations adopted under that legislation, as that legislation and those regulations may be amended from time to time.

"AGREEMENT" means this joint exercise of powers agreement, as it may be amended from time to time.

"AUTHORITY" means the HUMBOLDT WASTE MANAGEMENT AUTHORITY a joint exercise of powers authority created by the MEMBERS pursuant to this AGREEMENT.

"BOARD" means the BOARD of DIRECTORS of the AUTHORITY.

"BONDS" shall have the meaning ascribed to such term in the INDENTURE.

"CERCLA" means the Comprehensive Environmental Response, Compensation and Liability Act (Public Law No. 96-510, 94 Stat.2767).

"DIRECTOR" means the representative appointee of a MEMBER to the BOARD.

"EXECUTIVE ADVISORY COMMITTEE" means the committee which shall consist of the participating Agency City and County Managers, or their appointees or designees.

"EXECUTIVE DIRECTOR" means the person appointed by the BOARD as the AUTHORITY'S administrative officer to manage the affairs of the AUTHORITY and to implement the policies of the BOARD.

"FINANCIAL ASSURANCES" means financial assurances by a MEMBER or MEMBERS with respect to FINANCIAL OBLIGATIONS of the AUTHORITY which is acceptable to the other MEMBERS, the AUTHORITY, any REVENUE BOND

trustee(s), and any insurer or guarantor of such FINANCIAL OBLIGATIONS and their respective counsel that will assure continued payment of the MEMBERS' share of the outstanding indebtedness. Approval of such financial assurances by an independent financial consultant selected by the BOARD shall be required.

“FINANCIAL OBLIGATIONS” means INDENTURE OBLIGATIONS, REVENUE BONDS and any other financial obligations or liabilities incurred by the AUTHORITY.

"FISCAL YEAR" means the period commencing on each July 1 and ending on the following June 30.

“INDENTURE” means the Indenture of Trust dated as of April 1, 2002 between the AUTHORITY and BNY Western Trust Company, as such Indenture may be amended and supplemented from time to time (the “Indenture”) and any other similar indentures securing financial obligations of the AUTHORITY with revenues of the AUTHORITY.

“INDENTURE OBLIGATIONS” means BONDS and PARITY OBLIGATIONS, which shall constitute REVENUE BONDS under the terms of this AGREEMENT.

"GOVERNMENT CODE" means Articles 1, 2 and 4 of Chapter 5 of Division 7 of Title 1 of the California Government Code (California Government Code Sections 6500 et seq.) and all regulations adopted under that legislation, as that legislation and those regulations may be amended from time to time.

"LANDFILL" means the Cummings Road Sanitary Landfill.

"MEMBER" means the City of Arcata, the City of Blue Lake, the City of Eureka, the City of Ferndale, the City of Rio Dell, the County of Humboldt, or any city located wholly or partly within Humboldt County which has joined the AUTHORITY pursuant to Section 2.2 and has not subsequently withdrawn. "MEMBERS" means the governing bodies of such entities collectively.

“OUTSTANDING” as of any particular date means (a) with respect to INDENTURE OBLIGATIONS, the term shall have the meaning ascribed to it in the INDENTURE, (b) with respect to REVENUE BONDS, means REVENUE BONDS issued but not yet defeased or redeemed, and (c) with respect to other financial obligations and liabilities of the AUTHORITY, means those other financial obligations and liabilities which have been incurred but not yet paid in accordance with their terms.

“PARITY OBLIGATIONS” shall have the meaning ascribed to such term in the INDENTURE.”

"PLEDGE OF REVENUES" means a financial assurance mechanism as defined in 27 California Code of Regulations section 22200(jj) by which the AUTHORITY promises to

make specified, identified future revenues of facilities under its ratemaking control available to pay future postclosure maintenance costs of a solid waste facility.

"REVENUE BONDS" means revenue bonds, notes, certificates of participation or any other instruments or evidences of indebtedness issued, executed, or delivered by the AUTHORITY from time to time pursuant to the GOVERNMENT CODE or any other applicable law in order to finance any facility owned and/or operated by the AUTHORITY, and/or any financial aspects of closed LANDFILL maintenance.

"SERVICE AREA" means those areas under the jurisdiction of MEMBERS from which the AUTHORITY receives SOLID WASTE for processing, transportation, and disposal. If and when any additional cities join the AUTHORITY pursuant to Section 2.2., the SERVICE AREA shall also include all areas within the joining City or Cities.

"SOLID WASTE" means the type of wastes commonly collected by MEMBERS' franchised SOLID WASTE collectors including putrescible and nonputrescible solid, including garbage, trash, refuse, paper rubbish, ashes, industrial wastes, demolition and construction wastes, abandoned vehicles and parts thereof, discarded home and industrial appliances, manure, vegetable or animal solid and semisolid wastes, and other discarded solid and semisolid wastes. SOLID WASTE does not include source separated recyclable or compostable materials intended for collection as part of a MEMBER's collection and/or recycling, reuse, reprocessing franchise. SOLID WASTE does not include any wastes defined as "hazardous wastes" under federal or state laws or regulations.

"TRANSFER FACILITY" means a SOLID WASTE facility, including any accessory facilities related thereto, meeting the requirements of a "transfer or processing station" under Section 40200 of the California Public Resources Code, for the receiving, processing, disposal, recycling and transportation of SOLID WASTE and the recovery of materials from such SOLID WASTES, which facility is owned by the AUTHORITY, by a MEMBER, or by a private entity, but in all events is available for use by the AUTHORITY or its MEMBERS, such that the waste is handled by the AUTHORITY'S transport and disposal system.

Those approved facilities are set forth on Exhibit A attached hereto.

## **SECTION 2. FORMATION**

2.1 HUMBOLDT WASTE MANAGEMENT AUTHORITY. Pursuant to the GOVERNMENT CODE, the MEMBERS do hereby create, form and establish the

AUTHORITY, a public entity to be known as the "HUMBOLDT WASTE MANAGEMENT AUTHORITY", it being understood that the BOARD shall be entitled to change the AUTHORITY's name from time to time if it so chooses. The AUTHORITY shall be a public entity separate and distinct from each of the MEMBERS.

- 2.2 Additions. Any city or county may join the AUTHORITY, upon approval of the then-existing MEMBERS. Such approval shall not be granted unless and until the jurisdiction shall have: (1) covenanted to direct all SOLID WASTE collected by the jurisdiction (if such jurisdiction provides collection services directly to its constituents) to the TRANSFER FACILITY for processing, transportation, and disposal; (2) successfully entered into one or more agreements, satisfactory to the AUTHORITY, which direct its franchised hauler(s) to deliver all SOLID WASTE collected under such franchise(s) to the TRANSFER FACILITY for processing, transportation and disposal; or (3) made such other arrangement or covenant acceptable to the AUTHORITY for the delivery of SOLID WASTE to the TRANSFER FACILITY.
- 2.3 AUTHORITY Qualifications. It is hereby understood that the intent of the AUTHORITY is to require all present and future MEMBERS to covenant to take all actions possible to direct SOLID WASTE to the TRANSFER FACILITY and to amend or revise any franchise collection agreements at the earliest possible date (which date may be the next renewal date for such franchise collection agreement) to provide the MEMBER with the right to direct all SOLID WASTE collected under any franchise collection agreement to the TRANSFER FACILITY.

### **SECTION 3. PURPOSE**

- 3.1 General. The AUTHORITY is formed to provide economical coordination of SOLID WASTE management services and efficiently and fairly assure against potential adverse effects of past SOLID WASTE management services within the SERVICE AREA. This Agreement is entered into by the MEMBERS in order: 1) that they shall jointly request proposals and contract for SOLID WASTE disposal services; and 2) that they may jointly develop and fund programs to provide for the: A) siting, permitting, developing, constructing, maintaining, operating or contracting for the construction and/or operation of disposal sites, transfer facilities and equipment, materials recovery facilities, waste to energy facilities, and/or solid waste landfills; B) preparing and implementing an Integrated Waste Management Plan and other planning documents which meet the requirements of the ACT; C) disposal of waste generated in the incorporated and unincorporated area of the County and the granting of franchises for waste hauling, as may be agreed to in writing and signed by any or all MEMBERS; D) planning, implementing and supervising programs which serve all or most jurisdictions, including

facilities (household hazardous waste, centralized composting and disposal), special wastes (tires, appliances, and construction/demolition wastes) and recycling market development.

- 3.2 TRANSFER FACILITY The general purpose **may** include, but is not limited to, the purpose of providing economical coordination of SOLID WASTE processing, transfer and disposal services of SOLID WASTE generated within the SERVICE AREA, including but not limited to the acquisition, construction, financing, refinancing, maintaining, operating, rate setting, rate collection, and regulation of a TRANSFER FACILITY.
- 3.3 Landfill Closure and Maintenance. The general purpose also includes, but is not limited to, establishment of pooled insurance and other financial or other mechanisms to provide, for the safe closure and long term postclosure maintenance of the closed LANDFILL serving part or all of the SERVICE AREA for the general purpose of protecting the health and safety of the public within the SERVICE AREA and the specific purpose of protecting the general funds of the MEMBERS against any possible "generator" liability under state or federal laws and regulations which might arise if such landfills are not properly closed and maintained. The purposes of the AUTHORITY may include ownership and/or management of the LANDFILL during the final stages of the LANDFILL's active life, during closure, and thereafter if such is deemed essential, in the discretion of the BOARD OF DIRECTORS, for successful accomplishment of the primary purpose of safe closure and postclosure maintenance. This Section excludes all landfills closed prior to July 1, 1996.
- 3.4 Common and Additional Powers The AUTHORITY's purpose also includes the establishment of the AUTHORITY as an independent joint powers entity to enable the MEMBERS to jointly exercise the common powers of the MEMBERS set forth in Section 3.1 and for the exercise of such additional powers as are conferred under Section 6 or conferred by the GOVERNMENT CODE upon all joint powers authorities.

#### **SECTION 4. ORGANIZATION**

- 4.1 Composition The AUTHORITY shall be composed of the City of Arcata, the City of Blue Lake, the City of Eureka, the City of Ferndale, the City of Rio Dell, any city within the SERVICE AREA which has joined pursuant to Section 2.2 and not subsequently withdrawn, and the County of Humboldt.
- 4.2 Principal Office The principal office of the AUTHORITY shall be established by the BOARD. The BOARD may change that principal office upon giving at least 15 days

written notice to each MEMBER.

4.3 BOARD The AUTHORITY shall be governed by the BOARD of DIRECTORS, which shall exercise or oversee the exercise of all powers and authority on behalf of the AUTHORITY. The AUTHORITY BOARD of DIRECTORS shall appoint at its first meeting a chairperson and a vice chairperson. Thereafter at its first meeting in each succeeding fiscal year, the BOARD shall appoint new officers. The appointment of the chairperson shall rotate among the MEMBERS of the AUTHORITY.

4.4 DIRECTORS.

(a) The BOARD shall consist of the same number of DIRECTORS as the number of MEMBERS. Each MEMBER shall appoint one DIRECTOR. Upon execution of this AGREEMENT by a MEMBER, the MEMBER shall appoint its representative to the BOARD and at least one person as an alternate to serve in the case of absence or conflict on the part of the appointed DIRECTOR. Thereafter, vacancies shall be filled by the appointing MEMBER within thirty (30) days of the occurrence thereof. Each DIRECTOR and alternate shall be an elected official of the governing body of the MEMBER that he or she represents. If a DIRECTOR or alternate ceases holding any such elected position, he or she shall then cease to serve as a DIRECTOR or alternate. The AUTHORITY and the BOARD shall be entitled to rely on a written notice from the City Clerk (in the case of city MEMBERS) and the Clerk of the Board of Supervisors (in the case of county MEMBERS) as conclusive evidence of the appointment and removal of the DIRECTORS and/or alternates representing that MEMBER.

(b) Each DIRECTOR and alternate shall hold office from the first meeting of the BOARD after appointment by the MEMBER, until his or her successor is selected by the MEMBER that appointed that DIRECTOR. Each DIRECTOR and alternate shall serve at the pleasure of the MEMBER that he or she represents and may be removed at any time, without cause, at the sole discretion of that MEMBER.

(c) No compensation shall be received by any DIRECTOR or alternate unless expressly provided by resolution of the BOARD.

4.5 EXECUTIVE ADVISORY COMMITTEE There is hereby created an EXECUTIVE ADVISORY COMMITTEE which shall consist of the MEMBER City and County Managers, or their appointees or designees, to advise the EXECUTIVE DIRECTOR as specified below:

- a) Review and recommend an operating and capital budget, and review and comment on AUTHORITY goals and objectives.
- b) Provide assistance to the BOARD as requested in the recruitment and selection for the AUTHORITY'S EXECUTIVE DIRECTOR.

The EXECUTIVE ADVISORY COMMITTEE shall meet as necessary, but not less than ANNUALLY, and as necessary as called by the Chairperson. The EXECUTIVE ADVISORY COMMITTEE shall appoint a chairperson and a vice chairperson. Thereafter at its first meeting in each succeeding fiscal year, the EXECUTIVE ADVISORY COMMITTEE shall appoint new officers. The appointment of the chairperson shall rotate among the MEMBERS of the AUTHORITY. A majority of all members of the EXECUTIVE ADVISORY COMMITTEE shall be present to conduct business of the EXECUTIVE COMMITTEE. The decision of the majority of the EXECUTIVE ADVISORY COMMITTEE shall constitute the acts of the Committee.

- 4.6 TECHNICAL AND ADVISORY COMMITTEES. The existing county/city Integrated Waste Management staff is designated to provide technical information for, make recommendations to, and otherwise advise, the AUTHORITY on relevant waste management issues.

## **SECTION 5. PERSONNEL AND ADMINISTRATION**

- 5.1 Employees. The AUTHORITY may have its own employees or may contract with a MEMBER agency or firm for the furnishing of any necessary staff services associated with or required by the AUTHORITY. All employees shall report to the Executive Director.
- 5.2 EXECUTIVE DIRECTOR. The Executive Director shall have all administrative powers necessary to implement Board direction, including purchasing, personnel, and finance powers. The Executive Director shall prepare an annual budget and annual rate schedule for the Board's consideration.

## **SECTION 6.**

- 6.1 **FACILITIES.** The AUTHORITY is empowered to acquire, construct, finance, refinance, operate, regulate, set rates for and maintain a TRANSFER FACILITY subject, however, to the conditions and restrictions contained in this AGREEMENT. To ensure safe closure and postclosure maintenance of the LANDFILL, the AUTHORITY is empowered to acquire, operate, regulate, set rates for, close and provide postclosure maintenance for the LANDFILL and all facilities and properties related thereto in the manner required by law. To finance such closure and postclosure maintenance, the AUTHORITY is empowered to sell any unnecessary property and to operate, directly or through lessees, gas recovery operations and, to the extent compatible with postclosure maintenance, open-space recreational enterprises on the LANDFILL property and any type of enterprise on the related quarry property, if such are acquired by the AUTHORITY.
- 6.2 **Approved Powers.** To the full extent permitted by applicable law (including specifically the ACT and the GOVERNMENT CODE), the AUTHORITY is authorized, in its own name, to do all acts necessary or convenient for the exercise of such powers enumerated in the ACT or that each MEMBER could exercise separately including, without limitation, any and all of the following:
- (a) to sue and be sued in its own name;
  - (b) to incur and discharge debts, liabilities and obligations;
  - (c) to issue REVENUE BONDS, from time to time, in accordance with all applicable laws for the purpose of raising funds to finance or refinance the acquisition, construction, improvement, renovation, repair, operation, regulation or maintenance of the TRANSFER FACILITY and/or related facilities;
  - (d) to exercise the power of eminent domain for the acquisition of real and personal property for the TRANSFER FACILITY and access thereto or for the acquisition of the TRANSFER FACILITY itself;
  - (e) to acquire, improve, hold, lease and dispose of real and personal property of all types;
  - (f) to sell or lease the TRANSFER FACILITY, the LANDFILL property, or the related LANDFILL cover quarry property, if such are acquired by the AUTHORITY;
  - (g) to establish rates, tolls, tipping fees, other fees, rentals and other charges in connection with the TRANSFER FACILITY, any other SOLID WASTE facility

owned or operated by the AUTHORITY, and any other enterprise which the AUTHORITY is empowered by this Agreement to conduct, as well as any and all services provided by the AUTHORITY, and to include in such rates and charges amounts necessary to carry out those purposes described in Section 3 of this AGREEMENT;

- (h) to require the MEMBERS to use all best efforts to direct all SOLID WASTE generated within the MEMBERS' boundaries that are located within the SERVICE AREA to the TRANSFER FACILITY. To the extent legally permissible, MEMBERS shall direct all SOLID WASTE collected by MEMBERS' franchised garbage collectors to the TRANSFER FACILITY. MEMBERS shall also direct all other SOLID WASTE generated by MEMBERS to the TRANSFER FACILITY; provided, however, this subsection shall not apply to recyclables nor to SOLID WASTE generated by MEMBERS outside the SERVICE AREA;
- (i) to require MEMBERS to amend or revise any franchise collection agreement(s) at the earliest possible date, which shall not be later than the first renewal or extension date or the date of any amendment to such franchise agreement, to provide the MEMBER with the right to direct all waste collected by the franchised hauler(s) to the TRANSFER FACILITY. Any MEMBER currently not having the right to direct SOLID WASTE under its franchise agreement(s) shall covenant to make such amendment in order to join the AUTHORITY;
- (j) to enforce the provisions of MEMBERS' garbage collection agreements that require that all SOLID WASTE collected be delivered to the TRANSFER FACILITY;
- (k) to contract for the processing, transportation and/or disposal of SOLID WASTE delivered to the TRANSFER FACILITY;
- (l) to make and enter into contracts, including contracts with any MEMBER or non-MEMBER, and to assume contracts made by any MEMBER relating to the TRANSFER FACILITY;
- (m) to reimburse the MEMBERS for the costs of services provided to the AUTHORITY;
- (n) to hire agents and employees;
- (o) to employ or contract for the services of engineers, attorneys, accountants, planners, consultants, fiscal agents and other persons and entities;

- (p) to apply for and accept grants, advances and contributions;
- (q) to make plans and conduct studies;
- (r) to coordinate efforts with the established local, regional and state waste management agencies;
- (s) to make payments as necessary for closure and postclosure maintenance for the LANDFILL for the purposes set forth in Section 3.3 of this AGREEMENT and, if the LANDFILL should become a Superfund site, to seek reimbursement for remediation costs from any person or entity (other than any MEMBER) having a legal responsibility for such costs; and
- (t) to provide the FINANCIAL ASSURANCES required by state and federal law for postclosure maintenance of the LANDFILL, including use of a PLEDGE OF REVENUES based upon any or all of the revenue-producing enterprises owned and/or operated by the AUTHORITY.

6.3 Limitations. Such powers shall be exercised subject only to the limitations set forth in this AGREEMENT, applicable law and such restrictions upon the manner of exercising such powers as are imposed by law upon the County of Humboldt in the exercise of similar powers.

6.4 Noncompetition. The AUTHORITY shall not provide within the jurisdiction of a MEMBER any recycling services that duplicate or compete with recycling services provided by that MEMBER (at the time the AUTHORITY determines to provide new or expanded recycling services) without consent of the MEMBER. A MEMBER shall not contract with any TRANSFER FACILITY or LANDFILL that duplicates or competes with the services provided by the AUTHORITY without consent of the BOARD.

6.5 Possible Future Responsibilities and. Upon future approval and agreement by all of the MEMBERS, the AUTHORITY may conduct other related waste management responsibilities and duties, including but not limited to contracting with non-MEMBERS to accept their SOLID WASTE at the TRANSFER FACILITY.

6.6 Individual MEMBER Services. Upon approval of the BOARD and the governing body of a MEMBER, the AUTHORITY may contract to provide other related waste management responsibilities and duties, individually for that MEMBER. These contracted services will be paid for solely by the contracting MEMBER.

6.7 Local Governing Body. For the purposes of the California Integrated Waste Management Act of 1989 (Public Resources Code section 40000 et seq.) the

AUTHORITY will operate as a “Local Government Body” or “Local Governmental Agency” which has the authority to provide solid waste handling services.

## **SECTION 7. FINANCE**

### 7.1 Assets, Rights, Debts, Liabilities and Obligations.

- (a) Except as provided in subsection (b), (c) and (d) below, the assets, rights, debts, liabilities and obligations of the AUTHORITY shall not constitute assets, rights, debts, liabilities or obligations of any of the MEMBERS. However, nothing in this AGREEMENT shall prevent any MEMBER from separately contracting for, or assuming responsibility for, specific debts, liabilities or obligations of the AUTHORITY, provided that both the BOARD and that MEMBER give prior approval to such contract or assumption.
- (b) The MEMBERS hereby agree that any defense against claims, as well as the cost of any judgments imposed for claims resulting from actions by the AUTHORITY or any of the officers, agents, employees, or contractors of the AUTHORITY in relation to the TRANSFER FACILITY, any SOLID WASTE facility owned and/or operated by the AUTHORITY or any other enterprise owned and/or operated by the AUTHORITY shall be the sole responsibility of the AUTHORITY. Such costs shall therefore be paid for ultimately through surcharges uniformly imposed on the rates charged to users of the TRANSFER FACILITY.
- (c) To the extent that MEMBERS are also held jointly and severally liable for such amounts by Government Code Section 895.2, if a MEMBER provides for such defense of itself or the AUTHORITY, or pays all or part of such judgment, the MEMBER shall be entitled to reimbursement in full from the AUTHORITY, provided the MEMBER obtains prior approval from the AUTHORITY. Such reimbursement shall be paid over such time as is necessary for the collection of the corresponding reasonable user surcharges.
- (d) If MEMBERS are held responsible by third parties for tort or other claims as a result of activities of the AUTHORITY, pursuant to Government Code Section 895.2 or state or federal laws applicable to SOLID WASTE management facilities, and the AUTHORITY has ceased to exist and its assets have been fully distributed or consumed, or the AUTHORITY has ceased to operate and has no unencumbered assets capable of generating enough revenue to defend against and pay for such claims, each MEMBER shall be entitled to seek reimbursement from the other MEMBER(S) for the costs of providing the defense against such tort claims or payment of any judgments lawfully imposed in connection therewith to the extent that the amounts paid by the MEMBER exceed that proportion of the

total cost which exceeds the ratio of the tonnage of SOLID WASTE generated within the jurisdiction of the MEMBER, including self hauled SOLID WASTE, and processed by the TRANSFER FACILITY in the FISCAL YEAR of the occurrence of the incident giving rise to liability to the total tonnage processed by the TRANSFER FACILITY during said FISCAL YEAR.

- (e) Obligations for capital expenditures at an approved TRANSFER FACILITY shall be included in the service fee for such facility such that only its users contribute toward its capital expenditures. However, all MEMBERS shall contribute a reasonable amount toward all of the AUTHORITY'S costs of administration.

7.2 Budget. A budget for the AUTHORITY shall be adopted by the BOARD for the ensuing FISCAL YEAR prior to June 30 of each year. The budget shall include sufficient detail to constitute an operating guideline. It shall also include the anticipated sources of funds, and the anticipated expenditures to be made for the operations of the AUTHORITY including, but not limited to, the acquisition or construction of a TRANSFER FACILITY and any other facility owned and/or operated by the AUTHORITY and related site improvements, administration, special projects, maintenance and operating costs. Approval of the budget by the BOARD shall constitute authority for the EXECUTIVE DIRECTOR to expend funds for the purposes outlined in the approved budget, but subject to the availability of funds on hand, provided that this shall not be construed to limit the power of the BOARD to modify the budget in whatever manner it deems appropriate and instruct the MANAGER accordingly.

7.3 Rates.

- (a) The BOARD shall establish rates to be charged at the TRANSFER FACILITY in amounts sufficient to provide for the efficient operation, including administrative, processing, transportation and disposal costs, to discharge all indebtedness and liabilities (including, without limitation, any REVENUE BONDS issued in connection therewith) to insure against future liabilities and of the MEMBERS resulting from "generator" status under state and federal laws and regulations relating to landfills experiencing illegal discharges of hazardous substances to the extent that status pertains to SOLID WASTE generated at any time within the SERVICE AREA, and to pay as yet unfounded costs of closure as well as those costs of postclosure maintenance for the LANDFILL which exceed net revenues from gas recovery and other ongoing LANDFILL site enterprises, as liability for such costs accrues, and to accommodate the planning and implementation of activities incidental thereto.
- (b) The AUTHORITY shall provide at least thirty (30) days advance written notice to its MEMBERS of any intent to increase or decrease rates to be charged at the

TRANSFER FACILITY. To the extent possible, the AUTHORITY shall coordinate the effective date of rate increases or decreases with the annual garbage collection rate setting processes of the MEMBERS and other public entities having SOLID WASTE franchising jurisdiction within the SERVICE AREA.

- 7.4 Financial Audit. There shall be an audit of the accounts and records at least annually as prescribed by Sections 6505 and 6505.5 of the Government Code. The audit shall conform to generally accepted auditing standards. There shall be an annual audit of the services provided, measuring satisfaction with internal and external services.
- 7.5 Indemnity. The AUTHORITY shall indemnify, defend and hold harmless the MEMBERS hereto, their officers, officials, employees and volunteers from and against all liability, loss, damage, expense costs (including without limitation costs and fees of litigation), of every nature arising out of the AUTHORITY, described herein, or its failure to comply with any of its obligations contained in the AGREEMENT, except such loss or damage which was caused by the sole negligence or willful misconduct of a MEMBER.
- 7.6 Insurance. The AUTHORITY will obtain at its expense, and maintain during the term of this AGREEMENT, insurance against claims for injury to persons or damage to property or the environment which may arise from the AUTHORITY'S operation.

Minimum Scope of Insurance.

- a) Insurance Services Office Commercial General Liability coverage ("occurrence" form CG 0001).
- b) Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance.
- c) Property insurance against all risks of loss to Countywide AUTHORITY property as determined by law or as determined by the AUTHORITY.

Minimum Limits of Insurance.

The AUTHORITY shall maintain limits no less than:

- a) General Liability: \$5,000,000 per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
- b) Employer's Liability: \$1,000,000 per accident for bodily injury or disease.
- c) Property Insurance: Full replacement cost with no coinsurance penalty

provision.

- d) Workers' Compensation: Workers' Compensation to statutory limits covering all employees, paid or unpaid.
- e) Errors and omissions insurance to cover any and all instances of misfeasance and/or nonfeasance in the scope of duties.

**Deductibles and Self-Insured Retentions.**

Any deductibles or self-insured retentions must be declared to and approved by the MEMBERS.

**Other Insurance Provisions.**

The general liability policy is to contain, or be endorsed to contain, the following provisions:

- a) The MEMBERS, their officers, officials, employees, and volunteers, are to be covered as insured with respect to liability arising out of the operation of the AUTHORITY.
- b) The AUTHORITY'S insurance coverage shall be primary insurance as respects the MEMBERS, their officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the MEMBERS, their officers, officials, employees or volunteers shall be excess of the AUTHORITY'S insurance and shall not contribute with it.
- c) Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled, except after thirty (30) days prior written notice by certified mail, return receipt requested, has been given to the MEMBERS.

**Workers' Compensation Insurance Endorsement.** The workers' compensation policy shall be endorsed to contain a waiver of subrogation clause which states the following:

"This insurance company agrees to waive all rights of subrogation against the MEMBERS, their officers, officials, employees and volunteers for losses paid under the terms of this policy, which arise from the operation of the Countywide Authority by the named insured for the MEMBERS.

**Acceptability of Insurers.**

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII.

## **SECTION 8. RULES OF CONDUCT**

- 8.1 Bylaws. The BOARD, from time to time, may adopt bylaws for the conduct of the AUTHORITY's affairs, provided that they are not inconsistent with this AGREEMENT.
- 8.2 Officers and Committees. The BOARD may designate such officers and establish such committees as may be necessary or convenient to conduct the AUTHORITY's affairs.
- 8.3 Voting.
- (a) Each DIRECTOR shall have one vote on all matters presented to the BOARD for a vote.
  - (b) Except as provided in Section 8.3(c), the vote of a majority of the DIRECTORS shall constitute the act of the BOARD.
  - (c) A vote of seventy percent (70%) all of the DIRECTORS shall be necessary in order to approve any of the following:
    - (1) the construction budget for any AUTHORITY owned facility;
    - (2) the annual operating budget of the AUTHORITY in excess of debt service on REVENUE BONDS and the payment to the transfer station operator.
    - (3) the issuance, execution or delivery of REVENUE BONDS;
    - (4) any change in a budget exceeding 10% of the total amount of that budget;
    - (5) any amendment to or the termination of this AGREEMENT;
    - (6) voting rules regarding the approval of contracts between the AUTHORITY and any one or more MEMBERS (it being understood that all such contracts must be approved pursuant to rules adopted in this manner);
    - (7) the admission of an additional MEMBER or a substitute MEMBER including by means of assignment; and

(8) the purchase of a landfill.

8.4 Quorum. A majority of the DIRECTORS shall constitute a quorum for the transaction of business of the BOARD except that if there is less than a quorum present, any DIRECTOR who is present or the EXECUTIVE DIRECTOR may adjourn any meeting.

8.5 Disclosure of Closed Session Information. Pursuant to Government Code section 54956.96, the BOARD hereby authorizes each DIRECTOR of the BOARD to disclose information received by the BOARD in closed session only in accordance with this section:

- (a) To any alternate DIRECTOR appointed to the BOARD by a MEMBER who is attending a properly noticed meeting of the AUTHORITY in lieu of the MEMBER'S regularly appointed DIRECTOR to the BOARD.
- (b) All information received by a MEMBER'S governing body in closed session related to information presented to the AUTHORITY in closed session shall be confidential. However, a MEMBER'S appointed DIRECTOR or alternate to the AUTHORITY BOARD may disclose information obtained in closed session that has direct financial or liability implications for a MEMBER to the following individuals:
  - (1) Legal counsel for the MEMBER for purposes of obtaining advice on whether the matter has direct financial or liability implications for the MEMBER; and
  - (2) Other officials in the MEMBER'S governing body present in a closed session of the MEMBER agency.
- (c) Upon adoption of this provision, the governing body of a MEMBER agency, upon advice of its legal counsel, may conduct a closed session in order to receive, discuss, and take action concerning information obtained in a closed session of the AUTHORITY pursuant to section 8.5.

## **SECTION 9. TERM**

The AUTHORITY AGREEMENT is effective on the date it has been executed by all six MEMBERS named in Section 1, and shall continue in full force and effect until amended pursuant to Section 12 or until dissolved pursuant to Section 10 of this AGREEMENT. However, in no event shall the AUTHORITY be dissolved until all of the AUTHORITY's

obligations and liabilities respecting all REVENUE BONDS are satisfied, discharged, or terminated or until the provisions of Section 11.2 are complied with.

### **SECTION 10. WITHDRAWAL.**

A participating MEMBER may withdraw upon no less than one year prior written notice to the AUTHORITY BOARD. The withdrawing MEMBER shall continue to be financially responsible for its share of financial obligations and liabilities incurred prior to the withdrawal date. Upon such withdrawal, no withdrawing MEMBER shall be entitled to any distribution or withdrawal of property or funds except as may be agreed to by the BOARD; however, such MEMBER shall be entitled to participate in the return of surplus money and other surplus personal property upon the completion of the purpose of the AGREEMENT according to the provisions of Section 11.

### **SECTION 11. DISSOLUTION**

#### 11.1 Assets.

- (a) Subject to the then-applicable requirements of the GOVERNMENT CODE, upon dissolution of the AUTHORITY, the assets of the AUTHORITY remaining after payment of or adequate provision for all debts, liabilities and obligations of the AUTHORITY shall be divided among the MEMBERS in accordance with an unanimous agreement among them or, in the absence of such an agreement, in proportion to the total tonnage of SOLID WASTE, (inclusive of SOLID WASTE delivered by self haulers) each MEMBER caused to be delivered to the TRANSFER FACILITY.
- (b) To ensure that "adequate provision" is made for all debts, liabilities and obligations of the AUTHORITY upon dissolution, any assets remaining after satisfaction of all debts known to exist as of the time of dissolution shall be placed in a trust account with the Humboldt County Auditor to be held in trust until expiration of the period of postclosure maintenance for the LANDFILL required by state and federal law. If the assets are not liquid, such assets shall first be sold at public auction and the net proceeds placed in the trust fund. While held in trust, such assets and/or any interest earned thereon shall be disbursed only to pay debts of the AUTHORITY arising after dissolution in consequence of actions of the AUTHORITY prior to dissolution, or to pay for costs of postclosure maintenance of, or hazardous waste release remediation at the LANDFILL. Any such disbursement from this dissolution trust fund shall be made by the Humboldt County Auditor only with the unanimous consent of the governing bodies of those

agencies which were MEMBERS at the time of dissolution, or by order of a court of competent jurisdiction. Upon expiration of the period of postclosure maintenance, any remaining funds shall be distributed in the manner set forth in (a).

#### 11.2 REVENUE BONDS.

- (a) If any REVENUE BONDS are outstanding at the time of dissolution, the MEMBERS shall cause to be delivered to the REVENUE BOND trustee(s):
  - (i) an opinion of nationally recognized bond counsel substantially to the effect that such dissolution will not cause the interest on the outstanding REVENUE BONDS to be included in gross income for federal income tax purposes; and
  - (ii) evidence from each rating agency then rating the outstanding REVENUE BONDS that such dissolution will not adversely affect the rating of such REVENUE BONDS.
- (b) Approval of any request to dissolve shall not be unreasonably withheld; provided, however, that if any REVENUE BONDS are outstanding at the time the request is made or acted upon, financial assurances are made by the MEMBERS that will assure continued payment of the MEMBERS' share of the outstanding indebtedness which is acceptable to the other MEMBERS, the AUTHORITY, and the REVENUE BOND trustee(s) and their respective counsel. Approval of such financial assurances by an independent financial consultant selected by the BOARD shall be required.

11.3 Effective. No dissolution shall be effective unless and until the AUTHORITY and MEMBERS comply with any then-applicable requirements of the GOVERNMENT CODE relating to changes in the composition of entities such as the AUTHORITY; and if and when they have REVENUE BONDS issued by the AUTHORITY outstanding, comply with all of the terms and conditions of all REVENUE BONDS and related documentation including, without limitation, indentures, trust agreements, resolutions and letter of credit agreements.

#### **SECTION 12. AMENDMENTS**

This AGREEMENT may only be amended by a written instrument approved in accordance with this AGREEMENT and meeting any requirements imposed by the terms or conditions of all

REVENUE BONDS and related documentation including, without limitation, indentures, trust agreements, resolutions and letter of credit agreements. Notwithstanding the foregoing, no amendment shall require any MEMBER to contribute any funds to the AUTHORITY or become directly or contingently liable for any debts, liabilities or obligations of the AUTHORITY without the consent of that MEMBER evidenced in a written instrument signed by a duly authorized representative of that MEMBER.

**SECTION 13.**            **FILING WITH THE SECRETARY OF STATE**

The EXECUTIVE DIRECTOR shall file all required notices with the Secretary of State in accordance with California Government Code Sections 6503.5 and 53051, as such may be amended from time to time.

**SECTION 14.**

All notices which any MEMBER or the AUTHORITY may wish to give in connection with this AGREEMENT shall be in writing and shall be served by personal delivery during usual business hours at the principal office of the MEMBER or AUTHORITY, to an officer or person apparently in charge of that office, or by depositing the same in the United States mail, postage prepaid, and addressed to the MEMBER or AUTHORITY at its principal office, or to such other address as the AUTHORITY or MEMBER may designate from time to time by written notice given to the other MEMBERS in the manner specified in this Section. Service of notice pursuant to this Section shall be deemed complete on the day of service by personal delivery (but 24 hours after such delivery in the case of notices of special meetings of the BOARD) or three (3) days after mailing if deposited in the United States mail. Until changed by written notice to the AUTHORITY and the MEMBERS, notice shall be delivered as follows:

- |                     |   |
|---------------------|---|
| CITY OF ARCATA:     | Arcata City Manager<br>736 F Street<br>Arcata, CA 95521               |

Blue Lake, CA 95521

**SECTION 15. SUCCESSORS AND ASSIGNS**

This AGREEMENT shall be binding upon and shall inure to the benefit of the permitted successors and assigns of the MEMBERS. However, no MEMBER shall assign any of its rights under this AGREEMENT except to a duly formed public entity organized and existing under the laws of the State of California and then only when approved in accordance with this AGREEMENT. No assignment shall be effective unless and until the AUTHORITY, the MEMBERS and the proposed assignee comply with all then-applicable requirements of the GOVERNMENT CODE relating to changes in the composition of entities such as the AUTHORITY and, if and when they have REVENUE BONDS outstanding, in compliance with the terms and conditions of all REVENUE BONDS and related documentation including, without limitation, indentures, trust agreements, resolutions and letter of credit agreements.

**SECTION 16. SEVERABILITY**

Should any part, term or provision of this AGREEMENT be decided by a final judgment of a court or arbitrator to be illegal or in conflict with any law of the State of California or otherwise be unenforceable or ineffectual, the validity of its remaining parts, terms and provisions shall be not be affected.

**SECTION 17. SECTION HEADINGS**

All section headings contained in this AGREEMENT are for convenience and reference. They are not intended to define or limit the scope of any provision of this AGREEMENT.

**SECTION 18.**            **ARBITRATION**

All disputes that arise in connection with the interpretation or performance of this AGREEMENT shall be resolved on an equitable basis by a single arbitrator under the commercial arbitration rules of the American Arbitration Association. The arbitrator's decision shall be final and binding on the AUTHORITY, all MEMBERS and all former MEMBERS involved or affected by the dispute. The AUTHORITY, any MEMBER and any former MEMBER that is party to the dispute may enforce any award, order or judgement of the arbitrator in any court of competent jurisdiction.

**SECTION 19.**            **LAW TO GOVERN**

It is understood and agreed by the parties that the law of the State of California shall govern the rights, obligations, duties and liabilities of the parties to this AGREEMENT and shall govern the interpretation of this AGREEMENT.

**SECTION 20.**            **ENTIRETY**

The MEMBERS agree that this AGREEMENT represents the full and entire agreement between the MEMBERS hereto with respect to matters covered herein. This AGREEMENT supersedes any and all other communications, representations, proposals, understandings or agreements, either written or oral, between the MEMBERS hereto with respect to such subject matter.

**SECTION 21.**            **WAIVER**

A waiver of any breach of any provision of this AGREEMENT shall not constitute or operate as a waiver of any other breach of such provision or of any other provision, nor shall any failure to enforce any provision hereof operate as a waiver of such provision or of any other provision.

## **EXHIBIT A**

Those facilities approved as of the execution of the foregoing AGREEMENT are:

- Any facility owned by the AUTHORITY;
- The Eel River Disposal facility located at 965 Riverwalk Drive in Fortuna;
- The McKinleyville Transfer Station located at 2585 Central Ave, McKinleyville, CA.
- The Mad River Compost facility located at 6360 West End Road, Arcata, CA.
